XR CATALOG OPTIONS

A Comprehensive Guide of XR Deliverables for Immersive Experiences.

Summary

About
the XR Catalog

This catalog is a showcase of immersive options—from small AR filters to city-scale XR takeovers. At its core is the Honeycomb Ecosystem: EduTech Tourism LLC, WondAR.land, GAIA Guild, Honeycomb Hydro LLC, and Star Horizon Takes-U-Places, Inc. Together we empower artists, inspire communities, and provide businesses tools to thrive with AI, XR, and Web3. We collaborate with top artists and developers to deliver experiences that:

- Powerful Stories through immersive Tech.
- Engage and Uplift Communities.
- Provide Measurable ROI for Brands.

This catalog isn't just a menu it's a pathwayto future-ready marketing and unforgettable experiences.

Graphic Design

Graphic Design is the foundation of immersive branding. From logos and pitch decks to event posters and digital marketing materials, clean design ensures every activation, product, or campaign communicates clearly and looks professional. This deliverable serves as both a standalone service and the entry point for larger XR projects.

$500–$3,000+

Animated Logos

Animated Logos take static branding and bring it to life. Whether used in videos, livestreams, presentations, or AR overlays, animation adds energy, memorability, and a futuristic edge. This deliverable is one of the most impactful entry points into immersive storytelling, giving brands a professional look that stands out in any digital environment.

$500–$3,000+

AR Filters

AR Filters are lightweight, interactive effects designed for platforms like Instagram, TikTok, and Snapchat. They allow brands, artists, and organizations to engage audiences with playful, immersive, and shareable experiences that drive organic visibility.

$500–$3,000+

Social Content

Social Media Content deliverables are ready-to-publish digital asset packs that include branded graphics, short-form videos, reels, and stories. These are designed to help clients maintain a consistent, high-quality online presence while amplifying their campaigns, events, or brand identity.

$500–$3,000+

Music Videos

CUSTOM
MUSIC & VIDEO

Music is one of the most powerful tools for branding. A custom song or jingle creates emotional resonance, sticks in people's memory, and builds identity faster than visuals alone. When paired with an AI-enhanced or XR-ready music video, the result is a fully immersive asset that can power ads, social campaigns, event intros, and cultural movements.

$1,000–$3,000+

XR Merch

XR Merch fuses physical products with digital layers — blending fashion, collectibles, and lifestyle goods with AR interactivity. From t-shirts with scannable AR art to product packaging that comes alive, XR Merch turns everyday items into immersive brand experiences.

$3,000-$10,000+

3d Assets

3D ASSETS

3D Assets are high-fidelity digital objects that can be used across XR experiences, e-commerce, gaming, Web3, and digital twins. From scanned products and art pieces to fully modeled environments, these assets unlock interactive storytelling, product visualization, and immersive branding.

$3,000-$10,000+

Livestream XR

LIVESTREAM XR
B R O A D C A S T S

Livestream XR Broadcasts blend live event streaming with augmented and extended reality layers. These broadcasts transform traditional streams into immersive, branded shows, combining real-time video, XR overlays, and interactive engagement for audiences watching worldwide.

$3,000-$10,000+

AR Games

AR Games turn physical environments into interactive, story-driven playgrounds. From web-based mini-games to full-featured apps, they merge technology, art, and play to deliver highly engaging experiences. Whether for a single café, a major festival, or a citywide hunt, AR Games create memorable touchpoints that combine fun, education, and brand impact.

$6,000-$15,000+

Digital Twins

DIGITAL TWINS

Digital Twins are high-fidelity virtual replicas of physical spaces such as venues, galleries, retail shops, or cultural landmarks. These twins allow remote visitors to explore environments in real time, interact with digital overlays, and experience spaces without being physically present. They serve as both preservation tools and engagement platforms, blending accessibility with innovation.

$15,000+

Michael Kamp - 815-861-0420 | honeycombhydro@gmail.com

Immersive Gallery

IMMERSIVE GALLERIES

Immersive Galleries transform physical or digital spaces into interactive exhibitions where art, technology, and storytelling converge. By layering augmented reality (AR), virtual reality (VR), or mixed reality (MR) onto curated collections, audiences can experience art in new dimensions — unlocking hidden stories, animations, and immersive environments.

$15,000+

FOR CUSTOM PACKAGES, CONTACT:
Michael Kamp – 815-861-0420 | honeycombhydro@gmail.com

Ai Agents

AI Agents are custom branded assistants that live across XR platforms. They can take the form of avatars, chatbots, or immersive guides, helping audiences navigate experiences, answer questions, or interact with brands in new, human-like ways. From digital concierges at events to AI-powered XR mascots, these agents combine AI intelligence with immersive storytelling.

