Our Story

Simplified Commercial AV

Invest in Innovation, Not Complication

Technology can dramatically transform a workspace. Elegantly orchestrated lighting, high-impact video, striking graphics, and pristine audio have the power to amaze, to energize, to motivate, and most importantly, to inspire.

But for far too long, a truly modern and automated AV experience often translated to time-consuming installs, endless points of failure, complicated platforms, and premium prices for systems no one knew how to use. Until now.

Say hello to simplicity. Say hello to SAVI 3.

SAVI 3 is the only commercial AV control, automation, and management solution purpose-built to dramatically simplify and completely redefine the AV experience for business owners, employees, and their customers. From streamlined hardware, effortless integration, and an intuitive user interface to transparent pricing, world-class training, and 24/7 support – SAVI 3 makes it possible for businesses to invest in extraordinary digital transformations without the extra cost, complexity, or complication.

Savi Simplicity

SAVI 3 combines next-generation AV over IP control with innovative features and cost-saving tools to deliver stunning video, immersive audio, integrated lighting, and incredible customer experiences for a fraction of the time and cost.

SAVI User Interface

A UI Built with You in Mind

With modern design treatments and a host of built-in features, SAVI 3 revolutionizes the way you control, manage, and automate your business by providing superior functionality and an intuitive user interface across a wide range of devices. The SAVI 3 UI is so consistent and user-friendly, it takes only minutes to master, and controlling hundreds of devices is just as easy as controlling one. Advanced content distribution, custom automation, and full-system management are a simple tap, click, or swipe away.

Cost Effective

Saves time and money by removing points of failure, unnecessary hardware, and complicated platforms.

BYOD

Accessible from any web-enabled device with no apps or dedicated keypads to buy.

No Training

So simple to use, virtually no training is required.

Intuitive & Modern

Sleek, approachable, and ultra-responsive, it's the first UI designed with you in mind.

User Rights

Assign individual access to rooms, zones, levels, devices, and more.

Feature Rich

Map View, Game View, Macros, Scheduler, and more come *standard*.

Advanced Distribution

Custom content delivery and management without the expense of a digital signage platform.

AV over IP

Unlimited scalability and unsurpassed performance with over a decade of proven reliability.

SVM Simplicity

Automate tedious tasks like opening or closing an entire venue with a single tap.

Facility View

One Touch is All it Takes

Create a crafted customer experience with a single touch, tap, or swipe. Blending seamlessly into daily operations, Facility View provides you with quick and intuitive access, control, and management of all displays, audio zones, lighting, and more.

Now Playing

Two-way feedback provides the current program, channel name, and channel number, enabling a global view of all displays.

Macros

Condense any complex, multi-step task into a single tap, like opening an entire venue or triggering light shows and graphics for events.

Real-Time Guide & Scheduler

Schedule content up to 4 days in advance, eliminate remotes, and never interrupt the guest experience.

Preview

View a live feed of what's playing to verify channel changes before you make them, even if the display is on the other side of the venue.

Optimized Search

Instantly find devices, even when you don't know the name or location.

RESTROOMS
EXIT

SMV Simplicity
Instantly engage customers when their favorite team scores with a 'Touchdown Scene' – an orchestration of seamlessly blended lighting, music, and video.

Map View

Put Your Business on the Map

Map View is a turn-key feature delivering a holistic and nested bird's eye view of your entire AV system. Perfect for a neighborhood bar or a professional sports stadium with thousands of endpoints, it's never been easier to create, edit, control, and manage your AV with this visually intuitive, built-in tool.

Turn-Key

Your SAVI dealer simply uploads your floor plan then adds and edits endpoints already in the system to seamlessly create full-scale maps in seconds.

Advanced Control

Multi-select and multi-edit provide control of volume, lighting, source settings and more, directly in Map View.

Nested Organization

Clean, modern, and ultra-responsive, maps can be nested and organized by location, room, level, or zone.

Quick Find

The dynamic "@" feature pinpoints exactly where sources are distributed, and the adjustable SAVI Preview shows exactly what's playing.

Fast Filter & Search

Control your entire system or search and filter endpoints by audio, video, lighting, sources, and macros.

Choose Your View

Display two-way feedback and meta-data for selected endpoints including source, channel, program, or device name.

SAVI Simplicity

Use Map View in creative ways, like visualizing your video wall layouts.

Game View

A Game-Changer Come Game Time

Say goodbye to digging through channel line ups and googling game times. Game View aggregates current and future sporting event data into a simple and elegant view, making it easy and fun to fulfill any fan's fantasy, any time.

Visually Informative

schedule complete with team logos, colors, and program data.

Search by team or filter by sport to see all upcoming athletic events at once.

Schedule games up to 4 days in advance.

Now Playing includes Game View for quick recognition and selection.

SAM Simplicity

Schedule high traffic game days in advance so you never miss a play or a customer request again.

SAVI Canvas

Make Any Display Your Canvas

Deliver high-impact visual experiences by leveraging the power and profitability of your displays with SAVI Canvas. SAVI Canvas enables advanced video and content distribution, control, and management with built-in features for video walls, tiling, multi-cast, source switching, digital signage, and more – all without the added expense of a digital signage platform.

No Box Behind the Display

Eliminate unnecessary equipment, reduce points of failure, and distribute video to hundreds of devices with no decoder required.

Canvas Layouts

Divide the display to show multiple sources on a single screen. Choose a pre-configured layout, then customize each region with SAVI Show content, live TV, iFrames, and more, without calling your integrator.

Illustrative Organization

Previews and filters simplify navigation for fast content deployment on any web-enabled device.

