VERSION 2025.1.1.O ▶ 15 SEPTEMBER 2025

The future is full of uncertainties.

What will the job market look like?

What will our society be like?

What will our planet look like?

How will *you* change?

A college education
that empowers you for
change is your best
preparation for tomorrow.

For over 165 years,
Ateneo de Manila has
been preparing young
people for the future.

An Ateneo education and
formation will prepare
you not just for work,
but will set you for life.

ready
for
tomorrow,
the
Ateneo
way.

Welcome

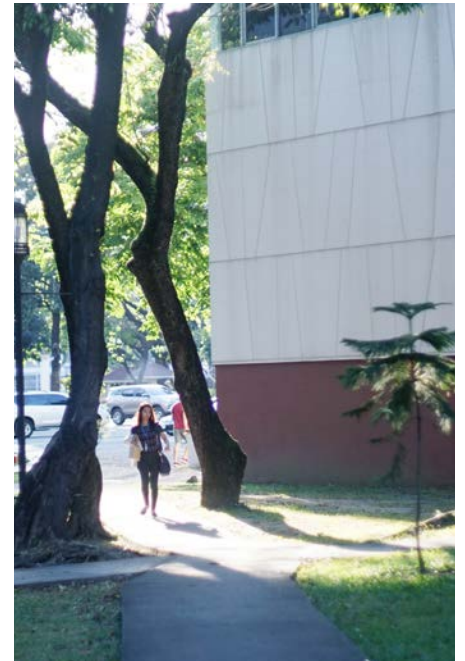

ATENEO DE MANILA UNIVERSITY

Ateneo de Manila University stands proud as one of the Philippines' leading and influential institutions of higher learning.

Emerging from its rich and compelling history, Ateneo has long been recognized for its distinct heritage, excellence in teaching, learning, and research, and its contributions to the advancement of human knowledge and progress in society.

Ateneo is forward-looking, global in perspective, ready to face and adapt to the challenges of tomorrow, and is firmly rooted in its Filipino, Catholic, and Jesuit core.

to Ateneo

A UNIQUE IDENTITY

Ateneo de Manila is truly Filipino, devotedly Catholic, and uniquely Jesuit.

Its tradition of holistic, liberal, and humanistic learning and formation stems from its Jesuit roots, the manifestation of a 500-year-old educational tradition.

It is a Catholic institution, dedicated to upholding the Faith, and fulfilling the Church's mission to serve the last, the least, and the lost.

And it is a Filipino institution, proud of its rich heritage and significant role in nation-building, its daughters and sons contributing to its social, cultural, economic, and political life.

Ateneo College

Ateneo College is a vibrant community within the larger Ateneo de Manila University, offering an array of undergraduate degree programs that embody the university's tradition of excellence, global competitiveness, and Asian perspective.

It aims to transform society through pioneering research, creative endeavors, and leadership in service to humanity and the environment, all grounded on the principle of forming persons-for-others.

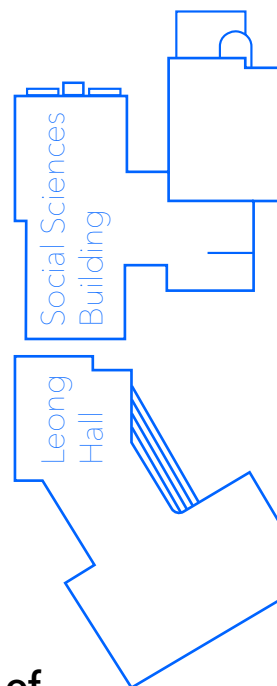

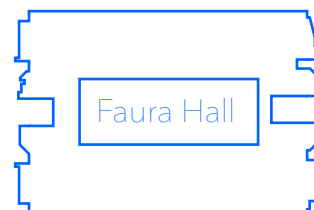

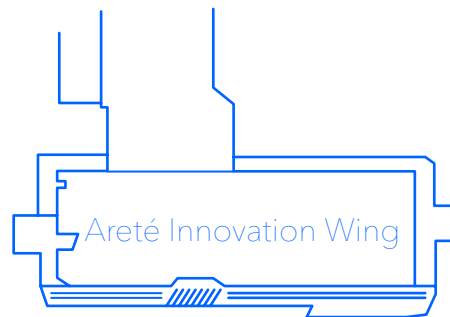

At Ateneo College, you will find your place in one of five schools, while also being part of the larger University community, which fosters diversity, a strong sense of community, and interdisciplinary learning.

The **School of Humanities (SOH)** offers a deep understanding and appreciation of the human condition. The examination of the best that has been thought and said about humanity, and the imagining of what may yet be done—remembering and dreaming—activities that help students cultivate capacities which are uniquely human in an increasingly hostile and complex world.

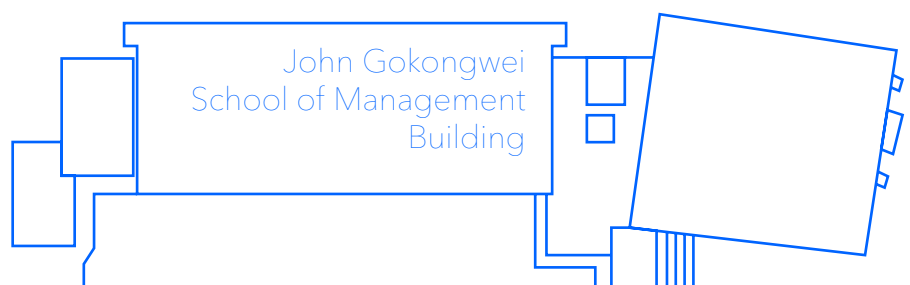

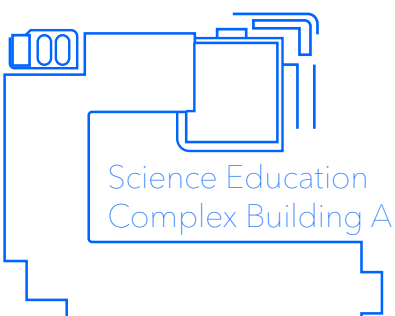

The **Gokongwei Brothers School of Education and Learning Design (GBSEALD)** continues a tradition of excellence in teacher education that dates back to 1865, and constitutes Ateneo's strategic response to the challenges of Philippine education and enables the university to address these more effectively through a strong institutional identity and presence in the national educational landscape.

The **School of Science and Engineering (SOSE)** is a community of educators, researchers, learners, and leaders that advances excellence through the pursuit of truth grounded in sound scientific principles. SOSE drives sustainable and inclusive national development through education, research, innovation, and social engagement.

The **Dr Rosita G Leong School of Social Sciences (RGLSOSS)** forms individuals who are competent, ethical, and responsive to local and global social realities. RGLSOSS equips individuals and communities with perspectives and skills for local, national, and global transformation. It pursues its mission through interdisciplinary and transdisciplinary teaching, research, creative work, and outreach.

The **John Gokongwei School of Management (JGSOM)** shapes students into leaders who can respond to the needs of tomorrow's world: global in perspective, interdisciplinary in approach, and technically proficient while remaining people oriented. JGSOM develops achievers who become principled leaders guided by strong core values.

Learning, the Ateneo way: Holistic, liberal, student-centered

Ateneo de Manila believes learning should encompass your overall development, giving you the tools and skills necessary for you to build a career, to realize your full potential as an individual, and to become a responsible and engaged citizen.

Student-centered learning places you at the heart of instruction. Teaching facilitates active participation and independent inquiry, and instills in you the joy of learning inside and outside the classroom.

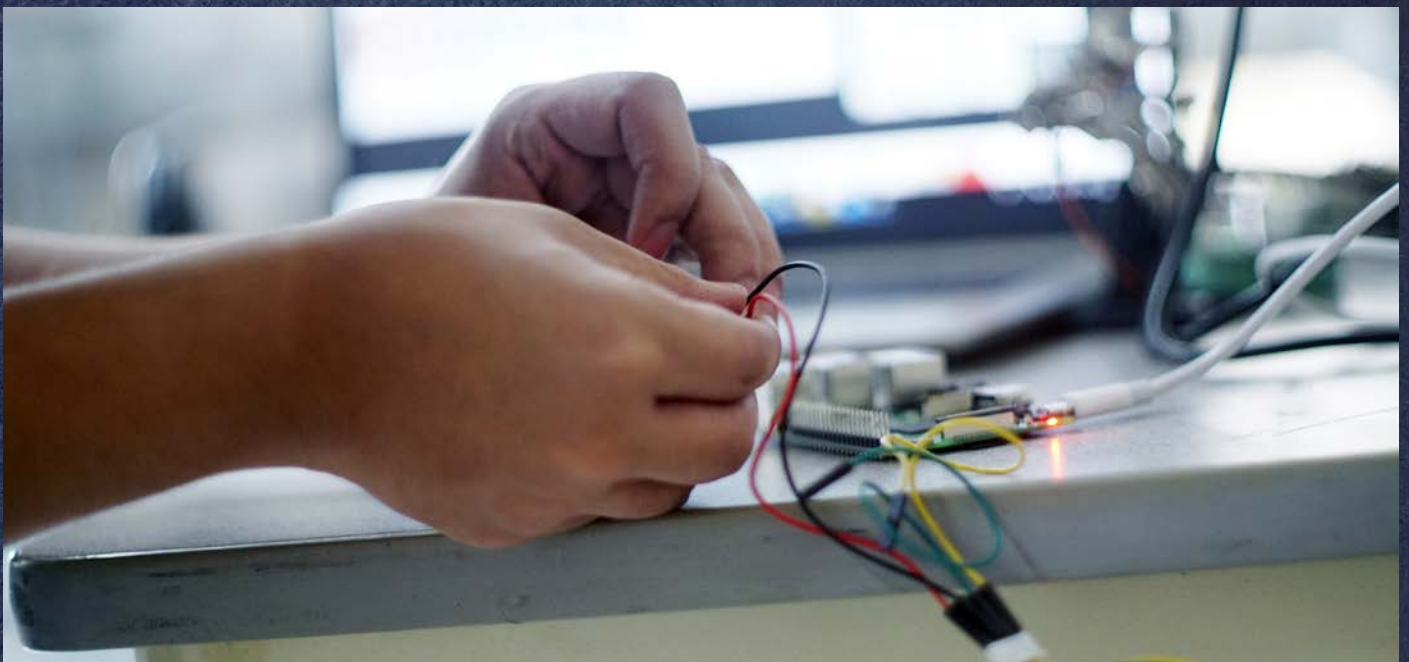

How and when you learn is just as important. Ignatian pedagogy emphasizes learning, grounded in experience, repetition for depth, the provision of many examples and exercises to ensure mastery, and constant guidance and personal care (*cura personalis*). This process of self-reflection on deeper meaning and purposes leads to a careful weighing of options and considered action.

You are also given countless opportunities to help improve the lives of others while learning from them and improving your own. You will be guided to discern not just what is good; it will hopefully lead you to choosing the more loving option: one that will have the greatest positive impact.

Your Ateneo college journey will hopefully transform you into a person of competence, conscience, compassion, and commitment. An Ateneo education does not simply prepare you for a job; it prepares you for life.

Ready for learning

ACADEMICS

What makes Ateneo college education distinct is the deliberate weaving together of the core curriculum, majors, and co-curricula.

It is an education that is integral, interdisciplinary, and Ignatian—one that seeks to develop intellectual depth, enhance creative imagination, deepen social involvement, and nurture spiritual maturity.

It is intended to form students as life-long learners who are able to discover and fulfill their distinctive calling and mission.

CORE CURRICULUM: THE HEART OF ATENEO COLLEGE EDUCATION

The world-affirming nature of Ignatian spirituality has translated over the years into the primacy of the liberal arts in Jesuit education that is found in the core curriculum. It is the hallmark of Ateneo education.

