Prezio

A stylized blue flame logo that replaces the letter 'z' in the word 'Prezio'. The flame is composed of several curved, overlapping shapes that create a sense of movement and heat, extending downwards from the 'z'.

About us

Pregio is a Greek company operating in the field of fishing equipment, providing reliable and high-performance products for all types of angling. Founded by Smaro Kalaitzi & Co., the company is driven by a core philosophy centered on quality, functionality, and a deep respect for the angler.

At Pregio, we believe that fishing gear is not just a collection of tools. It is an extension of the angler's experience at sea. For this reason, each of our products is designed and manufactured in carefully selected overseas facilities, in accordance with strict specifications and technical standards.

Before any product goes into full production, every new model undergoes extensive field testing in real-world marine conditions, by experienced Greek anglers. Based on their feedback and performance evaluations, all necessary modifications are implemented to ensure the final product fully meets the demands of the modern fisherman, whether fishing from shore, from a vessel, or targeting large predatory species.

Pregio maintains a strong presence in the Greek market, as well as abroad, through a strong network of retail partners. Our product range is continuously evolving and being updated, with the aim of offering solutions that make fishing easier, more effective, and safer for everyone.

TN

7+1 Bearing System

- 7 +1 Stainless Steel Ball Bearing
- Body aluminum
- Quick-Stop-System (Q.S.S: to stop the rotor instantaneously)
- Reinforced Gears and Main Shaft
- Anti-Swing-System (A.S.S: prevents undesirable vibrations)
- Ultra-Sensitive Break System
- Suitable for sea water fishing
- Handle Left/Right with EVA for safety fishing
- Spool aluminium for high performance
- CNC - Cut Aluminium Power Crank
- Bail Fix System pick up

TN - 5000 - 4000 - 3000 - 2000

The TN reel model from Pregio is a very basic choice for every shore and boat angler! Ideal for a variety of techniques on both ends, it has the power to support any test you submit as well as the capacity it requires. Designed to have perfect braid management and amazing endurance due to the nature of the demanding technique, not only does it meet our needs in Tenya, but it becomes a first choice in spinning, heavy spinning, light shore jigging, jigging and shore jigging, depending the size we will choose!

The smaller models in this series are truly unique! Designed to withstand, to provide an inconceivable feeling and to face powerful opponents even with very light tackle. However, the shaft and gears are extremely reinforced! TN has an advanced carbon drag system with truly incredible smooth drag performance that we can micro-adjust up to the max limit drag. A very special reel, able to serve many fishing styles with impressive accuracy.

Majestic 8000

Prego is back with a new Surf Casting machine that... goes out of the ordinary! Prego's R&D department is constantly observing the fishing trends in the country, and based on them, develops all future projects.

The Prego Majestic 8000 is a third-generation surfcasting machine specifically engineered to meet the demands of modern anglers. Featuring a body 40 grams lighter than previous models and 6+1 steel bearings, it offers smooth, fatigue-free operation even in the most demanding sea conditions. Its reinforced stainless steel shaft and screw-in handle ensure total stability and durability during high-frequency casting and recovery.

This high-performance reel features a rapid brake adjustment system with 15 kg of force, optimized for linearity when using fine fishing lines. It comes equipped with two spools (aluminum and graphite) to cover diverse capacity needs and a specialized line protection system to prevent line entanglement under the reel. With a balanced 4.6:1 gear ratio, the Majestic 8000 sets a new standard for power and precision in surfcasting.

BULLET 7000

Quick brake adjustment system

6+1 Ball Bearings

Reinforced Line Roller

Max Drag 15kg

Bullet 7000

A reel based on the same standards of your favorite Sniper! Pregio Bullet is a tough reel with even less weight! This is a high technology reel with outstanding cast, perfect line management and a powerful drag system that applies 15kg of very stable tension. Quick Drag system and drag sensitivity will allow us to fish even with very light leaders without a problem. Pregio Bullet comes with two aluminum spools with different capacity each other, in order to keep everyone satisfied.

