Gatemaster has built its reputation on dependable gate hardware, practical design, and a clear understanding of what installers and fabricators need.

Our range is designed to give you reliable solutions for a wide variety of gate applications, backed by expert support when it matters—we're here to help.

Superlock 2.0 Bolt-On Tough, Secure & Quick to Fit

The Superlock is our bolt-on lock range for metal gates, combining straightforward fitting with strong, reliable security. Built for outdoor use and long-term performance, and backed by a 5-year warranty.

6

Select Pro Bolt-On Traditional Look, Quality Feel

Our original range of gate locks, the Select Pro's traditional square design and long throw is popular around the world.

20

Weld-In Locks Seamless security

A weldable lock range for any steel gate, giving an unobtrusive and highly secure solution.

32

Wooden Gate Locks Timber Solutions

Our locks for wooden gates take the nature of timber into consideration, providing ultimate adjustability and reliability.

39

Mortise Lock Concealed Security

The Gatemaster Mortise Hook lock is a robust all-stainless steel mortise lock designed for fitting into steel box section.

47

BUILT TOUGH FOR BETTER GATE SAFETY & SECURITY

SUPERLOCK RANGE STRONG & SECURE

The Superlock range is our flagship range of gate locks, designed to make fitting easier and deliver dependable security, it combines low-profile design, durable construction, and a wide choice of options for different gate applications.

1

Built to Last: Made for the outdoors with exceptional corrosion resistance.

2

Quick Fitting: Simply drill three holes and bolt the lock on.

3

Versatile: Available with a variety of hardware options to suit your needs.

4

Adjustable: Features a removable & adjustable latchbolt for easier installation.

5

Low-Profile: Fits seamlessly into tighter gaps on the gate.

WHAT'S NEW WITH SUPERLOCK 2.0?

Engineered for Greater Strength

The new one-piece casing eliminates joints and welds, providing enhanced durability and heavy-duty performance.

Longer-Lasting Protection

Improved materials and finishes provide enhanced corrosion resistance, offering better protection against weathering.

Simplified Code Changes

Changing the code is now significantly easier—you no longer need to remove the lock from the gate, only the keypad.

Reversible Handing

Superlock can now be adapted on-site either left & right hand gates, making it easier to select and stock.

Superlock 2.0 Bolt-On Latch Deadlock

The ultimate combination of convenience and security for your gates.

The Bolt-on Latch Deadlock offers the ease of everyday use with a latch and the enhanced protection of a deadlock. Operate the latch with the handles for daily access, and lock it securely in place with the turn of a key when needed.

- **New Seamless One-Piece Design:** Enhanced design eliminates joints and welds, ensuring superior durability and a streamlined appearance.
- **Secure:** Features a stainless steel latchbolt that latches 5/8" into the gate post and extends to 1 3/16" when deadlocked.
- **Adaptable:** Robust 2 3/4" case design makes this lock compatible with a wide range of gate styles.
- **Convenient:** Adjustable latchbolt length and rotatable for left or right-handed gates.
- **Reliable:** Comes with a guide plate and brass bearing for long-lasting performance.
- **Versatile Sizes:** Available in two options—1030 for up to 1 1/4" gate frames and 4060 for 1 1/2" to 2 1/4" frames.
- **Supplied Handles:** Choose between the plain lever (P) or traditional handle (T) styles.
- **Double-sided Access:** Equipped with handles and key access on both sides for added convenience.
- **Enhanced Security:** Pair it with the Superlock Keep to maximize security and durability. A standard strike plate is included, but the Superlock Keep is recommended for thorough protection.

Protected with a 5-Year Warranty

AVAILABLE VERSIONS

BLD1030P	To fit 3/8" to 1 3/16" - profiled handle
BLD4060P	To fit 1 1/2" to 2 1/4" - profiled handle
BLD1030T	To fit 3/8" to 1 3/16" - traditional handle
BLD4060T	To fit 1 1/2" to 2 1/4" - traditional handle

Superlock 2.0 Bolt-On Deadlock

Maximum security meets effortless simplicity with the Superlock Deadlock.

Designed for ultimate reliability, its single 5/8" locking action ensures robust protection, while the low-profile design allows it to fit seamlessly into most gate designs.

- **Easy to Fit:** The robust 2 3/4" lock case, combined with an adjustable and removable deadbolt, makes installation a breeze.
- **Simple Deadlock Action:** Operate with a key on both sides for secure opening and closing.
- **Corrosion Resistant:** Crafted from stainless steel for superior durability and resistance to the elements.
- **Convenient:** Adjustable deadbolt length ensures precise fitting directly on site.
- **Reliable:** Includes a guide plate with a brass bearing for long-lasting performance.
- **Versatile Sizes:** Available in two options—1030 for 3/8" to 1 3/16" gate frames and 4060 for 1 1/2" to 2 1/4" frames.

Protected with a 5-Year Warranty

AVAILABLE VERSIONS

BD1030	To fit 3/8" to 1 3/16" frame
BD4060	To fit 1 1/2" to 2 1/4" frame

"Comes with detailed instructions and all necessary hardware, making installation straightforward. Great service. Highly recommend."