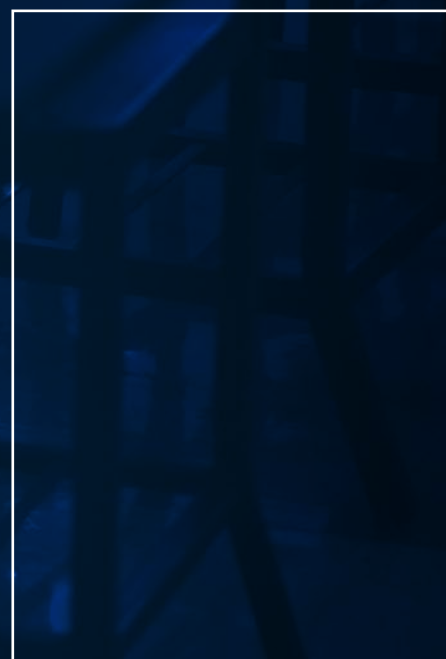

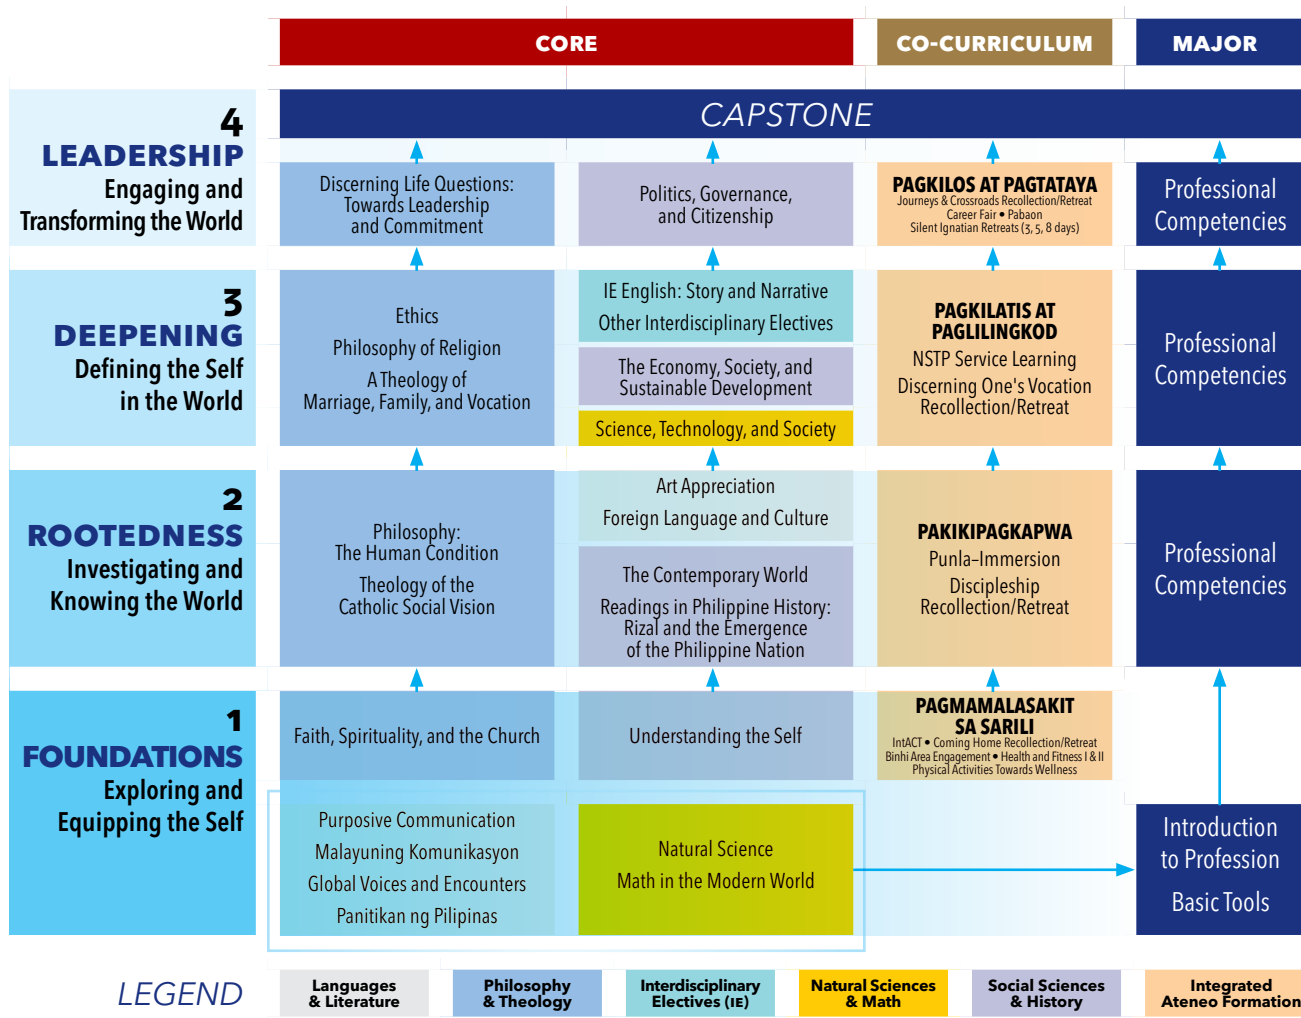

The core curriculum strives for both academic competence and value formation through a deliberate progression of learning. The core curriculum courses are organized under four stages:

- 1. FOUNDATIONS:** Exploring and Equipping the Self
- 2. ROOTEDNESS:** Investigating and Knowing the World
- 3. DEEPENING:** Defining the Self in the World
- 4. LEADERSHIP:** Engaging and Transforming the World

In a world with much suffering and division, Ateneo hopes that its graduates will become engaged citizens and transformative leaders in the service of reconciliation and justice in their chosen professional fields.

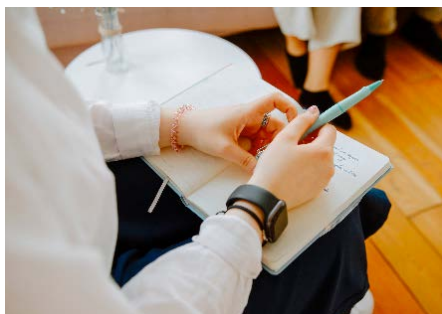

FRAMEWORK OF ATENEO UNDERGRADUATE CURRICULA

MAJORS AND CONCENTRATIONS

In Ateneo, there is an undergraduate major that will suit your interests and future plans. Each one of the 45 majors is comprehensive and rigorous, providing you with the best preparation for your future career, or for further studies.

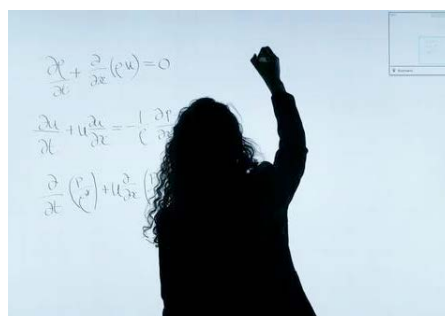

ARTS AND HUMANITIES

The humanities are an expression of a people's view of itself and of the world. They are also a record of what our society values and aspires for—a remembering and a dreaming.

At Ateneo de Manila these two acts of remembering and dreaming are embedded in the degree and minor programs in the arts and humanities. Gain a deeper understanding of the human condition, and contribute to the enrichment of our shared heritage.

- ▶ Art Management
- ▶ Creative Writing
- ▶ Humanities
- ▶ Information Design
- ▶ Interdisciplinary Studies
- ▶ Literature (English)
- ▶ Philosophy
- ▶ Theater Arts

SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS

Our society's path forward rests on many scientific and technological advances, and will be a critical part of our future, especially as we face the challenges of sustainable development, poverty, health, and climate change.

Ateneo's degree programs in the sciences, technology, engineering, environment, and mathematics trains students to become technically proficient and ethical scientists and engineers who are creative and interdisciplinary, with a bias for sustainable development and nation building.

- ▶ Applied Mathematics
- ▶ Applied Physics
- ▶ Biology
- ▶ Chemistry
- ▶ Computer Engineering
- ▶ Computer Science
- ▶ Digital Game Design and Development
- ▶ Electronics Engineering
- ▶ Environmental Science
- ▶ Health Sciences
- ▶ Innovation Design Engineering
- ▶ Life Sciences
- ▶ Materials Science and Engineering
- ▶ Management Information Systems
- ▶ Mathematics
- ▶ Physics

MANAGEMENT AND ENTREPRENEURSHIP

Management is about generating innovation, developing strategies, and founding organizations that positively impact individuals, the society, and the planet. Ateneo's management degree programs are designed to develop managers who are technically proficient, forward thinking, grounded on ethics and principles, and with high potential of becoming leaders in industry, government, and social organizations.

- ▶ Applied Mathematics
- ▶ Communications Technology Management
- ▶ Information Technology Entrepreneurship
- ▶ Legal Management
- ▶ Life Sciences–Management Track
- ▶ Management
- ▶ Management Economics
- ▶ Management Engineering
- ▶ Management of Applied Chemistry
- ▶ Restaurant Entrepreneurship

EDUCATION, SOCIETY, AND DEVELOPMENT

The complexity of today's world demands a greater understanding of the nuances and contexts of many issues in society.

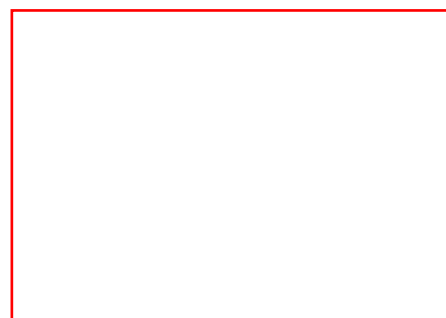

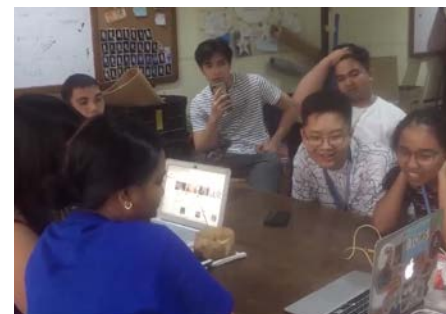

Our education, social sciences, and development degree programs and courses will equip you with the tools and training to analyze critical ideas and develop workable solutions to address local, national, and global issues, with a goal of helping build a more just, humane, and equitable society.

- ▶ Chinese Studies
- ▶ Communication
- ▶ Development Studies
- ▶ Diplomacy and International Relations
- ▶ Economics
- ▶ European Studies
- ▶ History
- ▶ Learning Science and Design
- ▶ Management Economics
- ▶ Political Science
- ▶ Psychology
- ▶ Sociology

INTERDISCIPLINARY PROGRAMS

Ateneo's interdisciplinary degree programs and courses address the growing complexity of present-day challenges, such as the multiplicity of information and knowledge, and the interlocking of human and natural systems.

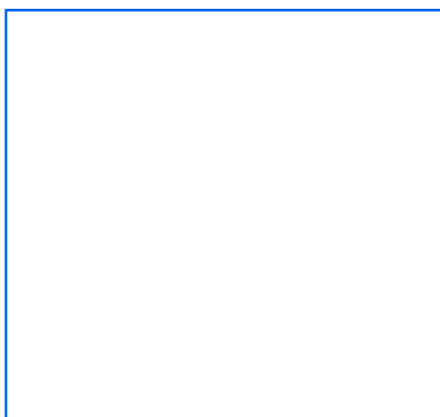

- ▶ Chinese Studies
- ▶ Communications Technology Management
- ▶ Development Studies
- ▶ European Studies
- ▶ Environmental Science
- ▶ Information Technology Entrepreneurship
- ▶ Interdisciplinary Studies
- ▶ Legal Management
- ▶ Life Sciences
- ▶ Management Information Systems
- ▶ Management of Applied Chemistry

MINORS

Minor programs allow you to pursue an interest or field other than your major or concentration in greater detail. Minors expand your learning, complementing your main field of study, or gives you an additional outlet for your talents and skills. There are a total of 37 minor programs offered across the undergraduate schools.

- ▶ Chinese Studies
- ▶ Creative Writing
- ▶ Cultural Heritage Studies
- ▶ Data Science and Analytics
- ▶ Development Management
- ▶ Economics
- ▶ Education
- ▶ Enterprise Development
- ▶ Enterprise Systems
- ▶ Financial Economics

- ▶ Philosophy
- ▶ Public Management
- ▶ Sociology
- ▶ Southeast Asian Studies
- ▶ Spanish
- ▶ Strategic Human Resource Management
- ▶ Sustainability
- ▶ Theater Directing
- ▶ Theatrical Performance
- ▶ Urban and Regional Development

FORMATION AND SOCIAL DEVELOPMENT

The Integrated Ateneo Formation (InAF) program aims towards the formation of persons-for-and-with-others who will contribute meaningfully to the transformation of Philippine society as servant-leaders in various fields.

In line with the Jesuit aim to form the whole person, and within the curricular framework of Ateneo College, InAF seeks to provide All undergraduate students with opportunities that help develop and integrate their personal, academic, physical, socio-cultural, and spiritual dimensions.

INTRODUCTION TO ATENEO CULTURE AND TRADITIONS (INTACT): FIRST YEAR

The Introduction to Ateneo Culture and Traditions (InTACT) Program is a year-long formation program that supports first-year students as they transition into college life. This also includes the Binhi Program, a whole-day immersion in marginalized communities or institutional advocacy sites, encouraging encounters beyond their usual social circles.

PHYSICAL EDUCATION

Students are required to take four Physical Education (PE) classes to help students understand and appreciate in depth the importance of physical activity in sustaining or improving their level of fitness which further contributes to the overall development of their health and wellness.

