

PRODUCT CATALOG

Dear Valued Customer,

From our humble beginnings in a south side tavern in Milwaukee, Great Lakes Dart Manufacturing has grown into a premier name in darts, gaming tables, and billiards. For over 40 years, we've been at the forefront of innovation in dart games, gaming culture, and home entertainment.

Our story began in 1981, when five friends and business partners came together with a vision to bring more excitement to their bar. Recognizing the growing popularity of darts, they quickly introduced dartboards to local establishments and helped kickstart the formation of dart leagues. By capitalizing on this trend, the newly founded English Darts South became a trusted supplier for local businesses, cementing its role in the darts community.

With just a \$100 investment, we built our first inventory and became a cornerstone of the darting scene. As the game continued to grow into one of the fastest-rising sports in America, our company grew with it. After several relocations, we finally settled in our permanent home, a 60,000 ft² warehouse in Muskego, Wisconsin, where we continue to grow and innovate to this day.

Our success is built on a foundation of innovation and risk-taking. Early on, we embraced the revolutionary concept of soft tip darts for electronic dartboards. These boards introduced automatic scoring and a modern twist to the traditional game, attracting casual players and expanding the sport's reach. Though many players remained loyal to steel-tip darts and bristle boards, soft tip darts opened the door for a new generation of enthusiasts. As we continued to grow, we expanded beyond darts, venturing into high-quality billiard cues and larger entertainment offerings, including pool tables, air hockey, and foosball tables. Our innovative mindset led to groundbreaking products like the Pockey™ Three-in-One Game Table, a revolution in home entertainment that combines multiple games into one convenient design.

Today, Great Lakes Darts Manufacturing remains committed to leading the way in game room innovation. From darts to billiards to multi-functional game tables, we are constantly exploring what's next, ensuring our customers have access to the best products and experiences in home entertainment.

Thank you for being part of our journey. We look forward to continuing to bring excitement and innovation to game rooms everywhere.

Sincerely,

Derick Voden | President, GLD Products

The starting point in Milwaukee on the south side.

SOFT TIP

FLIGHT

Flights are available in a variety of shapes, sizes and designs. A player's throw velocity should determine what style of flight will work best. Experiment with different shapes until you find the one that works best for you. Flights allow you to personalize the look of your darts.

SHAFT

The shaft provides spacing between the flight and the barrel. Shafts are manufactured from a number of different materials like nylon, aluminum or polycarbonate in varying lengths. Choose a shaft which allows a comfortable feel and consider flight trajectory. For maximum stability select the shortest shaft that is comfortable for you.

BARREL

Varying widely in weight, length, grip and diameter, the barrel of a dart should be chosen to match your style of grip and throw. Barrels are generally made of alloy, nickel silver or tungsten. Alloy and nickel silver barrels are less expensive than tungsten, but tend to be wider in circumference. Tungsten barrels offer the advantage of a much slimmer dart, which can yield closer groupings, increasing your scores.

TIP

The end of the dart that makes contact with the board. Soft tip darts feature a more flexible tip made from various polymers designed for modern electronic dartboards. Soft tips can come in a variety of shapes and colors due to their construction. They may also range in durability, with the toughest tips featuring a reinforced inner core to strengthen it against damage. Soft tips are easy and cost efficient to replace and it is always a good idea to have some extras on hand just in case

SHOT KING

SOFT TIP

The Viper Shot King darts feature slim 80% tungsten barrels designed for tight groupings and consistent accuracy, with carbon fiber shafts that reduce vibration for smooth and stable flight. Weighted at 20 grams, these soft tip darts offer a balanced feel for confident throws, while the vivid flights with black accents and carbon detailing give them a sleek modern look. Built for use with all standard electronic dartboards, they are ideal for both casual and competitive play. A full accessory kit including spare shafts and flights, extra tips, flight protectors, a dart wrench, and a durable Nomad case keeps everything organized and ready for game time, making this set a reliable choice for players who value both performance and style.

PATRIOT

SOFT TIP

The Patriot Dart Set features 80% tungsten barrels for lasting durability and precision, paired with Viperlock shafts and bold American flag flights that stand out with patriotic flair. Each set is packaged in a spacious USA-themed dart case that holds up to two full sets of darts with extra storage for flights and accessories. These limited-run soft tip darts are laser-engraved with their unique production number, highlighting their exclusivity and collectible appeal. Two additional sets of USA flights are included, giving players the freedom to mix up their look while staying true to the theme. Built for performance and proudly styled, the Patriot Dart Set is backed by a lifetime barrel guarantee for confidence that lasts through every game.

