Bianco. *White.*

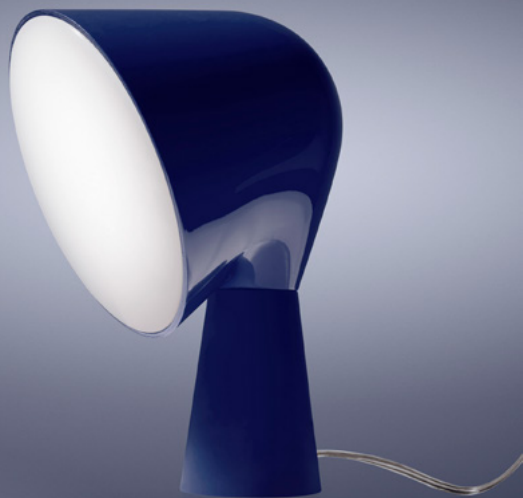

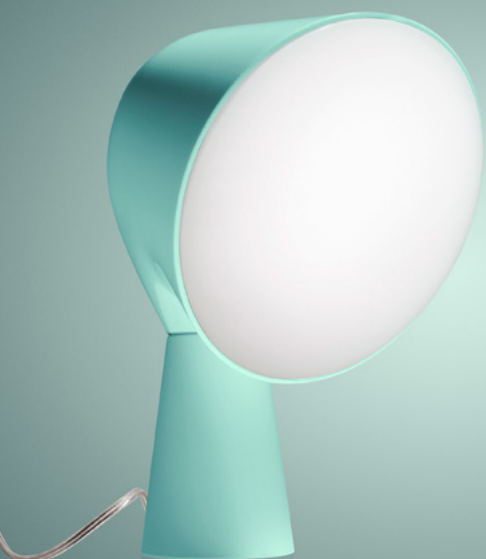

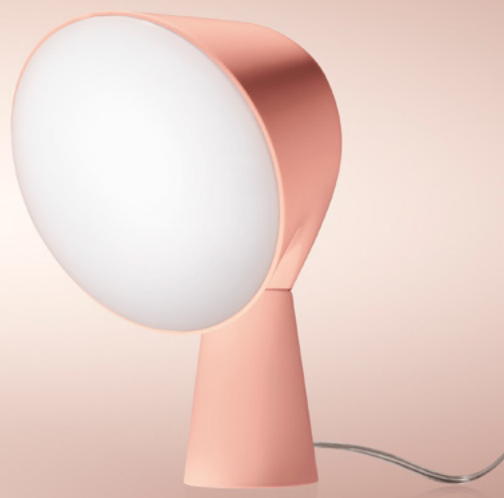

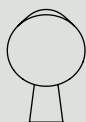

Con la sua cornice avvolgente definisce lo spazio vuoto e lo riempie di luce. La fonte luminosa nascosta permette di valorizzare il suo equilibrio tra vuoto e pieno. Le due dimensioni in cui è proposta e il colore bianco le permettono di adattarsi a molteplici ambienti e funzioni d'uso.

With its enveloping frame it indicates an empty space and fills it with light. The hidden source makes it possible to enhance the balance between emptiness and fullness. The two sizes and white colour allow the lamp to adapt to all kinds of spaces and uses.

Un piccolo faro in Bretagna è la fonte d'ispirazione della lampada la cui forma giocosa e colorata suscita immediata simpatia. Il volume superiore tondeggiante appoggia su una base conica proiettando una luce intensa e omogenea. I colori disponibili permettono un'ampia adattabilità.

A small lighthouse in Brittany is the source of inspiration for this lamp with an immediately engaging, playful and colourful form. The rounded upper volume rests on a conical base, projecting intense, homogeneous light. The range of available colours makes this model very adaptable.

Bianco. *White.*

L'essenza fatta lampada. Il diffusore bianco traslucido è la lampada stessa che nasconde la tecnologia liberando la sola funzione. L'estetica incisiva ma non invadente si armonizza con gli stili abitativi più vari. Una lampada robusta e accessibile, da posizionare su comodini anche di grandi strutture ricettive.

The essence becomes a lamp. The translucent white diffuser is the lamp itself which conceals the technology, revealing solely its function. The distinctive but never invasive look blends perfectly with a wide range of lifestyles. A sturdy, affordable lamp, to place on bedside tables, also in large hospitality facilities.

Trasparente, grigio.

Transparent, grey.

Più trasparenza, più leggerezza formale e una luce ancora più brillante. Grazie ai nuovi archetti e al nuovo sistema di aggancio a baionetta le sfere sembrano galleggiare nel vuoto, con un effetto di trasparenza totale molto suggestivo. Quando è accesa, la luce si diffonde all'interno delle sfere che, simili a cristalli, illuminano l'ambiente a 360°. Assieme alla tradizionale versione trasparente, è proposta in un nuovo raffinato colore grigio. *More transparency, lighter shapes, and an even brighter light. Thanks to the new arches and to the new "twist lock" attachment system, the spheres appear to float in space, creating a truly beguiling total transparency effect. When it is switched on, the light is diffused inside the spheres which, like a myriad crystals, light the surroundings through 360°. Alongside the traditional transparent version, it is also available in the new, sophisticated grey colour.*

Bianco, bianco/nero.
White, white/black.

Parte di una collezione d'autore che nasce dalla riflessione sulla lampadina come archetipo. White Light, con la tipica forma a bulbo, è la matrice, l'icona di base. Black Light lavora sull'inversione: il porta-lampada emana luce, mentre la lampadina rimane "buia". Una tentazione accessibile per chi è affascinato dall'approccio concettuale e dalla riflessione critica dell'architetto James Wines. Con scatola personalizzata.

Part of a signature collection based on thinking about the light bulb as an archetype. White Light, with its typical form, is the matrix, the basic icon. Black Light works on the concept of inversion: the bulb housing emits light, while the bulb itself remains "dark". An affordable temptation

for those who are fascinated by the conceptual approach of critical reflection of the architect James Wines. Comes in a personalized box.

□ CE  IP 20 

Vetro e montatura: creta, sahara, cipria.

Glass and frame: clay, sahara, powder pink.

Una lampada best-seller elegante e raffinata, nata nel 1990, proposta con una nuova palette cromatica in cui le parti metalliche sono coordinate al colore del diffusore in vetro soffiato, che si illumina di luce e calore a lampada accesa. Una collezione di tinte estremamente attuali, esaltate dalla finitura opaca della base.