Superlock 2.0 Bolt-On Keylatch

A durable, premium latch lock that operates with a key, the Superlock Keylatch is the ideal solution for reliable security.

Built for outdoor use, it's weather- and corrosion-resistant, making it perfect for metal gate frames. Plus, it's designed for straightforward installation—just drill three holes, bolt it on, and you're ready to go.

- **Built to Last:** Made from stainless steel for exceptional durability in any weather.
- **Key-Operated Simplicity:** Slam the gate shut and open it with the key for hassle-free security.
- **Easy to Fit:** A one-piece 2 3/4" lock case with an adjustable, removable latchbolt makes installation simple.
- **Adaptable Design:** The latchbolt is adjustable in length and can be rotated for left- or right-handed gates.
- **Added Support:** Includes a bolt support plate and gate post strike plate for a secure fit.
- **Versatile Sizes:** Available in two options—3/8" to 1 3/16" gate frames and 1 1/2" to 2 1/4" frames.

Protected with a 5-Year Warranty

AVAILABLE VERSIONS

BK1030	To fit 3/8" to 1 3/16" frame
BK4060	To fit 1 1/2" to 2 1/4" frame

"Service was excellent, more importantly the lock is just what I needed - perfect and UK made, mostly in stainless!"

Superlock 2.0 - Digital Code Lock - Double Sided

Delta handle option available.

Designed for easier gripping and turning, plus our built-in anti-climb feature.

PRODUCT CODE: BDGD

Secure access made simple with the Double-Sided keypad Superlock.

Combining the convenience of a mechanical keypad with the straightforward installation of the Superlock range, this lock is easy to fit—just drill three holes and bolt it on.

- **No Power Needed:** Operates with mechanical keypads for fast, hassle-free installation.
- **Adaptable Design:** Robust 2 3/4" wide case suits a variety of gate styles.
- **Enhanced Security:** The latchbolt projects up to 1/2" into the gate post, providing increased security and greater tolerance.
- **Built to Last:** Stainless steel mechanism and a bolt support plate with a brass bearing ensure durability.
- **Fully Adjustable:** The latchbolt length can be adjusted and set for left- or right-handed gates.
- **Auto-Latching:** Simply close the gate to latch it securely; enter the code and turn the handle to open.
- **Dual Keypads:** Equipped with keypads on both sides for added convenience. Also available with a rear handle option—see the next page.
- **Smooth Operation:** Supplied with a gate post strike plate for seamless latching.
- **Extra Security:** Use with a Superlock Keep to maximize security and extend product life (see page 17).

Protected with a 5-Year Warranty

Superlock 2.0 - Digital Code Lock - Single Sided

The perfect balance of security, simplicity, and durability for modern gates

The Superlock Single-Sided Code Lock is designed for box section metal gate frames, this robust and sturdy lock is easy to install and adjust, offering reliable and convenient access every time.

- **Convenient Access:** Digital keypad on one side with a rear handle for smooth operation.
- **Hold-Back Feature:** Keep the latch retracted when needed, adding extra convenience.
- **Secure:** Stainless steel latchbolt latches 1/2" into the gate post for robust security.
- **Durable Design:** Built to last with a stainless steel mechanism and a brass-bearing bolt support plate.
- **Adaptable:** Adjustable latchbolt suits different box section sizes.
- **Versatile Options:** Comes with a keypad on one side and a handle on the other. For keypads on both sides, see page 11.
- **Smooth Operation:** Includes a gate post strike plate for easy and secure latching.
- **Enhanced Security:** Pair with the Superlock Keep for added protection and extended product life (see page 17).

Superlock 2.0 with RapidReset Code Change

★ **New Product**

Revolutionize gate security with the Superlock featuring RapidReset.

Designed for ultimate convenience, this innovative lock lets you change codes in seconds while maintaining robust, secure functionality—all without the need for power or batteries.

- **10-second code changes:** Update the code fast, without removing the lock from the gate.
- **No battery or power needed:** Low maintenance, non-electric secure locking mechanism.
- **Easy to fit:** The adjustable and removable latchbolt ensures easy installation.
- **Easy to operate handle:** Designed particularly for those with mobility issues who find gripping and turning difficult.
- **Highly secure:** The latchbolt moves 5/8", ensuring the bolt enters deep into the gatepost.
- **Anti-climb handle:** This lock is also fitted with an anti-climb handle to prevent intruders from using the handle as a foothold to climb the gate.
- **Hold-back function:** When the button on the back is activated to hold the lock in the open position.
- **Long-lasting & durable:** Purpose-engineered for outdoor use with anti-corrosion and stainless steel construction.
- **Versatile Options:** Also available with a double-sided keypad for added flexibility.

Protected with a 5-Year Warranty

Simplify exits while improving security with the Superlock Bolt-On Quick Exit.

Sliding Gate Lock with RapidReset Code Change

★ **New Product**

Purpose-built for sliding gates, this Superlock features our convenient quick-change keypads for effortless access control.