The Viper® Tungsten Bee soft tip darts, designed for use with either electronic dart boards or most sisal dart boards. These diminutive darts are packed with features starting with the barrel, fashioned from 80% tungsten and 20% nickel. Tungsten is a very dense metal, able to create shorter darts with the same weight as lighter metals; this allows a smaller dart without sacrificing control, increasing your scores.

- BARRELS** 3 80% Tungsten knurled and grooved with hand painted rings
- SHAFTS** 3 Aluminum (*style may vary*)
- FLIGHTS** 3 V-Lux (*style may vary*)
- TIPS** 3 2BA Tufflex
- WEIGHT** 18 Grams
- CASE** Super Bee Casemaster® in clam
- WARRANTY** Lifetime barrel warranty

STEEL TIP

FLIGHT

Flights are available in a variety of shapes, sizes and designs. A player's throw velocity should determine what style of flight will work best. Experiment with different flight shapes until you find the one that works best for you. Flights allow you to personalize the look of your darts.

SHAFT

The shaft provides spacing between the flight and the barrel. Shafts are manufactured from a number of different materials like nylon, aluminum or polycarbonate in varying lengths. Choose a shaft which allows a comfortable feel and consider flight trajectory. For maximum stability select the shortest shaft that is comfortable for you.

BARREL

Varying widely in weight, length, grip and diameter, the barrel of a dart should be chosen to match your style of grip and throw. Barrels are generally made of alloy, nickel silver or tungsten. Alloy and nickel silver barrels are less expensive than tungsten, but tend to be wider in circumference. Tungsten barrels offer the advantage of a much slimmer dart, which can yield closer groupings, increasing your scores.

TIP

The end of the dart that first enters the dartboard. For use with traditional sisal boards, steel tips are hardy and durable, and are incorporated into the construction of the barrel. Because of this, steel tips very rarely break and almost never need to be replaced. This built-in nature, coupled with its toughness allows you to repair steel tips as they accrue wear from hours of play. Some more professional darts feature a black oxide coating which is designed to better grip the sisal fibers and eliminate bounce outs.

Steel Tip Darts

DART ACCESSORIES

FLIGHTS

Flights are available in a variety of shapes, sizes, and designs. A player's speed of throw should determine what style of flight will work best. Experiment with different flight shapes until you find the one that works best for you. Consider slim for soft-tip which are the lighter weighted darts.

SHAFTS

The shaft provides the proper spacing between the flight and the barrel. Shafts are manufactured from a number of different materials (including nylon, aluminum and polycarbonate) in varying lengths. Choose a shaft which allows a comfortable feel and a smooth, flight trajectory. To minimize "wobble" or "cork-screwing," select the shortest shaft that is comfortable for you.

TIPS

There are two types of dart tips — steel or soft. Steel-tipped darts are used with traditional English Sisal dartboards and soft-tipped darts are used with today's electronic games and plastic dartboards.

MECHANIC WRENCHES

Dart mechanic wrenches tighten tips and metal shafts. They also reshape and spread the metal shafts for easy flight insertion.

RINGS

O-rings prevent aluminum shaft separation from the dart barrel and stem rings keep the shaft prongs tight against the flight reducing the chances of the flight separating from the shaft, eliminating rattle.

DARTBOARDS

ELECTRONIC DARTBOARDS

Electronic dartboards come in many styles. Select models feature sturdy ABS cabinets built for long-term use, Target Tested Tough® commercial-grade nylon segments that outperform conventional plastic, and durable displays for easy score viewing.

LED CRICKET OVERHEAD SCORING DISPLAY

LARGE ELECTRONIC SCOREBOARD

BUILT-IN DART STORAGE HOLDERS

TARGET TESTED TOUGH™ COMMERCIAL GRADE NYLON SEGMENTS

EASY TO NAVIGATE CONTROL PANEL

ULTRA THIN SPIDER REDUCES BOUNCE OUTS

CATCH RING PROTECTS WALL FROM MISSED DARTS

GAME PANEL FOR QUICK REFERENCE

BUILT IN TIP STORAGE

ELECTRONIC CRICKET SCORING DISPLAY

BOARD VARIETIES

Many dartboards have an ultra-thin spider to reduce bounced darts, with a 13" target face or a 15.5" league regulation target face. Some dartboards have an AC power adapter option or batteries for a travel adapter and come with a built-in storage tip tray and dart holsters.