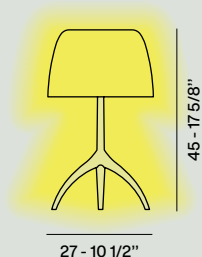

An elegant and sophisticated best-selling lamp, launched in 1990, available in a new range of colours, in which the metal parts match the colour of the blown glass diffuser, which glows with light and warmth when the lamp is switched on. An extremely trendy collection of hues, emphasised by the matt finish of the base.

Vetro: Bulles, Pastilles. Montatura: champagne.
Glass: Bulles, Pastilles. Frame: champagne.

Nata nel 1990, in questi 30 anni Lumiere si è vestita di colori e finiture sempre diverse e oggi, nella sua piena maturità, può osare un nuovo abito grazie a due storiche lavorazioni artigianali del vetro soffiato a bocca che arricchiscono il diffusore bianco lucido. Per la prima volta il decoro sulla superficie del vetro diventa tridimensionale: la classe resta immutata, e ne guadagna il carattere.

Created in 1990, in this span of 30 years Lumiere has taken on many different colours and finishes, and today – in its full maturity – it can dare to take on a new look, thanks to two historic glassblowing techniques that enhance the glossy white shade. The surface decoration of the glass becomes three-dimensional for the first time: the class remains the same, but takes on new character.

Vetro: bianco, grigio freddo.
Montatura: alluminio, cromo nero.
*Glass: white, cool grey.
Frame: aluminium, black chrome.*

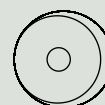

Il modello originale di Lumiere ha ispirato le versioni XXL ed XXS, dalle proporzioni più ampie e dal segno più deciso. Il bianco e il grigio freddo sono le raffinate proposte di colore per il paralume in vetro soffiato a bocca, in abbinamento alle finiture alluminio o cromo nero per la montatura.

The original Lumiere model has suggested XXL and XXS versions, with varied proportions for a decisive presence. White and cool grey are the refined hues for the handcrafted blown glass shade, matched with an aluminium or black chrome finish for the structure.

Vetro: bianco. Montatura: bianco, nero.
Glass: white. Frame: white, black.

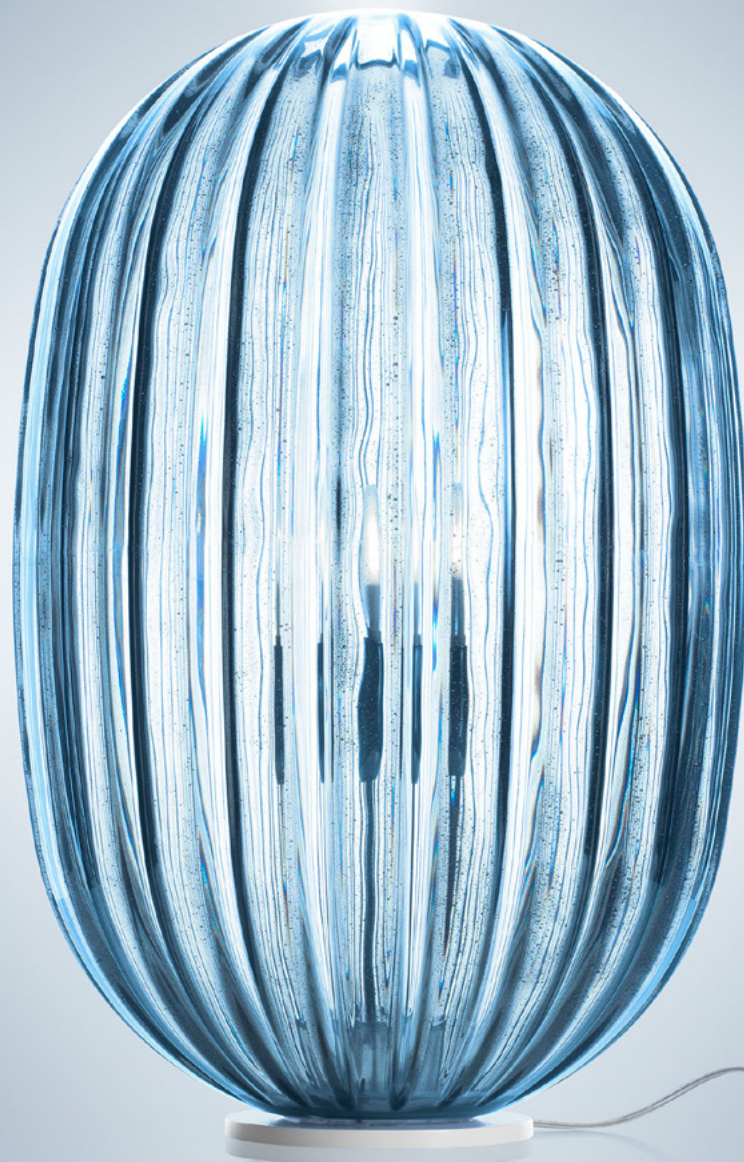

Lampada d'arredo di grande carattere, ispirata al famoso busto della regina egizia Nefertiti. Una composizione dinamica di volumi, in cui la luce filtra attraverso il prezioso vetro soffiato a bocca, dirigendosi verso il basso sul piano e verso l'alto attraverso i due lati aperti del diffusore. Base in marmo lucidato con finitura opaca, lavorato a mano, di Carrara nella versione bianco e di Marquina in versione nero.

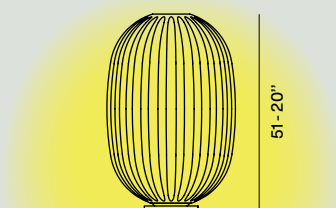

A decorative lamp of remarkable character, inspired by the famous bust of Queen Nefertiti. A dynamic composition of volumes, where the light filters through the precious blown glass, shining down to the surface below and upward through the two open sides of the diffuser. Base in marble polished in a matte finish, crafted by hand, in Carrara marble for the white version and Marquina for the black version.

Anniversario.

Nata per celebrare i 20 anni di anniversario del Compasso d'Oro e il carattere iconico e senza tempo di Mite. Volumetricamente è identica all'originale, ma il filo di carbonio è più sottile ed è montato con una spirale più ampia che procede addensandosi verso il basso.

La base è in marmo Marquiza di colore nero screziato da venature bianche o grigio chiaro. La finitura del corpo della lampada è opaca. Totalmente riprogettata la parte illuminotecnica per una più ampia distribuzione luminosa e una totale illuminazione del diffusore.

