

February 23, 2023

Dear Archie Family,

Firstly, thank you all for your continued support. I have been working many hours a day to accomplish our goals and trying to keep you updated as well. But time to time, I forget things and get carried away.

We are getting close to our first milestone. ARCHIE CHAIN Launch. It is a Layer 1 EVM Compatible Blockchain. Let me explain few things about this particular blockchain.

**archiechain**<sup>TM</sup>

[www.archiechain.io](http://www.archiechain.io)

<https://heyzine.com/flip-book/6533e1b852.html>

1. **ArchieChain** is a Proof-of-Stake (PoS) and EVM-compatible blockchain that aims to bring cheap and fast transactions to crypto users. ArchieChain focuses on scalability, security, robustness, and utility to benefit its users. ArcCoin (\$ARC) is the native coin used on the ArchieChain blockchain. \$ARC is used for paying gas fees for transactions as well as smart contract deployment and interactions. ArchieChain will ultimately provide ArchieCoin (ARC) users with access to tokens, blockchain games, NFTs, decentralized applications (DApps), and the ever-growing Defi ecosystem. To further allow use in decentralized applications, we also created an ERC20 version of ARC called Wrapped

[www.archiecoin.io](http://www.archiecoin.io)  
[wl.archiecoin.com](http://wl.archiecoin.com)  
[www.archiescan.io](http://www.archiescan.io)  
[www.archieswap.io](http://www.archieswap.io)  
[www.archiechain.io](http://www.archiechain.io)

**archieNEKO**<sup>TM</sup>  
making your dreams come true

[info@archieneko.com](mailto:info@archieneko.com)

ARC (\$WARC). \$ARC and \$WARC can be converted to each other at a one-to-one ratio.

- a) The main goal of **ArchieChain** is to increase the use cases of **ArcCoin** by providing it with much-needed utility. **ArchieCoin (ARC)** users are able to create smart contracts and benefit from fast and cheap transactions. While Ethereum suffers from high transaction costs, on **ArchieChain**, even the “most expensive” transactions will cost mere cents.
- b) Archie Chain Gas limit is set at 4 gwei and that is much cheaper than our competitors. I didn't want to set it at zero because of the fact, people will jump in and out and it will become worthless. Not only that, but our validators are also paid with these gas fees.
- c) Along with Archie Chain, we have our explorer Archie Scan and our DEFI exchange Archie Swap.

[www.archiescan.io](http://www.archiescan.io)

<https://heyzine.com/flip-book/a517e74314.html>

2. **ArchieScan** is the leading Blockchain Explorer, Search, API and Analytics Platform for ARC (Archie Blockchain), a decentralized smart contracts platform. Built and launched in 2023 it is one of the safest and fastest running independent projects built around ARC and its community with the mission of providing equitable access to blockchain data.
  - a. Users can view any transaction of the Archie blockchain on ArchieScan. These transactions include failed and pending transactions.
  - b. ArchieScan can also keep track of the progress of an incoming transfer. One way to track a transaction using ArchieScan is to look it up on ArchieScan using its hash key.

[www.archiecoin.io](http://www.archiecoin.io)  
[wl.archiecoin.com](http://wl.archiecoin.com)  
[www.archiescan.io](http://www.archiescan.io)  
[www.archieswap.io](http://www.archieswap.io)  
[www.archiechain.io](http://www.archiechain.io)

**archiNEKO**<sup>™</sup>  
making your dreams come true

[info@archieneko.com](mailto:info@archieneko.com)

The hash provides users with an estimate of how long the transaction will take to confirm. The page refreshes once the transaction is complete.

- c. ArchieScan also works as an analytics platform. Anyone can use ArchieScan to analyze on-chain metrics like changes to ARC.
- d. Only information that is public on the Archie blockchain is displayed on ArchieScan, so information like a user's private keys can't be viewed on the app. ArchieScan doesn't store any private keys and is not involved in any of the transactions shown. The app also cannot be used to solve a transaction failure.