- 6+1 Steel bearings
- Long cast spool

- **Quick drag system**
- **CNC - cut aluminium handle with EVA knob**
- **Anti - Swing System (A.S.S: Prevents undesirable vibrations)**
- **Screwing handle**

Sniper 7000

The answer from Pregio in advanced mechanisms for Surf Casting. It is a device equipped with cutting-edge technology while both robust earning trust from the first fishing. It features shots of "racing" level with a minimal effort, while the brakes are very linear and "listen" to fine-tune accurately. The Sniper is an easy and stylish model suitable for demanding Surf Casters which will send your lead so far that you will not believe it.

Item No	Line Capacity m Φ mm	Weight	Gear Ratio	Max Drag

Surf Casting

- 9+1 BB, steel ball bearings
- Worm shaft line system, receiving line smoothly
- Steel main gear and core and thread locking mechanism design
- Ultra quiet balance system with easy control
- One way clutch adjustable system with instant reaction mechanism, reliable and durable anti-reverse
- High strength graphite body design
- Ergonomic Handle System Right/Left
- Weight: 620gr
- Max Drag: 14kg
- Quick Drag System

Magnum 8000

The new "pistol" of Pregio is here! Powerful Surf Casting reel, with advanced technological features and unique performance in every weather condition! The Magnum 8000 does not just cast, but shoots thanks to its advanced line management system and long casting spool. For those who want even longer cast, the Magnum has a special washer that allows us to intervene in the distribution of the line to achieve even longer casting distance. It also has a protective brush so that our line never passes underneath the spool.

Mangum is durable as a tank, but without weighing much! Weighing 620 grams, it balances with most casting rods and responds perfectly! Inside its spool is hidden the incredible drag system that can deliver up to 14 kg of net pressure, but extremely smooth and progressive. In terms of quality value for money, it has no comparison.

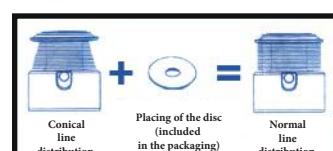

Item No	Line Capacity m Ø mm	Weight	Gear Ratio	Max Drag
Magnum 8000	320 0.40	620gr	4.1:1	14kg
Extra Spare Spool	320 0.40	-	-	-

How to place the disc to change the winding

RANGE 8000

4+1 Bearing System

New Surf Casting RANGE 8000 from Pregio

True to its value for money, Pregio is back with an amazing Surf Casting mechanism at an incredible price. Special attention has been paid to durability and that's why the RANGE features a reinforced shaft, 4+1 heavy duty bearings, and 2 spools! So the angler can have peace of mind for smooth and trouble-free operation of the mechanism for a long time, and with the two spools he can have two different fishing lines on the spools to be more "flexible" in his fishing, or the same diameter in case he cuts the line on the first one.

The mechanism has a very weighted and easy operation, a brake system with great precision, capable of supporting thin wire leaders, but strong enough (8kg) to face any challenge. The bail next to the line roller has a wide enough angle to secure the line with minimal rotation and the crank is comfortable and satisfying in the hand. Pregio, with respect to the angler's passion, and not wanting anyone to be deprived of one (or more) reliable reels for the demanding Surf Casting fishing that often requires more than one rod, offers the RANGE 8000.

- **4 +1 precision Ball bearings**
- **Reinforced gears and main shaft**
- **Smooth operation without vibration**
- **Instant anti-reverse system**
- **Highly reinforced graphite body**
- **Designed for saltwater fishing**
- **Right/left handle**
- **Weight 590g**
- **Brake performance 8 kg**
- **Main aluminum spool 0.35mm - 310m & 0.40mm - 240m**
- **Second spare graphite spool 0.35 mm - 440 m & 0.40 mm - 340 m**
- **Gear ratio 4.1:1**

Item No	Line Capacity m Ø mm	Weight	Gear Ratio	Max Drag
Range 8000	310 0.35	590gr	4.1:1	8kg

Economic choice! 

DAVID 7000

3 Bearing System

- 3 Ball Bearings
- Mirror Black Paint Body
- Graphite Spool With Line
- Brass Pinion Gear
- High Performance Front Drag Reel
- Multi-Stop System
- Left/ Right Exchangeable Handle
- Plastic CNC Handle
- **200m 0,37mm line included!**

David 7000

"David" of Pregio is a model designed to have a price so low, that seem too good to be true, although it remains a decent and handy tool. Despite its low cost, this reel will pleasantly surprise you with its capabilities to surf Casting! You will find it full with line and ready for fishing. From Pregio.