Created to celebrate the 20th Anniversary of the Compasso d'Oro and the iconic and timeless character of Mite. The volume of the lamp is identical to the original, but the carbon thread is thinner and is mounted on a wider spiral that becomes denser as it converges towards the base in Marquiza marble, with an intense black colour crossed by irregular white and pale grey veins. The finish of the lamp body is matte. The lighting part has been completely redesigned for a wider light distribution and a total illumination of the diffuser.

Tobia è l'esempio di come la semplicità possa avere carattere. Esile e di ingombro contenuto, facile da spostare grazie al nodo centrale che invita alla presa, proietta una luce potente diretta verso l'alto. Dotata di touch dimmer che consente 4 step di variazione dell'intensità luminosa. Un punto luce dalle grandi prestazioni, in cui il colore ne sottolinea o mimetizza la presenza.

Tobia is a perfect example of how simplicity can have character. Slender and compact in size and simple to move around thanks to its easy-to-grip central knot, this lamp provides powerful upward lighting. Touch dimmer providing 4 different luminous intensity settings. A high-performance light point, whose colour can either highlight or camouflage its presence.

Trasparente, grigio. *Transparent, grey.*

Più trasparenza, più leggerezza formale e una luce ancora più brillante. Nuovi archetti, un nuovo sistema di aggancio "a baionetta" e nuove sfere, che sembrano galleggiare nel vuoto una volta montate, garantiscono un effetto di trasparenza totale molto suggestivo. Quando è accesa, la luce si diffonde senza interferenze illuminando l'ambiente a 360° con un fascio sia diretto sul piano sia riflesso verso l'alto. Proposta in un nuovo raffinato colore grigio.

More transparency, lighter shapes and an even brighter light. New arches, a new "twist lock" attachment system and new spheres, that appear to float in space once mounted, create a truly beguiling total transparency effect. When it is switched on, light spreads without interference through 360°, with a beam both directed below and upwards. Available in the new, sophisticated grey colour.

Chouchin 1 orange, Chouchin 2 green, Chouchin 3 grey.

Richiamo alle tipiche lanterne giapponesi, rivisitate in chiave contemporanea. Tre modelli - coordinabili tra loro - che giocano sul contrasto fra il vetro soffiato verniciato lucido, con colorazioni calde e pastose impermeabili alla luce e la parte inferiore bianca che si illumina e diffonde la luce verso il basso.

A reminder of typical Japanese lanterns, in a contemporary reinterpretation. The three coordinated models play with the contrast between glossy coated blown glass - in warm, creamy colours impermeable to light - and the white lower portion that glows, spreading light downward.

Rilettura contemporanea delle tradizionali lanterne giapponesi, Chouchin Reverse è caratterizzata dal colletto inferiore colorato e offre una luce diversa rispetto a Chouchin. Disponibile in nuove cromie raffinate e contemporanee e in una nuova versione totalmente bianca. Il diffusore in vetro soffiato diffonde una luminosità solare e brillante nell'ambiente, oltre a dirigerla verso il basso.

A contemporary take on traditional Japanese lanterns, Chouchin Reverse stands out for its coloured lower border, providing a different kind of light with respect to Chouchin. Available with new refined and contemporary colours and in a completely white version. The blown glass diffuser spreads sunny, bright light into the space, aiming the glow downward at the same time.

Una vibrazione fluida sul vetro, una particolare lavorazione che la rende inconfondibile anche da spenta. Le sfaccettature tridimensionali, con linee che si intersecano sulla superficie, sono ottenute con la tecnica artigianale della soffiatura a bocca del vetro in uno stampo con incisioni.

A fluid vibration on glass, with special craftsmanship that makes it unique also when off. The three-dimensional facets, with lines intersecting on the surface, are made by blowing glass into an etched mould.

Come il sole dai contorni incandescenti e inafferrabili, non ha un preciso inizio né fine: 390 raggi in acciaio danno vita a una lampada a sospensione scultorea e dal forte impatto. La doppia fonte luminosa – diretta verso il basso e indiretta verso l'alto – la rende perfetta sia per illuminare una stanza sia per creare un'atmosfera intima attorno ad un tavolo. Due finiture colore ne modulano il carattere.

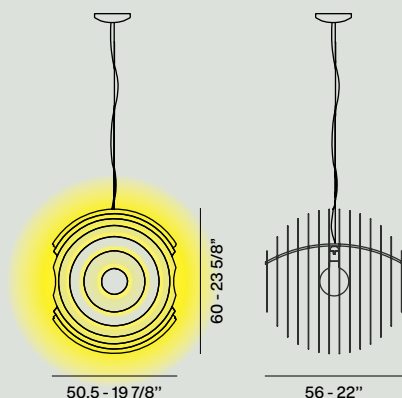

Like the sun with its molten, unfathomable contours, it has no precise beginning or end. 390 steel rays give life to a suspension lamp with great presence and personality. The double light source - directed downward and diffused upward - makes it perfect to light a room or to create a cosy atmosphere around a table. Two colour finishes set the tone of the lamp.

CE IP 20 ENEC — Tunable white

Diffusore: rovere. Montatura: greige.
 Diffuser: durmast. Frame: greige.

Lampada a sospensione che porta il calore e il sapore del legno negli ambienti più diversi. Offre un'intensa illuminazione verso il basso e diffonde verso l'alto una luce d'ambiente. Un piccolo stelo in materiale composito collocato sul filo elettrico ne caratterizza il design.
A suspension lamp that brings the warmth and flair of wood into the most diverse settings. It provides intense down light while diffusing an ambient up light. A small rod in composite material placed on the electrical cable distinguishes its design.

 Dimmerabile — *Dimmable*

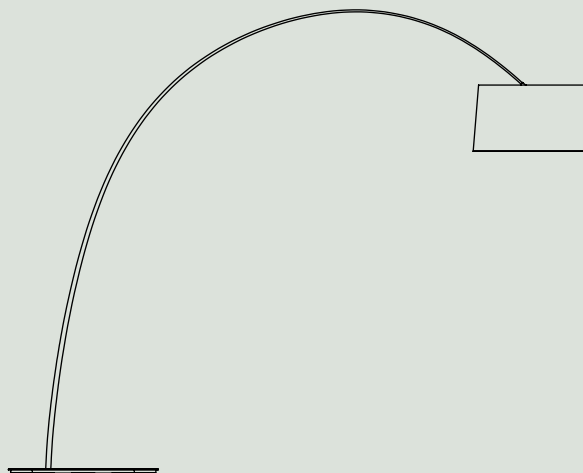

Bianco, nero, cremisi, greige.
White, black, crimson, greige.