With a robust latch system and smooth lever handles, it's the ideal solution for securing sliding gates in high-traffic or restricted-access environments.

- **RapidReset Keypads** – Both sides feature Gatemaster's intuitive RapidReset system, letting you update codes quickly and securely without removing the lock from the gate.
- **Mechanical Operation** – No power, no batteries—just reliable performance, ideal for remote or high-use gates.
- **Lever Handle Design** – Sleek, ergonomic handles make operating sliding gates easy and efficient.
- **Self-Latching Mechanism** – The latch automatically engages when the gate is closed, keeping security simple and seamless.
- **Heavy-Duty Construction** – Manufactured from corrosion-resistant materials and built to endure harsh outdoor conditions.
- **Quick & Clean Installation** – Bolt-on design fits standard sliding gate frames with minimal prep—no welding required.
- **Supplied with Keep** – Includes a matching keep for secure latching and a neat, professional finish.

Protected with a 5-Year Warranty

Single-side keypad version also available

Superlock Keep

Designed to work seamlessly with the entire Superlock range, this keep is easy to install. Mount the gate slam plate onto the gate frame when fitting the lock, and use the expanding fasteners to secure the keep to the gate post.

- **Enhanced Security:** Shields the latchbolt to prevent unauthorized access.
- **Highly Versatile:** Simple to fit to a wide range of gate applications.
- **Sleek Design:** Slim profile enhances the overall appearance of the gate.

BSK

Superlock keep

Superlock Interlocking Keep

The clever interlocking design ensures the gate cannot be levered off the post once closed. One section bolts securely in front of the lock, while the post bracket attaches easily using two expanding fasteners.

- **Maximum Security:** Prevents the gate from being levered or forced apart.
- **Effortless Installation:** Simple to fit and suitable for a variety of applications.
- **Smart Look:** Slim design enhances the gate's appearance for a clean, professional finish.

BSKS

Superlock interlocking keep

Superlock Gapless Keep

The gapless keep is ideal for gates with a small gap between the gate and post, acting as both a security feature and a gate stop. Installation is quick and easy—just drill two holes in the post and secure it with our innovative expanding fasteners.

- **Highly Versatile:** Simple to fit and suitable for a variety of gate applications.
- **Enhanced Security:** Blocks access to the latchbolt for added protection.
- **Streamlined Design:** Slim profile improves the gate's overall appearance.

BSKG

Gapless keep

Superlock Quick Exit Shroud

This security shroud prevents outside access to the gate, stopping intruders from reaching around to operate the lock. Installation is quick and simple—just bolt the shroud in front of the lock with no additional fixings required. The updated design now makes the BQS Security Shroud fully compatible with the Superlock Quick Exit gate locks (pp. 14–16) and the single-sided Superlock Digital Code gate lock (p. 12).

*"Excellent products and very helpful over the phone.
I would definitely recommend."*

Select Pro Bolt-on Long Throw Keylatch

"Good range of professional level products, difficult to find items, and real engineered solutions."

Ensure secure and reliable gate access with the Select Pro Bolt-On Long Throw Keylatch.

Perfect for communal gates where the gate needs securing every time it is shut, this lock automatically latches shut when the gate is closed and can only be opened with a key, providing dependable security every time.

- **Adaptable:** Adjustable latchbolt length, suitable for both left- and right-handed gates.
- **Enhanced Security:** Stainless steel latchbolt springs an impressive 6/8" into the gate post for increased protection.
- **Convenient Access:** Keyed on both sides for easy entry and exit.
- **Long-Lasting Performance:** Supplied with a guide plate featuring a brass bearing to ensure durability.
- **Versatile Options:** Available in two sizes—01 for 3/8" to 1 3/16" flat bar or box section gate frames, and 02 for 1 1/2" to 2 1/4" frames.
- **Smooth Operation:** Includes a gate post strike plate for seamless and secure latching action.

Select Pro Bolt-on Quick Exit No Outside Access

RIGHT HAND
LOCK SHOWN

Ensure fast, secure one-way exit with this quick exit gate lock, offering robust performance and ease of use.

Designed for metal gates, this lock is ideal for gates requiring one-way access. The angled latch bolt ensures the gate automatically latches shut upon closing, providing reliable security without outside entry.

- **One-Way Access:** Allows exit only, with no outside entry for added security.
- **High Security:** Features a 5/8" stainless steel latchbolt that extends 13/16" into the gate post.
- **Durable Construction:** Includes a bolt guide plate and gate post strike plate for smooth and lasting operation.
- **Customizable Fit:** Adjustable latchbolt length for precise on-site fitting.
- **Effortless Installation:** Drill just three holes in the gate frame for a straightforward setup.
- **Versatile Options:** Available with key or digital keypad entry for gates requiring dual-side access (see p. 25-26).
- **Optional Shroud:** Prevents tampering or pad access from the outside (see p. 30).

SelectPro Bolt-On Code Lock - Double-Sided Keypad

This digital gate lock combines the convenience of a mechanical keypad with the ease of installation of the bolt on lock range. To fit simply drill three holes in the gate frame and bolt the lock on.

