EDITOR'S NOTE

Hi Avocadians

Welcome to July's bumper birthday edition! This month's newsletter marks a milestone for the Avocado family as we celebrate Avocado DAO's first year anniversary!

With lots of fun events and tons of goodies on offer, we hope you are having a great July and enjoying the festivities.

The Avocado team is extremely proud of its achievements, and we are grateful to all of you for the community spirit we have all created together. We look forward to another exciting year ahead!

- AG.Melzzie
Lead Editor

The information contained in or provided from or through this newsletter is not intended to be and does not constitute financial advice, investment advice, trading advice, or any other advice.

ON THE COVER

We have revamped our CyBall share program, flick to the Avocadian Scoop to find out how you can benefit from the new system. Our new spotlight session shines light on team members working within Avocado, and our first interview is with the talented Chip Penguin, read more inside! This month, we also have some great crypto tips and gaming insight, as well as some games and puzzles.

AVOCADO DAO'S 1ST BIRTHDAY

It's a very special month in the Avocadian community. This July marks Avocado's first year operating as a web3 gaming guild and DAO. We are thrilled with the leaps and bounds of progress we have made over the last year, and to show our gratitude to our fantastic scholars and members, we have had a month of celebrations with tons of exciting giveaways and the most epic prize pool, we have ever had!

AVOCADIAN SCOOP

by: AG.Sharon

CyBall Share System Revamped

We know that the crypto market has been tough recently, and as a result, we have revamped our CyBall share scheme to provide better opportunities to our scholars during these difficult times.

- Scholar share will be increased to a 50% base rate across all classes.
- If you play for at least 2 days a week, your share will increase to a whopping 75%, and for 6+ days a week, your share will increase to **100%!!** The entire share will become yours!

To receive these enhanced rewards, you will need to cancel your CyBlocs before 6 pm PHT any day and we will change the base share to 50% for you! In addition, when you play for 2+ days a week, you will receive your extra percentage share as a manual payment (calculated weekly, paid to you once every 2 weeks).

We'd love to see our scholars have an even more fun-tastic CyBall experience here at Avocado DAO. Get your CyBlocs ready for more kick-offs and greater shares! You can find more info on this in our Discord channel.

WHAT ELSE IS NEW?

AVOCADO DAO AT KOREA BLOCKCHAIN WEEK

One of the largest blockchain conferences in Asia is back in Korea between the 7th and 14th of August, and Avocado DAO will be there! Sir Brendino is always growing and expanding Avocado's global presence and he will be speaking on the future of web3 gaming guilds within the broader GameFi ecosystem.

GENOPETS SCHOLARSHIP NOW FULL!

We have been recruiting new scholars for our Genopets scholarship. We received over 700 applications and the program is now underway. We are excited to bring this opportunity to our members and to introduce new members to this exciting move4rewards game. What better way to keep fit than to be rewarded for your exercise!

WHAT'S BEEN HAPPENING IN THE COMMUNITY

Avocado AMAs and Giveaways

Avocado aims to offer exciting opportunities for its scholars as well as provide as much information as possible on new and upcoming games.

In addition to our birthday bonanza of goodies and SLP prizes, we also hosted several AMAs with our partner games to share new developments, answer questions, as well as share exclusive giveaways with our community.

In this month's AMAs, we hosted Cross the Ages: A card game where the characters are based on the novel written by their own team. We learned about the game mechanics and some upcoming alpha for the game. We also gave away 500 whitelist spots to gain early access to their NFT card packs

We also joined Phantom Galaxies in a shared AMA, hosted by Luke Sillay, their Lead Community Manager, with Brendino, Co-founder of Avocado Guild and Chip, our social media manager.

And, we had the pleasure of talking to Kanimal Clash about the launch of the game, where we offered 10 exclusive Kanimal NFT packs to the Avocadian community.

Look out for our upcoming AMA with the G4AL team on their new game release, Elemental Raiders, which will take place in early August.

COMMUNITY PHOTOS

AG.Ka2Rot#9572

Ka2Rot#9572 has been an Avocado DAO scholar since November 2021. He was interviewed by one of the oldest and first leaders here in Avocado DAO. He currently plays Axie Infinity, CyBall and is now starting to become familiar with Genopets. Avocado DAO has been a big help to broaden his knowledge and be financially able. He was able to save money for his school tuition and is now a candidate to graduate. He was also able to buy shirts and new shoes that he can use in his everyday life.