[www.archieswap.io](http://www.archieswap.io)

<https://heyzine.com/flip-book/b9f6f5fcd3.html>

- 3. **ArchieSwap**, DeFi Exchange for the ArchieChain (ARC) that is a Layer 1 EVM Compatible BlockChain with zero-low Gas and Fast BlockChain. The ArchieSwap protocol enables crypto trades without the reliance on a centralized intermediary. The protocol achieves this through decentralization, liquidity pools, and automated market maker.

**a. Decentralized**

The ArchieSwap protocol is an open-source peer-to-peer decentralized exchange. Immutable, persistent, non-upgradable smart contracts on the Ethereum blockchain define the ArchieSwap protocol. This makes the protocol censorship resistant, secure, and self-custodial. The protocol's services are open for public use. No one has the ability to restrict who can or cannot use them. The result is anyone can swap tokens, list a token, or provide liquidity in a pool to earn fees.

[www.archiecoin.io](http://www.archiecoin.io)  
[wl.archiecoin.com](http://wl.archiecoin.com)  
[www.archiescan.io](http://www.archiescan.io)  
[www.archieswap.io](http://www.archieswap.io)  
[www.archiechain.io](http://www.archiechain.io)

[info@archieneko.com](mailto:info@archieneko.com)

**b. Liquidity pools**

Liquidity pools are token pairs stored in an ArchieSwap pool contract. They allow users to swap against the tokens within a pool.

These pools rely on users for funding. Users create market liquidity by providing token pairs to a pool. To incentivize pooling liquidity, there is compensation for liquidity providers.

**c. Automated Market Maker**

This smart contract manages liquidity pools. It allows for automated and permissionless token swaps. It is also known as an AMM or a Constant Function Market Maker.

The AMM analyzes a token pairs' supply and demand within a liquidity pool. This is how the AMM determines the real time value of a token and provides efficient token prices for each swap. This system replaces the traditional order book used by centralized exchanges. Instead, users interact with the liquidity pool using the AMM.

These are high-level overviews of how ArchieSwap works.

- d. ArchieSwap is a decentralized cryptocurrency exchange that uses the ArchieChain(ARC) ecosystem's first automatic market making mechanism (AMM DEX). ArchieSwap exchange is where standard token trades on ArchieChain(ARC) happen.

There are two kinds of users on the ArchieSwap exchange:

*Liquidity Providers:* They add their assets to the Pool.

[www.archiecoin.io](http://www.archiecoin.io)  
[wl.archiecoin.com](http://wl.archiecoin.com)  
[www.archiescan.io](http://www.archiescan.io)  
[www.archieswap.io](http://www.archieswap.io)  
[www.archiechain.io](http://www.archiechain.io)

**archiNEKO**<sup>TM</sup>  
making your dreams come true

[info@archieneko.com](mailto:info@archieneko.com)

*Traders:* They swap assets back and forth in the Pool according to the algorithm in the smart contract (Smart Contract). This is different from how the order book works on other exchanges.

- e) AMM is a market-making system that lets buy and sell orders be carried out without going through the order book. You only need to add assets to the pool (Pool), and the orders will be filled right away. The price will be adjusted according to the smart contract's formula.
- f) **ArchieSwap only charges .25% for the network fee and .17% paid to the liquidity provider on the DEX and .08% to the ArchieSwap Owner**
  - **Low .25% Network Fee**
  - **Fast transactions on our own chain**
  - **Low Gas fee (4GWEI)**

You can test our Block chain for speed and accuracy by yourself. Please join our 24 hrs. Voice chat for more info.

#### 4. Now, let's talk about flagship project ARC COIN.

It is so exciting to tell you the achievements of our journey so far. Arc Coin is the stable coin of ARCHIE CHAIN, and it can be wrapped against other coins to create WARC.