Item No	Line Capacity m Ø mm	Weight	Gear Ratio
David 7000	300 0.40	550gr	4.1:1

ODIN

5+1 Bearing System

- **5+1 reinforced steel ball bearings**
- **Graphite body**
- **Quick-Stop-System (Q.S.S: to stop the rotor instantaneously)**
- **Reinforced gears and main shaft**
- **Sensitive Drag System**
- **Designed for salt water**
- **Screw Handle Right/Left**
- **High performance aluminium spool**

Odin 5000 - 4000 - 3000

The Pregio ODIN series presents an affordable yet quality proposal in the Spinning reels category, designed to equip the angler with a durable fishing tool without emptying their pocket. The body is constructed from Graphite, offering a lightweight yet sturdy platform, while the spool is mechanically designed for maximum precision, making it ideal for the use of braided line.

The operation is supported by 5+1 sealed, stainless-steel bearings, offering excellent corrosion resistance for longevity. The handle is made of aluminum and folds for easy carrying on the smaller models, while the 4000 and 5000 sizes feature a reinforced bolt-on handle with a satisfying EVA grip. Ultimately, the Pregio ODIN series is a versatile, reinforced mechanism line offered at a very reasonable price.

Item No	Line Capacity m Ø mm	Weight	Gear Ratio	Max Drag	Line Retrieve Per Crank
5000	320 0.33	458gr	4.3:1	10kg	86cm
4000	220 0.30	318gr	5.1:1	8kg	85cm

CROW

3+1 Bearing System

- 3+1 ball bearing
- One way clutch ball bearing
- New black matte finish
- Brass pinion gear
- Micro adjust drag knob
- Powerful aluminium handle with rubber knob

Crow 350

Pregio has been surprised us with this reel that... "is not kidding." Featuring powerful brakes, a handle with aluminum, titanium line roller and reinforced gears, looks expensive and unapproachable. Nonetheless it comes at a great price and it will serve its wonderful fans of Casting & Rock casting where they will love it for its careful function and excellent design.

Crow 330

You loved this reel's large size, wished to be in a smaller size and we have made your wish come true! Crow 330 is the smallest model that does not have nothing less from his big brother! Very strong, with powerful brakes and reinforced gears. In a few words it is the ultimate tool for heavier spinning and Light shore jigging in price from another reality! From Pregio.

Item No	Line Capacity m Φ mm	Weight	Gear Ratio	Max Drag
Crow 350	230 0.35	480gr	5.5:1	8kg
Crow 330	200 0.25	270gr	5.1:1	6kg

Bono 2500

4+1 Bearing System

- More short body with large spool and large line capacity
- Forged aluminium spool
- Instant anti-reverse system
- Power drive gear equipped for high strength
- Right/ Left inter-changeable handle
- High quality ball bearings
- 4+1 BB
- Gear Ratio 5,2:1
- Line Capacity 0,18 mm- 150m
- Weight 250gr

Bono 2500

This Pregio reel is here to combine a very basic reel size with many advantages and key features! In size 2500 manages to respond both to technical and harder fishing techniques without fearing anything. It is well-balanced, with very comfortable operation and linear brakes! The distribution braid line - line will surprise you pleasantly! From Pregio.

Item No	Line Capacity m Ø mm	Weight	Gear Ratio
Bono 2500	180 0.15	250gr	5.2:1

VIRAL

4+1 Bearing System

- **4+1 ball bearing**
- **One way clutch ball bearing**
- **New black matte finish**
- **Brass pinion gear**
- **Micro adjust drag knob**
- **Powerful aluminium handle with rubber knob**

Viral 5000 - 3000

An economical and reliable set of spinning mechanisms in two basic sizes, 3000 for spinning and 5000 for casting. As a model it has some very good features, such as very weighted operation, very linear brakes, comfortable rotation and increased pulling power. All this contributes to a handy and relaxing reel that will definitely be ... Viral! From Pregio.

Item No	Line Capacity m Ø mm	Weight	Gear Ratio
Viral 5000	230 0.35	420gr	5.2:1
Viral 3000	200 0.25	290gr	5.2:1

Economic choice! 