SOPHOMORE FORMATION PROGRAM: SECOND YEAR

In partnership with the Theology of the Catholic Social Vision course (THEO 12), sophomores undergo an area engagement experience through the National Service Training Program 11 (NSTP 11) or Punla Program. The area engagement experience will allow them to have direct personal contact with individuals and communities living on the margins of Philippine society.

JUNIOR FORMATION PROGRAM: THIRD YEAR

In partnership with the Social Sciences core course in the third year and particular major subjects in various academic disciplines, students undertake service-learning initiatives as part of the National Service Training Program 12 (NSTP 12). Students participate in an organized service activity to gain further understanding of course content, a broader appreciation of the discipline, and an enhanced sense of civic responsibility.

SENIOR INTEGRATION PROGRAM (SIP): FOURTH YEAR

The Senior Integration Program (SIP) endeavors to help graduating students reflect on and integrate their Ateneo college experience in light of their life's vocation and the call to be leaders in service of God's mission. The program helps seniors discern about life-directions and how their respective disciplines and future career decisions can respond effectively to societal needs.

Student Activities

Ateneo de Manila is proud of its vibrant and diverse student organization culture—a vital component in formation. A wide array of student groups caters to the spectrum of student interests.

Develop your artistic talents and gain a deeper understanding of local and foreign cultures through cultural groups.

Learn to become competent managers and entrepreneurs with a social responsibility, capable of catapulting industries to greater heights in the future, through business groups.

Have a critical understanding of complex and interrelated societal issues through immersion with faith-formation and sector-based organizations.

Discuss theoretical developments and practical applications of science and technology, and help impart scientific knowledge through STEM organizations.

Espouse the virtues of teamwork and discipline while engaging in friendly competition through sports and varsity teams.

Chronicle Ateneo's history and uphold our tradition of a free and vibrant campus press through our student publications.

Advocate students' rights and lend your voice to campus-wide issues through the student government, the Sanggunian, and other institutional student arms and groups.

WORLD-RENOWNED EXPERTISE

Our faculty is the heart and soul of our academic community. Our academics and researchers are some of the most recognized in their fields, both here and abroad.

Among them are artists, engineers, business executives, poets, public servants, scientists, journalists, , playwrights, and public intellectuals. Each of them imparts a wealth of theoretical and practical knowledge, earned from years of academic work, research, and experience in the field.

**Philippine
Accrediting Association
of Schools, Colleges
and Universities**

Ateneo enjoys top institutional and individual program accreditation from the Philippine Accrediting Association of Schools, Colleges, and Universities (PAASCU) and the ASEAN University Network (AUN).

Beyond College

A WIDER HIGHER EDUCATION COMMUNITY

As an undergraduate student, your learning opportunities go beyond the five schools. The University's interdisciplinary nature also allows college students to learn and interact with the wider Higher Education community. You can have the opportunity to work with faculty, experts, and researchers from the four Ateneo schools that offer professional degrees.

The **School of Law** is at the forefront of the Philippine legal and judicial landscape. For generations, its graduates have been influential forces in the ranks of the judiciary, in private practice, and in public service.

The **School of Government** is Ateneo's institutional vehicle for the development and formation of public servants, and serves as a formal forum for dialogue and partnership among government, private, non-government, and people's organizations.

The **Graduate School of Business** aims to be a leading management educational institution for business practitioners and professionals seeking to become ethical business leaders who, through enterprise and entrepreneurship, are committed to building the nation.

The **School of Medicine and Public Health** seeks to form outstanding clinicians, dynamic leaders and social catalysts, who will work toward expanding access to health services in the Philippines as well as improving the quality of health services.

Graduate and

After college, Ateneo de Manila University graduate studies take you beyond the foundations of your undergraduate degree and the horizons of your chosen discipline.

Go through your learning journey with individualized mentorship, robust student support, and holistic formation.

Our graduate degree programs and specializations will help you find a path that suits your goals, expanding your knowledge, skills, and networks to help you become a professional and leader animated by the spirit of service.

**RESEARCH, CREATIVE WORK, AND INNOVATION
WITH REAL-WORLD IMPACT**

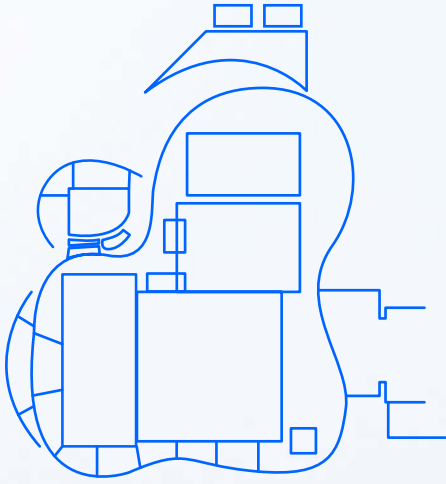

Produce research and creative work with real-world impact and influence.

Ateneo's contribution to the advancement of human knowledge through innovation, inquiry, and insight is in line with the current challenges and demands of the Philippine economy, culture, and society, set in an emerging and transforming global context.

apply.ateneo.edu

Areté features theaters, art galleries, studios, laboratories, a makerspace, teaching and meeting rooms, and several open areas

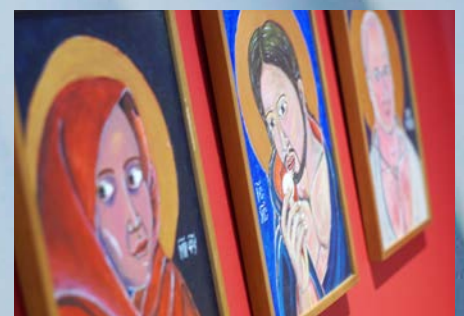

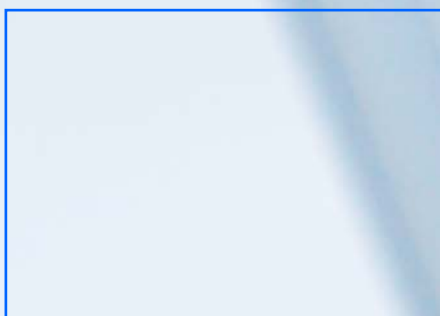

Areté Sandbox projects and residencies provide grants, coworking spaces, and support for interdisciplinary projects

Areté also houses **Le Cordon Bleu Ateneo de Manila**, the Philippine branch of the legendary culinary school

Ateneo Art Gallery is the foremost museum of modern art in the Philippines, home of top Filipino and foreign works from Amorsolo to Picasso

See and interact with art installations throughout campus

Ateneo performance spaces include Areté's Hyundai Hall, Doreen Black Box, and Gimenez Ampitheater; the FA Theater, FA Black Box, and Gonzaga Performing Arts Hall of the Department of Fine Arts; along with Rizal Mini Theater, Henry Lee Irwin SJ Theater, and Tanghalang Onofre Pagsanghan (Dulaang Sibol).

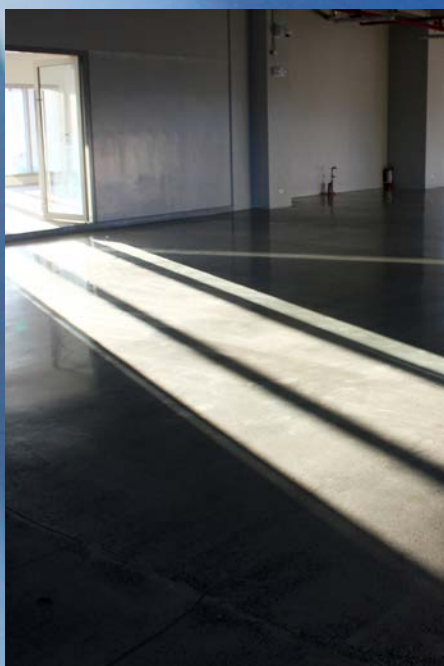

CREATIVITY THAT ENRICHES HUMANITY

Your creativity will soar to new heights.

At the heart of Ateneo's arts renaissance is Areté, the university's creativity and innovation hub.

Areté fosters collaboration across disciplines and sectors, in the hopes of developing solutions to today's problems and realizing innovations that will shape our tomorrow.

Areté is an invitation, a dare—a challenge for one to realize the possibilities that can only be unlocked by deliberate play, collaborative experimentation, and thoughtful processes that are never exempt from constant reimagining

Ready for opportunity

SCHOLARSHIPS AND FINANCIAL AID

Fulfill your dreams without worrying about your finances. In Ateneo, your ability to pay is not a hindrance to a life-changing education, and we believe in helping deserving students finance their education.

Scholarships and financial aid packages are given to many deserving students every year, thanks in large part to many generous donors and benefactors - a number of them former scholars themselves who are now paying forward the generosity extended to them. Nearly one-fifth of the student body receive a form of scholarship or financial aid.

Become part of a tight-knit community of scholars, forming a valuable support group that helps each student-scholar through the ups and downs of college life, and even after college.

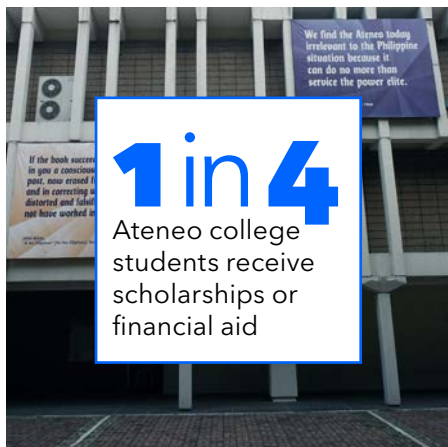

Scholarships are the third largest budget item

of the university, excluding endowments and grants

Other sources of Ateneo scholarships are **DOST, CHED, GSIS**, and many private organizations

Ready for tomorrow

The ultimate aim of an Ateneo education is to form persons who will always choose to make a positive difference in the world, whatever path they take: **a force for good in the world.**

WHERE THE PATH TAKES YOU

After Ateneo, the world is yours to explore and experience.

An Ateneo degree will be your ticket to a rewarding career or further studies, a step towards making tomorrow - yours and others - a better one.

Nearly half of Ateneo graduates go directly to industry within and outside the country, from micro, small, and medium enterprises, to budding startups, to large multinational companies.

Go beyond your undergraduate education and take up further studies.

Become an educator and help form tomorrow's citizens and leaders, today.

Go out and serve those at the margins of society through development and social work.

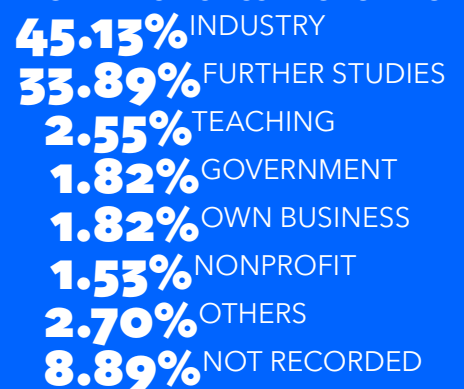

Build your own business, be your own boss, and become a driving force in the economy.

Help steer the nation's path and become a public servant.

Go ahead. Blaze your own trail. The opportunities are endless, the future boundless.

Lux in

A STRATEGIC PLAN FOR ATENEO DE MANILA UNIVERSITY

The Lux in Domino University Strategic Plan 2021-2030 embodies Ateneo's desire to effect a transformation of the self toward one that seeks to change society.