##### KEY BENEFITS OF ARC COIN

- Near-Zero Gas (Archie Chain has setup gas to 4GWEI)
- Low Supply of 10 billion Max Supply
- Staking Options
- Liquidity against USDT
- Will be deployed in multiple chains (ARC/USDT on ArchieSwap & WARC/USDT on BSC to start with)
- Exchange Listings to follow.
- KYC done (Assure DEFI)
- Audit done (CyberScope)
- DEV Wallet locked for a year.
- Team Tokens are released on timely schedule.

Not only those benefits above,

ARC is the stable coin of ArchieChain and ARC is used as gas on ArchieChain.

ARC will be the native coin of upcoming Archie Marketplace

ARC will be the native coin for our upcoming Archie MetaVerse . You must have ARC in your wallet to enter ArchieMeta

ARC needed to deploy other tokens (such as Archie Token later on by us)

[www.archiecoin.io](http://www.archiecoin.io)  
[wl.archiecoin.com](http://wl.archiecoin.com)

[info@archieneko.com](mailto:info@archieneko.com)

ARC to create liquidity on ArchieChain.

## 5. ARC COIN Pre Sale

We were originally planning to release on three chain (ETH/BSC and ARCHIE) and after long thinking and listening our advisors, we have decided to limit the Pre- Sale to BSC and Archie.

Let me give you some details into this:

We will be using pink sale for BSC side and ARCHIE ICO dApp for ArchieChain. Our hard cap on BSC and Archie is set at 75,000 USDT each. We have created an Early access WL program for our Archie Chain investors.

The link to our WL (early access) Pre Sale is:

WL.ARCHIECOIN.COM

We have been getting a decent amount of people taking advantage of this WL program. As of today, 69.000 USDT commitment has been made by our future holders. As in any program, there will be some dropouts. So please don't wait for the public version of PRE-SALE, sign up for the WL (Early Access) Today and your wallet will be whitelisted, and you will have the benefit of entering the pre-sale for the first two hours exclusively.

### **Pink Sale Pre Sale-Information:**

Date of Sale:	TBA
Hard Cap	75,000 USDT
Pre-Sale Rate:	23,330 ARC = 1 USDT
Price Per ARC:	.00004286

[www.archiecoin.io](http://www.archiecoin.io)  
[wl.archiecoin.com](http://wl.archiecoin.com)  
[www.archiescan.io](http://www.archiescan.io)  
[www.archieswap.io](http://www.archieswap.io)  
[www.archiechain.io](http://www.archiechain.io)

**archiNEKO**<sup>TM</sup>  
making your dreams come true

[info@archieneko.com](mailto:info@archieneko.com)

Opening Price: .00005054

Opening MCap: 505,000

**ArchieChain Pre Sale Information:**

Date of Sale: TBA

Hard Cap 75,000 USDT

Pre-Sale Rate: 23,330 ARC = 1 USDT

Price Per ARC: .00004286

Opening Price: .00005054

Opening MCap: 505,000

Date of Launch: March 15, 2023. (Time to be Announced)

We are currently working on the Archie dApp and as more information available, we will release that to you. Such as, how to use and what all tokens you can use to buy and so forth.

[info@archieneko.com](mailto:info@archieneko.com)

**Now, I want to discuss about few things that is happening now.**

**1. ARC AIR DROP PROGRAM**

It was one of the best marketing programs we have done. Almost 6000 people touched our bots and around 3200 of them somewhat finished all task. We are going through each entry line by line manually to see who all qualifies. We will not leave you behind. If some of them didn't finish one task or two, we will try to reach out to you personally by direct message in one of the social media you entered. I have heard horror stories of AIR Drop and I assure you, if you have done your part of work, then Archie will air drop the ARC to you within 3 days of our launch.

**2. ARCHIE TOKEN Staking dApp**

Staking was stopped on October 7, 2022 and have asked no one to re-stake by adding an extra message on the dApp and by social media. Unfortunately, there are people that missed it. Being with ArchieNeko, you are in good hands, and I will go through each wallet and air drop your tokens that you have send to staking wallet after October 7. People who are in the staking pool prior to it, please unstake by hitting “-” in the dAPP. If you are only able to see “EW” then you have staked after October 7, and wait for me to send you the tokens.