Dalle dimensioni generose, realizzata in materiale composito su base di fibra di vetro laccato, mantiene tutta la leggerezza del progetto originale. Con due schede LED illumina l'area sottostante e diffonde verso l'alto un efficace illuminamento per riflessione, grazie alla trasparenza del disco superiore di protezione.

With ample measurements, made in composite material on a coated fiberglass base, this model conserves all the lightness of the original project. The two LED sources light the area below while spreading light upward to reflect on the ceiling, thanks to the transparency of the upper disk.

Modularità, libertà di composizione, possibilità di creare scenari di luce sempre differenti.

Grazie ai rosoni multipli – pensati per comprendere fino a 6/9 sospensioni e disponibili in versione tonda e lineare – si possono creare cascate luminose di grande impatto. Una soluzione tecnica che coniuga funzionalità e armonia, per effetti scenografici unici.

Modularity, freedom of composition and possibility of always creating different lighting scenarios.

Thanks to Foscarini's multiple canopies - designed to include up to 6/9 suspensions and available in a round and linear version - it is possible to create luminous cascades of great impact.

A technical solution that combines functionality and harmony, for unique scenographic effects.

Con i kit di decentramento è possibile posizionare a piacimento le lampade a sospensione, indipendentemente dalla collocazione della fonte di alimentazione. Dal design estremamente discreto, per ridurre al minimo l'impatto visivo, viene proposto sia per modelli a cavo singolo autoportante che per quelli dotati di una o più funi in acciaio.

With the decentralization kits, it is possible to position suspension lamps at will, regardless of the location of the power source. With an extremely discreet design, to minimize the visual impact, it is proposed for both self-supporting single cable models and for those equipped with one or more steel cables.

The available versions are those shown in the photos at page 082: Amethyst Queen, Emerald King, Teodora, Eastern Coral.

Fra scultura luminosa e opera di design, è composta da parti diverse e definite, che creano un insieme assolutamente unico. Con una fortissima carica arredativa, è un abaco di colori che ne evidenziano la molteplice identità. Frutto del pensiero di un autore che scompone e poi ricomponne la lampada nelle sue singole componenti.

Between a luminous sculpture and a work of design, the lamp is composed of different, specific parts that create an absolutely unique whole. For exceptional decorative impact, it comes in a range of colours, as in a case of multiple identities. The result of creative thinking that breaks down and reassembles the lamp in its single components.

Vetro: bianco.
 Montatura: bianco, oro, grafite
*Glass: white.
 Frame: white, gold, graphite.*

Dichiara a prima vista la preziosità del materiale: ha un pattern grafico caratterizzato da onde che si rincorrono sulla sua superficie e rendono la lampada inconfondibile anche da spenta. Le sfaccettature tridimensionali sono ottenute con la tecnica artigianale della soffiatura a bocca del vetro in uno stampo con incisioni.

Supporto in tre diversi colori con finitura opaca.

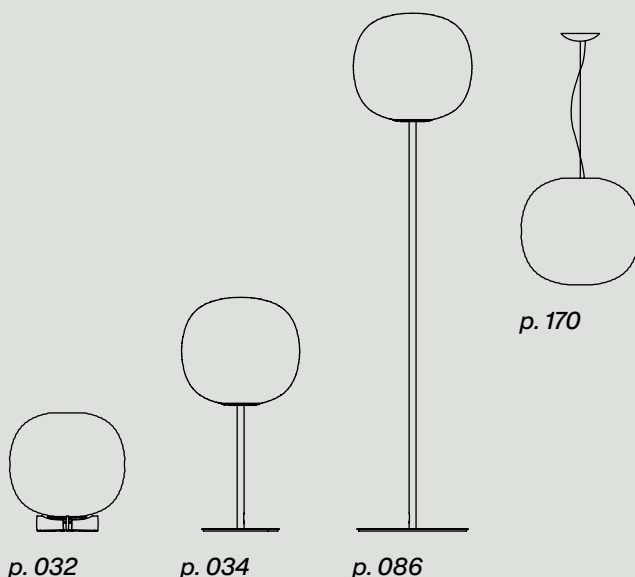

The precious beauty of the material is conveyed at first

glance. The graphic pattern of waves on the surface makes the lamp a vivid presence, even when not in use.

The three-dimensional facets are made with a technique of glassblowing inside a mould with incisions. The support is in three different colours, with a matte finish.

Light blue, pink, green.

Un gioiello pensato per adornare lo spazio domestico. La magia sta nella composizione: un elemento in marmo statuario collocato al centro di un disco in polimetilmetacrilato trasparente. A unire i due materiali, un unico anello impreziosito da una lavorazione artigianale; l'insieme è fissato a parete da un piccolo perno. I due elementi, liberi di muoversi, ricordano il ritmo oscillante di un orecchino.

A jewel to adorn domestic space. The magic lies in the separation of the parts: a shape in statuary marble placed at the centre of a disk of transparent polymethylmethacrylate. The two materials are joined by a single ring, enhanced by fine craftsmanship. The composition is attached to the wall by a small pin. The two parts, free to move, suggest the wavering rhythm of an earring.

Marrone. *Brown.*

Non solo una lampada, ma un focolare contemporaneo attorno al quale ritrovarsi e conversare all'aria aperta in sintonia con un concetto trasversale dell'abitare, nel quale il giardino può diventare un ambiente living. Il piano d'appoggio diventa un tavolino dove posare oggetti. Può essere inclinata in più posizioni, dando origine a differenti effetti, atmosfere e profondità di luce.

Not just a lamp, but a contemporary hearth around which to gather, conversing in the open air in tune with a versatile concept of dwelling, where the garden can become a true living room. The support becomes a table on which to place objects. It can be set at an angle, in multiple positions, giving rise to different effects, atmospheres and depths of light.

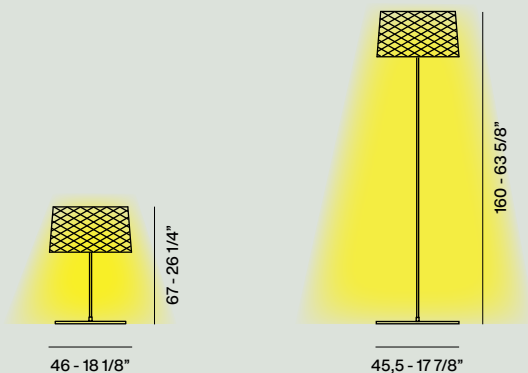

Twiggy Grid

Marc Sadler, 2018

Carmine, greige.

