

THE ARTIFICIAL INTELLIGENCE (AI) SERIES

Association of Arbitrators (Southern Africa) NPC

Webinar, 26 February 2026

presented by  **Hevi**

AI FOR ARBITRATION:

TURNING DOCUMENT CHAOS INTO CASE CLARITY WITH HEVI

Join the Association of Arbitrators (Southern Africa) NPC for the sixth webinar, presented by [Hevi](#), in a series as part of the Association's ongoing mission to provide regular upskilling opportunities for everyone interested in Alternative Dispute Resolution (ADR).

ABOUT THIS WEBINAR:

Modern arbitrations on complex construction and mining matters are won or lost in the documents, not the speeches. This session shows a practical, defensible workflow for using AI to accelerate evidence review, build chronologies, map issues to sources, and pressure test submissions across thousands of records, while keeping data private and controlled. We will walk through a simple end to end "case build" flow, including evidence triage, timeline building, issue and allegation mapping, witness and expert preparation, and hearing support searches, with an emphasis on process integrity and human verification.

ABOUT OUR PRESENTER:

[Mr Paul Culvenor](#), Co-Founder, Hevi:

Paul is an Australian mining engineer who has spent more than a decade steering commercial strategy on multi-billion-dollar mining projects across Australia and Africa. Early in his career he held senior contract and commercial management roles with tier-one contractors, where he routinely negotiated complex EPC and alliance agreements, led cost-recovery strategies, and navigated high-stakes disputes.

Repeatedly witnessing how poor contract administration erased project margins and strained client-contractor relationships, Paul developed a deep conviction that better technology was required to protect project value.

In 2022 he co-founded **Hevi**, an AI-powered contract-administration platform built to eliminate the very risks he had battled in the field. As Hevi's co-founder and commercial lead, Paul translates first-hand project pain points into product features that proactively flag entitlement triggers, guide teams through claim workflows, and preserve an auditable record of contractual correspondence. Under his guidance, Hevi has been adopted by owners, contractors, subcontractors, and suppliers on large mining, construction, and infrastructure projects worldwide, helping them mitigate delays, capture variations, and avoid costly disputes. Paul's blend of site-level pragmatism, commercial acumen, and product vision continues to drive Hevi's mission to become the contract-administration platform of choice for heavy industry.

DATE: Thursday, 26 February 2026 **TIME:** 18:00 to 19:00 (SAST), 16:00 to 17:00 (BWT)

LINK: The Zoom link will be emailed to you upon receipt of your completed [Registration Form](#).

COST (incl. VAT):	AoA, ACPM, BI Arb, CESA, MBA, RICS, SAICE and WISA Members:	R 150.00
	AoA Students:	R 0.00
	Non-members:	R 200.00
	University Students, Professional Trainees, Pupil Advocates and Candidate Attorneys:	R 0.00

RSVP BY: Wednesday, 25 February 2026

Please send your completed [Registration Form](#) to our Financial Manager **Michelle Venter** at michelle@arbitrators.co.za.