*Please note that most of our holders haven't unslaked and I can't break the staking pool. It will cost me a lot of fees to send out the token. For those accidentally send tokens to contract after staking period was over, it is better and cost effective for you to use “EW” feature in the dApp and pay a 5% considering the fact that If I have to break the pool and send tokens to lot more people.*

**archiNEKO**<sup>TM</sup>  
making your dreams come true

[info@archieneko.com](mailto:info@archieneko.com)

**3. ARCHIENeko NFT Holders. (COMPLETED 2/24 PLEASE CHECK THE LIST ON TG PINNED MESSAGE)**

For those who bought ArchieNeko NFT prior to November 28, 2022, you were offered ArchieNeko NFT at the current price of .27 Eth. In order to receive that, you supposed to buy \$20 worth of archie token (\$ARCHIE) in a new wallet and send me the wallet address to [jp.archieneko@gmail.com](mailto:jp.archieneko@gmail.com). Some of you did, and some of you haven't. Since, I have been really busy and don't have the actual date for the Everest Casino launch (which I will talk about later on), I haven't really pushed it. PLEASE EVERYONE, STEP IT UP ON THIS BECAUSE, I AM ABOUT TO START DROPPING THOSE NFTs to those who already done.

**4. HACHI NFT Whitelisted. (COMPLETED 2/24/23 PLEASE CHECK THE TG PINNED MESSAGE)**

Those who are waiting for the Hachi NFTs, it will be dropped this coming week as well. If you have changed your original wallet address, please send me the new wallet address to [jp.archieneko@gmail.com](mailto:jp.archieneko@gmail.com).

**5. PRIVATE BUYERS**

You were offered a FREE ArchieNeko NFT for your support for this project from the beginning, those will be dropped this coming week as well to the original wallet. Any changes, please email to me at [jp.archieneko@gmail.com](mailto:jp.archieneko@gmail.com). Unfortunately, I haven't seen many of you stopping by to support the project. If you are a beneficiary, supporting your project is an important factor.

**6. Everest Casino**

[www.archiecoin.io](http://www.archiecoin.io)  
[wl.archiecoin.com](http://wl.archiecoin.com)  
[www.archiescan.io](http://www.archiescan.io)  
[www.archieswap.io](http://www.archieswap.io)

**archieNEKO**<sup>TM</sup>  
making your dreams come true

[info@archieneko.com](mailto:info@archieneko.com)

Currently the everest casino is under review by the auditor and waiting for the online licensing agency to approve us. We are hoping to receive a favorable answer before the end of the month, I will definitely keep you informed.

#### 7. Archie Token

We have been talking about this for a while now. We have the contract and audit ready to go and waiting on the right time to launch Archie Token. For current holders, we are marketing heavy and working hard to raise our charts. After about three weeks from the launch of ArchieChain and ArcCoin, we will be launching Archie Token on our own ArchieChain.

I will announce ahead of time, and you will have the choice to either sell current Archie Token or wait for us to Air Drop our new token.

Archie Token will not be available for Pre-Sale or Private Sale. Current holders of Archie on Erc 20 will be the first one to be on the new Archie Token on ArchieChain.

<https://heyzine.com/flip-book/8dd5bb0f00.html>

Total Supply will be 1,000,000,000. Please see the attached pdf for more details

#### 8. ArchieMeta NFT

These NFTs are the avatar nfts of ArchieMeta and are currently offered at Archiemetanft.com for minting at .019 eth. Since, we are getting closer to releasing Everest Casino, as of January 26, 2023, we are raising the mint price to .049 eth. It has lots of benefits, please check the pdf s available in our Telegram Chat

[www.archiemetanft.com](http://www.archiemetanft.com)

#### 9. We Care Kitty NFT

[www.archiecoin.io](http://www.archiecoin.io)  
[wl.archiecoin.com](http://wl.archiecoin.com)  
[www.archiescan.io](http://www.archiescan.io)  
[www.archieswap.io](http://www.archieswap.io)  
[www.archiechain.io](http://www.archiechain.io)

**archiENeko**<sup>TM</sup>  
making your dreams come true

[info@archieneko.com](mailto:info@archieneko.com)

These NFTs are to help the Archie Foundation and Holders together. But we have added lot more benefit to make it interesting for people to join.

