

# Micro - Course

## How To Create Your Online Mini Course

Part 1

5 Steps To Get Started

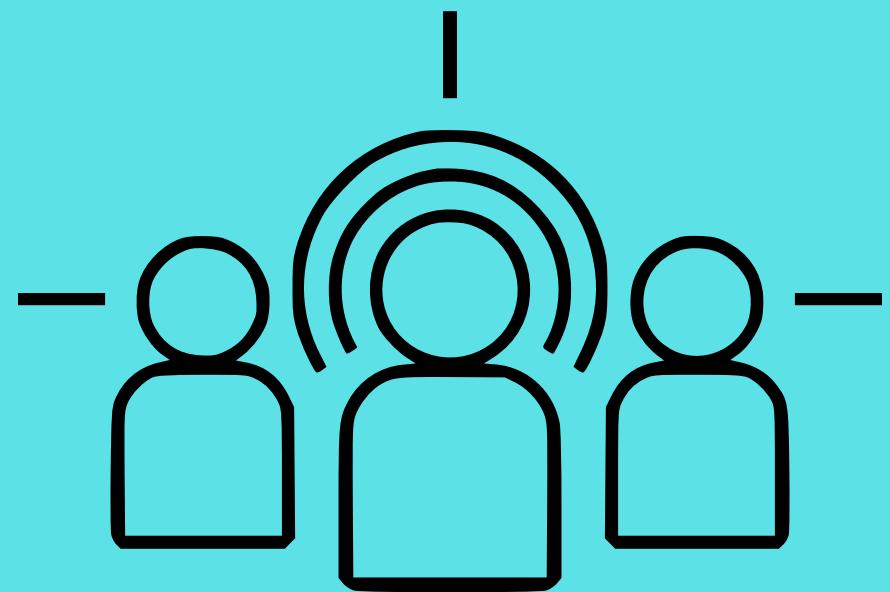

# # 1 Find A Topic

Examples in my case:

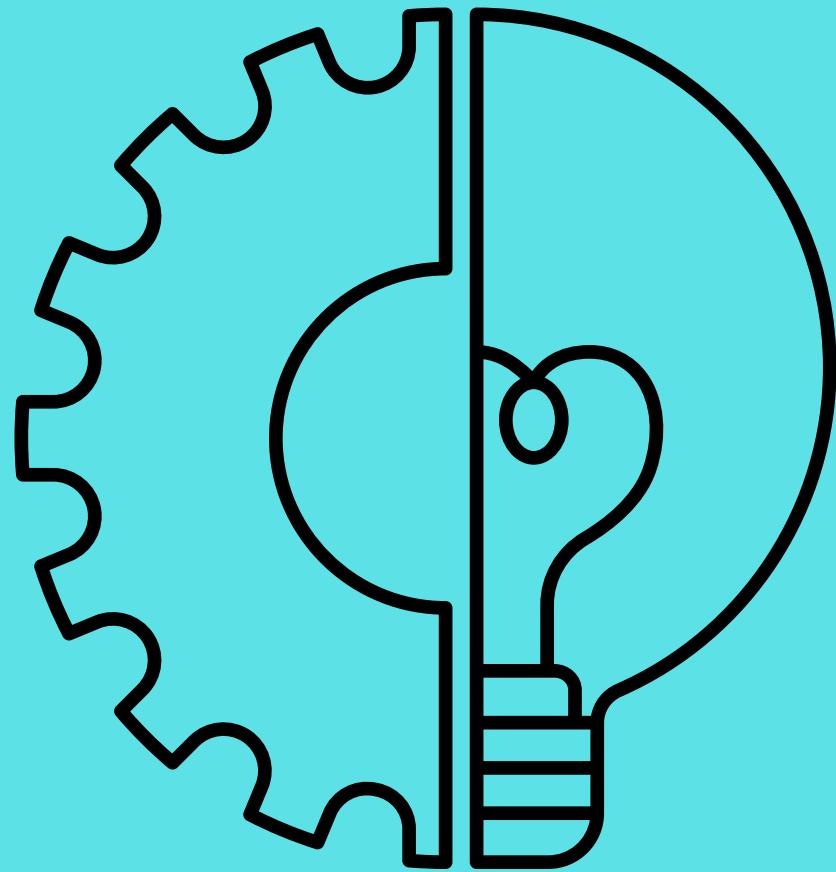

- Create Online Courses
- Blockchain and Crypto
- Photo, Graphic ,Web
- Trading and Investing
- Digi Nomad Lifestyle
- AI and Content

# # 2 Identify Your Target Audience

- Your Subscribers
- Your Students
- Your Online Biz
- Online Groups
- Country and Local

# # 3 Find A Solution For A Problem

Provide A Solution For  
Your Target Audience Problems  
Or  
Your Target Audience Have A Problem,  
And Course Is The Solution

