## of Ancient Rituals in Modern Spiritual Practices

WRITTEN BY JENNIFER WARD

In today's fast-paced world, there is a growing movement towards reconnecting with the ancient rituals of our ancestors. These timeless practices, once the backbone of communal and spiritual life, are finding new breath in modern spiritual circles and becoming a little more mainstream, resonating deeply with those seeking more profound connections and holistic experiences.

One of the most captivating aspects of this resurgence is the revival of Native American smudging ceremonies. These rituals, which involve the burning of sacred herbs like sage and sweetgrass, are used for purification and prayer. Originally specific to Native cultures, smudging has transcended its origins and is now practiced widely among various groups seeking spiritual cleansing and renewal.

Similarly, Celtic solstice celebrations, which mark the shifts of seasons and the balance of natural light, are also enjoying renewed popularity. These rituals, particularly those of the summer solstice at Stonehenge, attract thousands of people from around the globe, drawn by a desire to experience the power of ancient traditions and connect with the rhythms of the earth.

Another fascinating example is the revival of ancient Egyptian practices, particularly the ritualistic techniques like those used in mummification and the daily offerings made to the gods. These practices, steeped in rich symbolism and respect for the afterlife, are being explored by modern spiritual practitioners who find deep meaning in the ancient Egyptians' meticulous care for the dead and their constant communication with the divine.

The practice of Qigong, a traditional Chinese exercise and healing technique that involves meditation, controlled breathing, and movement exercises, is also seeing a resurgence. Rooted in Taoist and Buddhist philosophies, Qigong is practiced by modern seekers not only for its health benefits but also for its potential to enhance spiritual growth and balance energy.

The incorporation of these ancient practices into modern spiritual life not only honors their origins but also adapts their meanings to contemporary needs. For many, participating in these rituals is a way to restore balance in their lives, reconnect with nature, and tap into a collective cultural memory.

As we continue to face global challenges, the wisdom of ancient rituals offers not just solace but also practical lessons on living in harmony with nature and each other. Their revival is a testament to their timeless relevance and the universal human need for connection and spiritual depth. This blend of past and present not only enriches our spiritual lives but also bridges generations, fostering a deeper appreciation for our shared heritage.

## Embracing Light and Transformation as a Light Guardian

INTERVIEWED BY MONICA BEY

---

LIGHT GUARDIANS ARE DIVINELY CHOSEN TO HELP SPREAD THE WORD OF  
THE BOOK OF RASHEEDA AS PART OF THE GLOBAL AWAKENING INITIATIVE  
WITH MYSTIC TEMPLE

---

Tamiko Lowry, also known as Goddess Tamiko, was born and raised in Buffalo, New York. After spending over two decades in the vibrant city of Atlanta, Georgia, she made a momentous decision to relocate to the enchanting paradise of Tulum, Mexico, earlier this year. Tamiko's journey is one of profound personal transformation and spiritual awakening. "My journey has been one of deep personal transformation and spiritual awakening," she shares. As a dedicated practitioner of sacred rituals, she has honed her skills as a personal development and trauma recovery embodiment coach, guiding her clients toward healing their souls and tapping into their divine purpose.

"Prior to my enrollment at Mystic University, I found myself holding back and not fully embracing my spiritual gifts," Tamiko reveals. "I allowed fear to overshadow my true power, leading me to live a life that was out of alignment with my authentic self. I became a people pleaser, sacrificing my own desires and settling for relationships and circumstances that did not serve my highest purpose." This all changed when she enrolled at Mystic University. Now, with newfound wisdom, she has embraced her true calling and is dedicated to empowering others.

Tamiko's inspiration to become a Light Guardian stems from her deep belief in the transformative teachings of Mystic Temple. "I am inspired to embrace my role as a Light Guardian, driven by my belief in the transformative teachings of Mystic University and Mystic Temple," she explains. "These teachings have the power to ignite a ripple effect of empowerment and positive change throughout the world." One aspect that resonates with her deeply is the guidance offered by the Divine Mother, Monica Bey. "What resonates within me is the wisdom and guidance offered by these teachings and the Divine Mother, Monica Bey. She offers a sacred sanctuary for spiritual seekers, where true enlightenment, growth, and a vibrant community thrive."