SEA 5000 FD SEA 4000 RD

1 Bearing System

- 1 Ball Bearing
- Flash black paint body
- Power drive gear equipped
- For high strength
- Graphite spool with line
- Thin bail arm system
- Multi stop system
- High tensile strength plastic body
- CNC handle with plastic knob

Sea 5000 FD

What to Propose for a Series so careful and in this price category? Really beautiful design, very good operation, honest brakes, anti-shock system and all these with a spool filled with line. You just get it and you go for fishing! Perfect as a gift to a friend, who wants to attend for the first time or for a kid. This new Model with front brake system, is one pleasant addition to the most economical and faithful series! From Pregio.

Sea 4000 RD

This reel is designed to fit in any pocket but never to disappoint its owner. The "Sea" model responds excellent in various techniques such as spinning, casting, etc, and is ready for fishing, since it is already filled with 135 meters line. It have even so low price and it worths to have it even as a "reserve" if anything happens to your basic one, or as a second for a friend who wants to follow you! From Pregio.

- Rigid, one- piece aluminium frame
- Precisely machined brass gear
- Aluminium Spool
- One way clutch system
- Soft- touch EVA big handle knob
- Quick disassemble side plate cover
- Magnetic control brake system
- Clicker system for the action adjusting
- 5 Stainless steel ball bearing
- Gear Ratio 6,2:1
- Line Per Hands 70 cm
- Max Drag 4kg
- Weight 220 gr
- Line Capacity 0.20/230m & 0.23/ 200m

Honest-100

Before the releasing, Honest reel was fished intensive-ly, by Christos himself and by colleagues in the field, in order to be sure that the specific mechanism can not only meet the technique of Tai rubber, but also not show any problems! The result was more than satisfactory and if you asked for it repeatedly, you have it! Honest reel, gets its name from the honesty of its value for money.

In this price, someone will hardly find a reel that responds so wonderfully to his needs! The Honest is supported by 5 stainless steel and reinforced bearings, it has an aluminum body, reinforced precision gears, magnetic spool control to avoid backlash when the bait falls, micro-adjustable drag system and a handle with a satisfying Knob with EVA!

Pregio Throne Offshore Series

The Throne Offshore rod series from Pregio expands with two new models that share superior construction and materials for ultimate durability and reliability. Both rods are built from 30T Carbon fiber with Cross Carbon reinforcement, feature Fuji Alconite guides, and a Fuji R/S mechanism base with a Lock Nut for zero loosening.

Throne Off Shore 21-0199

A rod capable for a wide variety of fishing artificials such as jigs, soft lures, and inchiku jigs. With a length of just 2 meters and a maximum Casting Weight of 170g, it combines great strength with a short length, allowing for relaxed fishing in deep water and close shots around the boat.

Throne Off Shore Cast 21-0239

The Throne Offshore Cast is a Cast Rod designed to make long casts / shots; from the boat, using jigs and soft lures to search for shoals and rocky shorelines, or to make shots in the middle of hunts. With a Casting Weight of 40-120g and a length of 2.39 meters, it becomes a strong and reliable tool for demanding situations and long-distance casting.

Throne inchiku Game

Throne! The new series at the top of the Pregio categories. Without any compromise in quality and durability, this new series is a milestone! Top quality parts and blank construction materials, complete a rod that will serve you for a long time, with the same efficiency!

The Throne Inchiku - Jigging series is designed based on the modern Japanese philosophy for these techniques, with rods that have a very linear bending behavior to give natural movement to the metal baits and not to bring to the limit our knots. The series Throne Inchiku - Jigging is particularly effective in the use of silicone lures in vertical fishing! The minimal weight and unlimited durability of these rods will excite you from the first crank!

RAGNAR

Pregio comes back with another surprise. The new Ragnar Slow Jigging 1.83m Max-200gr is a technical yet very durable rod that promises to take your slow jigging fishing to another level. It's all due to its unique blank made of solid 30T carbon fibre, which gives it directness, excellent information transfer from the jig, and excellent resistance even in extreme curves. This allows you to face any opponent while feeling the slightest pinch, currents, and the behavior of the jig at any depth. The Ragnar is equipped with a Fuji reel seat and guides and is perfect for any angler who is crazy about slow jigging!