Un concetto formale di leggerezza declinato in una lampada da terra e da tavolo dallo stelo sottile e dal caratteristico diffusore intrecciato realizzato da fettucce di materiale composito. Perfetta per uso outdoor e indoor. Disponibile in due colori, si può armonizzare con ambienti diversi.

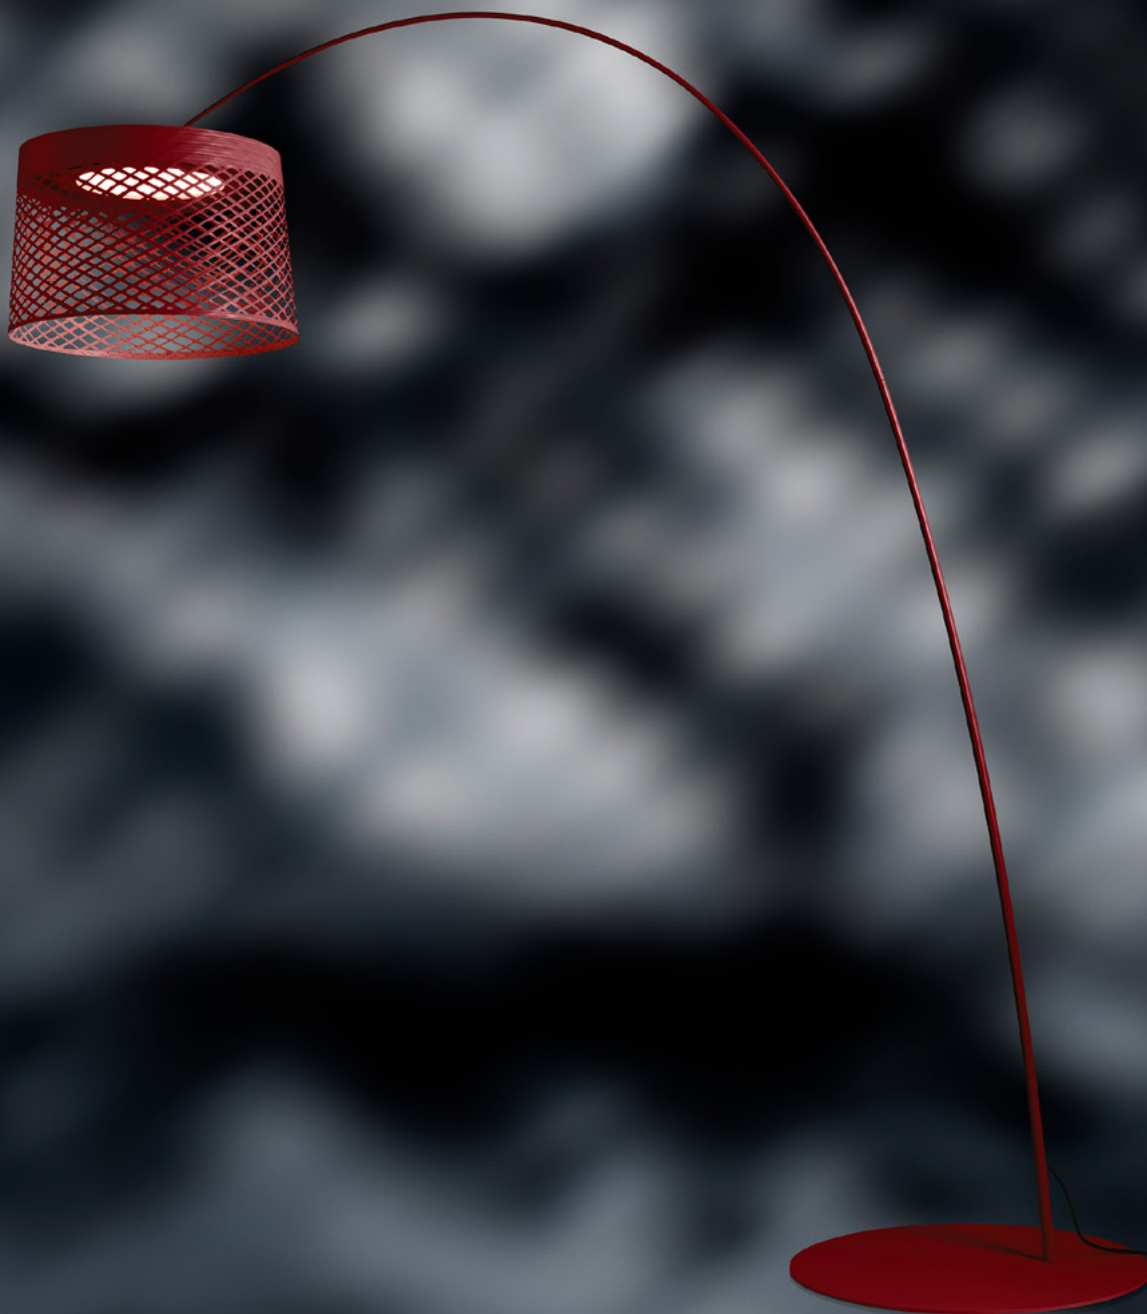

A formal concept of lightness interpreted in a floor and table lamp with a slender stem and the characteristic woven shade made with ribbons of composite material. Perfect for outdoor and indoor use. Available in two colours, for coordination with different settings.

Una lampada-icona nella sua variante da esterno, in cui il progetto è stato completamente ripensato nella parte illuminotecnica e nell'estetica del diffusore, con una superficie a intreccio che ha valore sia funzionale che estetico: permette di schermare l'intensità della fonte luminosa e allo stesso tempo costruisce un dialogo con le forme circostanti.

An iconic lamp in its outdoor version, where the design has been completely revised in technical terms and in the image of the diffuser, with a woven surface that adds both functional and aesthetic value: it screens the intensity of the light source, while at the same time constructing a dialogue with surrounding forms.

Ottima per i "territori di passaggio" tra un dentro e un fuori come i porticati. Versione da esterno della lampada-icona Twiggy. La superficie a intreccio ha valore sia funzionale che estetico: permette di schermare l'intensità della fonte luminosa e allo stesso tempo costruisce un dialogo con le forme circostanti.