SISAL DARTBOARDS

Viper® sisal dartboards offer a staple-free bullseye and radial, triangular, or razor-wired spider, with the razor having the least bounced darts. Each dartboard is constructed from high-grade, self-healing fibers that accommodate both steel and soft tip darts, featuring a removable anti-glare number ring that adds life to your investment by allowing you to rotate the board for even wear.

RAZOR THIN WIRE PREVENTS BOUNCE OUTS

HIGH GRADE SELF-HEALING SISAL FIBERS

MOVABLE ANTI-GLARE NUMBER RING

STAPLE-FREE BULLSEYE

NEPTUNE

ELECTRONIC DARTBOARD 42-1023

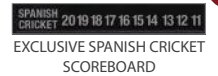

Make a stunning addition to your game room with the Viper® Neptune electronic dartboard with built in hybrid cabinet! Surrounding the target face is a large missed dart catch ring to protect your wall from errant throws while the built in cabinet doors feature convenient dart storage. The Neptune features 57 dart games, including the exclusive Spanish and Minnesota Cricket, and 307 scoring options to assure that you'll never run out of ways to put your darting skills on display. The stylish color scheme utilizes sharp red and gray on a deep black to ensure you can always see where your darts land.

HIDEAWAY

STEEL TIP CABINET & DARTBOARD 40-0375

Enjoy your dart games in whole new ways and keep it safe with the Viper® Hideaway dartboard cabinet for steel tip darts! This cabinet will complete the look of any game room with a classic matte black traditional finish. The Hideaway has a coated finish meant to absorb the toughest of impacts. The sharp, sleek design will complement most decors and will ensure that your dartboard doesn't clash with your style. The included dartboard is two sided, on one side you can play a traditional game of darts, like 301 or cricket variations. On the other, there is an exciting alternative in baseball darts, meant to emulate America's pastime with this fun take on darts. Your dart room isn't complete until you have a cabinet in which to store it!

STADIUM

STEEL TIP CABINET & DARTBOARD 40-0376

Complete the look of any game room with a classic Viper® Stadium dartboard cabinet with Shot King® dartboard. Don't leave your wall unprotected from errant throws! The Stadium is constructed from wood with a classic walnut finish meant to absorb the toughest of impacts. Underneath the main dartboard area are slots to hold up to six darts upright, to avoid folding the flights, and dry erase marker for the scoreboard, so it doesn't go missing. Included with your dartboard cabinet is a Viper Shot King sisal dartboard, one of our top selling dartboards. Featuring top quality sisal fibers, the Shot King is designed to self heal and last much longer. With a staple free bull and radial spider wires, bounce outs are reduced to a minimum. Your dart room isn't complete until you have a cabinet in which to store it!

OPEN DIMENSIONS	42.5"L x 21"W x 2.5"H
CLOSED DIMENSIONS	21.5"L x 21"W x 3"H

VAULT

STEEL TIP CABINET & DARTBOARD 40-0377

Complete the look of any game room with a classic Viper® Vault dartboard cabinet with Shot King® dartboard. The Vault is constructed from wood with a classic walnut finish meant to absorb the toughest of impacts. The magnetic door lock will keep the doors from swinging out and obstructing your rooms, while attached directly onto the doors are dry erase scoreboards for both '01 games and Cricket. The hinges of the Vault's doors feature an antique brass finish to complete the traditional look of this cabinet. Included with your dartboard cabinet is a Viper Shot King sisal dartboard, one of our top selling dartboards. A removable score ring allows you to rotate your board so it wears evenly. The regulation dartboard measures 18" in diameter for a tournament level experience. Your dart room isn't complete until you have a cabinet in which to store it!