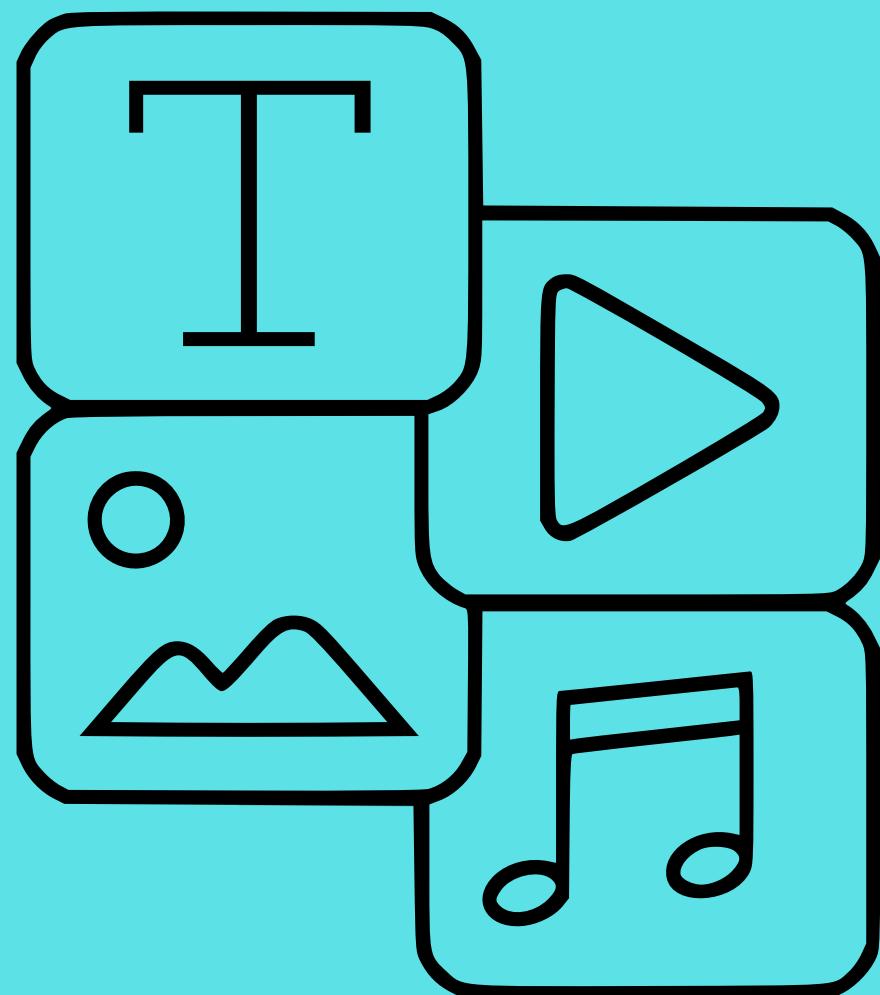

# # 4 Outline Your Course Content

## Example On How I Use Canva

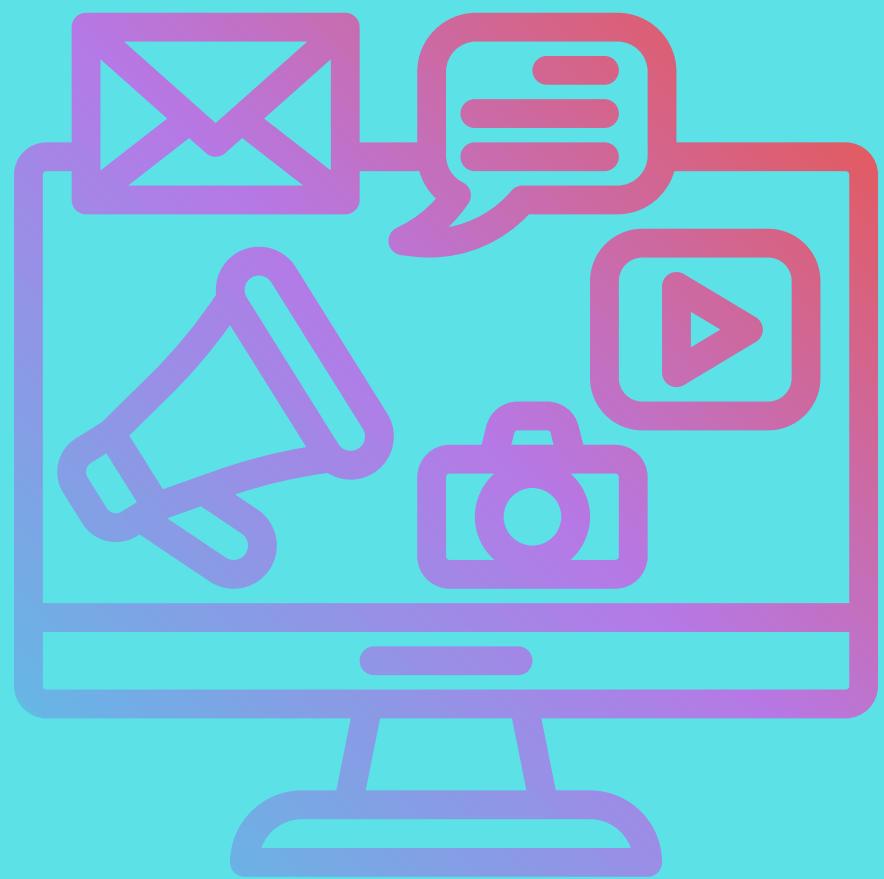

A screenshot of a Canva design workspace. The main area displays a horizontal layout with six numbered steps: 1. Micro - Course (How To Create Your Online Mini Course), 2. #1 Find A Topic, 3. #2 Identify Your Target Audience, 4. #3 Find A Solution For A Problem, 5. #4 Outline Your Course Content (Example On How I Use Canva), and 6. #5 Reuse Your Old Content. Each step is represented by a card with an icon and a brief description. The left sidebar shows various design tools like Sjablonen, Elementen, and Video's. The top navigation bar includes links to Home, Bestand, Formaat wijzigen, and a search bar. The bottom status bar shows the video player is at 0:00 / 0:55, the battery is at 19%, and the date is 29-5-2022.

# # 5 Reuse Your Old Content

- Blog Posts
- Videos
- Photos
- Designs
- Music