AG.Leenz#9351

Leenz#9351 has been a scholar since August 11, 2021, and plays Axie and CyBall. She is also a PR beta tester, Belpy and Genopets. AG.Leenz said: Avocado DAO was able to help me to spread knowledge of what I have learned in the guild. I helped people as much as I could and with what I have and I'm not expecting anything in return. I'm happy seeing them happy. Volunteering my time, money and energy to help others doesn't just make the world better, it also makes me better.

TEAM SPOTLIGHT

Interview with AG.Chip Penguin

We're going behind the scenes to showcase some of our team members. To kick off our spotlight session, our star Avocadian this month is the super smart and creative Chip Penguin, our fantastic community manager, AMA host, and marketing whiz.

Q: How did you first join Avocado?

A: I would say it's an exciting and marvelous journey that led me to join the Avocado guild. It wasn't until last November that I was introduced to Brendino, Avocado's Co-founder. He introduced me to Avocado DAO and what they were doing and trying to achieve. I remember when Brendan showed me the old Avocado Guild site with the old Avocado logo (which looks like the Crash Bandicoot logo - I loved it!) with the site full of community photos, showcasing how Avocado has provided many opportunities to scholars and how it changed their lives. I was attracted to the community initiative and Brendan's commitment to the guild, and it was at that moment that I decided to join Avocado Guild.

I was onboarded to work on Twitter and Telegram content, and not long after, we had our Series A funding round and the AVG tokenization. It was a crazy month. Everyone worked so hard, and luckily, our IDO was a huge success. I've learned so much along the way, and I'm happy to join this big and lovely family.

Q: What does a day in the life of Chippy, community management, and marketing, look like?

A: My job is about the community and social media, I look after the Avocado Guild English community, the price chat, and the Chinese community on Telegram and discord. I need to consider daily content posted on Avocado's Twitter. We have also started the Avacadude initiative, our official mascot, and recently, he got his own Twitter account. So, the Avacadude Twitter account acts as a medium to echo the content on our main Twitter account in a friendly way. So, check out our @AvacadudeAG account and give him a follow.

Besides that, I coordinate with project partners to set up giveaways, host the AMAs and distribute prizes to the winners. Every day is quite hectic as I need to keep up to date with the latest news from our partners and the GameFi space, but I enjoy doing so!

Q: What have you learned in your time at Avocado so far?

A: Firstly, I learned to work smarter not harder. It's imperative to organize your work and set a realistic schedule. I consider 'quality' more important than 'quantity,' and I make sure every job accomplished is of high quality. My communication skills have also improved significantly through coordinating with colleagues and hosting AMAs, and I have become much more confident. I learn something new each day and have gained fresh experiences, be it games or industry knowledge.

Q. What is your advice to other scholars who want to work in web3?

A: Crypto operates 24 hours and rarely has downtime, it reminds me of Miller's planet in the Interstellar movie, where one hour on the planet equals seven years on Earth!

I would advise scholars who want to work in web3 to stay inquisitive and never stop learning, be prepared to accept new technology, and take one step further to try it out. I feel that by actually experiencing it, you will gain a deeper understanding of the space.

I spend much of my time on Twitter to gather info and web3 news. Twitter Spaces are also a good spot for AMAs and fireside chats to hear different opinions and alpha leaks where you can get first-hand news about projects and protocols.

So, if you are keen on learning about crypto and web3, then finding a platform that you enjoy is a great place to start; Twitter, Google News or YouTube, or even TikTok.

To conclude, my advice is to stay inquisitive, try to do it yourself, be vigilant and always do your own research.

MOD UPDATE

By AG.Demdem

A MILESTONE: AVOCADO'S ACHIEVEMENTS TO DATE

NOTE: The views & opinions expressed in the Avocadian's articles are those of the authors & do not necessarily reflect the views of Avocado DAO.

On July 5, 2022, Avocado DAO celebrated its first anniversary. Looking back, it has been a momentous and productive journey. In our first year, Avocado has made huge strides in the GameFi space, partnering with great games, growing our scholarship programs and making a positive impact in our community.

So far, Avocado DAO has achieved:

- Being one of the fastest growing web3 gaming guilds with over 10,000 scholars in Axie Infinity
- Scholarship opportunities for Cyball, Karmaverse, Pegaxy, Elpis Battle, Wasted Lands, and now Genopets
- Established as a Decentralized Autonomous Organization (DAO)
- Launched \$AVG Token

Recently, \$AVG staking went live. As we all know, this was a much-anticipated program thereby resulting in the first pool filling and closing within days of launching. Hence, three additional staking pools have been opened. To continue gaining handsome rewards for \$AVG holders, more staking pools will be available in the future.

