Welcome to the it's about RoMi magazine 2025

This year, we're taking a fresh approach at it's about RoMi. With 62 new products, we're not just growing our collection, we're sharing a new vision: lighting that is both functional and elegant, designed for modern urban living.

We believe a lamp should do more. More than just light up a room. It should add function, create atmosphere, and bring style. Inspired by the luxury of hotel interiors, we've embraced a "hotel chic" look. That means no compromises on quality or usability. These are lights that truly enhance any space.

Our new collection also features a rich, updated color palette. Colors like burgundy, olive green, and beige add warmth and character, reflecting our refined new style.

To show you what this new direction looks like, we've created special videos and photoshoots in inspiring locations. These highlight the smart design and versatility of our products. We hope you enjoy them as much as we do.

We're also stepping onto new stages. You will find us on design events across Europe. This marks another step in our journey to share creativity, quality, and innovation with the world.

Welcome to the new era of it's about RoMi.

We're excited to have you with us.

Design story *Milan*

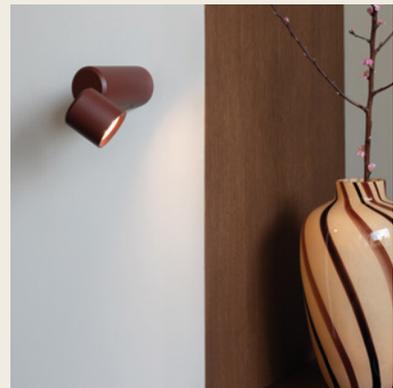

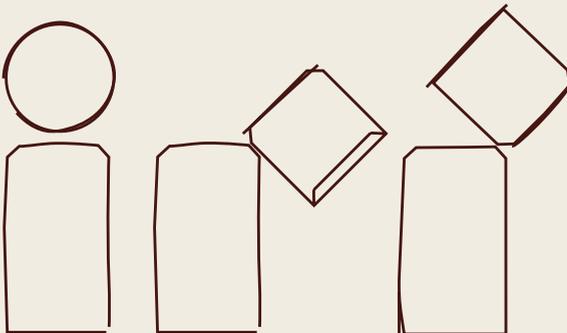

At it's about RoMi, we're always thinking about how lighting lives with us in small corners, busy tables, and every little moment in between. The Milan lamp was born from that idea: a light that does more, with less.

The starting point? Function. We wanted to create a lamp that could stand confidently on a table and just as easily hang on a wall. That dual-purpose idea shaped every part of the design, from the base to the rotating shade. A simple goal, but not a simple process.

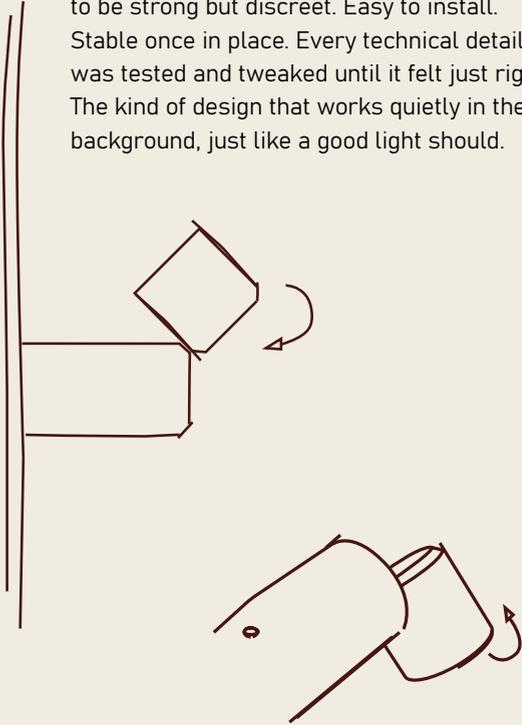

Inspiration

The shape evolved from the basics: clean, cylindrical forms that speak the same language. The lampshade mirrors the base, bringing calm and balance. We softened the edges with gentle chamfers. Not just for looks, but to help reflect the light in a warmer, more diffused way. It's subtle, but makes all the difference once the light is on.