STEEL TIP CABINET & DARTBOARD 40-0381

This ready-to-play dartboard set includes the Viper® Vault dartboard cabinet with Shot King® steel tip dartboard. The Vault dart board cabinet includes two dry erase scoreboards, a standard black one and the Viper Illumiscore. The Illumiscore dart scoreboard lights up so you'll always be able to keep track of your score, even in dimly lit rooms. It's an eye-catching addition to any darting setup. The included Shot King dartboard is a regulation-size 17.75" steel tip dart board made with sisal fibers to last for hours of fun. It features a moveable number ring, allowing you to rotate the board so you can get the most out of it. This set includes the Viper Vault dartboard cabinet, Shot King sisal dartboard, the Illumiscore Scoreboard, a black dry erase scoreboard, two sets of starter darts, a throw line, and a measuring tape.

Keep your darts organized and displayed with style! These dart caddies hold up to 15 darts and include a velvet pouch for accessories.

DIMENSIONS	16"L x 4"W x 0.88"H
NET WEIGHT	1 lbs
GROSS WEIGHT	1.5 lbs
CARTON OF	1

FEATURES

- Solid wood construction
- Holds both steel and soft tip darts
- Includes mounting hardware

DARTS, DARTBOARD, SCOREBOARD, & ACCESSORIES NOT INCLUDED

PRO LINE

THROW LINE MEASURING TAPE 37-0146

Take all the guesswork out of finding the perfect distance for your throw line with the Viper® Pro Line Marker Tape. This convenient tool allows you to mark precisely where your throw line should be in relation to the front of your board. Engineered measurements ensure that your throw line is the correct regulation distance, ready for tournament play! The Pro Line tape is easy to use and requires no tools, simply attach the end of the tape to your board with a dart, find the distance you need and mark it! The tape then folds back into its case for easy storage to any event!

DIMENSIONS 2.37"L x 2.37"W x 0.905"H

GROSS WEIGHT 0.5 lbs

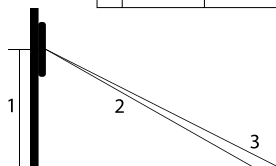

CARTON OF 1

MEASURING DISTANCES		
1	5' 8"	173cm
2	9' 7 1/2"	293cm
3	9' 9 1/4"	299cm

FEATURES

- Verify regulation dartboard distance with ease
- To use: Pin the tab onto the dartboard bullseye, walk until desired throw line distance appears, and place your desired throw line marker
- Finds distance for both steel and soft tip games

DARTBOARD LEVELER KIT

DARTBOARD LEVELERS 37-0177

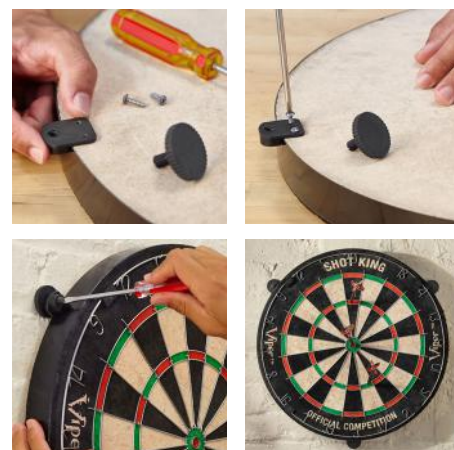

Make leveling and securing your dartboard onto the wall quick and simple with the Viper® Dartboard Leveler Kit. This kit is perfect for leveling your dartboard as well as securing it into place for reduced wobble when throwing darts.

FEATURES

- Quick and simple setup
- Levels your dartboard on the wall
- Secures dartboard into place
- Longlasting and reusable when setting up a new dartboard

DARTBOARD, DARTS & SCREWDRIVER NOT INCLUDED

QUICKFIT

DARTBOARD MOUNTING BRACKET 37-9003

Mount your dartboard quickly, easily, and accurately with the Viper QuickFit Dartboard Mounting Bracket. The QuickFit's track slider system eliminates guesswork when hanging your dart board, providing a durable hold on nearly any wall, cabinet, or backboard so you can play with confidence. The QuickFit dart board mounting system is completely reusable too; when upgrading to a new dart board simply remove and attach it to your new dart board.

FEATURES

- Quick and simple setup
- Levels your dartboard on the wall
- Secures dartboard into place
- Longlasting and reusable when setting up a new dartboard

DARTBOARD & SCREWDRIVER NOT INCLUDED

LASER DART LINE

LASER DART LINE

BLACK 37-0108

WHITE 37-0168

The latest high tech innovation in dart throw lines is here with the Viper® Laser Dart Line! The Laser Dart Line projects a concentrated beam of light to indicate where you should be standing. The adjustable laser line allows you to place the line at any height, and you can project it to any distance, perfect for players of both steel tip and soft tip darts. The Viper® Laser Dart Line mounts quickly and easily to the wall or the underside of a dart cabinet.