Domino

STRATEGIC PRIORITIES

Educational Reform and Transformation

Innovative education for all, leveraging human creativity and technology

Integral Ecology

Recognition as a Laudato Si' university for exemplary leadership in the promotion of integral human development

Universal Health and Well-Being

Efficient, accessible, affordable and equitable healthcare in the Philippines through effective public health leadership

Bridging Cultural Divides

Committed collective action to solve 'wicked problems' by transcending cultural differences across social, economic, political, and other divides

COMMON THEMES

- Digital Technology
- Continuing and lifelong learning
- Strategic partnerships and effective collaboration

MAGIS ASPIRATIONS

- | | |
|------|--|
| 2022 | Embark on the University's Laudato Si' 7 year journey toward integral ecology |
| 2023 | Establish Tagpuan , a research center for intervention and thought leadership in public discourse and social media to minimize misinformation and polarization, and to advocate dialogue and reconciliation |
| 2024 | Expand co-education by opening Grade School (Kinder and Grade 1) and Junior High School (Grade 7) to female students |
| 2025 | Establish a policy center for educational reforms

Establish new campuses for teaching, sustainability, and creativity

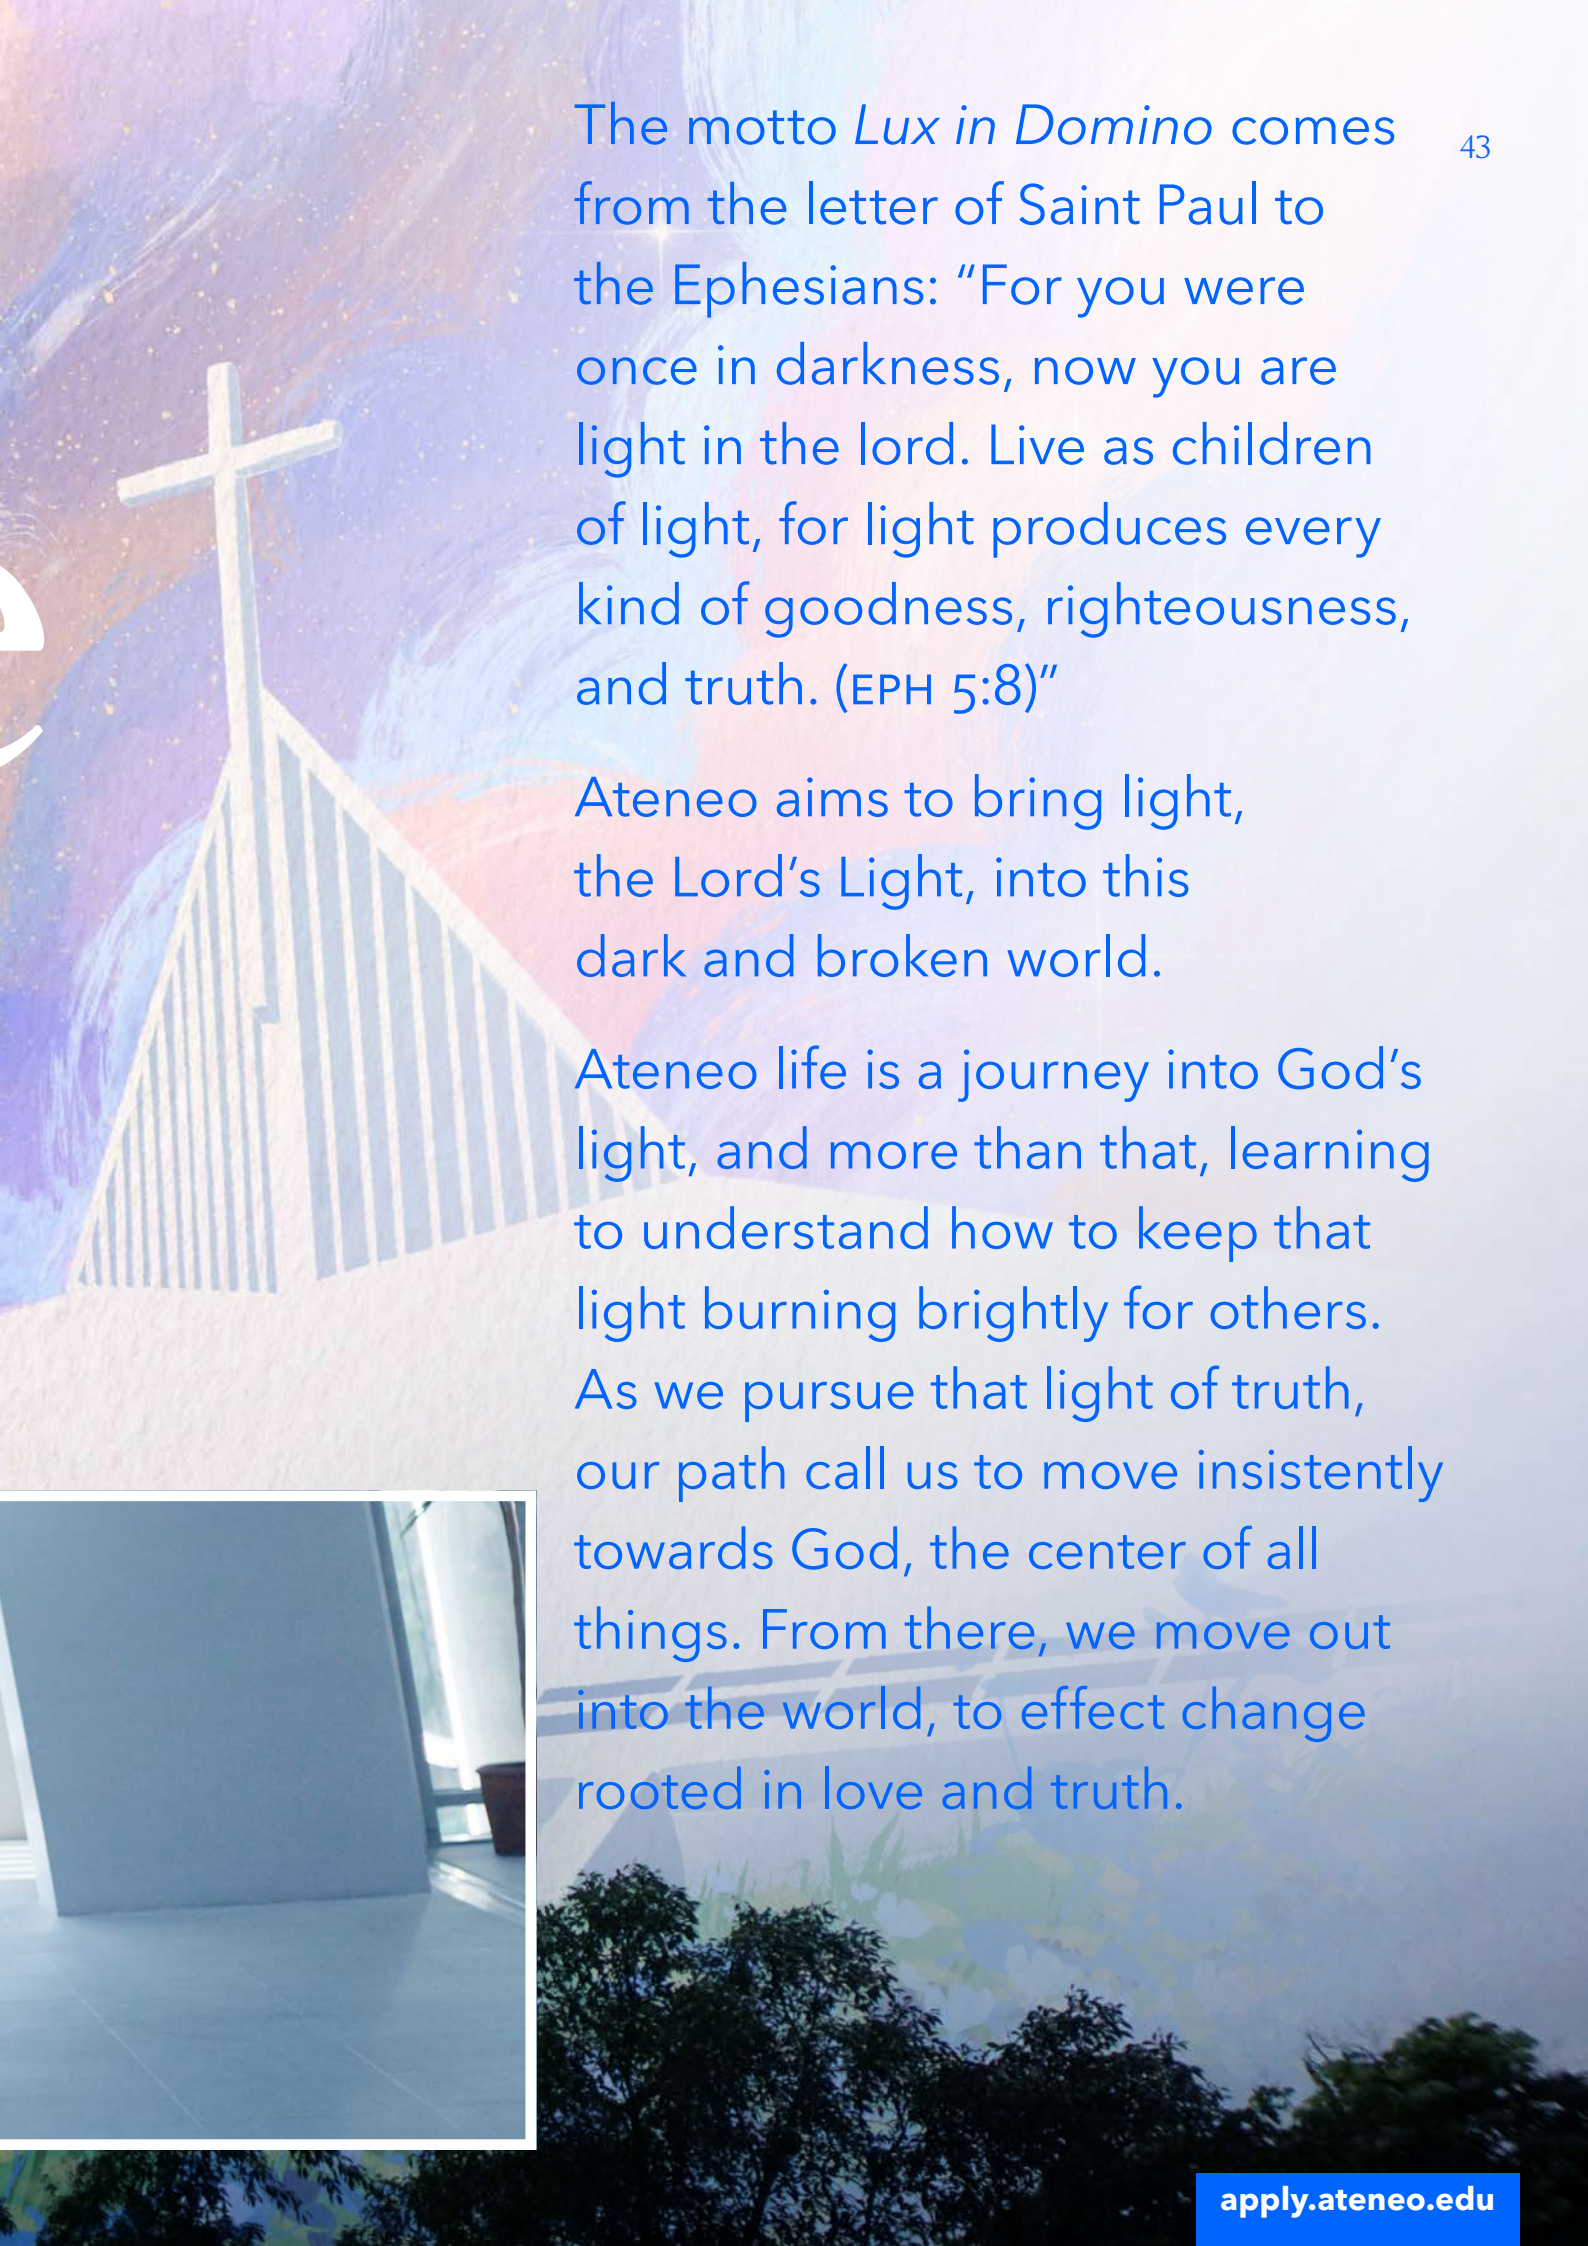

Establish an integrated life science biomedical research center

Champion a Philippine Pandemic Playbook |
| 2027 | Establish a top-tier digital university |
| 2029 | Full co-education on all academic levels |
| 2030 | Carbon neutrality |

Light in the Lord

The motto *Lux in Domino* comes from the letter of Saint Paul to the Ephesians: “For you were once in darkness, now you are light in the lord. Live as children of light, for light produces every kind of goodness, righteousness, and truth. (EPH 5:8)”

Ateneo aims to bring light, the Lord’s Light, into this dark and broken world.

Ateneo life is a journey into God’s light, and more than that, learning to understand how to keep that light burning brightly for others. As we pursue that light of truth, our path call us to move insistently towards God, the center of all things. From there, we move out into the world, to effect change rooted in love and truth.

Degree Programs

SCHOOL OF HUMANITIES

ateneo.edu/soh/finearts/academics

finearts.soh@ateneo.edu

AB Art Management

Private Collection

Art Management exposes students to the highest professional standards in art practice and industry outside its own production. The program provides important interfaces for education and training in areas such as curatorship, exhibition design, art writing, research and documentation, and the marketing and promotion of the arts.

Through its linkage with the Ateneo Art Gallery and other significant local and international artistic and cultural institutions, the program provides its students with unparalleled opportunities for involvement and immersion in the professional art, cultural, and creative industries.

ateneo.edu/soh/finearts/academics

finearts.soh@ateneo.edu

BFA Creative Writing

BFA Creative Writing institutionalizes apprenticeship, the manner by which young writers learn their craft from more experienced writers, and the workshop, by which they learn from their peers.

