Docce e complementi / Showers and complements

Non è che perché facciamo tutto a mano, allora non ci piace la modernità. Soprattutto se modernità vuol dire funzionalità e design. I nostri complementi uniscono tecnologia, stile e risparmio energetico alla nostra tradizionale cura artigianale.

E se ti piace come facciamo le cose, sarai contento di sapere che non facciamo solo rubinetti.

It is not because we make everything by hand that we must not like anything modern. Especially if modern means functionality and design. Our complements add technology, style and energy saving to our traditional craftsmanship. And if you like how we make things, you'll be happy to know that we don't just make taps.

Agorà

“AGORA” is the latin word for “collecting” or “gathering”. This is what Nicolazzi did in this case, searching for different styles all mixed and added to the same product. A modern base with classic handle and details, this is what identifies this pure and elegant collection.

“Agorà” in latino antico significa raccogliere, radunare, ed è questo quello che Nicolazzi ha fatto creando questa collezione, prendendo stili diversi e unendoli in un solo prodotto. Una base moderna unita a particolari e maniglia classica, questi sono gli elementi principali di questa linea pulita ed elegante.

Monte Croce / Mac Kinley 05

Le collezioni Mac Kinley 05 e Monte Croce sono linee dichiaratamente moderne, con forme lineari ma arrotondate, che sfruttano la classicità dei rubinetti a tre fori con canna centrale. Le “generose” leve o maniglie a croce contraddistinguono con decisione queste linee, adatte per arredamenti bagno sia moderni che classici.

Mac Kinley 05 and Monte Croce collections are definitely “modern”, linear shapes but rounded corners adjusted to the typical configuration of the “three holes basin mixer”.

Generous wide levers or Cross handles are typical of this style and make it adaptable to both modern and classic bathrooms.