DIMENSIONS 10"L × 2.25"W × 1.25"H

GROSS WEIGHT 1 lbs

CARTON OF 1

FEATURES

- State of the art laser beam to mark your throw line
- Adjustable laser head locks into place for a precise line
- Adjustable line distance
- Easy to mount onto wall
- Battery operated (4 AA batteries)
- Optional power adapter (#42-9987, 100-240V 50-60Hz AC to 5V DC at 1000mA, positive outside to negative center)

BATTERIES, ADAPTER, CABINET, DARTBOARD AND ACCESSORIES NOT INCLUDED

LASERLITE

MINI LASER DART LINE 37-0025

The convenient Laserlite allows you to place the line directly into your dartboard, there's no messy installation! You can adjust the line to your preferred distance, whether you're setting up the official tournament distance or changing it up for practice. The Viper Laserlite throw line mounts quickly and easily to any of our compatible electronic dart boards, just plug it right in! The throw line uses the power from the dart board for a great cord free look and no extra batteries!

DIMENSIONS 2.88"L × 1.38"W × 1.13"H

GROSS WEIGHT 0.5 lbs

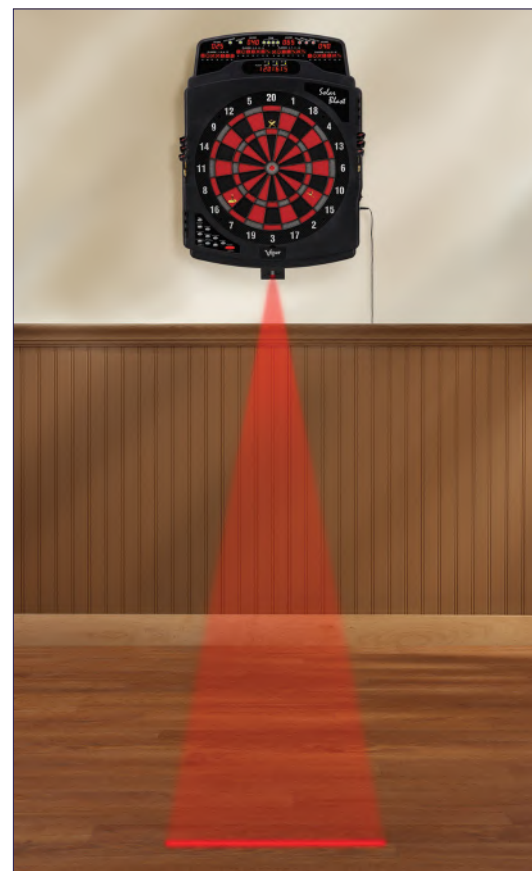

CARTON OF 1

FEATURES

- State of the art laser beam to mark your throw line
- Adjustable laser head locks into place for a precise line
- Customizable line distance
- Plugs directly into compatible dartboards

DARTBOARD NOT INCLUDED

BILLIARDS

A diagram of a billiard cue with various parts labeled. The cue is shown vertically, with a plain wooden shaft on the left and a decorated shaft on the right. The decorated shaft features a skull, a star, and a banner with the word 'DEATH'. The butt of the cue has a striped wrap and a bumper at the bottom. Lines connect the labels to the corresponding parts of the cue.

TIP

Billiard cue tips are normally made of leather with varying degrees of hardness, curvature, and diameter. Can apply a spin on the cue ball. Tips vary based on purpose of cue i.e. break cue, jump cue, etc. It is glued or screwed to the ferrule.

FERRULE

The ferrule holds the cue tip in place and absorbs the impact of the hit to the cue ball, protecting the shaft.

SHAFT

The shaft is usually made of maple, other hardwoods or fiberglass, and tapered from the tip end back towards the center of the shaft or the collar of the shaft which connects the joint.

JOINT

Connection between the cue shaft and the butt. Made of a variety of materials, most commonly used are ABS, brass, or stainless steel.

WRAP

Used to enhance grip and provide aesthetic appeal as well as better grip and moisture absorption. Common forms of wraps are leather, Irish linen and nylon.