By putting these methods alongside the academic study of literary and critical texts, the creative process, and the pertinent contexts that influence literary production, the program aims to produce writers who are competent in the craft of their chosen genre specialty (fiction, nonfiction, poetry, or drama) while remaining aware of literature's place and influence in one's life and one's society.

ateneo.edu/soh

dean.soh@ateneo.edu

ateneo.edu/soh/finearts/academics

finearts.soh@ateneo.edu

BFA Information Design

BFA Information Design roots its relevance in problem solving through engaging presentation of critical information, and striking visual communication. Students are challenged to apply learned foundational design skills and theory, in step with key graphic procedures and techniques across a variety of contexts that range from domain mastery, industry development to social change.

The program provides students opportunities to explore and evolve their artistic talents, craft, and voice in preparation for their careers as well as their personal growth.

- ▶ In museums and art institutions as gallery assistants, members of curatorial teams, exhibition designers, and education/promotion officers
- ▶ Art critics, art historians, cultural and heritage advocates, and art, culture, and lifestyle writers
- ▶ Publicists and managers of artists/performers
- ▶ Engineers of public engagement in art and cultural institutions

- ▶ In publications as writers and editors
- ▶ In creative industry, public relations, and advertising as copywriters and content developers
- ▶ In media and entertainment as journalists, scriptwriters, and producers
- ▶ Academic careers as teachers of language and literature
- ▶ Stepping stone to law school

- ▶ Design and creative entrepreneurs and consultants
- ▶ In advertising, design, marketing and branding, media, communications, and publishing
- ▶ Design critics, historians, and advocates, and design, popular culture, and lifestyle writers
- ▶ Developers and designers of digital and analog user interface and experience

BFA Theater Arts

BFA Theater Arts exposes students to the range of theater activities, onstage and offstage, all of which require an individual and collaborative intelligence and a passionate interest in theater.

The program is seen as a way to increase the number of trained men and women in theater practices, and to provide a venue for the development of theater artists who intend to apply their knowledge of the theater craft for further studies and/or for work in professional theater, film, radio, or television, or in other fields where its processes and skills are valued.

- ▶ In theater and in media
- ▶ Public service or law
- ▶ Teaching and research
- ▶ In sales and business
- ▶ In fields involving human relations

AB Humanities

AB Humanities is designed for students who are interested in combining tracks in the Fine Arts (Art Management, Creative Writing, Information Design, Theater Arts); Foreign Language and Culture (Chinese, French, German, Spanish, Japanese or Korean Studies); History; Philosophy; Literature (in English or in Filipino); Music Literature; and Education.

The course provides students with a strong foundation in the humanities as a whole and offers the choice of integrating two to three areas of focus. Students are expected to develop a critical appreciation of the arts and letters and to engage in questions of creative expression from a holistic perspective.

- ▶ Teaching and research
- ▶ Public service or law
- ▶ In sales and business

AB Interdisciplinary Studies

AB Interdisciplinary Studies is designed to train students in integrating insights, methodologies, and theories from two programs selected from the following: Fine Arts (Art Management, Creative Writing, Information Design, Theater Arts), Foreign Language and Culture (Chinese, French, Japanese, Korean, Spanish, or German Studies), Literature (English or Filipino), Music Literature, Computer Science (Management Information Systems, Programming, Multimedia), Philosophy, History, Education, Economics, Management, Sociology, Political Science, Communication, and Psychology.

Students craft their program of study under the direction of an academic adviser, and are expected to develop a capacity for analyzing and addressing complex problems from a holistic perspective.

- ▶ Teaching, counseling/coaching, research
- ▶ Advertising publishing, broadcasting
- ▶ Art and cultural institutions, creative industries
- ▶ Government, law, business, NGO and IGO work, development, social enterprises, advocacy
- ▶ Human resources, marketing, sales, IT, and account management

SCHOOL OF HUMANITIES

ateneo.edu/soh/english
english.soh@ateneo.edu

AB
Literature
(English)

Aiming to foster creative leadership, AB Literature (English) introduces students to the rigorous yet exciting work of reading, interpreting, and advocating for literature in English, both canonical and emergent.

Throughout the program, students develop competences in analysis, research, and communication. These skills are sharpened through a focused attention on a wide range of literary, cultural, artistic, cinematic, and media texts. Discussions, activities, and assessments are informed by interdisciplinary orientations, and address real-world concerns in the nation, region, and the world.

- ▶ In research, editing, publishing
- ▶ In law and diplomacy
- ▶ In journalism and other forms of media work, including the internet
- ▶ In advertising and public relations

ateneo.edu/soh/philosophy
philosophy.soh@ateneo.edu

AB Philosophy

AB Philosophy exposes students to critical and reflective thinking according to the traditions of the masters of this field. It is designed to train future academics and leaders in the art of philosophical reflection (thinking creatively, broadly, and deeply) and philosophical research (confronting national problems and issues in a rapidly changing world, understanding their roots, and proposing ways to realize the good).

The AB Philosophy program is a designated Center of Excellence by CHED and has received a Certificate for Quality Assurance from the ASEAN University Network (AUN).

AB Chinese Studies

AB Communication

AB Development Studies

AB Chinese Studies equips its students with knowledge and skills that prepare them to become globally competitive. The program's interdisciplinary approach to teaching gives students a better understanding of Chinese culture, its people, and language. Depending on their personal interests and career choices, students are afforded opportunities to deepen their understanding of China's history, foreign relations, economy, policies, and the nuances of its business culture. The pursuit of a double major, combining AB Chinese Studies with other courses such as Management, Fine Arts, and History, among others, is also a very viable and practical study choice for a globally competitive graduate.

The AB Communication program forms communicators ready to lead in today's dynamic media environment. Courses are taught by seasoned professionals and scholars with industry experience and academic depth. Students engage in hands-on work through class projects, media productions, and community-based initiatives. This degree is ideal for students who wish to use the power of communication to inform, influence, and inspire positive change. The program culminates in a summer internship and a two-semester thesis, which may take the form of a research study, communication campaign, or creative media project. These are supported by the Eugenio Lopez Jr Center for Multimedia Communication, a facility with digital broadcast studios and editing suites that serve as a production and learning lab.

AB Development Studies is designed for students who want to make a positive difference in society by addressing social problems like poverty, public health, climate change, disaster, and exclusion. Students are exposed to different perspectives and practical interventions to understand and confront the complex challenges of social transformation.

The program is multidisciplinary, harnessing insights from economics, political science, and sociology. Students also acquire skills in social research and management to design, manage, and evaluate development interventions.

- ▶ In fields related to foreign service, tourism, translation, research work, theatre, teaching, creative writing
- ▶ Local and international business and entrepreneurship
- ▶ In media, marketing, corporate communications, public service, advocacy, and the arts
- ▶ Further studies in law, business, or education.
- ▶ In national government agencies, local government units, multilateral and bilateral development organizations, NGOs, corporations, and corporate foundations
- ▶ In law, research, policy, implementation, academe
- ▶ Advocacies such as poverty reduction, human rights, youth empowerment, etc.)

AB Diplomacy and International Relations with Specialization in East and Southeast Asian Studies

This program is for students who envision a diplomatic career with the Philippine Department of Foreign Affairs (DFA), the ASEAN, the United Nations and its agencies, and other regional and international organizations. A specialization track in East and Southeast Asian Studies equips students with a multidisciplinary understanding of the region's history, culture, language, economic development, business and politics.

Students also acquire 12 units in a foreign language, making them adept at conversing with other people from different places, backgrounds, and culture.

- ▶ Diplomatic careers in government
- ▶ In international and regional organizations

AB Management Economics

AB Political Science

AB/MA Political Science/ Global Politics★

AB Management Economics is a program designed to provide a balanced foundation in both business and economics. The dual orientation is the strength of the program as recent events have shown that business survival depends on both sound internal management and a solid understanding of economic forces. In their senior year, students will undergo practicum in an accredited host training establishment.

In addition to this, students pursue a strategic business project in which they are expected to apply not just management skills but also integrate concepts in economics.

AB Political Science provides its students with a solid background in international relations, comparative politics, political theory, public management, and public law. The program is designed to train students in critical and analytical thinking and leadership required for studies in law and careers in government and development.

AB Political Science is enhanced by internship opportunities, the Junior Term Abroad program, and service learning programs.

The 5-year AB/MA in Political Science is developed for outstanding students who are interested in pursuing their master's degree in the same field with a major in Global Politics.

The highly selective intake of the program demands higher standards from its students who take graduate courses in their senior year and finish their master's (thesis) in one year.

- ▶ Economic researchers, analysts and managers by top local and foreign companies in banking and finance, sales and marketing, manufacturing
- ▶ In government, non-government organizations and multicultural institutions
- ▶ In teaching and research in academe

- ▶ Stepping stone to law school
- ▶ In politics, development, civil service, and non-government and international organizations

- ▶ In research or teaching
- ▶ Development work in national, regional, and international arenas

AB Sociology

Sociology is the scientific study of social life. It shows how our lives navigate in the intersections of culture, politics, history, economy, geography, and technology. Through a solid foundation of learning sociological theories and research methods, the AB Sociology program produces graduates who will contribute to the production, interpretation, transmission, and application of various forms of knowledge generated from social research. Altogether, it equips and prepares graduates to be change-oriented, society-involved intellectuals.

- ▶ In development work, management, heritage conservation, social or market research, teaching, government service, and running global corporations
- ▶ Further studies in sociology, law, diplomacy, journalism, media, advertising, urban planning, business, political science, environmental science, and public health

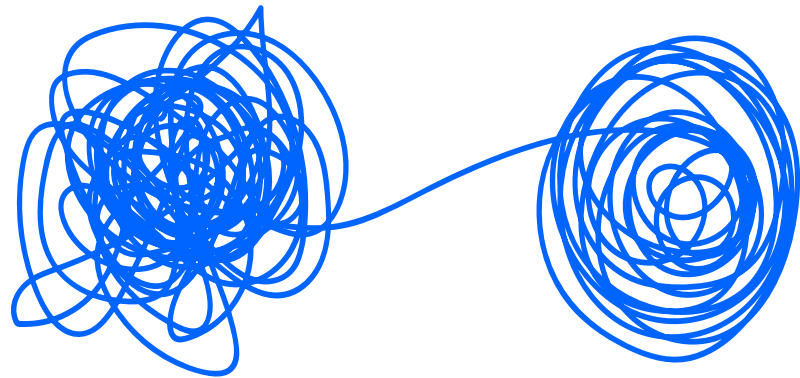

ateneo.edu/soss/psychology
psychology.soss@ateneo.edu

AB Psychology

ateneo.edu/soss/psychology
psychology.soss@ateneo.edu

BS Psychology★

The AB Psychology program provides students with strong humanistic and research foundations in the essential theories, principles, applications, and methods in the study of human behavior.

The AB program further equips students with the perspectives and skills in managing people in diverse settings and/or psychological health and human development. In the People Management track, students are prepared for careers in organization and human resource development, leadership, social development, and other work in various organizational settings. In the Health and Human Development track, students are prepared for work in education, psychological assessment, and interventions to promote wellness and prevent negative outcomes.

The BS Psychology program provides students with strong humanistic and research foundations in the essential theories, principles, applications, and methods in the study of human behavior.

The BS program further prepares students for careers in the natural sciences such as Medicine. Students hone their interest in the sciences via an array of natural science courses; those in the pre-medicine track take necessary science prerequisites for medical school.

- ▶ Licensed psychometricians
- ▶ In private industry, government and non-government organizations, school

- ▶ Licensed psychometricians
- ▶ In private industry, government and non-government organizations, school
- ▶ Stepping stone to medical school

SCHOOL OF SCIENCE AND ENGINEERING

ateneo.edu/sose/mathematics
math.sose@ateneo.edu

BS Applied Mathematics-Master in Data Science★

BS Applied Mathematics - Master in Data Science is Ateneo's response to the complex challenges of the 21st century, where the need to harness the abundance and power of data has become increasingly crucial. Students are equipped with strong mathematical, computational, and critical thinking skills to use data to conduct scientific analyses, draw meaningful conclusions, and make informed decisions that create a positive impact.

