**Ogni nuova collezione
è un nuovo inizio,
ogni nuovo progetto
una nuova sfida.
Ed è così dal 1929.**

Every new collection is a new beginning,
every new project a new challenge.
And it's been that way since 1929.

La grande falegnameria industrializzata

IT

Olivieri opera nel settore dell'arredamento da 95 anni e viene identificata oggi come una grande falegnameria industrializzata che produce principalmente boiserie contenitive e boiserie a parete, lavorando su misura al millimetro a tutt'altezza e a tutta larghezza ed integrando anche porte d'arredo. Per noi anche un armadio è una boiserie contenitiva a tutt'altezza.

La lunga esperienza nel segmento delle armadiature ci ha permesso di mettere a punto un sistema produttivo capace di coniugare qualità di prodotto e competitività.

Siamo una delle pochissime aziende italiane che realizza il proprio sistema contenitivo in tamburato (struttura e ante) fornendo così ai nostri prodotti maggiore durevolezza nel tempo e resistenza al carico; ma anche minor peso che significa minor carico sulla ferramenta e notevoli vantaggi su trasporto e montaggio.

The big industrialized carpentry

EN

Olivieri is a company that has been operating in the furniture market for 95 years, and is identified as a big industrialized carpentry that mainly produces storage boiserie and wall cladding, fully customized in total height and total width, also integrating decorative doors. For us, even a wardrobe is a full-height storage boiserie.

The long experience with the cabinets allowed us to define a production system capable of combining quality and competitiveness.

We are one of the few Italian companies which produces its storage system in honeycomb (structure and doors), providing our products with greater endurance and loading resistance, but also lighter weight, which means less load on the hardware and big advantages on transport and installation.

L'impostazione industriale delle nostre linee produttive prevede la convivenza di fasi ad alta automazione insieme a lavorazioni speciali da parte di maestranze specializzate nel reparto falegnameria.

Questo ci permette di gestire in modo industriale lavorazioni artigianali e materiali personalizzati.

The industrial approach of our production lines includes the combination of highly automated phases alongside specialized craftsmanship in the woodworking department.

This allows us to manage special processes and customized material in an industrial manner.

**Nel mondo dell'arredamento
esiste ormai un netta distinzione
tra chi produce e vende prodotti
e chi è orientato al "su misura".**

**Olivieri ha scelto di dedicarsi
al mondo del progetto, potendo
rappresentare per i propri clienti
un unico interlocutore capace
di offrire grande flessibilità
in tempi e metodi industriali.**

In the furniture market, there is now a clear distinction between those who produce and sell products and those who are oriented in the custom made projects.

Olivieri dedicate itself to the world of design projects, being able to represent a unique company for its clients, capable of offering great flexibility in terms of time and industrial methods.

DRESS CODE

Sistema di boiserie contenitive e a parete con integrazione di porte d'arredo

Storage and wall boiserie system
with integration of furnishing doors

Concept

Dress Code: il sistema pensato sul progetto

Dress Code: the system designed for the projects

IT

Dress Code è la rappresentazione della nostra identità e delle nostre caratteristiche aziendali:
CODE è il codice tecnico, la componente industriale;
DRESS è la falegnameria, il vestito sartoriale, il su misura, la decorazione e le personalizzazioni nella sua forma e nella sua estetica.

Storage

A tutta altezza

Total height

IT

Dalla soluzione a tutta altezza, dove le superfici verticali si sostituiscono esteticamente alla parete delineando gli spazi senza interruzione, al contenimento sospeso che agisce per sottrazione creando equilibri tra pieni e vuoti, fino all'integrazione con i volumi modulari del sistema Cube6, Dress Code si presenta in 3 principali varianti.

EN

By the total height solution where vertical doors aesthetically replace the walls, delineating spaces without interruption, to the floating storage that acts through subtraction, creating a balance between solids and voids, and finally integrating with the modular system of the Cube6, Dress Code is available in three main options.
