## **THE GLOBAL DOMINION 100: INDEX OF WOMEN**

There are moments in time when you don't just create content, you create access.

More than 20 years ago, an editor from Charisma Magazine spoke something over my life that I did not fully understand at the time. He said that in the spirit realm, I had been given land rights to the Internet and that I would be used to give access to many, including believers, through digital platforms.

At the time, it felt prophetic. Today, it feels like responsibility. Because when I look at what is being built here, I recognize that this is more than a list.

### **It is a gate.**

After more than 35 years in media, I have seen this truth play out again and again: Many people are not lacking ability. They are one access point away.

One introduction.  
One connection.  
One moment of visibility away from their next level.  
Yet, access is not always evenly distributed.

There are women building. Women leading. Women creating impact across industries. Women solving real problems and shifting culture. But their names are not always heard. Their work is not always seen. Their influence is not always acknowledged on a global stage. That is where this comes in.

**The Global Dominion 100 i Legacy & Leadership Index is** not just about recognition, it is about revealing.

Yes, there are names the world already agrees on. Women like Oprah Winfrey and Beyoncé have long defined what influence, ownership, and cultural impact can look like at the highest levels. Agree with them or not, their contributions are undeniable. Their legacy is established.

# *A Letter from the* **PUBLISHER**

But this index is not about repeating what is already known. It is about expanding what is seen. It is about honoring women who are building in real time; some at scale, some in emerging spaces, and some in rooms the world has not yet paid attention to.

Because there is no time like the present to build what does not yet exist, some say, "If you're not invited to the table, create your own."

I believe it is time to go further than that. It is time to create gates. Gates of access. Gates of visibility. Gates that open opportunities for others to be seen, heard, and connected. This index is one of those gates.

Within these pages, you will find women you recognize immediately. You will also find women you may be encountering for the first time. That is intentional. Because influence is not only measured by visibility, it is measured by impact, consistency, and what is being built behind the scenes.