$15,000+

Apps & dApps

Apps & dApps are custom-built platforms that bring together XR, AI, and Web3 into branded ecosystems. These tools can serve as educational hubs, commerce platforms, event apps, or decentralized applications (dApps) that integrate blockchain functionality. They give clients a long-term, scalable foundation for delivering immersive experiences and managing communities.

$15,000+

Venue 3d Scans

VENUE & ENVIRONMENT SCANS

Venue & Environment Scans provide high-resolution digital captures of large-scale spaces — from music venues and museums to outdoor districts and festival grounds. These scans become the foundation for future XR experiences, powering everything from digital twins and immersive galleries to AR games and training platforms.

$25,000+

Event Activations

XR EVENT ACTIVATION CATALOG

XR Event Activations turn venues of any size into interactive stages by blending art, technology, and community — delivering unforgettable, scalable experiences with measurable impact.

XR Event Activations (By Cost: Lowest → Highest)

Coffee & Creativity – $500–$2,000+

Hybrid Webinar – $500–$3,500+

XR EduClass – $1,000–$5,000+

Micro AR Gallery Night – $1,500–$4,000+

Mini Build Jam – $2,000–$5,000+

Bongs, Brunch, & Brilliance – $10,000–$30,000+

Immersive cARnival – $20,000–$100,000+

BrandForge Build-a-thon – $25,000–$75,000+

scARvengers Hunt – $25,000–$75,000+

Your City XR Experience – $35,000–$500,000+

La GalARie Virtuelle – $40,000–$200,000+

Mural & Art Scanning Tour – $50,000–$500,000+

Coffee & Creativity

Coffee & Creativity

Casual meetups that blend coffeehouse culture with introductions to XR and AI. These small but powerful gatherings create space for meaningful conversations, new ideas, and community inspiration. A perfect entry point for communities to explore immersive technology in a friendly atmosphere.

$500-$2,000+

Hybrid Webinar

HYBRID WEBINAR

A blended format that combines local audiences with unlimited online reach. Designed for accessibility, Hybrid Webinars allow organizations to share immersive education while capturing a much larger digital footprint. They make it simple to scale ideas beyond physical limitations.

$500-$3,500+

XR EduClass

Pop-up immersive classrooms hosted in schools, libraries, and cultural centers. They bring cutting-edge XR and AI education directly to learners, turning traditional spaces into gateways for future-ready skills. Each class leaves participants with a hands-on experience of tomorrow's tools.
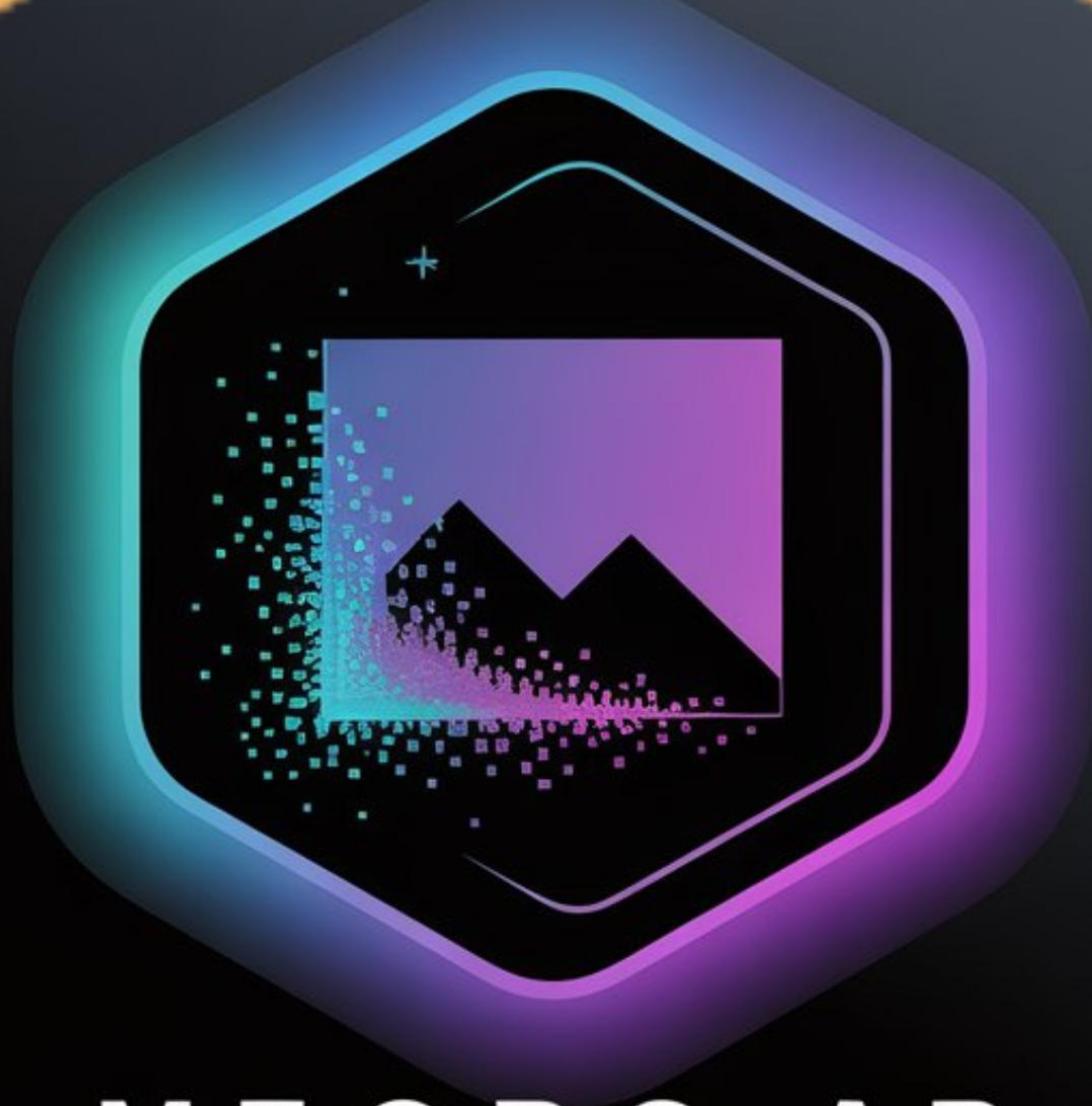