Compatible with

SAVI Simplicity

Using the L-layout, play the big game, promote 'Happy Hour' specials, and generate profit with sold ad space.

Canvas Dashboard

Remote Asset Management

With at-a-glance status of all displays, the Canvas Dashboard provides easy remote management, support, and troubleshooting. Manage and monitor device health, see exactly what's playing on each display, or pull MAC addresses and warranty information, anywhere, anytime.

Auto-Detect and Linking Capabilities

Radically simplify troubleshooting and service calls while avoiding downtime.

Canvas Dashboard Includes:

- Software & Firmware Updates
- Temperatures
- Uptime
- Warranty Information
- MAC Addresses
- Serial Numbers
- Screen Scraped Content
- Dates Added

SVM Simplicity

Find comfort in knowing exactly what's playing on all displays, even when you're not there.

SAVI Show

Your Content Manager

Simplified at every step, from basic branded signage to custom ad layouts, SAVI Show puts content creation, distribution, and management into your hands. Storing assets like logos, menus, specials, slideshows, or ads, SAVI Show allows you to deliver personalized content to any display, any time – eliminating the need for a complicated and costly CMS.

Dedicated Media Database

Built-in content storage and accessible from any device with drag & drop or bulk upload functionality.

Scheduler

Eliminate manual tasks by pre-scheduling SAVI Show media. Shift from lunchtime specials to happy hour or seasonal product promotions to weekly events automatically.

Looping Slideshows

Configure slideshows with settings for duration, interval, and transitions.

Increase Revenue

Enhance customer experiences by scheduling, deploying and automating custom content like daily specials or sold ad space.

Media Matching

Tap a desired layout region in Facility View and media with matching dimensions will display at the top.

Auto-Recognize Ratios

SAVI Show removes the guesswork by recognizing and categorizing files based on aspect ratios fit for your Canvas Layouts.

Auto Frame Fill

Eliminate the negative space around any content that doesn't fit perfectly into a layout region.

Preview

View SAVI Show content thumbnails directly in the Facility View User Interface.

SAVI Simplicity

Delight your customers with that extra personal touch – upload their engagement, retirement, or celebration photos to SAVI Show, then create and deploy a slideshow in seconds.

SAVI Hardware

Seamless Integration, Powerful Experiences

Engineered to save business owners time and money, the SAVI Hardware line eliminates points of failure and streamlines your integration process. Get highly reliable, efficient, and powerful experiences with sleek, flexible, and scalable options.

Fully Integrated

The SAVI ecosystem offers extreme efficiency, flexibility, and interoperability with third-party devices.

Cost-Effective

Eliminate unnecessary cabling, extra hardware, and costly platforms.

Brilliant Audio & Video

HiFi quality sound and advanced content distribution deliver flawless viewing and listening experiences.

Trusted System

Over a decade of proven reliability with global deployment.

Controllers

From restaurants with 10 displays to stadiums with 1000s of endpoints, the SAVI Server Pro is the heart of your system, delivering powerful and intelligent control, management, and automation.

Video Encoders

Whether it's the STREAM.One or STREAM.One 4K, one product does it all, delivering next-generation video distribution with source syncing for a seamless and unified viewing experience.

Accessories

Cooling solutions, HVAC control, and integration with legacy, non-IP devices – SAVI's robust ecosystem makes it easier than ever to streamline your AV.

Audio

With ICEpower amplification modules, SAVI Audio, featuring the DSP.One, AMP.One, and DMA.One, brings superior, HiFi quality sound and unmatched power to commercial businesses. Perfectly coupled with any Sonance speaker to blend seamlessly into your environment, SAVI Audio delivers rich audio experiences for a fraction of the time and cost.

Lighting

Ushering in a new era of powerful and versatile lighting experiences, SAVI QoraLux simplifies commercial lighting with energy-efficient and cost-effective solutions. Offering a range of low- and high-voltage control devices and fixtures, QoraLux provides customized, reliable options for immersive and engaging lighting environments.

SAVI Hardware

Superior Quality and Durability

Proudly designed and assembled in the USA with superior craftsmanship, the SAVI Hardware line features cold rolled steel construction and a sleek, durable black powder coating. The SAVI ecosystem offers a comprehensive range of products, from 4K video and HiFi audio to low-voltage light fixtures and customizable control devices, all thoughtfully engineered for seamless integration and optimized to enhance any commercial experience. The complete SAVI Hardware line is available through your SAVI 3 Certified Dealer.

About SAVI

Hello Simplicity.

As former commercial AV integrators, we spent years in the industry frustrated by the overly complicated and ridiculously expensive solutions on the market. We weren't alone – business owners were growing tired of the time-consuming installs, endless points of failure, complex platforms, and premium prices for systems they didn't know how to use.

That changed in 2011.

Driven by the belief that technology should make life easier, while recognizing the untapped potential AV had to drive profit for businesses, we started SAVI Controls: a customer-focused company with the mission to revolutionize the commercial AV industry by providing advanced and intuitive tools for everyone.

We spent the next decade listening; developing, testing, and evolving our platform with the goal to deliver a dramatically simplified, yet incredibly powerful solution. We wanted to empower businesses with the freedom and flexibility to create unforgettable experiences in a fraction of the time and cost.

In 2020, we launched SAVI 3, the only highly sophisticated, cost-efficient commercial AV solution that's simple enough to program in hours, intuitive enough to learn in seconds, and powerful enough for every application.

With SAVI 3, we've revolutionized commercial AV.
And we're just getting started.

With SAVI, business owners no longer have to compromise on time, cost, or quality. We're committed to delivering next-gen AV experiences with ground-breaking simplicity, so you can focus your energy where it's needed most: growing a thriving business.