Technical thinking

Making Milan truly flexible meant solving a few puzzles. The wall-mounting system had to be strong but discreet. Easy to install. Stable once in place. Every technical detail was tested and tweaked until it felt just right. The kind of design that works quietly in the background, just like a good light should.

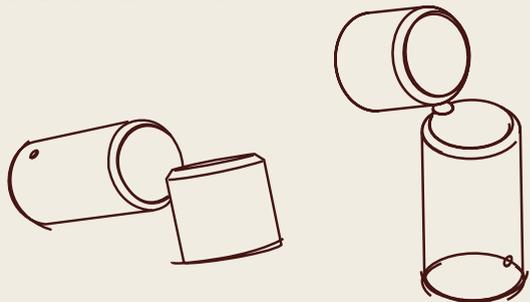

Rotation

The 360° rotatable shade was a late-stage addition, but one that brought everything together. Whether Milan is mounted on the wall or placed on a desk, you can direct the light exactly where you want it. Focused and functional. Or soft and ambient. All with a single spin.

Selected colors

We chose three colors that feel right at home in the city. Burgundy for a bold, warm accent, beige for a light, minimalistic feel and black for that timeless, bold accent.

Milan reflects how we see urban living: flexible, intentional, and always a bit smarter than it looks.

The **MILAN**

Meet our eyecatcher, Milan. Flexible, stylish and full of surprises.
This smart lamp moves with you. Click it onto the wall, or take it off
and use it wherever light is needed.

With its rechargeable battery, integrated LED, and a 3-step hand-dimmer,
Milan gives you full control. Soft glow or bright focus, just a tap away.
The rotating head adds to its charm, letting you direct the light exactly how
you like it. A compact design with big city energy.

The **COPENHAGEN**

A gentle nod to Nordic minimalism with a playful twist, that's Copenhagen. Just like the Danish capital, this lamp combines clean lines with an eye for detail.

Four glossy opaque glass spheres float along sleek metal arms, like little city lights on a crisp evening stroll by the water. Both the floor and pendant versions of the Copenhagen lamp come with rotatable arms, enabling you to direct light exactly where you need it. Whether you go for the hanging version or the floor lamp, Copenhagen brings design and coziness to any space.

The **TOKYO**

Small in size, big on function. Inspired by the sleek and smart lifestyle of Japan's buzzing capital, this wall lamp is more than just good looks.

With a soft opaque glow and an elegant touch button, Tokyo brings calm control to your space. Need to recharge? It's got your back, literally. A built-in USB-C port lets you power up your phone, right where you rest. Minimalist, modern, and just a little bit magical.

Lights of Stavanger

The **STAVANGER**

Pure function with a Nordic soul, that's Stavanger. At its core, Stavanger is built with precision. The hinge, a striking rectangular form intersected by a cylindrical tube extending from the base, adds both architectural interest and functional stability.

This unique detail not only anchors the lamp but elevates it

Its graphic cone shade delivers focused light exactly where you need it. No fuss, just purpose. Perfect as a floor lamp, table lamp, or wall lamp, Stavanger quietly adapts to your rhythm. Whether you're reading, working, or winding down.

Available in beige and light grey, it's the kind of light that works hard and blends in. Like a true Scandinavian classic.

Lights of Tivoli

The **TIVOLI**

Think soft tones, natural textures and just the right amount of drama.
Tivoli knows how to set the scene.

Crafted from travertine stone, this series plays with contrast: smooth cylinders and warm glows meet raw, grounded material. Whether it's the ceiling spotlight, pendant, wall lamp or table light, every piece brings a sense of calm to your space.

And yes, it blends beautifully in kitchens, bathrooms, or cozy corners alike.
Tivoli is timeless with a twist. A collection for those who like their interiors just a little bit poetic.