$1,000-$5,000+

Micro AR Gallery

MICRO AR
GALLERY NIGHT

An intimate gallery-style showcase where physical art is enhanced with AR storytelling. Guests experience creativity across two layers—seeing the artist's work while unlocking hidden digital dimensions.
It's a unique blend of art, tech, and community discovery.

$1,500-$4,000+

Mini Build Jam

Hands-on, rapid-fire prototyping sessions where small groups design and test immersive concepts. Perfect for startups, innovators, or communities that want to co-create tangible XR solutions in a single day. The format sparks teamwork, creativity, and quick results.

$2,000-$5,000+

Bongs & Brunch

A premium networking experience that fuses cannabis culture with XR creativity. This format creates a relaxed yet high-impact atmosphere for professionals to exchange ideas, collaborate, and build community. Attendees walk away inspired and better connected.

$10,000-$30,000+

FOR CUSTOM PACKAGES, CONTACT:
Michael Kamp - 815-861-0420 | honeycombhydro@gmail.com

XR cARnival

IMMERSIVE CARNIVAL

Large-scale, festival-style activations that gamify public spaces with AR and XR. They deliver high-energy experiences designed to amaze crowds, generate buzz, and create lasting brand impressions. Perfect for seasonal events or tourism destinations looking to stand out.

$20,000-$100,000+

BrandForge

Ideas Built. Value Forged.
Clients Won.

A one-day immersive sprint where teams design, build, and launch branded XR campaigns. It delivers measurable results fast, while engaging participants in a collaborative and memorable experience. The outcome is a complete campaign built in real time.

$25,000-$75,000+

scARvengers Hunt

Interactive AR scavenger hunts that guide participants through physical and digital checkpoints. Each hunt blends gamification, storytelling, and rewards to drive education, exploration, and engagement. Players feel part of the story while unlocking new layers of discovery.

$25,000-$75,000+

City XR Takeover

Transforms entire city districts into immersive stages layered with AR storytelling. These activations draw both residents and visitors, creating cultural buzz while boosting economic and brand activity. They redefine what it means to experience a city.

$35,000-$500,000+

FOR CUSTOM PACKAGES, CONTACT:
Michael Kamp - 815-861-0420 | honeycombhydro@gmail.com

La galARie Virtuelle

LA GALARIE
VIRTUELLE

Luxury malls and retail corridors become interactive galleries where products and stories come alive in AR. The format elevates the shopping journey into an engaging blend of culture, commerce, and technology. It turns everyday retail into a memorable destination.

$40,000-$500,000+

3d Scanning Tour

A large-scale public art initiative where murals and installations are digitally scanned and activated with AR. This creates city-wide cultural circuits that preserve art, engage audiences, and showcase storytelling in new ways. Cities gain a permanent, interactive cultural asset.

$50,000-$500,000+

Conclusion

The XR Catalog is more than options — it's an invitation to create experiences that inspire, connect, and deliver results. From single deliverables to full event activations, each offering fits your vision, scales to your audience, and unlocks the future of engagement. This is made possible by the Honeycomb Ecosystem — EduTech Tourism LLC, WondAR.land, GAIA Guild, Honeycomb Hydro LLC, and Star Horizon Takes-U-Places, Inc. — uniting art, AI, XR, and community into unforgettable moments.

Choose the packages that fit your goals, partner with our ecosystem, and let's make the future immersive — together.

The Ecosystem that makes it possible!