Students obtain their BS Applied Mathematics (with Specialization in Data Science) degree after four years, and subject to academic requirements of the program, may proceed to the Master in Data Science program in the fifth year.

ateneo.edu/sose/physics
physics.sose@ateneo.edu

BS Applied Physics-BS Materials Science and Engineering★

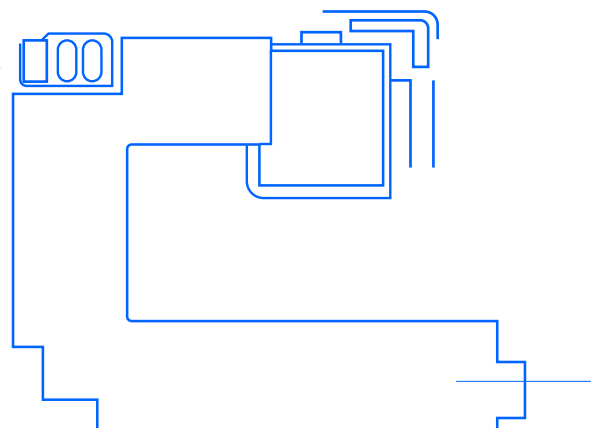

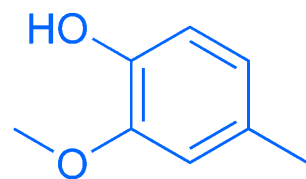

BS Applied Physics - BS Materials Science and Engineering Program is a 4.5-year double-degree program that prepares students for new technologies. It provides a strong foundation on the physics of materials with courses on the fundamental laws involving the structure of matter, and radiation, with specialized electives on materials.

Science
Education
Complex

ateneo.edu/sose
dean.sose@ateneo.edu

ateneo.edu/sose/biology
biology.sose@ateneo.edu

BS Biology★

BS Biology is a 4-year honors program that provides excellent training in the biological disciplines and preparation for research graduate programs and medical education here and abroad. Students choose from among four areas of specialization, namely: Biomedical Science, Cell and Molecular Biology, Ecology and Systematics, and Microbiology.

Students are given rigorous training through innovative lecture and laboratory courses that are in line with the Department of Biology's research thrusts, and through the undergraduate Thesis and Practicum.

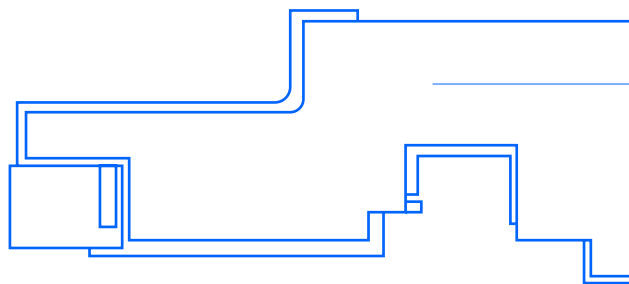

- ▶ Data scientist
- ▶ Business intelligence analyst
- ▶ Machine learning scientist
- ▶ Optimization analyst (banking, healthcare, transport, finance, telecommunications, start-ups, energy, media)
- ▶ Any field that requires combined skills in mathematics, data science, algorithm design
- ▶ In the industry of semiconductors, plastics, rubbers, paints and resins, ceramics, textiles, food, or even cosmetics
- ▶ Research in materials design involving computational materials science, material technologies like nanotechnology, and small scale devices like micro-electromechanical systems (MEMS)
- ▶ Medical research and education
- ▶ Biodiversity and conservation, microbiology, and molecular biology
- ▶ Law, consultancy, and business
- ▶ Stepping stone to Ateneo School of Medicine and Public Health and other medical schools

ateneo.edu/sose/chemistry
chemistry.sose@ateneo.edu

BS Chemistry★

ateneo.edu/sose/chemistry
chemistry.sose@ateneo.edu

BS Chemistry- BS Materials Science and Engineering★

Department
of Chemistry

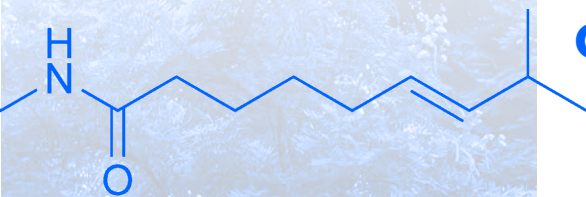

Chemistry is the Central Science and is at the heart of many important industries. With an emphasis on fundamental principles of chemistry, modern chemical instrumentation, and a strong hands-on component, the program develops in the students a high level of competence and confidence both in theory and practice. Combined with a strong core curriculum, interdisciplinary education, and training in innovation, an Ateneo BS Chemistry degree prepares students for leadership in the field.

Materials Science and Engineering integrates the knowledge and tools of Chemistry and Physics with engineering principles to design, fabricate, and characterize improved and novel materials such as polymers, including biodegradable plastics and biocompatible materials; ceramics metals, and composites for stronger structural materials among others.

- ▶ Business, government, and engineering
- ▶ Entrepreneurship
- ▶ Academe, research, and education
- ▶ Eligibility for Chemical Licensure Examinations

- ▶ In the industry of semiconductors, plastics, rubber, paints and resins, ceramics, textiles, food or even cosmetics
- ▶ Eligibility for the Chemist Licensure Examinations

SCHOOL OF SCIENCE AND ENGINEERING

ateneo.edu/sose/iscs
discs.sose@ateneo.edu

BS Computer Science ★

BS in Computer Science provides a foundation in the theoretical and practical aspects of computing. Core courses provide an intensive background in writing complex software systems and the design and interconnection of computers. Electives are available from various areas—including multimedia, MIS, software engineering, networks and wireless systems, web-based systems, computer engineering, and computational science.

Students are constantly expected to innovate and to contribute to advancement in technology and its applications and are well-prepared for graduate studies or to become systems designers and network administrators of software development firms and MIS/ICT departments of corporations.

ateneo.edu/sose/ecce
ecce.sose@ateneo.edu

BS Computer Engineering ★

The 4.5-year BS Computer Engineering program aims to prepare students to become quality engineers in information technology and computer applications.

Through a hands-on and integrative approach for the different courses, the students gain the proficiencies needed to enable them to become leaders in both existing and new enterprises surrounding digital technologies, communications, and services.

ateneo.edu/sose
dean.sose@ateneo.edu

ateneo.edu/sose/iscs
discs.sose@ateneo.edu

BS Computer Science– BS Digital Game Design and Development ★

The 5-year BS Computer Science–BS Digital Game Design and Development program is designed to produce future game developers and conceptualizers who have the ability to bridge design and technology in creating effective, immersive, and engaging games for entertainment, education, and other serious applications that are at par with global standards. This program exposes the students to different disciplines in game design and development to be effective and valuable team players, as well as discover and harness their individual talents.

Students of this program will graduate with a BS Computer Science degree after 4 years, and will receive their BS Digital Game Design and Development (DGDD) degree after the 5th year of study.

- ▶ Design and development of database systems, games, web applications, and mobile applications
- ▶ As systems engineers, designers, or lead developers in local and multinational corporations

- ▶ In robotics, mechatronics, embedded systems, simulation systems, computers, hardware/software engineering.
- ▶ Network engineers
- ▶ Artificial intelligence and machine learning developers
- ▶ Internet of Things (IoT) specialists
- ▶ Mobile application developers
- ▶ Information technology experts

- ▶ Design and development of games, digital games for web, mobile devices, and gaming consoles
- ▶ Game conceptualizers and developers in local and international gaming companies
- ▶ In traditional manufacturing, financial, and service industries to help gamify business processes

BS Environmental Science

The BS Environmental Science program is a 4-year multi-disciplinary program which provides a holistic approach to meet various environmental challenges including sustainable development.

The program is open to all senior high school strands. Its curriculum combines the empirical focus of natural science with the pro-active methodologies of management and social sciences. It promotes an integrative approach to addressing today's complex environmental problems.

- ▶ Environmental managers, pollution control officers or sustainability officers
- ▶ Environmental scientists
- ▶ Faculty and researchers
- ▶ Environmental lawyers
- ▶ In the field of public health
- ▶ In both government service and non-government organizations

BS Electronics Engineering★

The 4.5-year BS Electronics Engineering program aims to train engineers who have a competent grasp of both the science and technology of modern electronics and telecommunications. The student curriculum incorporates exposure to industry as well as on-the-job training that will enhance the student's professional preparation.

The students participate in research projects that demand scientific rigor and technical skills that are demonstrated within an environment of innovation and entrepreneurship.

- ▶ In electronics, computers, telecommunications, information technology, renewable energy, biomedical engineering
- ▶ Research and design engineers
- ▶ Radio Frequency (RF) engineers
- ▶ Technology managers and entrepreneurs
- ▶ Machine learning specialists
- ▶ Hardware/software engineers

BS Innovation Design Engineering★

A first for the Philippines, the 4-year BS Innovation Design Engineering program aims to produce world-class design engineers. Multidisciplinary courses prepare students to become future-ready, with subjects covering aeronautical, chemical, civil, computer, electrical, electronics, industrial, marine, materials and mechanical engineering. Complementing technical aptitude with organizational skills, students gain experience in project management and implementation through community engagements, academic output and work placements. Globalization and cross-cultural learning are essential aspects of student formation, with the program including a mandatory academic year spent abroad at a partner university.

- ▶ Product design and quality assurance engineers
- ▶ Technology officers and engineering project managers
- ▶ Solutions architects
- ▶ Smart cities and production system planning
- ▶ Innovation consulting
- ▶ User experience design

BS Health Sciences★

BS Life Sciences★

BS Management Information Systems

BS Health Sciences is a 4-year honors program that seamlessly prepares students for further training in the Ateneo School of Medicine and Public Health and in other institutions offering medical and public health education.

To provide holistic orientation to health, the 163-unit curriculum is an integration of the Ignatian thrust in education and the fundamental, scientific, and technical background necessary for entry in the health sciences as well as of the disciplines that intrinsically influence the health sector.

BS Life Sciences is a 4-year honors program that provides an exciting, dynamic, and highly interdisciplinary application-based approach to the life sciences. Students are trained rigorously in fundamental biology courses and take essential courses under any of the two tracks.

Students under the Management Track take courses in management, marketing, leadership, and entrepreneurship while those who pursue the Communication Track take courses in communication and the creative arts, giving them the necessary tools for effective engagement of the public in biological discussions across multimedia platforms.

BS Management Information Systems program is designed to produce future Chief Information Officers, professionals who can harness information and communication technology (ICT) to meet strategic business objectives. An interdisciplinary offering of the Department of Information Systems and Computer Science (DISCS) and the John Gokongwei School of Management, students in this program enroll in computer science courses, management engineering courses, and core MIS courses, and caters to students who are interested in the application of computers to business organizations and to students who wish to pursue a management course with extensive exposure to computing.

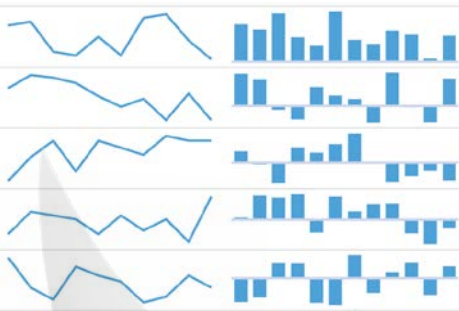

- ▶ Health care professionals
- ▶ As dynamic leaders and decisive social catalysts within and beyond the health sector
- ▶ In the academe, research, health services administration, environmental health, and in various corporations
- ▶ The Management Track prepares students for managerial positions in biotechnology, biological resources management, and pharmaceuticals, or as entrepreneurs managing their own biology-related business
- ▶ The Communication Track prepares students for careers in academe, journalism, research, advocacy, and multimedia
- ▶ Design and development of database systems, games, web applications, and mobile applications among others
- ▶ System engineers, designers or lead developers in local and multinational corporations

BS/M Applied Mathematics with Specialization in Mathematical Finance★

BS/M Applied Mathematics with Specialization in Mathematical Finance aims to equip graduates with a rigorous foundation in the mathematics of financial markets combined with keen knowledge of business practices and data-driven techniques, giving them a competitive edge working in financial institutions and in other industries.

Students will graduate with a Bachelor of Science degree after four years. Those who meet the academic requirements may proceed to the master's program in the fifth year.

BS Mathematics★

BS Mathematics is a four-year honors program designed to provide students with a strong foundation in pure mathematics along with an extensive exposure to applications and allied fields such as actuarial science, operations research, statistics, and mathematical modeling.

The program trains students to be rigorous and analytical, and equips them with research skills and a well-developed capacity for high-level problem solving, giving them flexibility for future career paths.

BS Physics★

BS Physics is a 4-year program designed to give the physics major a thorough understanding of the practical and experimental principles of physics balanced with an in-depth appreciation of the corresponding theoretical background of these principles. It prepares a well-trained and competent physicist essential for the development of the nation's basic scientific and technological needs.

Materials physics, environmental physics, and optics are among the special areas of emphasis of the program.

