SILICONE HOSES THAT WORK AS HARD AS YOU

Our high-performance silicone hoses are built to exceed OE standards, delivering exceptional durability and reliability in the harshest conditions.

6-Ply Reinforced Aramid Fiber:

Provides superior strength and durability, ensuring the hose can withstand extreme temperatures and pressures.

Chamfered Inner Diameter

All silicone hoses (except stick and bulk hoses) inner diameter is chamfered for ease of installation.

High-Performance Silicone Rubber:

Offers exceptional resistance to heat, cold, and chemicals, maintaining flexibility and performance in harsh environments.

Broad Temperature Range:

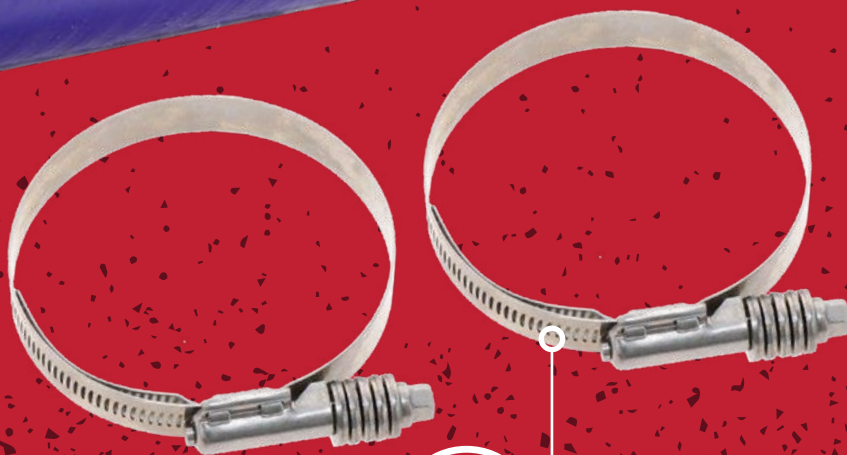

Operates flawlessly from -65°F to 500°F, accommodating a wide range of operating conditions.

Increased Wall Thickness:

The 0.260" wall thickness, compared to the OEM's 0.190", provides enhanced durability and resistance to wear and tear.

WHEELERFIT

Constant-Torque Heavy-Duty Clamps:

Secure and reliable clamping ensures a leak-proof and long-lasting connection.