- **No power needed** – mechanical keypads for a quick and easy install.
- **Secure** – latchbolt projects up to 13/16" into the gate post which increases security and gives more tolerance.
- **Long lasting** – brass bearing plate supports the latchbolt reducing wear and increasing product life.
- **Adaptable** – the latchbolt can be adjusted in length and set to left hand or right hand.
- **Durable** – tested to over 1000 hours salt spray, this product will survive the elements.
- **Auto-latching** – close the gate and the latchbolt latches into the gate frame. To open the gate – enter the code and turn the handle.
- **Keypad on both sides** – also available as a keypad and rear handle.

AVAILABLE VERSIONS

DGL01	To fit 3/8" to 1 3/16" gate frames
DGL02	To fit 1 1/2" to 2 1/4" gate frames

"Very good products, good prices and great service."

Select Pro Bolt-on Code Lock - Single Sided

Achieve secure, keyless entry with this reliable digital gate lock.

Featuring a mechanical keypad on the outside and a free-turn handle on the inside, this lock combines convenience and robust functionality. Its auto-latching feature ensures the gate locks upon closing, with the added flexibility of a hold-back function to keep the gate unlocked when needed.

- **Power-Free:** Mechanical keypad eliminates the need for electricity or batteries.
- **Enhanced Security:** The latchbolt extends up to 13/16" into the gate post, offering increased security and greater tolerance.
- **Built to Last:** Includes a brass bearing plate to support the latchbolt, reducing wear and prolonging the lock's lifespan.
- **Highly Adaptable:** Adjustable latchbolt length accommodates both inward and outward-opening gates.
- **Weatherproof Durability:** Successfully tested to withstand over 1,000 hours of salt spray, ensuring resistance to the elements.
- **Auto-Latching Design:** The latchbolt automatically engages upon closing the gate.
- **Flexible Configurations:** Keypad on one side and handle on the other, with the option for dual-keypad access.

AVAILABLE VERSIONS	
DGLS01L	3/8" to 1 3/16" gate frame - left hand
DGLS01R	3/8" to 1 3/16" gate frame - right hand
DGLS02L	1 1/2" to 2 1/4" gate frame - left hand
DGLS02R	1 1/2" to 2 1/4" gate frame - right hand

Select Pro Quick Exit Shroud

Enhance gate security with this easy-to-fit shroud for Quick Exit locks.

This shroud is a simple yet effective upgrade to boost the security of your Quick Exit gate locks. Designed to prevent tampering, the shroud restricts access to the push pad from the outside, providing an added layer of protection for your gate.

- **Increased Security:** Effectively blocks access to the push pad from the outside of the gate.
- **Effortless Installation:** Simply bolts between the lock and the frame—no welding or extra holes required.
- **Wide Compatibility:** Suitable for all Gatemaster Quick Exit locks (pp. 25-27) and the digital single-sided lock (p. 29).

SELECT PRO WELD-IN SEAMLESS SECURITY

Our weld-in gate locks provide a discreet and highly secure locking solution. Simply weld the steel case into the gate frame, paint it along with the gate, and slide the mechanism in after for a clean, seamless finish.

Suitable for both bespoke and mass-produced gates, weld-in locks are available in a range of styles and widths. Their design allows a section of the gate to be cut out, enabling the lock to be welded flush with the front and sides of the box section for a streamlined look.

SWLD Latch Deadlock	33

SWKLLT Long Throw Keylatch	35
Select Pro Weld-in Accessories	36

Select Pro Weld-in Latch Deadlock

This weld-in latch deadlock is ideal for those seeking a robust, secure, lock with a latch and deadlock.

Featuring both a latch and a deadlock on a single bolt, this Select Pro gate lock, offers a seamless solution for security on metal gates. Operate the latch with the handles, and turn the key to extend the deadbolt 1 3/16" into the gate post for added security.

- **Enhanced Security:** Stainless steel latchbolt springs 1/2" into the gate post and extends to 1 1/8" when deadlocked.
- **Precise Fit:** Adjustable latchbolt length allows for on-site customisation, and it can be rotated for left- or right-handed gates.
- **Maximum Strength:** Welding the lock into the gate ensures the most secure installation method.
- **Long-Lasting Durability:** Features a brass latchbolt bearing for smooth, reliable operation over time.
- **Versatile Sizing:** Available in four widths to suit popular gate frame sizes
- **Handle options:** See page 50 for our available handles
- **Complete Kit:** Supplied with a gate post strike plate for smooth latching action.

Select Pro Weld-in Deadlock

Achieve robust security for metal gates with this solid weld-in deadlock.

This weld-in deadlock is the ideal choice for those seeking strength, adaptability, and secure gate locking. Featuring a single keyed deadlocking action, the lock extends the deadbolt 1 3/16" with just one turn of the key, providing reliable protection for your gates.

