# SCHOOL LIBRARY & SPACE PLANNING

## PLANNING A NEW LIBRARY? WE CAN HELP.

Inspiring children and students to read and learn is at the heart of all of our school library designs. Whether you're an Academy, School, College or University, we specialise in library space planning for schools and can create the perfect library design for your needs.

We take your vision from the initial idea to designs and plans, then right the way through to production and your library installation. Our process works with your learners at the forefront, at your convenience, and we ensure minimal disruption to daily school life.

## AN EASY, STEP-BY-STEP GUIDE TO YOUR NEW SCHOOL LIBRARY

### STEP 1 - MEASURE

Roughly measure the room as best you can, making note of doorways, windows, radiators and any other obstacles.

### STEP 2 - SEND

Pictures of the room really help here, too! Send your measurements, pictures, ideas or drawings to our friendly design team.

### STEP 3 - DESIGN

We'll take care of the designs, drawings, and provide you with 3D renders and plans. What's more, our design service is completely free!

### STEP 4 - APPROVE

Once we've discussed your new library plans and you're ready to approve them, we can book a date for delivery and (optional) installation. Of course, if you'd like to make any amendments or add any additional furniture, we'll amend the drawings until you're completely happy.

### STEP 5 - INSTALL

Your new library will be delivered on the agreed date. If you've opted for us to install it, too, then our friendly installation team will complete the project for you within the agreed timescales.
