Space Force Association Magazine Spring 2024 - Full S.T.E.A.M. to Mars

The space industry and USSF are moving full STEAM to Mars cultivating education and workforce development programs that prepare the new force and its complementary industry for innovation in the age of strategic competition. Learn more about SFA's education partnerships, how the USSF is working with Texas A&M University to develop space education programs, and how the art of human influence and creativity will put the "A" (arts) in STEAM programs that optimize the space industry and the Space Force for the future.
