

Building Smarter, Safer, More Reliable Oil & Gas Infrastructure, Together.

Enhance Your Oil & Gas Operations

Upstream

Turtle excels in supporting on and offshore oil and gas exploration and drilling with specialized electrical component solutions including custom cutting, marking, and labeling services, ensuring timely delivery directly to your project site.

Midstream

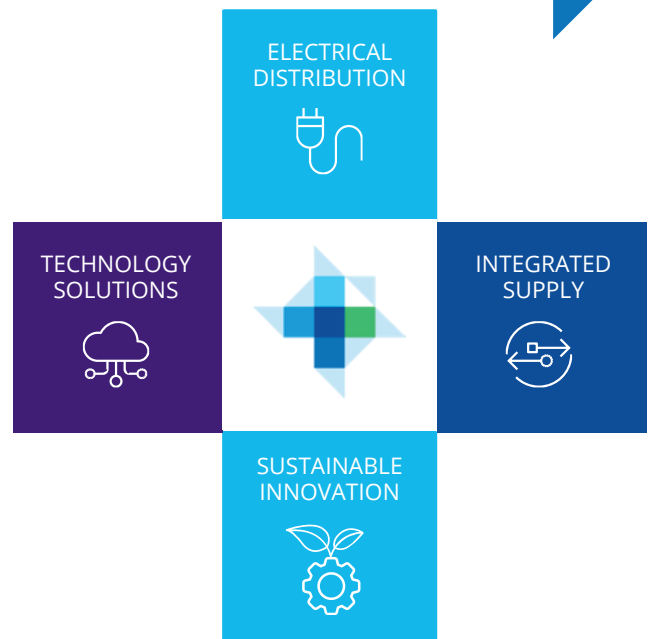

For the transmission and storage of raw products, Turtle offers expertise in industrial and explosion-proof electrical solutions and can facilitate seamless project execution with integrated inventory and logistics, optimizing efficiency and cost-effectiveness.

Downstream

Turtle delivers high-quality, hazardous-area electrical products for downstream operations, including Eaton Crouse-Hinds fittings, hazardous-area lighting, and signaling devices, ensuring on-time delivery and cost control throughout your project lifecycle.

Smart, Sustainable Oil & Gas Solutions that Drive Value, Efficiency and Effectiveness

Our expert team is dedicated to helping you enhance your Oil & Gas operations by:

Our Related Offerings

Power Conditioning, Quality & Backup

Uninterruptible power supplies, power factor correction & automatic transfer switches

Components for Electrical & Mechanical Subsystems

Variable frequency drives, circuit breakers and fuses

Facility Power Distribution

Busway, transformers, panelboards, switchgear and floor-based power

Facility/power Monitoring & Management

Integrated facility systems, facility management software, remote monitoring meters & software

Monitoring Consoles

Network operations center consoles

White Space Power Distribution

Low voltage busway, floor-standing/wall-mount /enclosure power distribution units (PDUs)

Airflow & Thermal Management Solutions

Rack and aisle-based containment solutions

Racks & Enclosures

IT equipment racks, enclosures and colocation cages

Wire & Cable Management

Cable tray and modular wiring systems

Indoor & Outdoor Lighting

High efficiency LED luminaires and lighting controls