Reflecting on her induction, Tamiko feels a profound change. "I am filled with extreme gratitude as I reflect upon my recent induction as a Light Guardian. The experience has deepened my connection to this sacred space in ways beyond words," she shares. "The act of reciting the magical oath was nothing short of enchanting, taking me to a realm of spiritual fulfillment. In that moment, I felt an overwhelming sense of love and protection, as if I was cradled in the embrace of the Divine Mother."

Tamiko envisions her role as a Light Guardian as an opportunity for both personal and communal growth. "My expectations from my role as a Light Guardian with Mystic Temple is to provide support, guidance, and assistance to individuals on their spiritual journey," she says. "I strive to foster a sense of connection and community within the Mystic Temple. Through my interactions, I want to help create a welcoming environment where individuals feel supported and understood."

Her spiritual journey has evolved significantly through Mystic Temple, and she is eager to explore higher consciousness, manifestation techniques, and the power of intention. "One area I am interested in exploring is the concept of higher consciousness and the expansion of awareness," she notes. "I am also eager to explore more about manifestation techniques and the power of intention."

The teachings of the Divine Mother and The Book of Rasheeda have provided Tamiko with validation and inspiration. "The teachings of the Divine Mother and The Book of Rasheeda have had a great impact on my outlook and spiritual practices," she explains. "By embracing the wisdom provided, I have been able to cultivate a deeper connection to my divine assignment and cultivate compassion and love."

Tamiko hopes to inspire others through her story and encourage them to embrace their spiritual journey. "I want to contribute to collaborative and innovative projects that inspire personal transformation and social impact," she states. Despite anticipating challenges in balancing her responsibilities, she sees them as opportunities for growth and learning.

Her message to those considering a similar spiritual journey is clear: "I would like for others to know that my spiritual journey has been a path of self-discovery, growth, and connection with something greater than myself," she says. "I would like to encourage you to consider taking on your own spiritual journey. It doesn't have to be a specific path or tradition, but it could be a personal exploration of your own beliefs, values, and connection with the divine or higher consciousness. I invite you to embrace the unknown, be open to growth, and trust in the wisdom that lies within you. Know that you are not alone in this journey, as there are others who are also seeking and walking alongside you."

## The Most Powerful Spiritual Revolution of Our Age

AN INTERVIEW WITH THE DIVINE MOTHER, MONICA BEY

---

COVER FEATURE

In a world where spiritual seekers are often met with rigid doctrines, limiting beliefs and constricted pathways, Mystic Temple emerges as a beacon of freedom and enlightenment, guided by the deep insights of The Divine Mother, Monica Bey. Mystic Temple is a revolution aimed at bringing back the truth of who we are and transforming how we perceive and engage with our divine essence.

At the heart of this transformative movement is The Book of Rasheeda, a dynamic scripture still being written through The Divine Mother by a Cosmic Collective Consciousness since 2015. This sacred text is a living, breathing guide that grows and evolves, offering new insights as this collective consciousness continues to write this through The Divine Mother. "The Book of Rasheeda brings forth universal truths and wisdom to guide our community," explains The Divine Mother. Its teachings are clear: we are not confined to the physical and societal chains that bind us but are infinite beings capable of unlimited power and profound transformation.

The journey of Mystic Temple began with a divine revelation received by The Divine Mother in 2012, where she saw her future and the pivotal role she would play in leading the world to spiritual awakening.

This vision was not just about creating a community but igniting a global spiritual awakening. "I was shown my life's purpose in a series of divine visions that revealed I would establish a temple, a sanctuary for those seeking truth and enlightenment beyond the traditional confines of religion," she shares.