Excellent for "territories of transit" between an interior and an outdoor space such as a porch. The outdoor version of the iconic Twiggy lamp has a woven surface with both functional and image value: it screens the intensity of the light source, while at the same time constructing a dialogue with surrounding forms.

White, yellow, orange.

Una lampada fuori dagli schemi che permette di inserire punti luce in modo flessibile dialogando con quanto c'è attorno: elementi strutturali – edifici, arredi urbani – ma anche naturali – alberi, rampicanti. Realizzata in gomma silconica: un materiale piacevole, morbido al tatto, antiurto e indistruttibile. Può essere utilizzata in interno e in esterno, modellandola a seconda delle esigenze e ispirazioni personali.

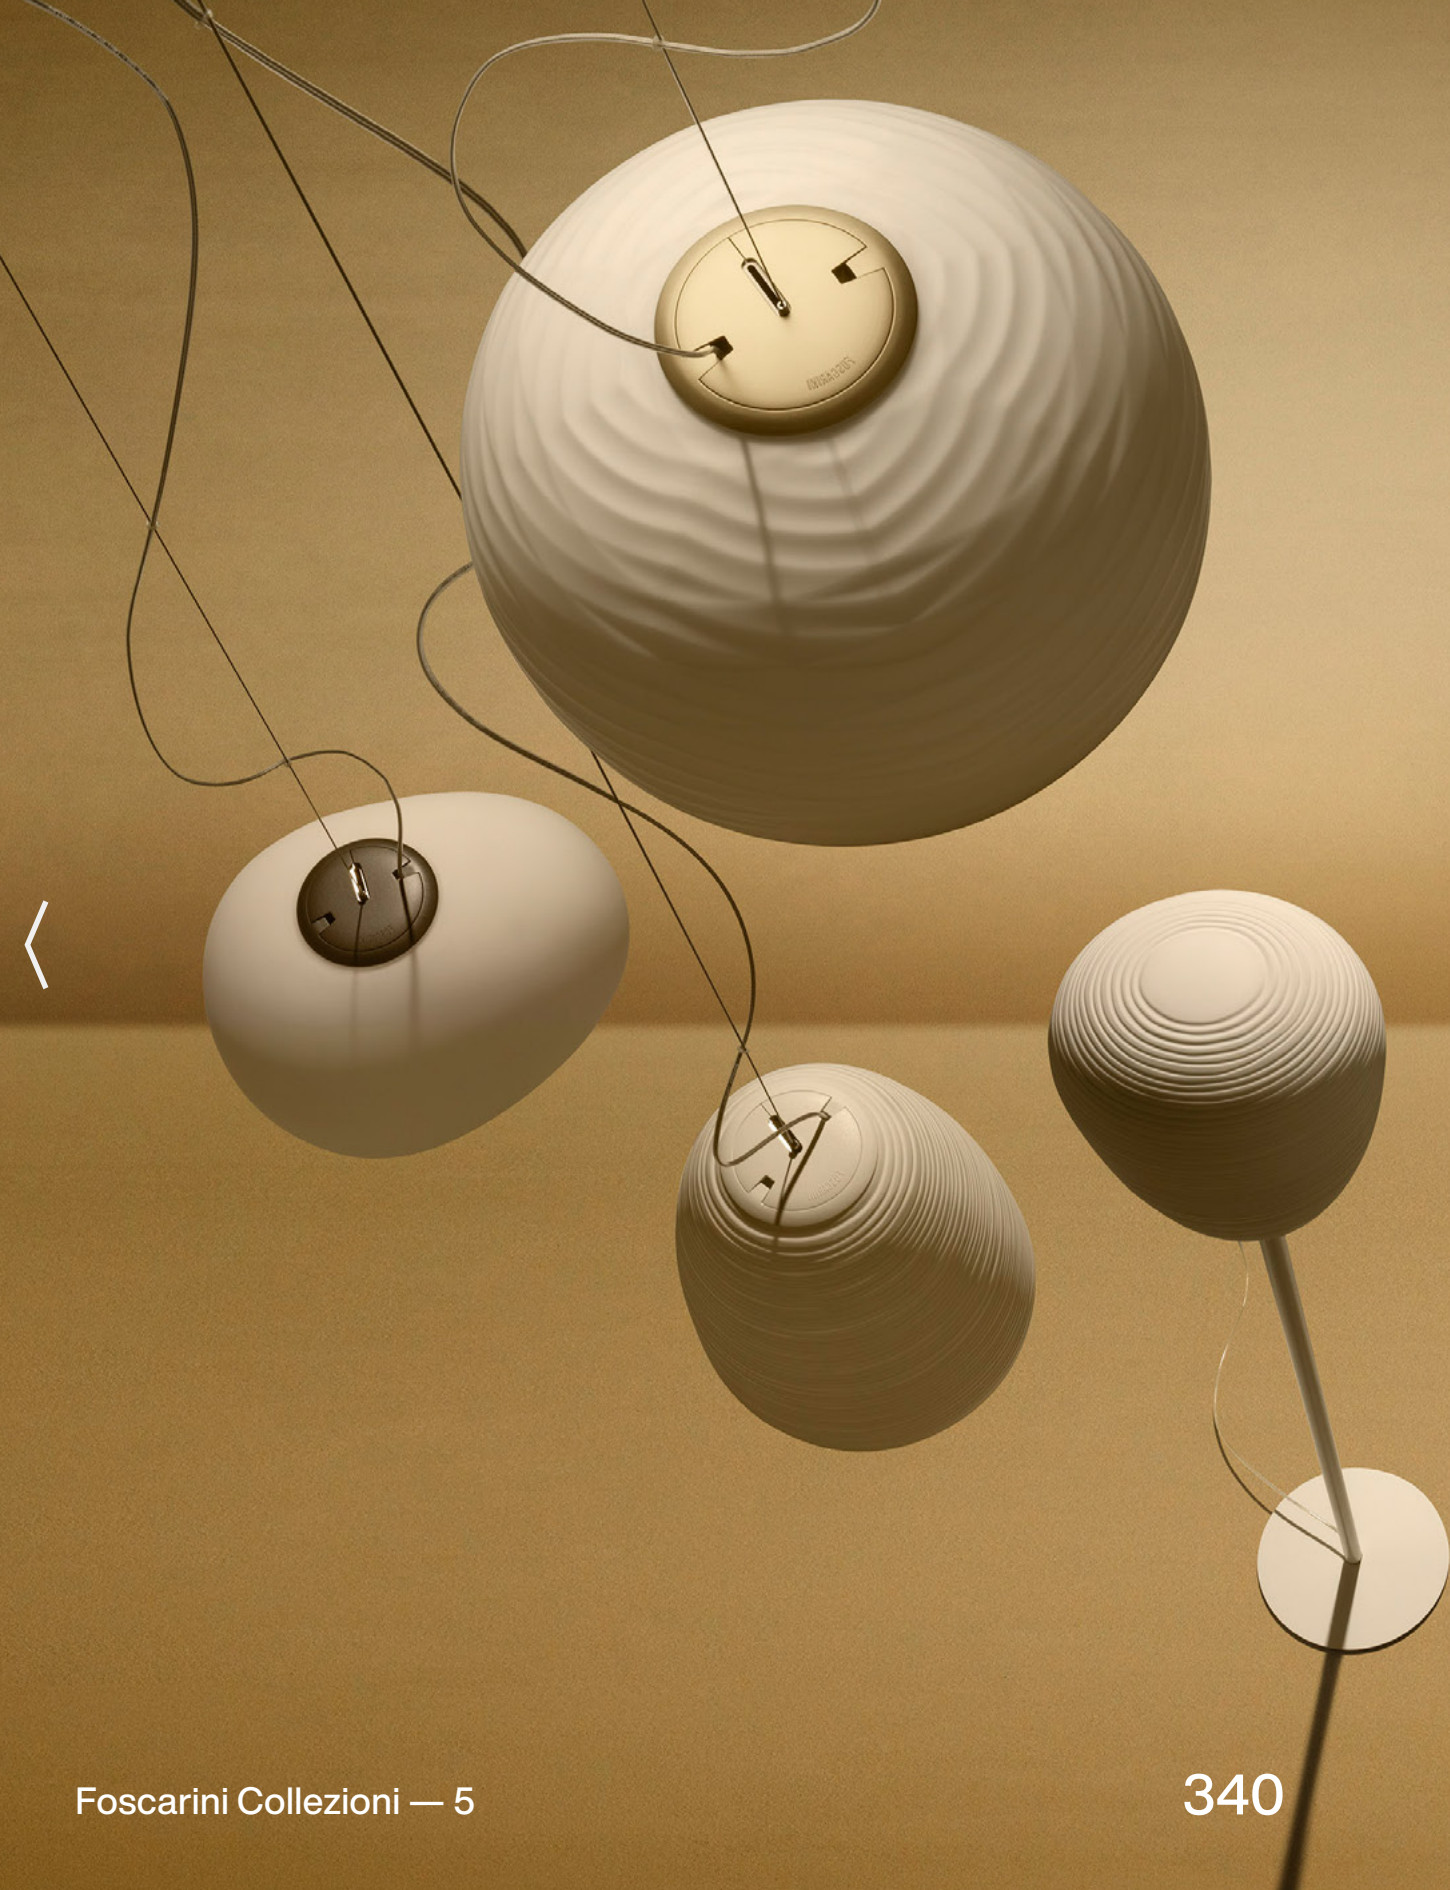

An unconventional lamp that permits insertion of lighting points in a flexible way, establishing a dialogue with the surroundings: structural elements like buildings and urban furnishings, but also natural features like trees and vines. Made in silicone rubber, a material that is pleasing and soft to the touch, ready to stand up to impact, and indestructible. For indoor and outdoor use, shaped to meet personal needs and inspirations.

5 diffusori, 4 funzioni, 3 colori: con il sistema Mix&Match è possibile costruire il proprio progetto di illuminazione in modo ancora più flessibile e personale. Si parte dalla scelta dello stile del vetro – tra le famiglie Gem, Gregg e Rituals, si individua la funzione in base alle esigenze dell'ambiente, si declina nelle varianti di colore a seconda del gusto e dello stile progettuale.

5 diffusers, 4 functions, 3 colors: with the Mix&Match system it is possible to produce lighting projects in an even more flexible and personal way. It starts with choosing the style of glass - between the Gem, Gregg and Rituals families, it follows identifying the function according to the needs of the environment, and then specifying the color according to taste and design style.

Le lampade del sistema Mix&Match sono perfette sia come singolo pezzo d'arredo, per dare carattere a una stanza, sia come insieme per coordinare un intero ambiente. La versatilità offerta dalla possibilità di declinare ogni modello in 4 diverse funzioni permette di scolpire lo spazio attraverso la luce.