BUTT CAP

Contains the bulk of the weight of the cue determined by the hardwood used or weights added. The butt is where the use of inlays, rings, and other decorations as well as wraps are used to enhance the look of the cue.

BUMPER

The bumper is typically made of rubber, the bumper's purpose is to protect the cue when resting on the ground, or from collisions. Without a bumper, the reverberations of the cue hitting the ball may vibrate more than a cue with a tight, well fitting bumper and the butt may crack over time. Several of GLD Products cues feature bumpers with a built-in removable scuffer. These are used to reshape the tip, which improves the application of chalk and ball control.

DESPERADO

BILLIARD CUE

Play bold and make a statement with the Desperado billiard cue sticks from Viper®. Fashioned from Canadian maple hardwood to withstand years of use, the Desperado billiard cues stand out from the rest with laser-engraved etchings of sharp designs. These cue sticks feature all the performance-enhancing qualities you've come to expect from exceptional cues. A Le Pro leather tip ensures a solid grip on the ball, reducing miscues. A Pro Taper gives a consistent and comfortable feel across your stroke, and a 100% genuine leather wrap reduces vibration and provides unparalleled grip. The shaft and butt combine with lightweight stainless steel joints to give great feedback on every shot.

COMMERCIAL

BILLIARD CUE

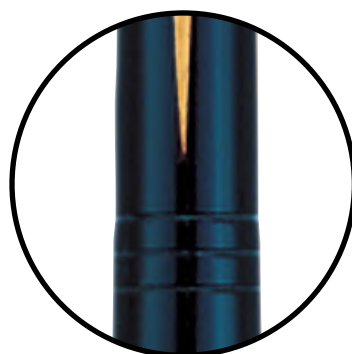

The perfect answer for the player who needs a cue to be used day in, day out with quality and cost in mind: the Viper® One-Piece Commercial Billiard Cue Stick. Fashioned from a solid piece of hardwood to withstand years of use, the commercial cue is designed with dependability in mind. These cue sticks give you the most bang for your buck and include several performance enhancing features. A leather tip ensures a solid grip on the ball, reducing miscues. An even, gradual taper gives a steady and comfortable feel across your stroke. The solid, one-piece construction gives a great feedback on every shot. When you need quality cues that will stand up to heavy use at a great price, look no further!

TABLE GAMES

GLD is proud to lead the industry with an innovative line of game tables. Perfect for serious and casual players alike, our selection of table games is perfect for those looking to upgrade their game room.

MULTI-GAMES

Perfect for those looking for the action of all the popular table games in one convenient table game. GLD's own Pocky® tables feature a patented latch system for maximum sweetness.

BILLIARDS

This popular parlor game requires skill and precision. Don't get hustled by inferior tables. GLD's billiard tables feature the highest quality without breaking the bank.

TABLE HOCKEY

Relive the action of the arcade with this classic table game. Our dynamic table hockey tables are loaded with options to keep the pucks flying and the action flowing.

FOOSBALL

Based on the popular arena event, Foosball is a game of high speeds, lightning fast strikes, and stunning scores!

Net Weight* - Indicates the assembled weight of the table
 Gross Weight** - Indicates the weight of the table in its packaging
 Shipping Weight*** - Indicates the weight of a single table in its packaging plus the pallet and pallet topper where applicable

PORTABLE TABLE TENNIS

EXCLUSIVE LATCH SYSTEM (#2-209)
GLD® uses a latch table lock system exclusively designed for our Pockey tables. It is user friendly and more structurally supportive than tables using a pin system.

POWER CORD CHANNEL
Exclusive to GLD, the power cord channel is placed through the spindle on the end of the Pockey table to help prevent damage to your table, cord and outlet.

STORAGE RACK

7 ft. POCKEY®

3-in-1 GAME TABLE

GREEN	64-1046
BLUE	64-1052
RED	64-1053
TAN	64-1054
GREY	64-1055

All of the most popular games are now at your disposal, in a third of the space with the Fat Cat® 3-in-1 Pockey table! This revolutionary multi-game table design offers an unprecedented three of the most popular game room games that would normally take up the space of three separate tables in a single unit! Your family will be in for hours of fun flipping between the different games the Pockey table has to offer! Each table surface is optimized for its game, ensuring a great experience no what game you play.