Mystic Temple offers a unique spiritual experience that transcends traditional religious practices. It is a place where the recognition of our own divinity and deeper understanding of what that means to our individual and collective lives is revealed in mind blowing ways. The divine connection is recognized as an integral part of the human experience, not something external to be sought or worshipped. "We are all connected by the same light. This realization is essential for true spiritual freedom," The Divine Mother emphasizes.

The role of Light Guardians in this movement is crucial. They have been divinely chosen by the Cosmic Collective Consciousness and The Divine Mother, Monica Bey. They are the torchbearers of the temple's ethos, spreading the light and wisdom garnered from The Book of Rasheeda

and their personal transformations. They embody the temple's teachings, actively engaging in practices that elevate both their own and the collective consciousness of the community. They will be building local communities of light.

Looking ahead, The Divine Mother envisions Mystic Temple continuing to expand its reach globally, touching more lives, and continuing to evolve as a spiritual sanctuary. "Our core mission will always be to bring people back to their divine essence and remind them of their limitless potential." she states. "We are already in 62 countries and the message is spreading quickly and already making an impact on so many souls. This is only the beginning."

This spiritual revolution is not just about personal enlightenment; it's about transforming the world by reconnecting with our true selves and breaking free from the chains that society and traditional religions have imposed. Mystic Temple invites everyone to be part of this groundbreaking journey to rediscover the divine within and explore spirituality with an open heart and limitless possibilities.

As we step into this new age with Mystic Temple, we are not just followers of a teaching; we are active participants in a divine revelation. Join us on this journey to enlightenment and experience the true essence of your spirituality as we forge forward, breaking the chains of limitation and embracing our infinite nature. Together, we are not just changing lives—we are changing the world.

Get involved with Mystic Temple today and be part of a spiritual revolution that promises liberation, truth, and an unbridled connection with the divine. The future of spirituality is here, and it is limitless.

## Spiritual Awakening as a Light Guardian

INTERVIEWED BY MONICA BEY

LIGHT GUARDIAN  
FEATURE

GORDON ALLEN: LIGHT GUARDIAN,  
MYSTIC TEMPLE

Gordon Allen, born and raised in Los Angeles, California, has a story of profound transformation. Growing up in the 80s and 90s, Gordon became heavily immersed in gang culture, which eventually led to spending his twenties in prison for bank robberies. "In hindsight, prison was probably the best thing that could have happened to me," Gordon reflects. "It's the place where I got a chance to start knowing myself and realizing that I had allowed myself to be programmed in ways that were not beneficial to myself." Today, Gordon is a father of four—three daughters and one son—and a devoted member of Mystic Temple.

Gordon's path to becoming a Light Guardian was serendipitous. "Technically, I was chosen," he laughs. "However, it was a GREAT HONOR. I came across the Divine Mother at a time in my life when everything seemed to be falling apart. With her instruction, I went from feeling like the world was crumbling to knowing that I was the creator of my own reality." Gordon found that whatever he applied from the Divine Mother's teachings resulted in a 100% success rate, as he always gained growth.

Gordon's personal beliefs were deeply enriched by the teachings of the Divine Mother. "My own belief was that I was all power, a GOD of my own world.

The Divine Mother showed me how to apply that belief, how to tap into my powers for the benefit of myself and others," he explains. This guidance transformed his understanding, helping him turn coal into diamonds.

As a Light Guardian, Gordon aims to serve Mystic Temple with complete honor. "My biggest contribution will probably be to men. I know I can be of great service to other men, especially in a world where so many have been taught a harmful, false sense of masculinity. I will show them Divine Masculinity, a masculinity that's truly powerful," he says.

Gordon has no limits on his spiritual growth with Mystic Temple. "I lived my whole life with false rules and limitations. It's over for that," he declares. He is particularly eager to explore healing and expects to face challenges, such as understanding empathy. "I've always lived a life under pressure, so I tend to think everyone should always be strong. I have to learn to be patient and understand that everyone is different."

The teachings of the Divine Mother and The Book of Rasheeda played a crucial role in Gordon's life. "When I was introduced to the Divine Mother, it was a critical time. With her guidance, I came out on top of the world. Under normal circumstances, it was supposed to be the end for me. I'm a walking testimony."