The lamps in the Mix&Match system are perfect both as individual pieces, adding character to a room, and together in compositions, coordinating the entire atmosphere within a space. The option to select each model in four different functions allows for exceptional versatility and makes it possible to sculpt space through light.

Altri cataloghi / Other catalogs

Maestrie — È l'ampio progetto che mette in luce il sapere artigiano alla base della realizzazione di alcune delle icone Foscarini.

Ritratti — Un "design book", una selezione di lampade raccontate con differenti mood, attraverso i diversi punti di vista e sensibilità di tre fotografi, in un viaggio all'interno di cinque abitazioni in giro per l'Italia e nei suggestivi spazi outdoor dell'Arsenale di Venezia.

Ambienti — Progettare significa scegliere, e scegliere una lampada significa mettere in scena la giusta luce. Un catalogo che parla di progetti per aiutare a tradurre idee di luce in spazi "illuminati".

Maestrie — *Is an extensive project which sheds light on the craftsmanship skills at the heart of the production of some of Foscarini's iconic products.*

Ritratti — *("Profiles"), a brand book takes an intimate tour of five homes across Italy and an outdoor setting: the breathtaking night views of Arsenale in Venice. A collection of independent expressions on living photographed by three interior photographers.*

Ambienti — *Designing means choosing, and choosing a lamp means staging the right light. A catalog that talks about projects to help designers translate ideas of light into "enlightened" spaces.*

Vite

VITE è un viaggio che ci porta all'interno di case reali - tra Copenhagen, New York, Napoli, Shanghai e Venezia - accompagnati dall'artista, fotografo e videomaker Gianluca Vassallo e dallo scrittore Flavio Soriga. Al centro dell'obiettivo e della narrazione sono le persone, mentre lo sguardo viene lasciato libero di aggirarsi in ambienti intimi, veri e pertanto anche imperfetti. Non più controllatissimi set fotografici, ma case vissute, quotidiane, che ci raccontano da vicino le storie delle persone che le abitano.