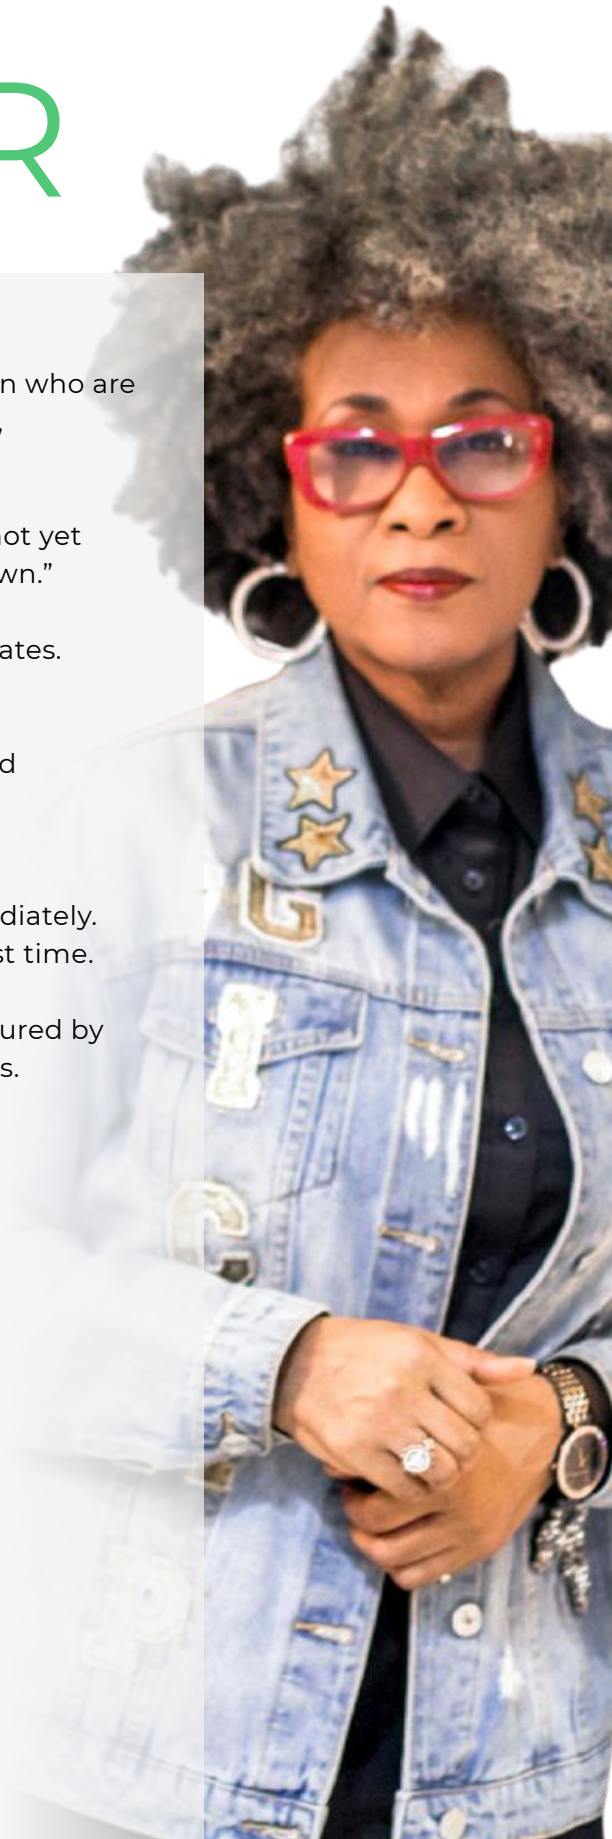

As you read, I invite you to lean in. Pay attention. Take note. Make connections.

**And if something resonates with you, share it.**

Because access is not just something we receive. It is something we can extend.

**Welcome to the first edition of the Global Dominion 100.**

# *A Note from the* STRATEGIC PARTNERSHIP DIRECTOR

Building Partnerships for Global Visibility, Influence & Legacy

There are moments in history when vision must do more than inspiration must build. It must open doors, create platforms, and establish new gates of opportunity for those called to lead with courage, conviction, and global influence. This is one of those moments.

Welcome to The Global Dominion 100 Legacy & Leadership Index – Class of 2026. As the Strategic Partnerships Director & Legacy Architect of The Global Dominion 100 Legacy & Leadership Index – Class of 2026, my why is deeply personal, passionate, and purposeful. I believe legacy-driven women leaders deserve more than hard work behind the scenes. They deserve visibility. They deserve expanded reach. They deserve meaningful global connections. They deserve to be seen, valued, honored, and positioned with authority in the rooms, markets, industries, and platforms they were born to influence.

It is a true honor to serve as part of a global team led by Apostle Dwann Holmes, whose creative media brilliance has helped shape a visionary platform for such a time as this. With excellence, innovation, and prophetic foresight, she has cultivated the art of designing visibility platforms, making prophetic gates, and building a strategic marketing system that supports the expansion of visibility, influence, and increased opportunities for impact and legacy.

This special edition publication is far more than a showcase of names and accomplishments, but it is a gateway to greater positioning, broader reach, and meaningful opportunities for legacy leaders whose voices carry the power to shape culture, transform lives, and leave a lasting mark on the world.

This special edition publication was not created simply to showcase accomplishments. It was created to make gates and build platforms. Gates represent access, movement, expansion, and entry into new dimensions of influence and greater impact. We are not merely highlighting names on a page; we are helping to create brand opportunities that shift trajectories, expand presence, and strengthen the public voice of visionary leaders whose impact deserves to travel farther and reach wider.

The Global Dominion 100 Legacy & Leadership Index has brought together an extraordinary class of leaders who chose to level up and lean in with unstoppable courage. Here, we recognize and honor Thought Leaders, Experts, Industry Voices, Lawyers, Estate Planners, Apostles, Prophets, Pastors, Mentors, Founders, Award-Winning Authors, Coaches, Creatives, Strategists, Marketplace Ministers, and Faith-Driven Leaders who are not only participating in important conversations but are shaping them as well. They are driving leadership, innovation, and global influence with boldness and intentionality.