Gordon is committed to making an impact wherever needed. "I just plan to be impactful in any way possible, wherever I need to be impactful I accept the challenge," he asserts. His message to others is powerful: "TO EMBRACE YOUR POWER AND STEP INTO YOUR POWER! The revolution will be televised."

Gordon Allen's journey from gang culture to spiritual enlightenment exemplifies the transformative power of Mystic Temple's teachings. His story is a testament to the impact of embracing one's inner power and the guidance of the Divine Mother.

## Embracing Spiritual Power as a Light Guardian

INTERVIEWED BY MONICA BEY

Dominec Holmes is a spiritual consultant and professional astrologer who has been a dedicated student of the Divine Mother, Monica Bey, for over a decade. "We met in one of the spiritual Facebook groups. I don't recall which one because there was nothing memorable about it except meeting her," Dominec shares. His life before joining Mystic Temple was turbulent. "Prior to her manifesting into my life, I was tap dancing on a razor blade. Although I was aware of my spiritual power, I had no idea of my spiritual potential. She helped me become keenly aware of that and saved me from going down the wrong path again."

Dominec's motivation to become a Light Guardian stems from the Divine Mother's teachings. "The Divine Mother told me years ago about Mystic Temple and the prophecies. I knew I would be an instrumental part of it because she told me this was revealed to her. I can tell you with a degree of certainty that the things being revealed to the world shall come to pass." The teachings of limitless power and personal responsibility resonate most with him. "I like the teachings of limitless power and potential and your personal responsibility to develop them the most."

Having completed his induction, Dominec feels a deepened connection to Mystic Temple. "It has increased my sense of responsibility, expanded my awareness of oneness, and tapered down my ego," he notes.

DOMINEC HOLMES:  
LIGHT GUARDIAN  
MYSTIC TEMPLE

As a Light Guardian, Dominec aims to lead a peaceful life and guide others to the truth. "I want to live a more peaceful life and help lead other people to the truth," he says. He envisions his spiritual journey evolving through better observation of the human experience. "The most specific thing for me is being a better observer of the human experience, meeting people where they're at, and not getting caught up in the illusions of this engineered reality."

The teachings of the Divine Mother and The Book of Rasheeda have greatly influenced Dominec's outlook and practices. "They helped me to be more detached from the human experience, encouraged me to further develop my spiritual power, and to take more responsibility in actively molding my reality," he explains.

Within the Mystic Temple community, Dominec hopes to have a significant impact. "I want to spread the truth and make it very difficult for charlatans and panderers of fear to mislead people and create more suffering. I will do what is in the scope of my power to manifest this," he asserts.

Dominec anticipates challenges, particularly with time management due to his multiple businesses. "Time will definitely be a challenge for me. It's going to give me the opportunity to remove a lot of meaningless distractions from my life," he admits.

His message to others on a similar spiritual journey is profound: "Understand that you are a divine presence on this earth. Prior to choosing a human body, you made contracts with other souls to help them learn and grow. Your evolution is their evolution. Be more aware and more responsible for the webs that you weave on this earth plane. Take responsibility for your energy. Be not a victim of self-deception or self-doubt. You are a mighty being; conduct yourself as such!"

His spiritual journey has been long and evolving. "I've been into magic since I was a kid, studying astrology since I was 16 or 17. Over a decade ago, I began my journey as a student of the Divine Mother, and she told me our purposes were intertwined. I needed to change my life and let go of my past."

Dominec Holmes's journey reflects the transformative power of the teachings of Mystic Temple and the guidance of the Divine Mother, Monica Bey. His dedication and insight serve as an inspiration to others on their spiritual paths.

## BREWS & POTIONS

CONTRIBUTION BY  
MONICA BEY

Herbal Alchemist & Much More

Welcome to my new column, Mystic Brews & Potions, where magic meets medicine! Some of you may not know this, but mixing herbal medicine and alchemy together has been a passion of mine for some time. Among the many categories I fit into as The Divine Mother, Healer, Metaphysics expert, etc., I am also a Certified Herbalist and Herbal Medicine Maker. It is part of my daily living and I've decided to share this amazing impact with you all through this column!