- **Enhanced Security:** Stainless steel deadbolt extends 1 3/16" into the gate post for a secure hold.
- **Precise Fit:** Adjustable deadbolt length ensures accurate on-site fitting.
- **Maximum Strength:** Welding the lock into the gate offers the most secure installation method.
- **Convenient Access:** Keyed on both sides for easy operation.
- **Durable Construction:** Made with a 1/8" steel lock case for long-lasting reliability.
- **Versatile Options:** Available in four lock case widths to suit various box section sizes.

"Nothing short of excellent service, well done to all!"

Select Pro Weld-in Long Throw Keylatch

Ensure dependable security with the Select Pro Long Throw Keylatch.

The Select Pro Long Throw Keylatch is the perfect choice for gates that require secure locking when the gate is closed shut. Designed to automatically lock when the gate is pulled closed, this key-operated latch is ideal for communal gates, ensuring they are securely locked every time they are shut.

- **Reliable Security:** Simply slam the gate shut—it locks automatically and requires a key to open.
- **Enhanced Protection:** Stainless steel latchbolt extends 1 3/16" into the gate post for added security, with a long throw for extra strength.
- **Customizable Fit:** Adjustable latchbolt length and rotatable design make it suitable for both left- and right-handed gates.
- **Long-Lasting Durability:** Fitted with a brass latchbolt bearing for smooth, reliable operation over time.
- **Versatile Sizing:** Available in four lock case widths to suit popular box section sizes.

SLDSRR	Superlatch RapidReset
SLDSE140	Extension kit for up to 5 1/2" thickness

Gatemaster Gate Locking Bolt

Secure your gate with this easy to install robust surface-mounted lock.

Designed for easy installation, it attaches directly to the surface of metal or wooden gates, providing reliable security. To deadlock the gate, simply turn the key behind you.

- **Convenient Access:** Keyed on both sides for simple and secure entry and exit.
- **Versatile Design:** Non-handed, making it suitable for both left- and right-handed gates.
- **Long Throw for Security:** 2 1/16" deadbolt movement with a single turn of the key for a strong, secure lock.
- **Durable Construction:** Made from stainless steel, ensuring reliability in all outdoor environments.
- **Complete Kit:** Supplied with a screw-fixed keep plate (GLBKT) and fixing screws for both the lock and keep plate.
- **Optional Weld-In Lock Plates:** Plates are available for welding or screwing onto the gate, pre-drilled for perfect alignment with the lock. A slotted lock plate paired with the keep plate is ideal for securing double gates (see opposite page).

The lock euro cylinder which extends From the back of the lock is available in 2 lengths for different gate thicknesses.

SILVER VERSIONS

GLB	Euro cylinder extends 15/16"
GLB02	Euro cylinder extends 2 3/8"

BLACK VERSIONS

GLBB	Euro cylinder extends 15/16"
GLBB02	Euro cylinder extends 2 3/8"

GLBKT

Screw-Fixed Keep Plate (Included)

Supplied with our Gate Locking Bolt, this stainless steel plate fits securely to the gate post to receive the locking bolt.

GLBST

Slotted Screw-Fixed Lock Plate

Designed for wooden gates, this keep plate attaches to the second gate and passes through the slot in the lock plate, securing with the deadbolt. This helps prevent the gates from being forced open.

SSE

Screw-Fixed Escutcheon

Fitted around the euro cylinder, this Stainless Steel escutcheon provides added protection against attack.

GLBP

Standard Lock Plate

Ideal for single gates, this lock plate is supplied with fixing screws. Weld it to the gate and fit the lock once the gate has been galvanized or painted.

GLBS

Slotted Lock Plate

Used for double gates, this keep plate is welded to the second gate and passes through the slot in the lock plate, where it is secured with the deadbolt. This prevents the gates from being forced apart. It can also be used to enhance security on single gates.

GLBK

Weldable Steel Keep Plate

Designed to be welded to the gate post for secure fitting. A screw-fixed version (GLBKT) is supplied with the lock as standard.

Gatemaster Surface Mounted Keypad Gate Lock

Achieve secure, keyless access with this high-performance marine-grade digital gate lock.

Perfect for surface fitting on wooden gates, it combines convenience with reliability. Installation is simple—just drill three holes in the gate frame and attach using the supplied fixing screws. The code can be easily customized to suit your needs.

- **Power-Free Convenience:** Mechanical keypads eliminate the need for electricity or batteries, ensuring quick and fuss-free setup.
- **Enhanced Security:** The latchbolt extends up to 13/16" into the keep, providing extra-strong locking and increased tolerance.
- **Weather-Resistant Design:** Tested to endure over 1,000 hours of salt spray, offering robust performance in outdoor environments.
- **Effortless Installation:** Supplied with a keep for straightforward fitting to your gate.
- **Auto-Latching Action:** The latchbolt locks automatically when the gate is closed. To unlock, simply enter the code and turn the handle.
- **Extra Security:** Includes a keep box for enhanced protection.

Gatemaster Surface Mounted Quick Exit Keypad Access

Provide secure, keyless access and effortless quick-exit with this surface-fixed gate lock.

This surface-fixed digital gate lock features a quick-exit push pad on the inside and a digital keypad on the outside. Designed for straightforward installation, it is ideal for both wooden and metal gates, making it perfect for locations requiring convenient exit and keyless entry.