Throne Light Jigging

Throne! The new series at the top of Pregio's categories. With absolutely no compromise on quality and durability, this new range is a landmark product! The Throne Light Jigging series is not just for small fish! It is designed for challenging fish, using light tackle! It features excellent sensitivity and tremendous strength relative to its blank diameter. At the same time, it has a very progressive bending curve that wears out the fish; , without exhausting or stressing you and your gear. The Throne Light Jigging series is available in both baitcasting and spinning models to cover every demand. The minimum weight and unlimited durability of these rods will excite you from... the very first crank!

Throne Super Light Jigging

After the success of the Super Light Jigging rod in the Limit series, comes the second rod for the same technique, this time in the Throne series. This nervous rod gives even more lively movement to the jigs and more specifically in the Casting Weight category of 20-70 grams, where it manages them very well up to a depth of 60 meters! Extremely relaxed and comfortable, this rod will win you over with its sophisticated action, minimal weight, and unique ability to catch fish (even of epic size) in shallower water with thinner lines and jigs. The handle, the reel seat and the general "setup" of the rod, is designed for the ultimate Light Jigging experience, a technique that remains efficient all year round! The rod, like every rod in the Throne series is made of high quality carbon fiber, (this particular 30 ton) and equipped with Fuji Alconite guides and a Fuji reel seat

Limit- Super Light jigging

A unique rod for light vertical jigging, perfect for the modern fisherman needs! Nervous to give a very lively movement to our jig, but also with an excellent balance of exceptional bending curve and strength to always tire the opponent without risk of cutting! With Pregio Super Light Jigging you can now fool any predator by luring him with small jigs. It is known that fish often prefer small prey and strike more easily and that is exactly what we offer them! Super Light Jigging is built on the cutting edge of technology, with Fuji peripherals and a price-quality relationship at an unprecedented level!

Throne Tai Rubber

The new Pregio Throne Tai Rubber Game rods (available in max 120gr and max 150gr) are built for Tai Rubber enthusiasts who demand both sensitivity and power. The main feature of the Throne is the most sensitive tip you have ever encountered, which is perfectly paired with a strong yet balanced rod body. The rod's design is absolutely precise: the perfect geometry, the specific placement of the reel seat, and the spiral distribution of the Fuji Alconite guides work together to guarantee the absolute transfer of even the smallest bite directly to your hand. Made from 30T carbon fiber, the Throne will be an effective and reliable tool in your Tai Rubber fishing game.

The lighter 120gr model is more technical, while the stronger 150gr model is available for anglers who want to fish deeper or more aggressively.

Passion Tai Rubber

Pregio with this specialized rod for Free Slide and Tai Rubber techniques goes to another level, giving the audience a unique higher class rod. Specifically designed to work fine with the free slide of Hayabusa and every tai rubber, and it will handle perfectly thin braids, PE 0.8 - PE 1.5 and thin branch 0.25mm - 0.40mm.

The rod has a solid guide for direct transmission of the sting to us via a special "nerve" that reaches the base. It will be a great move to our artificial baits and can cope with large fish such as sea bream over 6 kg with so thin tools, it is combined perfectly with a good reel such as Honest and Grande. Either way, this rod is engineered from Pregio to become your passion.

Venom Tenya

In the upcoming fever of Tenya madness that will flare up now that the light tackle have become a trend, Pregio presents Venom. The new Pregio series just "kills"! High quality carbon in third generation blanks with unique features. The Venom series is one step above the Passion and has no rivals either in quality or price! Extreme low weight and extremely high resistance, complete a fishing rod designed for Tenya technical fishing.

‘Venom has the ability to transfer even the "lick" from the fish in your hand through a special nerve and absolute adhesion of the reel base to the blank, along with a solid tip . The rod has an amazing bending ability with a very progressive action that protects the thin braids from breakage, but at the same time it sets the hook immediately and tires the fish effectively. You will really enjoy these rods 100%. Ideal for fishing with fixed and sliding Tenya lures!

Passion Shore Jigging SJ-20120H

The first Passion Shore jigging model 60-100gr by Pregio, made history in the technique, and is now considered by many to be the most Value for money rod in this category. Thanks to its dynamic character and relaxed use it won over many, and made the battle with various fish a pleasure! The new model, however, is much more aggressive and designed for those who want the ultimate rock weapon, a rod that knows no limits.

