

Guaranteed Authenticity: Gemstone Certifications You Can Trust

You shouldn't have to question authenticity and neither should your customers.

Digital copies of every report are available in our media library.

With each certification, we provide not just a guarantee, but a reassurance — a testament to our dedication to delivering only the finest, genuine gemstones to our valued clients.

We take extra steps to make sure our products are natural and authentic. 95% of our stones are tested and certified by the Indian Institute of Gems & Jewellery (IIGJ) Research & Laboratories Center (RLC). IIGJ-RLC is one of the most prominent, high-end certification services in Jaipur, India. It is renowned for its rigorous standards and unwavering commitment to authenticity.

Their labs follow the strictest guidelines to ensure the authenticity of reports issued for gemstones and their possible treatments, employing state-of-the-art analytical techniques and extensive practical skills.

It Is What It Is ... Really.

But don't just take our word for it.

At IIGJ-RLC, each stone undergoes examination by multiple gemmologists, using standard equipment and sophisticated spectrometers.

This ensures accurate and scientifically reproducible certification reports. Our transparency not only provides proper disclosure of the stone but also ensures public trust in gemstones and jewelry by preserving the highest standards of integrity, knowledge, and expertise.

Scan to learn more

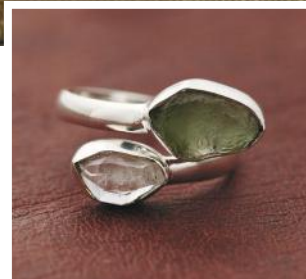

A typical report for a single loose gemstone describes net weight, color, cut, dimensions, identification (species/variety), treatment status, and the tests performed.

TEST CARRIED OUT FOR CONFIRMATION