- **Corrosion-resistant:** Built to withstand the elements, with a digital keypad on one side and a push-exit pad on the other, suitable for wooden and metal gates.
- **Effortless Installation:** Surface-mounted design requires only three drilled holes and screws to fit the lock securely onto the gate.
- **Auto-Latching:** Close the gate to automatically secure it as the latchbolt locks into the frame. To open, simply enter the code and turn the handle.
- **Adjustable Latchbolt:** The latch extends 7/8" and can be adjusted in length for precise on-site fitting, ensuring a snug and reliable fit.

BUILT TOUGH FOR BETTER GATE SAFETY & SECURITY

MORTISE LOCKS DISCREET, ROBUST SECURITY

Our ML4 mortise hook lock is a revolutionary design incorporating a latch and deadlock in one single hooked bolt. Simply slotted into pre-drilled holes in square box section, the Gatemaster mortise lock is highly secure and protected from vandal attacks, blending well into any gate design.

ML4 Mortise Hook Lock	48
MLK	49

1

Compatible Design:
Fits seamlessly into 40mm x 40mm box sections or larger.

2

Complete Solution:
Available with a full hardware kit for convenience.

3

Corrosion-Resistant:
Made entirely from stainless steel for long-lasting durability.

4

Effortless Installation:
Simply slot into pre-cut holes in the gate for quick fitting.

5

Versatile Adjustment:
Adjustable latch tip for both left- and right-handed gates.

ML4 Mortise Hook Lock

The Gatemaster Mortise Hook Lock offers a perfect blend of strength, security, and stylish design for professional gate systems.

This innovative stainless steel lock combines a latch and deadlock in a single-action bolt, offering exceptional durability and effortless installation. Designed for 1 1/2"x1 1/2" box sections, it slides neatly into place without the need for drilling or tapping.

- **Extra-Strong:** Proven to withstand 1,000,000 openings for long-lasting performance.
- **Effortless Installation:** Once the profile is cut, the lock slides into position and secures with its own fixings.
- **Highly Secure:** The solid stainless steel hooked bolt resists forcing or levering attempts by intruders.
- **Weatherproof:** Constructed with premium stainless steel and brass components for superior corrosion resistance.
- **Universal Fit:** Adjustable latchbolt makes it suitable for both left- and right-handed gates.
- **Easy Operation:** Operate the latch with a handle or key, and deadlock it for added security.
- **Customisable Style:** Choose a separate cylinder and handle cover for a clean, minimal look or a one-piece polished cover plate for a sleek finish.
- **Comprehensive Kit:** Includes bolt-on keep, handles, cover plates, and a euro cylinder for a complete installation.

LEFT - GATE WITH FULL COVER AND ORNAMENTAL (O) HANDLES

RIGHT - GATE WITH DUAL COVER AND PLAIN (P) HANDLES

GATE HINGES

Gate hinges are one of the most vital components of any gate, ensuring both smooth operation and user safety. That's why we prioritize the use of premium materials and expert engineering, guaranteeing our hinges don't just meet expectations—they exceed them.

Super Hinge	53
STHBP Stop Hinge	54
Security Collars	55

Gatemaster Superhinge

With our 20-year guarantee we're confident in the reliability of the Gatemaster Superhinge. Built for strength and longevity, it delivers unbeatable performance.

Designed for heavy-duty performance, the Superhinge is tested to 500,000 openings with minimal wear and incorporates brass bearings for a smooth, consistent action. Backed by a lifetime guarantee, this hinge ensures your gate operates flawlessly for decades.

- **Superior Strength:** Strength-tested to support gates up to 1,985lbs per pair.
- **Ultra-Durable:** Proven to withstand 500,000 openings—equivalent to 50 years of daily use (25 openings a day) with no wear.
- **Built for Automation:** Low-friction design makes it ideal for use with automated gates.
- **Precisely Adjustable:** Features an adjustable bolt for accurate on-site fitting.

GATEMASTER GUARANTEE:
We're confident in the exceptional wear resistance of these hinges and guarantee to replace any hinge showing excessive wear within 20 years of purchase.

THE SUPERHINGE ALSO COMES IN A CORNER LUG VERSION

Stop Hinge and Bottom Pivot Set

This durable weld-in hinge kit combines practicality, adaptability, and safety for reliable gate installations.

Designed with an integral stop to prevent the gate from opening beyond 100°, it ensures both safety and ease of use while maintaining a sleek, functional design.

- **Improved Safety:** The integral stop eliminates the need for ground stops, reducing trip hazards.
- **Minimized Pinch Points:** Limits gate opening to 100° to keep gaps small and reduce potential risks.
- **Precisely Adjustable:** Both the top and bottom hinges offer on-site adjustment for accurate fitting.
- **Versatile Design:** Easily adaptable for use with both left- and right-handed gates.
- **Centered Pivot Option:** The gate pivot can be positioned at the center of the gate stile for balanced operation.