Today, I have a special treat for you—a recipe that's not just a cup of tea, but a gentle, nurturing potion for both your body and spirit. Imagine a brew that not only calms your worries but also invites prosperity into your life. One of the things that gets in the way of manifesting prosperity is your worry that it may not work and other anxious energies that sit in your aura, blocking your prosperity like a wayward ninja! So why solve 2 problems with 1 solution!

Whether you're a seasoned herbal enthusiast or a curious newcomer, this concoction will be powerful. Let's stir up some enchantment with a tea that can soothe your soul and pave your path to success. Here's how to create this magical, medicinal elixir:

**Creating a herbal remedy that serves both medicinal and magical purposes for prosperity and anti-worry involves carefully selecting herbs that align with both intentions. Here's a detailed recipe for a tea that combines these elements:**

### INGREDIENTS

- **Basil:** Often used in spells for wealth and success. Medicinally, it can help with stress relief.
- **Chamomile:** Known for its properties to attract money and luck, and also widely recognized for its calming effects, reducing anxiety and promoting sleep.
- **Cinnamon:** Magically associated with drawing money and success. It has antioxidant properties and can help regulate blood sugar, which indirectly affects energy and mood levels.
- **Ginger:** Magically adds energy and success to any blend. It's also great for digestion and inflammation.
- **Green Tea:** Used for wealth and courage in magical practices. It's rich in antioxidants, which support overall health. (decaffeinated works as well)
- **Honey (optional):** For sweetness and its magical properties of attraction, prosperity and solar energy.

# INSTRUCTIONS

*\*Adjust if you have a loose tea ball or infuser.*

## 1. BOIL WATER

Start with about 750 ml (approximately 3 cups) of water. Bring it to a boil.

## 2. MIX HERBS

While your water is heating, mix together (if you don't have access to fresh herbs, dried or powdered herbs will work just fine):

- 1 teaspoon of dried basil
- 1 teaspoon of dried chamomile
- ½ teaspoon of cinnamon (either ground or one small stick)
- ½ teaspoon of sliced or grated fresh ginger
- 1 bag or 1 teaspoon of green tea leaves

## 3. STEEP

Once the water reaches a boil, pour it over your herbal mix in a teapot or a large mug. Let it steep for about 5-10 minutes. The longer you steep, the stronger both the flavor and the herbal benefits.

## 4. STRAIN AND SERVE

Strain the herbs from the mixture to avoid over-steeping, which can make the tea bitter, especially with green tea in the mix. Add honey to taste, if desired.

## 5. MAGICAL ACTIVATION

While the tea is steeping, focus on your intentions of prosperity and easing worries, just being in flow. Visualize your goals as already achieved and the feelings they bring. This visualization charges the tea with your intentions. (to learn more advanced ways to magically activate your potions, go to [Magic Potion Happy Hour! \(mysticuniversity.net\)](http://mysticuniversity.net))

## 6. DRINK

Sip the tea slowly and mindfully, continuing to focus on your intentions. Feel the energy as it enters your system and begins to work its magic!

## USAGE

**Drink this tea once daily while working toward your prosperity goals or when you feel particularly stressed. Remember, consistency in both the medicinal and magical practice increases effectiveness. Build that magic up and make it more powerful!**

**This blend is a wonderful way to harness the powers of herbs for both health and spiritual prosperity. Enjoy the process of making and drinking your tea as a holistic and sacred ritual.**

*Ebony* GOODRICH  
Embracing Her  
Spiritual Gifts as a Light  
Guardian

INTERVIEWED BY MONICA BEY

EBONY GOODRICH:  
LIGHT GUARDIAN  
MYSTIC TEMPLE

Ebony Goodrich, also known by her pseudonym Ebony Farashuu, is a published author and a Light Guardian at Mystic Temple. Before joining Mystic Temple, Ebony's life was filled with a love for music, gardening, and writing. Despite possessing many spiritual gifts, Ebony felt unfulfilled and lacked the confidence to trust in herself.