Scarica da vite.foscarini.com il libro VITE in versione digitale. Scoprirai uno strumento ricco di funzionalità aggiuntive con indici interattivi, approfondimenti fotografici divisi per prodotto, ambiente e destinazione d'uso, oltre a video, podcast audio e collegamenti diretti al sito.

VITE is a voyage that takes us inside real homes – in Copenhagen, New York, Naples, Shanghai and Venice – accompanied by the artist, photographer and videomaker Gianluca Vassallo and the writer Flavio Soriga. People are at the centre of the image and the narration, while the gaze is left free to roam inside personal spaces, real spaces that are also thus imperfect. We no longer look at carefully controlled environments, the artificial and "unreachable" images of photographic sets, but at homes that are lived in on an everyday basis, close-ups of the stories of the people who dwell inside them.

Download the digital version of VITE from vite.foscarini.com. You will discover a functional tool rich in additional features with interactive indexes, lifestyle images organised by product, room and use as well as videos, audio podcasts and direct links to product pages on our website.

MyFoscarini

Nel rapporto con i propri partner e clienti, Foscarini si serve di strumenti "disegnati" al proprio interno, nel segno dell'efficienza e della trasparenza: come *MyFoscarini*, la piattaforma informatica riservata ai propri rivenditori, uno strumento innovativo per completezza delle informazioni e funzionalità. In pochi click, con *MyFoscarini* è possibile collegarsi alla rete aziendale per:

- verificare la disponibilità delle lampade e la data di spedizione;
- inserire un ordine, prenotando così direttamente il modello richiesto;
- tenere traccia della spedizione;
- consultare le condizioni di vendita;
- scaricare i documenti amministrativi come bolle e fatture;
- preparare un preventivo;
- scaricare: immagini, loghi, listini in pdf ed excel e ancora istruzioni di montaggio, certificazioni ed etichette energetiche.

Il tutto 7 giorni su 7, 24 ore su 24. Se non sei già registrato richiedi la tua password al Customer Care Foscarini.

With the same spirit that provides new ideas in lighting design, Foscarini creates its own more efficient programs for customer and partner communication, for instance, MyFoscarini, a proprietary IT platform, an absolutely innovative, highly flexible and transparent tool providing customers with complete information and full range of functions. With just a few clicks in MyFoscarini you can:

- *check the availability of lamps and the shipping date;*
- *enter your orders, reserving lamps directly from Foscarini's central system;*
- *track your order status;*
- *consult sale conditions;*
- *download admin documents such as transport documents and invoices;*
- *prepare a quotation;*
- *download: images, logos, PDF and excel price lists assembly instructions, certifications and energy labels.*

*And all this 7 days a week, 24 hours a day.
If you haven't registered yet request your password from Foscarini Customer Care.*

App iFoscarini

iFoscarini è una app pensata per tutti gli appassionati di design che desiderano personalizzare i propri spazi con l'inconfondibile personalità dei modelli Foscarini. Dall'accattivante grafica emozionale ed estremamente user-friendly, *iFoscarini* permette di inserire le lampade all'interno di ambienti e setting fotografati al momento o scelti da un archivio di immagini. Disponibile su Apple Store e Play Store.

iFoscarini is an app designed for all design enthusiasts who wish to customise their surroundings with the unmistakable personality of Foscarini models. With captivating and emotional graphics and extremely user-friendly it allows users to insert lamps in rooms and settings which are caught on camera each time or picked from an archive of pictures. Available on the Apple Store and Play Store.

Legenda

CE

Dichiara che il produttore produce apparecchi conformi e rispondenti ai requisiti proposti dalla norma EN 60598.

Declares that the manufacturer produces light fittings which comply with the requirements of the EN 60598.

Classe I

Apparecchio in classe I°: è obbligatoria la connessione al conduttore di protezione giallo / verde (messa a terra).

Class I° luminaire: it's necessary to connect the device to the yellow / green protective conductor (earthing).

Classe II

Apparecchio in cui la protezione contro la scossa elettrica si basa unicamente sul doppio isolamento e/o isolamento rinforzato in ogni parte e senza dispositivo di messa a terra.

Light fittings whose safety is guaranteed only by the double and/or reinforced insulation of all parts, with no earth.

Classe III

Apparecchio in cui la protezione contro la scossa elettrica si basa sull'alimentazione a bassissima tensione di sicurezza e in cui non si producono tensioni superiori alla stessa.

Light fittings in which protection against electric shock is designed to be supplied from a safety extra-low voltage power source.

Legenda

ENEC

Il marchio ENEC (Certificazione Elettrica relativa alle Norme Europee) è un marchio volontario rilasciato da enti terzi. Certifica che il prodotto è conforme e rispetta i requisiti proposti dalla norma EN 60598 ed è progettato e realizzato in aziende il cui sistema di gestione della qualità soddisfa i requisiti della norma UNI EN ISO 9001.

The label ENEC (Electrical Certification concerning European Standard) is a voluntary label granted by third organizations. It certifies that a product complies with the EN 60598 standards and has been designed and manufactured by companies with an approved UNI EN ISO 9000 quality control system.

cULus

Certifica che il prodotto è conforme e rispetta i requisiti proposti dalle normative nordamericane, viene rilasciato dall'UL, organizzazione indipendente leader nel settore della certificazione di sicurezza dei prodotti destinati al mercato Nordamericano.

Certifies that the product is conform to the North American standards, and is issued by UL, independent organisation leader in the field of products safety certification for the North American market.

EAC

Il marchio EAC certifica che i prodotti sono conformi a tutte le normative tecniche delle procedure di valutazione dell'Unione doganale eurasiatica.

The EAC mark certifies that the products comply with all the technical regulations of the evaluation procedures of the Eurasian Customs Union.

IP

IP Protection Degree

IP20: apparecchio protetto contro la penetrazione di corpi solidi di dimensioni maggiori a 12mm e non protetto nei confronti dei liquidi.

IP44: apparecchio protetto contro la penetrazione di corpi solidi di dimensioni maggiori a 1mm e protetto contro gli spruzzi d'acqua.

IP65: apparecchio totalmente protetto contro la polvere e protetto contro i getti d'acqua.

IP20: protected against the penetration of solid objects greater than 12 mm and non protected against liquids.

IP44: protected against the penetration of solid objects greater than 1 mm and protected against splashing water.

IP65: dust-tight and protected against water jets.

Americans Disability ACT

Serie di normative che regolano l'arredo di edifici pubblici a favore dei portatori di handicap.

Certification that confirms accessibility to places of public accommodation and commercial facilities by individuals with disabilities.

CSQ – IQNET