AVAILABLE VERSIONS

STHBP

Stop hinge and bottom pivot set

Push Fit Security Collars

Gatemaster's Security Collars are the simple yet effective solution for protecting and enhancing gate hinges.

Designed for gates with hook and eye hinges, they prevent the gate from being lifted off while adding a polished finish to the hinge.

- **Added Security:** Protrusions inside the collar grip the metal of the gate hook, preventing removal once installed.
- **Fit in Seconds:** Quick and effortless installation—simply push onto the gate hook for a secure fit.
- **Professional Appearance:** Stainless steel cap provides a sleek and attractive finish for a tidy, professional look.

APS Hydraulic Gate Closer & Hinge Kit

Ensure safe and adjustable gate closure with this unobtrusive hydraulically controlled gate closer.

Designed with proven technology, this kit is perfect for gates that require automatic self-closing functionality.

- **Safe Dual-Phase Closing:** The APS closer features controlled dual-phase closing speeds, preventing the gate from slamming and ensuring user safety.
- **Fully Adjustable:** Closing and latching speeds can be customized to suit the specific use case.
- **Strong Performance:** Capable of reliably closing gates up to 375lbs in weight.
- **Vandal-Resistant:** The durable closing unit is mounted underneath the gate, offering added protection from tampering.
- **Unobtrusive Design:** Installed at the bottom of the gate, the closer also functions as a load-bearing lower hinge, keeping the system compact and efficient.
- **No Power Needed:** As a hydraulic closer, it operates without the need for any electricity.
- **Hinge Options:** Choose between a standard built-in hinge (APS) or one with a built-in stop to prevent the gate from opening beyond 90° and damaging the closer (APSSTOP).
- **Bolt-On Version Available:** Also available as a bolt-on version (APSW) for flexible installation.

Gate Closing Strut

Ensure smooth and reliable gate closing for both metal and wooden gates with the GSB gate closer.

Perfect for gates weighing up to 175lbs, this durable closer uses hydraulic damping to ensure the gate closes slowly and steadily. Simply weld or screw fix the brackets to the gate and post, and attach the closer for consistent, reliable performance.

- **Proven Reliability:** Our trusted gate closer solution has been reliably closing gates for years.
- **Adjustable Force:** No need to release gas—simply move the closer along the brackets to adjust the closing force, giving you full control over the gate's movement.
- **Effortless Fitting:** Adjustable brackets ensure easy installation, with no need to compress the strut.
- **Versatile Installation:** Comes with both weld-on and screw-fix brackets, allowing easy fitting to a wide range of gate types.
- **Handles Heavier Gates:** Can close much heavier gates if the hinges are free-running; contact us for advice on your specific gate.
- **Optional Force Reduction:** For permanent force reduction, a gas release tool is available—get in touch with the Gatemaster team for more details.

Available with weld-fix or screw-fix brackets, the GSB gate closer is suitable for both metal and wooden gates.

SHOWN FITTED TO GATE**

Light Duty Spring Closer

Keep access gates safely closed with this light-duty gate closer.

For gates requiring a reliable and safe closing mechanism, this closer is easy to weld onto smaller gates and fabrications, ensuring consistent and dependable performance. This dependable gate closer is a perfect solution for ensuring safety on access gates for commercial and work sites.

- **Effortless Installation:** Simply weld on the lugs and adjust the force as needed.
- **Customisable Tension:** On-site spring tension adjustment is quick and easy—just lift and rotate the adjuster wheel.
- **Ready to Finish:** Supplied to self-color, allowing for galvanising and painting to match the gate.
- **High Quality & Long-Lasting:** Precision engineered and built with durable materials to provide reliable performance and withstand daily use over time.

Secure Locking Drop Bolt

Secure your double gates with this simple yet innovative locking drop bolt.

Designed for strength and ease of use, it fits easily to the gate with expanding fasteners. Made for double gates, the locking plate is rotated round the edge of the gate frame, and cannot be lifted once the second gate is closed.

- **Robust Build:** Strongly constructed and available in aluminium or stainless steel finishes for durability.
- **Easy to Install:** Requires only two 1/2" holes in the gate and secures with the included expanding fasteners.
- **Adaptable Design:** Suitable for both left- and right-handed gates.
- **Simple to Secure:** When the drop bolt is lowered and rotated, closing the second gate ensures it cannot be unlocked.

"Talked me through the gate issue, gave very useful specific advice."

AVAILABLE VERSIONS

LDB	Locking drop bolt, aluminium
LDBSS	Locking drop bolt, stainless steel

Auto-Locking Drop Bolt

Secure your double gates with this heavy-duty auto-locking drop bolt.

Designed for durability and functionality, the drop bolt locks securely into position when lowered and rotated, with the lifting plate folding across the edge of the gate. Once the second gate is closed, the bolt cannot be unlocked.

- **Robust Build:** 3/4" drop bolt with a 3 15/16" throw ensures the gate is firmly secured into the ground.
- **Flexible Installation:** Available in both weld-fix and bolt-on versions to suit your requirements. The bolt-on version is supplied with fixing bolts
- **Clever Security:** Ingenious design prevents the drop bolt from being lifted when both gates are closed.
- **Versatile Design:** Suitable for use with both left- and right-handed gates.