- ▶ Financial risk management, product valuation, investment banking, portfolio management, and quantitative trading
- ▶ Financial engineering and quants
- ▶ Data science and analytics

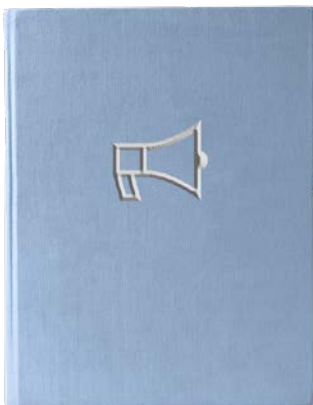

- ▶ Actuaries and related careers in insurance, finance, and data science
- ▶ Academic careers as professors and fellows
- ▶ Mathematical researchers and consultants

- ▶ Entrepreneurs, technically capable managers, engineers, professors
- ▶ Researchers in private and government organizations both locally and internationally

BS Legal Management

BS Legal Management (LM) is designed to create managers and entrepreneurs with a working knowledge of the legal environment within which all enterprises operate.

The program is an interdisciplinary approach to the study of business, management, law and society. It provides knowledge and skills in the components of law and the legal intricacies of business. It develops the study of law within a business-management framework and explores the ways in which law is connected with disciplines pertinent to business and society.

The integration of both business and law courses with the Ateneo core curriculum produces high-impact leaders for business, entrepreneurship and the legal profession.

- ▶ Marketing and sales
- ▶ Telecommunications and ICT
- ▶ Media and advertising
- ▶ Public relations
- ▶ Creative industries

- ▶ IT start-up entrepreneurs
- ▶ In start-up companies

- ▶ High-impact leaders for business and entrepreneurship
- ▶ In the legal profession

BS Management

The BS Management program is designed to develop aspiring entrepreneurs into business leaders capable of addressing global needs through efficient enterprise management. Graduates emerge with business skills and knowledge in functional areas such as Marketing, Finance, Enterprise Development, Sustainability, Strategic Human Resources, Project Management, Decision Science, or Information Technology. While the program is designed to build skills that enable students to create and manage their own enterprises, their exposure to every functional area of business has also shown to be an effective foundation for making significant contributions in the corporate sector and other high-impact operating environments.

- ▶ In business and entrepreneurship
- ▶ Business ventures

BS Management (Honors Program ★)

The BS Management Honors program is designed for students who seek rigorous training in entrepreneurship and business leadership. In addition to foundational management courses, the program includes additional courses in applied mathematics, quantitative and qualitative decision-making, and leadership and organization development. Students receive both the theoretical knowledge and practical experience necessary to start, run, and eventually bring a business to scale. It emphasizes training students to become leaders who are capable of effectively managing a business from a broad and holistic perspective, taking a high-level, macro-oriented, and integrative lens when assessing the different functional areas of business.

- ▶ Management of small-to-medium enterprises and family businesses

BS Management Engineering ★

The BS Management Engineering Program is an honors program that combines Ateneo's traditional strength in the liberal arts with a strong foundation in business management and business analytics to create a curriculum that prepares students to meet the challenges of leading modern, information and technology-intensive organizations locally and globally.

Courses cover all the functional areas of business and management, with a special focus on data analytics—descriptive, prescriptive, and predictive analytics.

- ▶ Data scientists, data analysts, financial analysts
- ▶ Brand management
- ▶ Business development
- ▶ Private bankers, fixed income traders
- ▶ Business process analysts

BS Management of Applied Chemistry

The BS in Management of Applied Chemistry is the first program of its kind in the Philippines that brings together the fields of Management and Chemistry. This program is designed to develop managers and entrepreneurs with a strong technical background and practical understanding of chemical processes used in manufacturing, product development, and other business operations. By combining scientific knowledge with management principles, the program equips students with the necessary skills to apply chemistry to real-world business challenges—bridging the gap between the lab and the marketplace. MAC graduates are prepared to lead in industries where innovation, efficiency, and sustainability are key drivers of success.

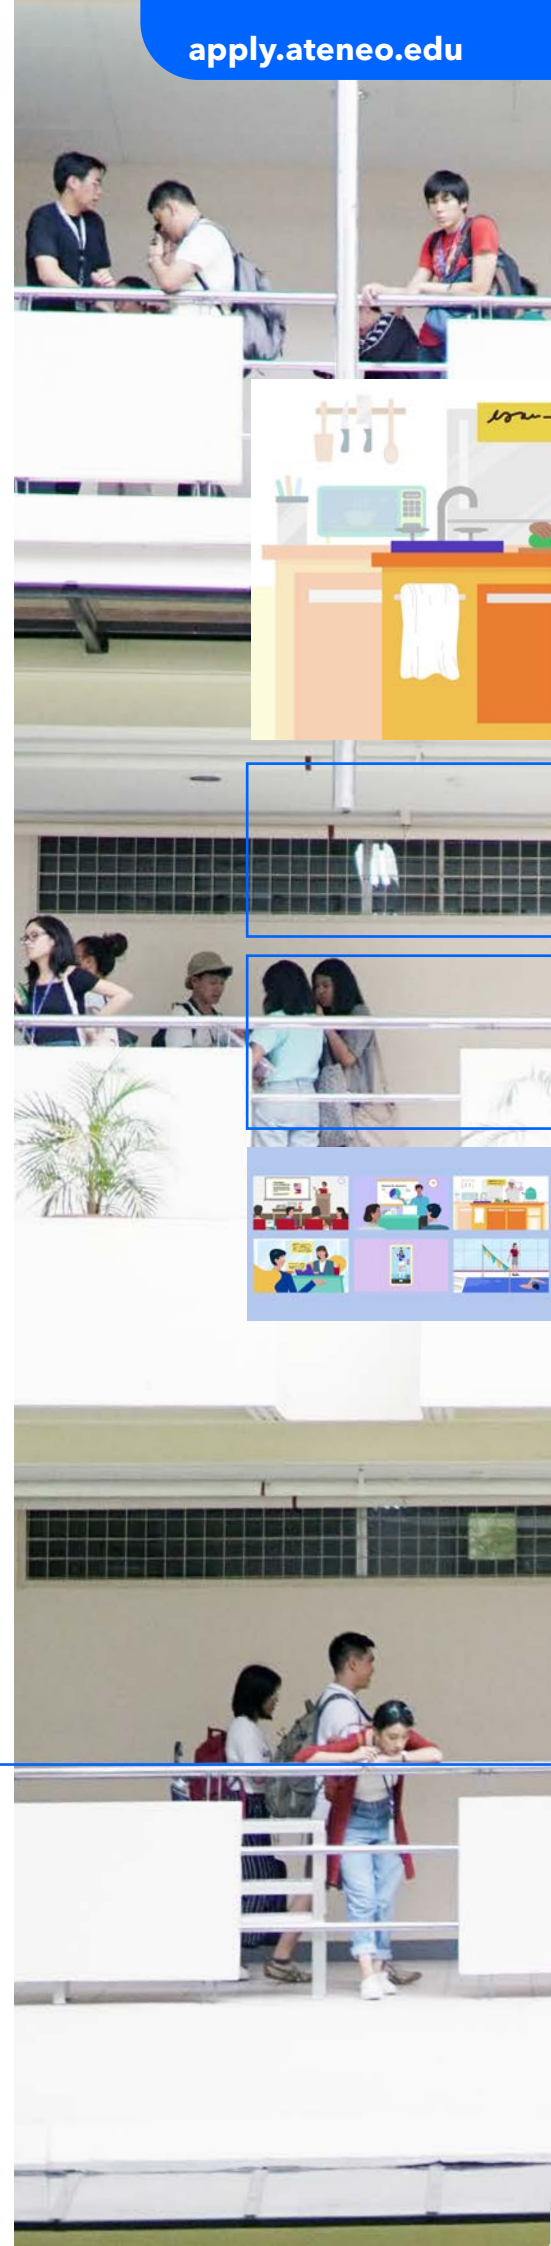

BS Restaurant Entrepreneurship

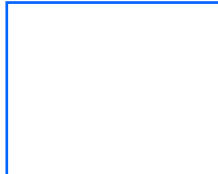

BS Restaurant Entrepreneurship is an innovative program that combines business management and entrepreneurship education as well as Le Cordon Bleu's expertise in the culinary, and food and beverage service industry, in the tradition of Ateneo's liberal arts core curriculum. Students are exposed to market research and restaurant conceptualization theories in class as well as real world applications through internships.

- ▶ Entrepreneurship
- ▶ In businesses dealing with chemistry-based products such as pharmaceuticals, processed foods, rubber, and plastic

- ▶ Restaurateurs and entrepreneurs who are exposed to all areas of the food & beverage and hospitality industry, from conceptualization to daily operations
- ▶ Own, operate and/or manage restaurants and food and beverage businesses
- ▶ Front and back of house positions in the F&B and hospitality industry

BS Learning Science and Design

The BS Learning Science and Design (BS Learn) program is unlike other traditional teacher undergraduate courses because it is not only about teaching in traditional spaces like classrooms in schools and universities, but about preparing learning professionals who will design and promote learning in different environments.

Apart from Ateneo's core curriculum, the program includes foundational courses in the Learning Sciences, Learning Technologies, and Instructional Design, as well as Professional Education Courses that will prepare students for PRC's Licensure Exam for Teachers (LET).

Moreover, the program provides a deliberately multidisciplinary approach made possible by collaboration with other Ateneo departments and schools.

- ▶ Teaching in basic and higher education
- ▶ Learning professionals in different fields
- ▶ Training and development professionals
- ▶ Alternative careers in instructional and learning design beyond formal education

ATENEO DE MANILA UNIVERSITY

and

ENTRY
REQUIREMENTS

Scholar

admissions

ADMISSIONS OVERVIEW

Admission to Ateneo de Manila University is open to qualified young individuals, regardless of nationality, creed, gender, residence, or financial capability.

Admission to Ateneo's college programs is determined by the applicant's fitness and preparation for undergraduate study; ability to contribute toward the enrichment of Ateneo's academic community; and potential to be of service to others.

The members of each first-year batch are selected by the Committee on Admission and Aid, which bases decisions on the Ateneo College Entrance Test (ACET), past academic performance, recommendations of teachers, and information written down on the application form.

For the incoming batch of first-year and transfer students for the 1st Semester of School Year 2026-2027, all applications will be submitted online.

ships

Your Path to Admission

STEP 1

Preparation

WHO CAN APPLY?

Depending on your school and graduation status, you will belong to a particular applicant type. This applicant type will determine your particular application pathway.

- ▶ You are considered a **first year college applicant**
 - ▶ You are still in the last year of secondary education or;
 - ▶ You have graduated from secondary education and have not enrolled in a college / university or taken any college / university units / courses before and / or during the application and confirmation period
- ▶ You are considered a **transfer applicant** if you have enrolled in a college/university and / or have already taken units / courses in college / university.

Your pathway will also depend on where you are studying.

- ▶ You are considered a **local applicant** if you are studying in, or graduated from, a school within the Philippines
- ▶ You are considered a **foreign applicant** if you are studying in, or graduated from, a school abroad

WHO CAN APPLY?

The Committee on Admission and Aid is responsible for selecting new students. It bases its decisions on the applicant's past academic performance, the recommendations of teachers, their personal essay, and the information written down on the application form.

STEP 2

Application and Testing

Take your time in filling out the application, including your Scholarship/Financial Aid Questionnaire. Carefully select your degree program choices. We encourage you to submit way ahead of the deadline, to avoid stress.

DETERMINE YOUR APPLICANT CATEGORY AND YOUR MAIN PATHWAY FOR APPLICATION.

I am a/an...	First Year Applicant	Transfer Applicant
Local Applicant	<ul style="list-style-type: none"> ▶ Take the Ateneo College Entrance Test (ACET) or ▶ Submit Grade 12 International Baccalaureate (IB) Predicted Grades 	<ul style="list-style-type: none"> ▶ Take the ACET
International Applicant	<ul style="list-style-type: none"> ▶ Take the ACET or ▶ Submit Grade 12 International Baccalaureate (IB) Predicted Grades or ▶ Submit your Scholastic Aptitude Test (SAT) scores, taken within the last 2 years 	<ul style="list-style-type: none"> ▶ Take the ACET or ▶ Submit your Scholastic Aptitude Test (SAT) scores, taken within the last 2 years

Fill out the application form and upload your supporting documents in the Application Portal. The application portal will contain more detailed information on the requirements. You may then take the Ateneo College Entrance Test (ACET), if applicable, at your scheduled date.

SCHOLARSHIP APPLICATION

You may submit your application for scholarship once you have your Ateneo Application Number (AAN). Kindly note that the Scholarship Application Form is submitted online. Please carefully read and meticulously follow the instructions.

IMPORTANT: If you need financial assistance, do not wait for the decision on your admission application before you apply for a scholarship.

ATENEO COLLEGE ENTRANCE TEST (ACET)

The Ateneo College Entrance Test (ACET) is a test requirement for admission.

