

# OC46ColorExpansionModule-Data Sheet

OC46 is a multi-function IP phone color screen expansion module and is sold separately as an accessory. It's compatible with OneCloud's OC926U and OC924U IP phones, expanding your VoIP phones' functions to a whole new level. OC46 has a giant 5" color display, providing abundant visual experience to users. Its 2-page view allows up to 40 paperless DSS keys with dual color LED; when being used with OneCloud IP phones, it can provide functions including public hold, private hold, Callpark, Speed dial, Redial, Call Return, Call transfer etc., making it convenient for you to handle all kinds of tasks.

## Key Features and Benefits

### 1. Humanized Structure Design

OC46 has a 5" color LCD display with 800x480 pixels, which brings the user whole new visual and operating experience. Connected through a gigabit ethernet port, it has faster data transfer speed. Besides, it can be adjusted to 3 different angles, fulfilling users' needs in different scenarios.

### 2. Abundant Visual Experience

OC46 has a 5" color display with 800x480 pixels, with bright colors and a wide viewing angle, presenting enjoyable visual experience. It also has programmable buttons with dual-color LED indicators, along with 2 separate page-turning keys, to allow you to switch between pages quickly. It supports screensaver; you can customize a OC46 expansion boards as your exclusive according to your desire.

### 3. High Expansion Capability

OC46 color expansion module are fully compatible with OneCloud's OC926U and OC924U IP phones. Up to 6 expansion modules can be connected end to end, with at most 240 paperless DSS keys. Every expansion module can have 2 pages, with 20 paperless DSS keys on every page. Together with dual-color LED indicators, you can directly use up to 40 different functions of the phone, like Call hold, pickup, Forward, Speed dial, Voicemail, SMS, Redial, Call Return etc.
