

# INSTRUCTIONS

# BUTLER

Each stand is unique because they are handmade. Thanks to the flexible legs, the BUTLER can be effortlessly adjusted to the perfect fit.

1

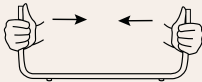

Take all elements out of the box and remove the red protective caps.

2

Slide both legs evenly over the frame and check firmness.

3\*

Is there too much movement? Remove the legs from the frame and create more tension by gently pushing both sides inwards. Then slide the legs back over the frame.
