Sodium Hexametaphosphate

Oral hygiene - helps keep tartar under control

Sodium hexametaphosphate actively sticks to minerals that form tartar, preventing them from building up on teeth. Research has shown that the use of sodium hexametaphosphate in food reduced the formation of tartar by 50% to 80%.

Yucca Extract

Less stool odor

Yucca schidigera actively reduces the odor of feces. Due to their high digestibility and correct balance of nutrients, an ideal fecal consistency is obtained.

Omega 3 & 6 + Zinc

Healthy skin and a shiny coat

Essential fatty acids such as omega 3 and 6 when used in combination with zinc provide healthy skin and a shiny coat.

Increased longevity

Antioxidants help protect tissues and cells

Selenium and vitamin E are natural antioxidants and protect tissues and cells.