A YEAR WITH AVOCADO

Avocado DAO marks its first anniversary. As part of the celebration, a lot of amazing events with exciting prizes await the Avocadians. One of which is the in-house Axie Tournament with a minimum prize pool of 500,000 SLP. This is also a means of giving back to the scholars who have been a part of Avocado's amazing journey.

As Avocado embarks on a new phase, we hope for the continued support of the Avocadians. A lot of opportunities are about to come for the scholars and future scholars of Avocado DAO.

MOD UPDATE

From Web3 to IRL Events

Avocado DAO has always made it its mission to be a community first and foremost. Not only in the blockchain gaming space but also IRL- In Real Life.

As well as hosting a range of online events and tournaments, we also organize IRL events that benefit our scholars and the surrounding community.

The next event will take place in Bogor, Indonesia, and will bring Avocado scholars and local people together during Indonesia's Independence Day celebrations to play2educate, support the community, as well as host scholarship giveaways! This will help us introduce and onboard new users to the benefits of GameFi. More info coming soon on our blog post and social channels!

JULY'S AVOARMY

By AG.Mxmx

Avocado's most active and supportive members

Our AvoArmy recognizes the most active and supportive members of our guild. These are scholars who participate the most in our social channels (*Discord and Telegram*), join our events, webinars, and AMAs, and ongoingly support our social media platforms (*Facebook, Twitter, and Medium*)

These scholars, who are appointed every month, will be given the Avocadian Army role and will get a chance to win extra prizes to reward their contributions to the community. Starting from the 1st day to the last day of each month, the team will be monitoring and assessing scholars who are deserving of the title. New additions will be announced at the start of each month.

COMMUNITY EVENTS

CONTESTS, TOURNAMENTS & WINNER ANNOUNCEMENTS

by: AG.AtomArc

We celebrated Avocado DAO's first birthday with an event extravaganza - With a fun-filled month of tournaments, games and competitions, we have given away tons of goodies, including scholarships, signed merch, and mega prize pools so that all our Avocadians have the opportunity to win!

Avocado Week: 5-day long event

We celebrated the first birthday of Avocado DAO with a host of events and prizes to be won—our Avocadians engaged in interesting and entertaining activities. Through participation in this 5-day event with daily activities, our Avocadians become connected with each other.

Mastery Monday

Six Valorant teams competed for the first spot, while our dear Avocadians who did not play the game watched the live streams and cheered for each team.

Trivia Tuesday

As fast as they could, Avocadians answered questions about CyBall, a futuristic football-themed tactic card game. This showed how smart and knowledgeable they were about the game.

COMMUNITY EVENTS

CONTESTS, TOURNAMENTS & WINNER ANNOUNCEMENTS

Wordly Wednesday

Everyone had a great time guessing the truth or falsehood of each Avocadian who attended the event; it was a fun way to meet new people!

Twitter Thursday

Avocadians dominated Twitter as they tweeted their warmest messages about their experiences during Avocado Week, with others commenting on the tweets because they shared the same sentiments.

Fun-loving Friday

An activity that was saved for the grand finale. The Avocadians, Avonauts, and one of the Avocado Operatives, Ms. Sharon, shared their euphonious voices on stage during a karaoke night. On this lovely night, everyone was happy and jovial.

COMMUNITY EVENTS

Anniversary Giveaway: 10 SLP for every day of being an Avocadian

This was a great opportunity for Avocado to reward its scholars for their time in the community. Avocado DAO is always attentive to the needs of our Avocadians, and it is a wonderful opportunity to take on board their ideas and feedback for the improvement of Avocado DAO's operations for our cherished Avocadians, as it is also their community and home.

Game Night: Song Trivia

This is an exciting game for everyone—especially music enthusiasts and lovers among our dear Avocadians. As they sang along to the song and guessed the artist or title, the game was filled with joy and laughter.

I'm so competitive that I want to be the first to guess the answer. It was great fun and I want to join more!" said AG. SnakeChibi.

"I felt both pressured and excited because I'm not that good at this, but I still joined because I want to get along with our Avocadians!" said AG. Stranger.