With a Casting Weight of 80-120gr, the new Passion Shore Jigging is capable of working larger jigs and silicone jig heads in even more difficult spots. More specifically, this rod will "lift" any blackfish off the bottom and stop big minnows from cutting into the rocks! The "satisfying" EVA handle, the reel base with the screw safety, the spigot reinforcements and the general "setup" of the rod, are designed for the ultimate Shore Jigging experience. The rod, like every rod in the Passion series, is equipped with Fuji Alconite guides and a Fuji reel seat.

Limit AJI

Fishing with light tackle and a variety of lures for mackerel and saddled brems, has "taken off" in recent years. Often in the same fishing are observed with the Ajing equipment, catches of large licia, sea bass, barracudas and other predators that love micro lures. Pregio Limit Aji is specially designed to work perfectly with small lures of any category such as softlures, jigs and small hardlures.

It has a solid tip and thanks to the handle that comes in direct contact with the blank, any information from the lure passes to our hand in real time and in a great intensity of feeling. The Limit Aji has an amazing cast even with lures at it's lowest lure weight range, while its behavior with thin braids inspires confidence and reliability. A very high quality rod for super light techniques and with a design that will win you over!

It is called by the name Brave and although with a length of 4.20m to satisfy the most demanding fisherman, its closed length is only 1.20m and consists of 5 sections. It has Casting weight 100-200gr and it

stands perfect to each weather condition! This new rod of your favorite Pregio manages to be the perfect choice when transport space is limited, but not our requirements!

Sea guide Rings

NTK II

Item No	Length	Sections	Transp. Length	Weight	C.W.
15-200	4,00 m	5	1,50 m	530 gr	60-170 gr

NTK II

One more beautiful rod with c.w. for every weather and fish. It does not allow the cuts from the bad fishers handles and it helps our fishing in every side. This fishing rods from Pregio, combines unique quality construction with incredible price!

Mix carbon

Sea guide rings

VELOS

Item No	Length	Sections	Transp. Length	Weight	C.W.
15-857	3,60 m	4	1,23 m	410 gr	60-150 gr
15-858	3,90 m	4	1,36 m	430 gr	60-150 gr

VELOS Surf

The perfect choice of rod when the available transport and storage space is limited, or in rock fishing (Rock Fishing) where the ability of casting due to obstacles is minimal. This rod has a good reason to exist and solves problems in cases where other rods "raise their hands high". The quality of construction of parts and blank is at high levels, as well as the general behavior of the blank, which despite the limited length, has no losses in casting distance! You will really enjoy this rod in every way!

MATRIX

Item No	Length	Sections	Transp. Length	Weight gr	C.W.
15-859	2,70 m	4	1,08 m	240 gr	40-100 gr
15-860	3,00 m	5	1,08 m	260 gr	40-100 gr

Matrix.

Short and light, the Matrix will be transported with great comfort everywhere, and will execute any debt efficiently! With light tackle, it manages to easily deceive stripped breams in the shallows and white sea breams in ports, while his sophisticated behavior does not allow fish to be lost, even if we make mistakes! A smart rod that is combined with smaller reels and that is effective in conditions with alert fish! It has tied guides and very good quality, along with a very friendly price!

ROCK

Item No	Length	Sections	Transp. Length	Weight	C.W.
13-10107	3,00 m	4	1,00 m	350 gr	70-150 gr
13-10108	3,50 m	4	1,10 m	375 gr	70-150 gr

ROCK

Short to be able to perform the task correctly of the rocks as possible to lift quickly the fishes and manages long shots, tough resistant to the inhospitable environment and affordable for every pocket, the Rock is the most economical quality model in its class.

Item No	Length	Sections	Transp. Length	Weight	C.W.
13-10029	1,50 m	4	0,55 m	160 gr	10-45 gr

Sensible Line

A high quality fishing line for Casting, Surf Casting and in general, every technique that needs many meters of line very often to fill our fishing reel. Sensible line from Pregio, is ideal for casting techniques since it has very good behaviour in abrasion and knot strength, while at the same time it has strength filters for sea water and sun. It is also ideal for use in difficult and harsh places where thanks to the reels that is supplied, we can replace the timeworn fishing line very easily in a few minutes.

ATHOS

Tai Rubber by Pregio

ATHOS

Tai Rubber by Pregio

ATHOS

Athos Tai rubber by Pregio, is here to conquer your Madai fishing! With the well-known Pregio standards that maintain the quality-price ratio at a unique level, this tai rubber has a provocative movement and fall of an inchiku, with the efficiency and discretion of a tai rubber lure.