DIMENSIONS	87"L x 44"W x 32"H

CUE STORAGE RACKS

EXCLUSIVE LATCH SYSTEM
GLD® uses a latch table lock system exclusively designed for our Pockey tables. It is user friendly and more structurally supportive than tables using a pin system.
(#2-209 FOR REPLACEMENT LATCH)

POWER CORD CHANNEL
Exclusive to GLD, the power cord channel is placed through the spindle on the end of the Pockey table to help prevent damage to your table, cord and outlet.

7 ft. POCKEY®

2-in-1 GAME TABLE **64-1010**

All of the most popular games are now at your disposal, in a third of the space with the Fat Cat® 2-in-1 Pockey table! This revolutionary multi-game table design offers an unprecedented two of the most popular game room games that would normally take up the space of two separate tables in a single unit! Your family will be in for hours of fun flipping between the different games the Pockey table has to offer! Each table surface is optimized for its game, ensuring a great experience no what game you play.

BLUE	64-0146
GREEN	64-0151
RED	64-0152
GREY	64-0153

For hours of family fun and a modern centerpiece to the game room we present the Fat Cat® Tucson billiard table! This 7" table is sure to be the subject of many game nights to come, and will look good while doing it. The Tucson look begins with the finish. A deep black finish give this pool table its signature arcade look. This finish and construction is designed to invoke feelings of modern pool playing centers. The pockets are built into the rails, hiding the ball return system in a sleek package. Completing the contemporary design are the curved pedestal style legs.

PLACING ORDERS

Orders may be placed by telephone, email, regular mail, or via our wholesale platform:

wholesale.gldproducts.com

NEW ACCOUNTS

If this is your first time placing an order with GLD Products, please have the following information available: Company name, bill to and ship to addresses, phone number, email, and either Federal Tax ID Number or State Reseller Certificate Number. We'll need a copy of one of these ID numbers as well. To apply for credit terms with GLD, you will need to complete all sections of the credit application you can get from your account rep. Open accounts and COD payment by company check must have prior approval.

TERMS

Returned checks will incur a \$35.00 fee and your account will be placed on COD cash only. We accept MasterCard, VISA, AmEx, Discover and PayPal.

BACKORDERS

Items not available at the time of your order will be placed on backorder. When stock arrives we will call you to see if you still wish to have the items shipped. Be aware shipping costs will be incurred. You can add to the order before we ship the backordered item(s).

MINIMUM ORDER QUANTITIES

All items should be ordered in multiples of the MOQ. Orders not meeting this qualification may be subject to an upcharge.

SHIPPING

Unless specified our staff will determine the best method to ship your order. Next day or second day orders received before 10AM CST will be shipped the same day. Shipping charges are billed on your invoice FOB Muskego, WI 53150. Ground shipments will be shipped in the order they are received. Shipping errors must be reported within 5 business days of receipt of shipment for RA and/or credit.

TRUCK ORDERS

Freight delivered by common carrier must be inspected before signing as received. If cartons are damaged or missing this must be noted on the bill of lading, or the entire shipment refused. Failure to do so may result in failure to receive credit. Claims cannot be filed if shortages or damage is not noted on the bill of lading.

RETURNS

Please call for approval and a Return Authorization Number. Merchandise returned will be inspected by a GLD representative. If for any reason the item(s) returned to GLD is in such a fashion as to not be able to be placed back into stock, the item(s) will be returned to you and no credit issued. Any returned item(s) that passes inspection will be charged a 15% restocking fee.

PRODUCT RETURNS

Please include the following information:

- Return authorization number
- Invoice number and date
- Client number
- Product number
- Reason for return

All returns must have a Return Authorization Number (RA#). To receive an RA# please contact your customer service representative with the reason for the return. Clearly mark the RA# on the shipping label. We reserve the right to refuse to credit items returned without an RA#. Any items returned without prior approval will be returned to the sender at the sender's expense. RA's will remain open for a period of 30 days from the date of issue. Product must be returned within this time period to insure acceptance of product and proper credit to your account. Open RA's will be canceled after 30 days if product(s) has not been received.

DAMAGED GOODS SHORTAGES

If any items are damaged or missing from the carton(s), please report this to us within 5 working days of receipt of the shipment. If you receive damaged or open carton(s), a separate claim must be filed with the carrier within 5 business days. Be sure to sign your shipping documents "subject to inspection and verification" upon receipt of such carton(s).

OTHER

GLD Products has a policy of continuous product improvement. Product specifications may change without prior notification.