WHAT'S NEW IN CRYPTO

CRYPTO UPDATES

by: AG.Natsu & AG.ROLF

D.G.P New World Adopts V-Pet NFT Game System with Cute Pixel Style

Introducing an interesting NFT game and metaverse world that is presented in a pixel-style V-Pet system. D.G.P New World was officially released on May 23, 2022.

D.G.P New World itself will enable players to take care of D.G.Eggs. Each egg takes five days to hatch. During the growth period, your D.G.Pal goes through multiple stages of evolution, each with interesting backstories and unique characteristics. It is a rewarding challenge to collect all the different evolutions of D.G.Pals!

D.G.P New World cont'd

As a unique feature of the game, D.G.Eggs will be used to prepare for D.G.P Legends and other D.G.Verse features. It will take time for your D.G.Eggs to hatch and evolve through different stages to reach their prime form. During this evolution period, you can also learn about the various species and evolution of D.G.Pals. All D.G.Pals have a range of activities during the evolution process, including:

- Visit different areas of New World Island – such as forests or beaches.
- Carry out various activities and daily life from D.G.Pals.
- Evolve D.G.Pals to their prime and mint to become an NFT

After minting your D.G.Pal NFTs, you are ready to take your little friends to battle other players in D.G.P Legends. In D.G.P Legends, players can strategically set up their line-ups and battle other D.G.Pal owners. As you win matches, your D.G.Pals will level up to unlock new talents that will boost your team's power.

The future is exciting for the D.G.Verse as the developers work tirelessly to bring interoperability to blockchain gaming. A variety of different game modes are being developed for you to explore the world of Panterra with your D.G.Pals. See you guys in the D.G.Verse!

Ludena Protocol First P2E PVP RTS GAME: Kingdom of Animal Clash

Ludena Protocol is South Korea's biggest GameFi social platform that will launch its first web3 title Kanimal Clash - Kingdom of Animal Clash.

Kanimal Clash is a PVP RTS Game - like Clash Royale- built on the Polygon blockchain. There are 32 different types of Kanimal characters, but each character will have its own element, number of skills, and in-born stats. Kanimals characters have special weapons, each containing different skills and battle styles: flying, long-ranging, fast-moving, some will be bigger than others, but some will be summoned in a flock for example.

To play this game, players need at least eight different Kanimal NFTs which can be purchased (or sold) on their NFT Marketplace. Their new game, Kanimal Clash, has three key features:

- Battles, PvP, PvE, Story Mode, and More. Beat your opponent and win rewards!
- Breeding is key to winning battles and tournaments. Each Kanimal has seven breed counts and can be purchased with \$WLDN (Wrapped Ludena Protocol) and \$YAC (Yummy Animal Cookies) tokens as the breed count go up. The offspring's skills and stats will vary depending on the parents.
- Participate in Tournaments to win epic prizes on top of the in-game rewards.

Watch out for this game - coming soon! Brace yourself, be ready to clash!

TRIVIA - GLOSSARY OF CRYPTO TERMS

The Crypto world is full of technical terms, financial jargon, and phrases specific to the industry. These are some terms you may come across as you delve into the space.

Altcoin: This is a term used to describe an alternative coin to Bitcoin, and has been abbreviated to Altcoin

Anti-Money-Laundering (AML): This is a legal and regulatory framework outlining procedures to reduce and prevent funding or transactions from illegal or undeclared activities

Arbitrage: Utilizing and taking advantage of varying prices on the same asset in different marketplaces to buy and sell at the most attractive price point

Know Your Customer (KYC): In compliance with KYC AML laws, this is a process that allows companies to identify their customers and the source of their funds.

Latency: This is the time delay between making a transaction to a network and the confirmation of that transaction by the network.

Ledger: This is a physical or digital file that contains a detailed, step-by-step record of the historical order of actions or transactions, providing transparency across processes.

Pegged Currency: This refers to a currency that has a fixed exchange rate against another currency or asset, and that will remain stable. Such as stablecoins (see below).

Satoshi: This is the smallest unit of Bitcoin. It is equal to one- hundred- millionth of Bitcoin or 0,00000001 BTC

Stablecoin: This is a cryptocurrency that is pegged against another and maintains a stable value against a formal currency, most commonly currencies pegged against the USD, for example, USDT and BUSD are known as stablecoins.