It has a polyhedral shape and this causes strong reflections even in low light. The paint quality has nothing to envy from other Japanese models and is durable. The skirt have thin curly ties to deliver the correct and discreet frequency of vibrations, and is equipped with High quality hooks!

A very easy tai rubber to use that will give strikes, even to newcomers to the technique!

Athos heads are taking Tai Rubber fishing to another level, with innovative colors. They combine strong Glow, UV reflections, or natural looks to match any fishing condition. This isn't just about looks - it's a strategy!

Glow: Makes the heads visible in deep water where sunlight never reaches.

UV: Grabs the attention of predators even in low-light conditions.

No Glow or UV: For a subtle profile.

Whether you are targeting Pagrus or Dentex, there is an Athos combination designed for every depth and every fish. It is the detail that makes the difference!

Pregio's new Tenya design is amazing!

It has managed to combine a very intense and natural movement during the fall, together with a correct position of our bait at the bottom for easy hook set of the fish!

This is thanks to its sliding character, which allows the fish to take the bait without suspicion and eat it well. Is painted in such a way that it causes strong reflections and stimulates the interest of the fish.

STATUS

Cast Rubber Status Pregio CRS

Pregio's Cast Rubber Status proposal will excite you! It is an imitation of a cephalopod with moving tentacles and specially selected colors, some of which are UV and some glow. The great thing about the Status is that it is designed for shore fishing and suits the Casting Weight of a wide variety of rods, it gives an alternative and unusual "treat" to inshore fish. We all know how efficient are lures that are unknown to fish and that's exactly what Pregio is attempting to do with Status.

This unique "octopus" has been designed so that it works wonderfully but also gives us the possibility to change braids or hooks and adapt it to our own needs. You will find Status in 7, 10 and 14 grams and in various colors! Status is intended for white seabream, saddled seabream, glit head, sea bass, golden grouper, dentex, bonito and generally any fish that wouldn't let a small cephalopod go unnoticed.

Micro Assist

25-005

In Micro Jigging, detail isn't just important... it's everything!

Pregio's new Micro Assist hooks were designed precisely for this purpose: to provide a solution for small jigs weighing 5, 7, 10 and 14 grams.

- Perfect balance: They do not affect the movement of the jig.
- Superior penetration: Just one touch is enough to "lock" the fish.
- Durability: Small size that can withstand pressure from strong prey.

Upgrade your small lures and watch your hooking success rates skyrocket!

Razor Fishing Jigs

**Pregio Razor (10gr)
with High Quality Hook.**

You loved the bigger versions of this Jig! It catches many fish and has the best quality. We already made it in 20g, 30g, and 40g. However, fishing expert Markos Vidalis insisted that we also make a 10g version. So, we did! Now the collection is perfect. The 10gr model comes ready with a high-quality hook.

**Pregio Razor
(20gr- 30gr - 40gr)**

The Pregio Razor is a high-quality jig that is very popular because it catches many fish. After the success of the larger sizes, we are now offering it in 20g, 30g, and 40g. It is built with top quality to help you get the best results in your fishing.

Razor Fishing Jigs (60gr- 80gr - 100gr)

Razor has become a trend among shore jigging anglers and that is why it is now available in even more colors. The jig with the unique fall and minimum resistance to water, which provoke fish very easily! The Razor is characterized by strong reflections during the fall, excellent cast and a very durable finish that withstands contact with rocks! Ideal for snappers, groupers, amberjacks and pelagic fish! Ideal for inshore use in Shore jigging style and offshore use in jigging-light jigging.

Slim Razor Fishing Jigs

Based on the philosophy of the successful Razor jig, the Slim Razor manages to have even less impact resistance and excellent water presence, mimicking a needlefish. Its slim profile makes it particularly tempting to any predator that craves needlefish. The finish is just as strong and withstands contact with the rocks! A very strong choice from Pregio! Ideal for snappers, groupers, amberjacks and pelagic fish! Ideal for inshore use in Shore jigging style and offshore use in jigging-light jigging.