AVAILABLE VERSIONS

ADB	Weld-on
ADBS	Screw fixed

Concealed Vertical Drop Bolt

Keep your gates secure with this sleek and tamper-proof drop bolt.

Designed to fit neatly within the box section of single or double gates, this innovative drop bolt is discreet, durable, and highly effective. Simply cut slots in the gate stile, weld in the supplied boxes, and assemble with M10 threaded bar (not included) for a secure and professional finish.

- **Tamper-Proof Design:** The drop bolt is fully enclosed within the gate frame for added security.
- **Simple Assembly:** Uses M10 studding that can be cut to length, making it suitable for a range of gate sizes.
- **Versatile Fit:** Compatible with any box section larger than 1 3/16" x 1 3/16".
- **Clever Security for Double Gates:** On the double-gate version, the drop bolt can be lowered, rotated, and locked in position. Closing the second gate ensures it cannot be unlocked.

Available in two versions: one for single gates and one for double gates.

AVAILABLE VERSIONS

CDS	Single gate drop bolt
CDD	Double gate drop bolt

BUILT TOUGH FOR BETTER GATE SAFETY & SECURITY

BUFFERS SILENT CLOSING

Gate buffers are essential for preventing noisy gate closures, ensuring the gate closes smoothly without a loud bang. They are particularly beneficial in residential areas where gates are in constant use, helping to minimize noise and disruption.

For added convenience, we also offer buffers pre-fitted to a bracket that doubles as a gate stop, eliminating the need to install a separate stop to prevent the gate from swinging back in the opposite direction.

Gate Bump Stop

These bump stops will reduce the noise and vibrations of the gate banging shut, often used in residential areas where noise can disturb the public.

- **Noise Damper:** Reduces the noise made when a gate closes.
- **Easy to install:** Simply screw into the gate stop with the nut provided.

AVAILABLE VERSIONS

BS18	3/4" diameter × 1/4" M6 × 5/8" thread
BS50	2" diameter × 1 3/16", M10 × 1" thread

Gate Silencer Kit

Ensure quieter gate closing with a gate silencer kit. This is an angle bracket fitted with 2 bump stops which can be easily fitted to existing gates to prevent banging when the gate closes.

- **Easy to Fit:** Kit comes fully assembled to be bolted onto the gate post and supplied with fixings.
- **Durable:** Black powder coat finish, designed for use outside.

AVAILABLE VERSIONS

GSK	Gate silencer kit

GATE SAFETY & SECURITY ENHANCING PROPERTY PROTECTION

Our range of innovative solutions is designed to ensure the security of properties and the safety of gate users. Our safety and security products are engineered to be both practical and long-lasting.

Gate Safety Restrainer	70
Other Safety & Security Products	71

1

Strength: Braided wire construction provides superior strength for reliable performance.

2

Durability: Stainless steel offers exceptional corrosion resistance, making it ideal for outdoor use.

3

Simplicity: Simple installation requires just two drilled holes, with stop ends that push in easily.

4

Smoothness: Plastic caps ensure smooth operation, allowing the system to slide in and out effortlessly.

Gatemaster Gate Restrainer

Improve safety and protect your property and pedestrians with the stainless steel gate restrainer.

This safety device is designed to reduce the risk of gates falling in the event of hinge failure, offering an essential backup for swing gates where there is a risk of hinge failure causing harm or property damage.

- **Heavy Duty:** Made from flexible braided stainless steel wire and stainless steel end stops for robust performance.
- **Easy Installation:** Requires just two 1/2" holes for quick and simple fitting.
- **Versatile:** Compatible with any box section gate and can be easily retrofitted to existing gates.
- **Weather-Resistant:** Crafted from stainless steel, making it ideal for all outdoor environments.
- **Sleek and Discreet:** Offers a neat, unobtrusive finish that complements any gate color.
- **Tested for Strength:** Proven to withstand gates up to 1,100lbs in weight.

Please note: In the event of hinge failure, the edge of the gate should hit the ground before the restrainer engages. The device is designed to prevent the gate falling sideways, not to bear its full weight. If the gap from the bottom of the gate to the ground exceeds the length of the restraining device, it may not be suitable for your gate.

AVAILABLE VERSIONS

(based on a maximum gate width of 8.2ft)

GRS03	For gates up to 572lbs
GRS04	For gates up to 1,102lbs

Weld-on Security Escutcheon

Weld on to protect an exposed euro cylinder from attack.

AVAILABLE VERSIONS

WSE04	3/16" thickness
WSE08	5/16" thickness
WSE12	1/2" thickness

Stainless Steel Security Escutcheon

Screw-fixed escutcheon to cover euro cylinder hole and protect it from attack.

AVAILABLE VERSIONS

SSE	Stainless steel security escutcheon
-----	-------------------------------------

Push-Fit Security Collar

Fit to a hook and eye type hinge to prevent the gate being lifted off.

AVAILABLE VERSIONS

SCP	Push-fit security collar