The **IZMIR**

A blend of structure and soul. Izmir brings a strong silhouette softened by warm tones and clever design.

The newest members of the Izmir family come in floor and table versions, now also available in sand and burgundy. Clean lines, a conical shade, and a balanced stance make these lamps the perfect fusion of form and function. Whether lighting up your workspace or cozy corner, Izmir stays grounded while giving you all the glow. Inspired by the energy of the Turkish coast. Warm, layered, and full of character.

The **TOLEDO**

Say hola to Toledo. A lamp that's as warm and layered as a Spanish sunset. Its double disc design wraps the bulb in soft, moody shadows, creating a glowing play of light and depth.

The amber glass brings a touch of vintage glam, while the brown adds a bold, modern twist. Toledo plays it cool with a confident mix of clear glass and matte metal. A little glow, a little grit, and a whole lot of vibe.

Atmospheric, artistic, and just a little dramatic. Toledo sets the tone.

The **BILBAO**

Cool, calm and seriously collected. With clean lines and a bold, graphic shape, this lamp brings quiet confidence into any space.

Whether standing tall, hanging out on the wall, or keeping you company at your desk. Bilbao does it all in sand or burgundy.

No fuss, just focus. And a whole lot of style.

Urban minimalism with a soft edge, that's the Bilbao vibe.

Lights of Boston

Renewed **BOSTON**

Our classic Boston just got a subtle makeover.
Still structured, still sleek but now dressed in soft sand.
A warm alternative to the original black frame.

With its minimalist metal base and handmade linen shades, Boston balances urban design with cozy vibes. Available as a floor and table lamp, it fits effortlessly into both modern and more earthy interiors. Perfectly understated, just like its namesake city.

Lights of Boston

All our lampshades are handmade with love. Our shades are made of linen; natural, elegant, and always timeless. Whether you're drawn to the lightness of white, the earthy calm of light or dark linen, or the bold beauty of black. There's a shade that matches your mood.

Renewed **FLORENCE**

Florence is back. Now in a fresh sand finish that brings calm and warmth to any wall. With its clean lines and soft linen shade, this wall lamp blends into your space while offering clever extras.

Both versions feature a handy USB-C port to charge your phone and one model includes an extra reading light for those cozy late-night chapters.

Beautifully balanced between form and function, Florence is your new go-to for bedside lighting with a smart twist.

Tala lamp bulbs

We believe good lighting goes beyond design. It's about the feeling it creates and the footprint it leaves behind.

That's why we're proud to announce our new partnership with Tala. A British brand known for beautifully crafted, energy-efficient LED bulbs. Think warm light, timeless shapes, and a deep love for sustainability.

Tala bulbs are designed to last, made with care, and built to glow. Perfectly in sync with our vision of conscious living.

You'll now find a selection of Tala bulbs paired with our lamps.

A match made in light.

One lamp. One tree.

BRIGHTENING LIVES. GROWING FORESTS.

At it's about RoMi, we believe urban living and caring for nature can go hand in hand. That's why for every lamp we sell, we plant one tree. A simple idea with long-lasting impact.

Since 2019, we've partnered with Eden Reforestation Projects, but since this year we've made a switch to veritree, a leading reforestation platform that helps us make our impact traceable and transparent. With veritree's tech, we can follow our trees from seed to forest.

And you can too.

Together with veritree, we support reforestation projects in areas that need it most. Local teams plant and care for the trees, helping to rebuild both nature and livelihoods.

Why trees?

Because trees:

Clean the air by absorbing CO2

Restore ecosystems and biodiversity

Fight soil erosion and climate change

Support local jobs and communities

OUR GROWING IMPACT

Thanks to our community, we've already planted over

550.000

trees and counting!

LOOKING AHEAD

By 2030, we aim to have planted more than

1 million

trees.

One lamp at a time, one tree at a time.

Trees make life better. For everyone.

SOON! Track your tree

We're working on making it possible for you to see exactly where your tree is planted. Stay tuned for updates!