Slash Fishing Jigs

Excellent shot, low impact resistance and fast fall during fall are some of the features that make slash so effective. With their unique slim design, they challenge any predator and give an easy target to small and large fish. But the benefits do not end here! Slash Jigs have two more key features. They have UV colors that have been proven to attract the fish and cause attacks more easily, while the finish is very strong to withstand scratching. They have proven to be very efficient in pelagic fish, such as bonitos, amberjacks, albacores and mahi mahi, while there are many snappers and groupers that have fall victims to it.

Real Slow Fishing Jigs

One more unique fishing Jig with amazing features that will not only appeal to the fisherman but also the fish! With surprisingly slow and weighted fallen, it manages to cause distraction and not be easily affected by streams. But its features do not stop here! One side is smooth with reflexive details that cause intense reflections in motion and fall. The second side, however, has embossed scales where micro-turbines and vibrations are produced as real fish, and they also have a UV color that completes a powerful visual effect! Real Slow is the most complete slow jiggling shot. From Pregio.

Soft Lures

Tail Runner

For more Fishing action
follow as on:

 Smaro Kalaitzi

Tail Runner series with unique soft lures of incomparable quality is here from Pregio!

With a particularly slim design and amazing weight balance, Pregio's new soft lures promise to meet your needs, whether you use them with bombard or trolling! They feature a sharp reinforced hook that resists rust, and a distinct bright eye feature. Their sharp movement is due to the construction material that is soft enough to achieve the desired movement, yet durable enough so that the tail won't be cut with the slightest bump.

The tail has an ideal shape, angle and two small holes so that it moves independently and briskly, attracting Bream, Garfish, Amberjack and other predators!

You'll enjoy Pregio's Tail Runner twice as much, both in performance and price! Available in many colors and in 6.3, 8 and 10 cm.

Corns for Fishing

You have never worked with such a quality corn for fishing again! Not thick words! This corn is top quality and you will find it in the first fishing, where you will not change it afterwards! The perfect texture, crisp and powerful aroma, will win every fisherman and fish!

Type	Scent	Weight
19-0036	Natural	125gr/220ml
19-0037	Vanilla	125gr/220ml

Feromon Spray

Chemically (hormonally), this liquid stimulates the appetite of fish, which will attack our bait immediately, even when they are not hungry! Ideal for artificial and natural bait as well as soft baits

Type	Weight
005	20 ml

AMINO ACIDS SPRAY

Fish have the ability to assess the nutritional value of their food. The higher the nutritional value, the more aggressive and greedy they become! A few sprays on your bait, artificial bait, or dough will dramatically change your fishing experience!

Type	Scent	Weight
006	Shrimp	20 ml
007	Sardine	20 ml

Sardine-oil

With a long shelf life and slow release, sardine oil is essential as an additive in baits, doughs, soft baits, and natural baits.

Type	Weight
SARDINE-OIL	250 ml

Type	Scent	Weight
GROUND BAIT POWDER	Sardine - Herring	1kg
GROUND BAIT POWDER	Gray Mullet- Saddle Bream	1kg
GROUND BAIT POWDER	For Sargus	1kg

Groundbait Powder

Pregio powdered dough mixes are simply dehydrated varieties of natural and fresh ingredients which, depending on the amount of water added, will produce either firm or soft dough. They give off powerful odors that attract fish, leaving nothing for them to feed on but your bait.

Groundbait - Semi Liquid

Ready-to-use lures with moisture content ideal for most fishing conditions. Made from fresh ingredients, they will prove their worth from the very first catch!

Type	Scent	Weight
GROUND BAIT SEMI LIQUID	Herring-blood	1kg
	Cheese-mix	1kg
	Sea-Urchin	1kg

Type	Scent	Weight
GROUND BAIT-SLURRY	Sardine oil	1kg
GROUND BAIT-SLURRY	Sardine blood	1kg
GROUND BAIT-SLURRY	Sardine herring	1kg

Groundbait- Slurry

The special feature of this groundbait is that it is not made from spoiled sardines but from fresh, selected sardines. This is evident from its distinctive aroma, which is anything but repulsive! It can be used as a base for dough, to enrich groundbait, as a groundbait or as a base for groundbait!

Prezio

A stylized, flame-like graphic element that replaces the letter 'z' in the word 'Prezio'. It features a central vertical stem with two main lobes on either side, tapering to a point at the top and curving back down at the bottom, resembling a flame or a decorative flourish.