The schedule varies depending on the application period calendar. Examinees can take the exam at Ateneo de Manila's main campus in Loyola Heights, Quezon City, or at testing centers outside Metro Manila.

STEP 3

Processing and Review

Admission to Ateneo de Manila University's college degree programs is determined by the applicant's fitness and preparation for college, ability to contribute toward the enrichment of the undergraduate school community, and potential to be of service to others within the context of national development.

The Committee on Admission and Aid is responsible for selecting the new members of the student body. It bases its decisions principally on the applicant's past academic performance, ACET test scores, the recommendations of teachers, essay, and on information written down on the application form.

STEP 4

Admission

Results will be released directly to your registered email. You will get one of three decisions: accepted, waitlisted, or not accepted. Once you are offered a place in the incoming first year batch, you will be asked to confirm your slot. You will become an official student once you enroll for the first semester.

Welcome to Ateneo!

Financing Your Ateneo Education

TUITION & FEES

Tuition and fees are charged on a semestral basis. For the School Year 2026-2027, you may find the estimate tuition and fees charged per semester, in Philippine Pesos, below:

- ▶ Tuition 117,000
- ▶ Basic Fees 18,437
- ▶ Other Fees 8,074

Additional fees are charged for laboratory use, or for overload fees, depending on the student's program of study.

Tuition and Fees may be paid through online payment facilities of major banks or over-the-counter transactions. Students may pay in two or four installments. Payment methods and schedules are made available during enrollment.

Kindly note that the fees indicated above may vary depending on the degree program that the applicant plans to pursue. The fees for the degree programs under the School of Science and Engineering are slightly higher compared to other degree programs because of their laboratory fees.

SCHOLARSHIPS AND FINANCIAL AID

An Ateneo education is an investment in your future at an understandably hefty cost. Finances could be a major barrier for many young and talented individuals who would want to pursue this kind of life-changing education and formation. However, we believe that everyone has the right to receive quality education and Ateneo is here to help.

There are several categories of scholarships available: merit, academic, athletic, financial aid, and government and private.

MERIT AND DIRECTOR'S LIST SCHOLARSHIPS

ATENEO FRESHMAN MERIT SCHOLARSHIP (AFMS)

The very best applicants to Ateneo de Manila University are awarded the Ateneo Freshman Merit Scholarship. This is based on their performance in the Ateneo College Entrance Test (ACET), and their individual rank and leadership roles in their respective senior high schools.

The recipients of the Ateneo Freshman Merit Scholarship (AFMS) are identified as the top 50 applicants from local private, science, or public high schools, and from senior high schools abroad.

The Ateneo Freshman Merit Scholars can choose any degree program of their choice. They are awarded a 100% tuition and fees scholarship and a Php 50,000 annual allowance.

The University recognizes great promise in these students and a vast potential to contribute and enrich the University community and the Philippines. And through them, Ateneo hopes to continue its tradition of excellence in academics and service to God and nation.

DIRECTOR'S LIST SCHOLARSHIP

Of the thousands who apply to the University every year, a select few clearly stand out. These are students who have done very well in the Ateneo College Entrance Test (ACET) and have distinguished themselves academically as well as in co-curricular activities in their respective senior high schools.

The Director's List Scholarship is awarded to the 150 outstanding applicants of Ateneo who will enjoy an annual Php 100,000 scholarship grant for any undergraduate degree of their choice.

ACADEMIC SCHOLARSHIPS

An academic scholarship recognizes a student's great promise and a vast potential to contribute and enrich the university community and the Philippines. In and through them, Ateneo hopes to continue its tradition of excellence in academics and service to God and nation.

FR BIENVENIDO F NEBRES SJ SCIENCE ACADEMIC SCHOLARSHIP

This grant is awarded to the Valedictorians and Salutatorians of public science senior high schools who are accepted to Ateneo in any undergraduate degree program under the School of Science and Engineering. Upon presentation of a certification from the high school principal, a Valedictorian receives a 100% Tuition and Fees Scholarship, while a Salutatorian receives a 50% Tuition and Fees Scholarship.

FR THOMAS B STEINBUGLER SJ ACADEMIC SCHOLARSHIP

This scholarship is awarded to the Valedictorians and Salutatorians of Jesuit senior high schools who are accepted to Ateneo, with excellent ACET results, in any degree program. Upon presentation of a certification from the high school principal, a Valedictorian receives a 100% Tuition and Fees Scholarship, while a Salutatorian receives a 50% Tuition and Fees Scholarship.

JOSE P RIZAL ACADEMIC SCHOLARSHIP

This grant is awarded to Valedictorians and Salutatorians of Public senior high schools who are accepted to Ateneo with excellent ACET results. Upon presentation of a certification from the high school principal, a Valedictorian receives a 100% Tuition and Fees Scholarship, while a Salutatorian receives a 50% Tuition and Fees Scholarship.

FINANCIAL AID GRANTS

For six decades now, the Ateneo College Scholarship Program continues to thrive for deserving but financially challenged students. Financial Aid scholarships are awarded to students in all degree programs of the University. This may be a combination of:

- ▶ 100%/75%/50%/25% in tuition and fees
- ▶ Book allowance
- ▶ Transportation allowance
- ▶ Food allowance
- ▶ Dormitory assistance

With limited slots each year, financial aid grantees are selected on the basis of the following general criteria:

- ▶ Financial need as clearly evident in the Financial Aid Questionnaire
- ▶ Intellectual ability and proven consistent academic performance
- ▶ Service to the community and potential for greater service in the future

Financial Aid applications do not influence in any way the decision concerning acceptance into the University. Applicants, therefore, should not wait for the decision on their application for admission before submitting their Financial Aid Application. To view the instructions on how to apply for a Financial Aid Scholarship, visit the "Applying for Financial Aid" page.

MAGIS SCHOLARSHIP

Deserving Financial Aid applicants who are within the most financially-constrained circumstances may be selected for the Magis Scholarship. This all-expenses-paid scholarship is part of the University's commitment to make Ateneo de Manila University's world-class, holistic college education and formation accessible to more students without the economic means to do so. The benefits of this scholarship include:

- ▶ 100% tuition and fees for any 4 or 5-year course
- ▶ Food and living allowance
- ▶ Books, supplies, and printing allowance
- ▶ On-campus dormitory scholarship or transportation allowance
- ▶ Miscellaneous allowance for other needs
- ▶ Round-trip airfare every semester, as applicable
- ▶ Cellphone and laptop provision

The scholarship is open to all incoming college students who have demonstrated excellence in academic and non-academic endeavors, and have the potential to become the servant-leaders our future truly needs.

Only those who will be awarded a Financial Aid Scholarship will be considered as potential Magis Scholars, one each from the National Capital Region, Luzon, Visayas, and Mindanao.

GOVERNMENT AND PRIVATE SCHOLARSHIPS

All applicants are encouraged to take qualifying examinations given by various government agencies, private groups, or foundations, specifically, the Science Education Institute of the Department of Science and Technology (DOST-SEI), and the Commission on Higher Education (CHED). Awardees may come to the Ateneo de Manila University under such scholarships.

Students who qualified for the DOST-SEI Scholarship may enter Ateneo under any of the following programs:

- ▶ BS Biology
- ▶ BS Chemistry
- ▶ BS Chemistry-BS Materials Science and Engineering*
- ▶ BS Computer Science
- ▶ BS Computer Science-BS Digital Game Design and Development*
- ▶ BS Electronics Engineering
- ▶ BS Environmental Science
- ▶ BS Health Sciences
- ▶ BS Life Sciences
- ▶ BS Management Information Systems
- ▶ BS Management Information Systems –MS Computer Science*
- ▶ BS Mathematics
- ▶ BS/M Applied Mathematics with Specialization in Mathematical Finance*
- ▶ BS/M Applied Mathematics with Specialization in Data Science*
- ▶ BS Physics
- ▶ BS Applied Physics-BS Materials Science and Engineering*
- ▶ BS Psychology

**Support is until 4th year only*

For any questions or concerns about the DOST-SEI Scholarship, please email **dost.scholarships@ateneo.edu**.

Information on scholarships and financial aid: **ateneo.edu/college/scholarships/apply**
scholarships@ateneo.edu

ATHLETIC SCHOLARSHIPS

Athletic Scholarships are awarded to student-athletes who have excelled in sports and academics. Applicants who wish to enter Ateneo de Manila University with an Athletic Scholarship must coordinate with the University Athletics Office (UAO).

Aside from being financially challenged, applicants must have outstanding athletic ability, and must be a recipient of awards in their specific sport.

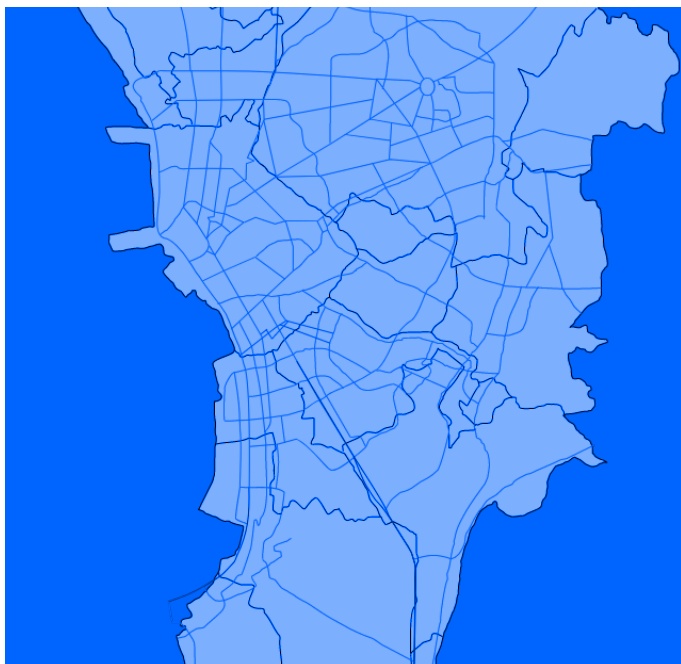

Applicants must also secure the recommendation of the Ateneo Coach and Program Head of their sport. Contact the University Athletics Office (UAO) at **uao@ateneo.edu**.

SCHOLARSHIPS FOR WOMEN

The University continues to broaden women's access to education through financial assistance and scholarship. Ateneo currently offers the following scholarships for women:

- ▶ Ateneo Coed@40 Half the Sky Scholarship
- ▶ Maryknoll College '68 –Fr Joseph A. Galdon SJ Scholarship
- ▶ Women of the Ateneo Scholarship.

apply.ateneo.edu

LIVING IN METRO MANILA

FOR STUDENTS FROM OUTSIDE METRO MANILA

Most Ateneo students who come from outside Metro Manila stay in the vicinity of the Loyola Heights campus, either in on-campus residences, off-campus housing, condominiums, or rental houses, either on their own, with friends. Many also live with family or relatives, which significantly lowers the cost of living.

The cost of living will depend on your housing situation and your lifestyle. Your budget should take into account housing and utilities (electricity, water, and communications); food; clothing; transportation; daily educational expenses such as purchase school supplies and printing; and other expenses, such as entertainment and leisure.

INTERNATIONAL STUDENTS

VISA MATTERS

If accepted, international students must inquire from the Philippine Embassy/Consulate at their country of origin for student visa requirements and processing.

The Office of International Relations handles all foreign student matters, including assisting you with visas and documentation requirements.

oir@ateneo.edu

FOREIGN STUDENT FEE

To support Ateneo de Manila internationalization initiatives, an international student fee will be collected from non-Philippine passport holders (both resident and non-resident).

FILIPINO LANGUAGE COURSES

All accepted international students are required to take three (3) Filipino language courses as part of the curriculum.

filipino.soh@ateneo.edu

ON-CAMPUS RESIDENCE HALLS

There are on-campus accommodations for students. The University Residence Halls provide shared spaces for a diverse community, creating opportunities for personal enrichment and growth.

The Residence Halls offer 24-hour security assistance and each building is equipped with CCTV cameras. Residents have access to cafeterias, laundromats, kitchenettes and study areas. Students may choose to stay in quad or twin-sharing rooms. For more information, including room rates, visit residencehalls.ateneo.edu.

In addition, the Institute of Social Order (ISO) Dormitory, located at the Social Development Complex, is also open to resident students.

isofacilities@gmail.com

Are You Ready?

Ateneo de Manila is open to everyone, regardless of background, belief, or economic status. Our students come from all over the Philippines, and all over the world. They may come from a long line of Ateneo graduates, or be the first one in their family to go to college. There are athletes and mathletes; engineers and musicians; dancers and designers; scientists and artists; community volunteers and entrepreneurs; and many more.

All of them have a common theme: They all were selected to become part of our student body based on their passion for learning; hunger for personal growth; openness to new ideas and experiences; heart for service; and a potential to create a positive difference in the lives of others.