"Before working with Monica Bey, my life was unfulfilled and uncertain. There were so many events in my life that made no sense to me, and I lacked the confidence to trust in myself," Ebony reveals. Her journey to becoming a Light Guardian was inspired by her belief in the Divine Mother's message. "I fully believe in the message The Divine Mother carries. Being a part of Mystic Temple gives me purpose. It fuels my relationship with my spiritual gifts... gifts I wasn't aware of until I had my first session with Monica Bey."

One of the teachings that resonate most with Ebony is the knowledge that everyone is a light. "The teaching that resonates with me the most is the knowledge that we are ALL lights. That message carries a lot of confirmation for me and helps to pull me out of dark moments," she explains.

Reflecting on her induction, Ebony feels a profound change. "Reciting the magical oath was enchanting. I felt an overwhelming sense of love and protection," she says. This experience deepened her connection to Mystic Temple and reinforced her commitment to guide others on their spiritual journeys. "The experience has deepened my connection to this sacred space in ways beyond words."

As an author, Ebony noticed her readers felt every word she wrote, an early sign of her gift for healing through words. "As an author, I noticed my readers physically, mentally, and emotionally felt every word I wrote.

It was like every emotion I poured into my writing was transferred to them through osmosis. I didn't have a name for it then, but I now know it's directly related to my gift of healing." However, her spiritual awakening was met with judgment from her family, who labeled her gifts as witchcraft. "I was met with judgment. I was told speaking to my grandmother was witchcraft. I was told seeing future events was reserved for the prophets of the church. I was told it was sacrilegious for me to lay hands on people and heal them. I was told that my gifts were not given to me by God. 'The devil can gift you too.'"

This reaction caused Ebony to hide her true self. "I found myself clamming up and not sharing for fear of what people would think of me. I was hiding my true self. I feared losing family and friends. I feared being shunned."

Ebony envisions her role as a Light Guardian. Eventually, she decided to live for herself spiritually, embracing her gifts and dismissing fear. "I woke up one day and decided to live for myself spiritually without considering the thoughts and feelings of others towards me. The people who were meant to be on this journey with me would stay... and the people who had no supportive place on my journey would remove themselves."

Guardian as a way to instill confidence in others to live authentically. "As a Light Guardian, I want to instill in others the confidence to live authentically as themselves and push towards their goals. Had I truly known who I was as a child, I could have avoided so much pain and confusion. I want to help the people in this community know, love, and trust themselves fully."

Her spiritual journey has evolved significantly through Mystic University, where she gained confidence and trust in her intuition and spirit guides. "I knew I had gifts but didn't feel powerful. I didn't trust my intuition and often told myself it was my imagination. I am now confident and trusting enough to acknowledge my intuition and the voices of my spirit guides."

The teachings of the Divine Mother and The Book of Rasheeda have provided Ebony with validation and inspiration. "I receive a lot of validation from the Divine Mother's teachings. Her messages meet me where I am and then inspire me to go further. Her teachings help me make sense of my gifts and the way I use them." She hopes to inspire others through her story and encourage them to embrace all the universe has to offer. "I want to inspire people through my story and encourage them to share their own. I want to prioritize people over tradition and religion."

Ebony's biggest challenge has been overcoming public opinion, but she is conquering this through spiritual growth. "My biggest challenge has always been public opinion, but I am overcoming that with spiritual growth as I gain a deeper knowledge of self." Her message to others on a similar spiritual journey is clear: "Lean into your authentic self. Grow where growth is required and discard the opinions of those who discourage you from walking a path created just for you."

Ebony Goodrich's journey is a testament to the power of embracing one's spiritual gifts and the transformative teachings of Mystic Temple.

Religion will be in the news. Attitudes are more optimistic, and the flow was more likely to be in your favor.