Ticker: The abbreviated trading symbol or name of a cryptocurrency as referred to on trading platforms is known as a Ticker, i.e., AVG, BNB, ETH

Genopets scholarship program: The webinar

Genopets is our latest scholarship game and with lots of new scholars on board, our game leaders AG. Cello, Natsu, Miegoreng, Mins, and Aikomato, prepared and presented a webinar to educate and answer questions about the game

Genopets is a Move2Earn NFT Game on the Solana blockchain, where you will nurture and grow your personal Genopet, your digital spirit animal. This combines the nurturing and evolution of Tamagotchi with the training and battling of Pokemon in asynchronous puzzle mini games.

What is a Genopet?

A generative non-fungible token that evolves and can be upgraded and customized.

Players mint an infant Genopet for free, based on their personality. Over time, the Genopet increases in value as players invest time and effort to augment a pet's type, battle performance, and aesthetics.

Tokenomics

Genopets have 2 different tokens, which are:

GENE Token is fungible governance and staking token that represents ownership in the Genoverse.

KI token is a fungible in-game reward token that you earn when you purchase a Habitat. You can use \$KI to level up your habitat NFTs, create new Habitats, refine Crystals, and craft in-game items.

Note: Players will start earning after 15 days

Energy

Energy digitally represents your physical activity and in-game effort's value (steps)

Why is it important?

Level up your Genopet by converting Energy into EXP

Harvest \$KI by converting Energy into \$KI Tokens with a Habitat

Feed, groom, play, and generally keep your Genopet happy (More on Nurturing your Genopet coming soon)

Perform battle actions (coming soon)

Participate in PvE quests and challenges (coming soon)

Energy to EXP - How does it work?

Steps turn into Energy which you can convert to EXP to level up your Genopets.

Note: Energy is not a token, nor is it tracked on-chain.

Habitat

A Habitat is where your Genopet lives and evolves. Habitats are procedurally generated non-fungible tokens you purchase through the Genopets Marketplace or craft using \$GENE, \$KI, and Gene Crystals. In addition, Habitats boost your EXP, unlock your ability to craft Refined Crystals directly, and earn you daily \$KI. Habitats spawn unrefined crystals of the correlating Elemental Class. Habitats can be used by players to Harvest \$KI each day, using their stored energy.

GAMING INSIGHTS (continued)

Five Elemental Classes of Habitats

- Fire, Wood, Earth, Metal, and Water.
- Each Habitat spawns an in-game item called unrefined crystals of the respective Elemental Class (i.e., Fire Habitats spawn unrefined fire crystals).
- Players can then harvest the unrefined crystals and refine them in the Habitat Laboratory, turning them into Genotype Crystal NFTs.

Three Levels of Habitats

- **Level 1: Habitats & Genotype Crystal Production**

Spawn unrefined crystals daily that you can refine by using \$GENE and \$KI Token. Lvl 1 Laboratories provide one crystal chamber to produce one Refined Genotype Crystal at a time.

- **Level 2: Habitats & Basic Alchemy**

Spawn 2 unrefined crystals. Have two chambers to refine your unrefined crystals. You can refine two crystals at once, and can also perform Basic Crystal Crafting. Basic Crystal Crafting, or Basic Alchemy.

- **Level 3: Habitats & Advanced Alchemy**

Level 3 Habitats generate 3 unrefined crystals per day. Your Laboratory boasts three crystal chambers so that you can refine three unrefined crystals at a time, producing three Genotype Crystals. Master Basic Alchemy and begin practicing Advanced Alchemy.

Note: Genesis Habitats spawn unrefined crystal(s) without a native elemental type. The player must select the element of the crystal during refinement.

Three Functional Components in Habitats

- **Laboratory:** This is the research building that can be used to mint unrefined crystals into Refined Crystal NFTs.
- **Workshop:** The player combines ingredients to create new items that can be used or sold in auctions. Players must have the ingredients and access to the crafting recipe in order to use the workshop. Below shows the increase in production as the workshop increases levels based on the Habitat Tier. (Coming Soon!)
- **Portal:** Activates world map. (Coming Soon!)
- **Game Mechanics (Leveling Up, Crafting, Habitats, Energy)**

As you win EXP, your Genopet will level up. Each time it levels up, you will unlock new features and abilities that bring you one step closer to reaching the next stage of your Genopet NFT's evolution and the glory of its metamorphosis.

PLEASE NOTE: The views and opinions expressed in the Avocadian's articles are those of the authors and do not necessarily reflect the views of Avocado DAO.

AVOCADO DAO

Avocado DAO is a blockchain gaming guild that aims to unlock life-changing opportunities and rewarding experiences for its community members.