**Total Supply:**                    **10,000**  
**Pre-Mint Price**                   **.049 eth**  
**Mint Price:**                       **.079 eth**  
**Mint Date:**                       **To be announced**

If you want to be considered for WL, please email [info@archieneko.com](mailto:info@archieneko.com)

#### 10. Archie Aggregator

**archieAggregator**<sup>™</sup>  
[App.archieaggregator.io](http://App.archieaggregator.io)

Have you checked on our Archie Aggregator lately? We have made this DEX Aggregator for our own use and really didn't advertise a lot. The main use that foresee for this utility is for our ArchieMetaVerse.

Can you imagine the pain of swapping a token from one chain to another? What will you do to swap a token from Osmosis chain to Archie Chain? Wow, that sounds complicated, isn't it?

Now, think about out MetaVerse with Play 2 Earn games from Casino to Shooting range and everything in between. Do you want to limit your Metaverse to people who holds ARC or will you open your place to anyone and everyone that holds any crypto. That is the real vision behind our Archie Aggregator. People are able to swap their token from any chain (as long as it has liquidity and tradable) to Archie Chain

[www.archiecoin.io](http://www.archiecoin.io)  
[wl.archiecoin.com](http://wl.archiecoin.com)  
[www.archiescan.io](http://www.archiescan.io)  
[www.archieswap.io](http://www.archieswap.io)  
[www.archiechain.io](http://www.archiechain.io)

**archieNEKO**<sup>™</sup>  
making your dreams come true

[info@archieneko.com](mailto:info@archieneko.com)

ARC and once they are ready to go back after playing, to take their crypto back to their native chain with an ease.

Currently there are 19 Blockchain and Metaverse wallet connected in our Archie Aggregator.

**Assets Currently Listed:**

ARCHIE CHAIN	AURORA	AVALANCHE	BINANCE
BOBA	CRONOS	ETHEREUM	EVMOS
FANTOM	FUSE	GNOSIS	HARMONY
HECO	MOON RIVER	MOONBEAM	OKC
OPTIMISM	POLYGON	ARBITRUM	

**Wallets available:**

Metamask

**Up Coming Assets under works:**

Cosmos	Osmosis	Binance Chain	Juno	Akash
Stargaze	Chihuahua	BandChain	IRISnet	Ki
Kujira	Persistence	Crypto.org	Comdex	Regen
e-money	Sentinel	Starname	Umee	BitCanna
Desmos	Lum	Bitcoin	Bitcoin Cash	LiteCoin
Solana	Thorchain			

**Wallets to be added:**

Trust Wallet	Kepir	Phantom Wallet	Xdefi	Binance
Clover	Safepal	Cosmos Station	Coin98	Token Pocket

[www.archiecoin.io](http://www.archiecoin.io)  
[wl.archiecoin.com](http://wl.archiecoin.com)

[www.archieswap.io](http://www.archieswap.io)  
[www.archiechain.io](http://www.archiechain.io)

Brave                      Math Wallet    Coinbase

This will change the way people use a swap and our R&D still doing more research to add more int our Archie Aggregator every day.

These are the main highlights of what is being happening at ArchieNeko. We have a 24 hrs Voice Chat Available on Telegram and lot of you asked me why? That is the way to give you the best assurance that someone is there to say hello and answer your questions all the time. You can get in touch with us always. 24 hours customer service. Come Join us and support all our social media attached here.

Thank you again,

Sincerely,

GEO/FOUNDER, ARCHIENeko
