Silestone® Integrity sinks and washbasins

silestone
Designed by COSENTINO

No joints, no cracks, no limits; just extraordinary visual clarity. Integrity is a unique technology which creates the basin that changes everything.

Integrity® wants your countertop to be unique, where spaces and surfaces do not begin or end. Integrity gives you the feeling of unity, of perfect integration with the rest of your countertop elements. A single piece available in a select variety of Silestone® colours so your kitchen and your bathroom never end.

Due to their one-piece nature, Silestone® Integrity basins dilute any difficulty in coupling, offering a final result of extraordinary visual clarity.

→ Integrity Q sink made of Silestone® Et. Calacatta Gold.

Finish

In order to adapt to the kitchen and bathroom style you have always wanted, Silestone® Integrity basins offer two different finishes to combine with any commercial countertop.

* → Polished

● → Suede

Advantages

Stain resistant

Impact resistant

Acid and scratch resistant

Wide colour range

Silestone® Integrity has all the characteristics that have made Silestone® the best product on the market: high scratch resistance, long-lasting durability and the highest performance. Moreover, it contains a special resin that makes it highly resistant to thermal shock.
