The story of Archie is true, the story of a cute, friendly, and fiercely loyal kitty. Our vision for Archie is to generate wealth for a decentralized community in a safe and secure environment, leveraging Defi protocols and to impact the globe for good, thereby cherishing the memory of our beloved Archie.

When we launched the original Archie Token on ERC20, our goal was to look after our holders as best we could. But with the volatility in the crypto market, we were unable to achieve this, and our chart has suffered.

We decided as a community to follow our original road map and launch our own layer 1 POS blockchain. This will not only mean we will be independent, but it will also help in supporting our upcoming metaverse (ArchieMeta).

Our aim is to step away from the current crypto ideology of making profit from holders' investments and move towards a revenue-based system. The way it stands at the moment holders can be hurt financially by hype, pump and dumps or whales.

The demand for services provided in Archie Metaverse will drive the value of Archie coin independent of the crypto market.

Naturally the question of what happens to the existing holders has come up a few times.

Our new layer 1 blockchain will have near-zero fees, low tokenomics and better use cases. Our current holders of Archie token ERC20, will be the first to migrate over to the new token on our very own blockchain. There will be absolutely no out of pocket cost to any of our holders during this transition. We will take a screenshot from etherscan on a set date and stop the trading of that token. We will then air drop their new token into their wallet at a dollar-for-dollar value,

ArcVue is a price data analytics tool which helps traders to more easily navigate decentralized networks. One of the most important features of the platform is the ability to keep a record of the live price of tokens..

ArcVue allows traders to have more insight into different tokens. The platform ranks tokens based on different data and allows the community to rank them as well. This can be seen under the "Community Ranking" section of the website. Furthermore, it gives you live prices and shows you detailed tokenomics, such as liquidity and volume.

BENEFITS:

Why do we need our own marketplace? A good question, you will understand a lot more when you read Section of this publication. We are a MetaVerse based project will have thousand's of NFTs to be released in different format and sizes.

For the convenience and cost effectiveness, it is better to invest in our own platform to have a complete innovative system for us and other projects that wants to follow us.

BENEFITS:

- Our own secure NFT Market Place with lower cost.
- More holders because \$ARC will be the native coin of ArchiePlace.
- Ability to brand our name across more people.

Archie Wallet, 3FA, will be a software cryptocurrency wallet used to interact with the Archie blockchain. It allows users to access their Archie wallet through a browser extension , which can then be used to interact with decentralized applications.

Archie Wallet allows users to store and manage account keys, broadcast transactions, send and receive EVM-based cryptocurrencies and tokens, and securely connect to decentralized applications through a compatible web browser.

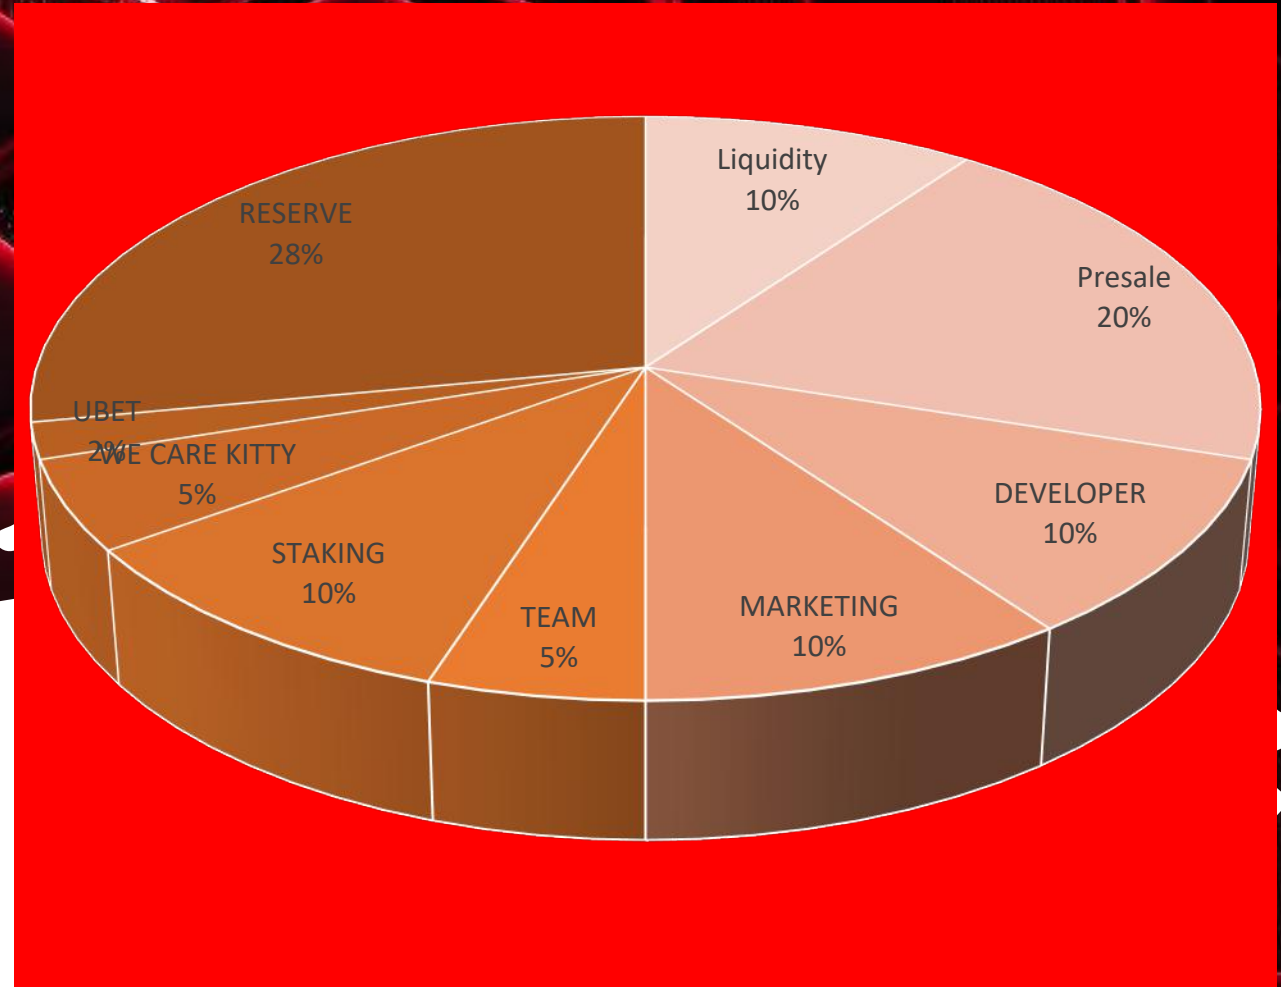

BENEFITS:

- Our own secure 3FA Wallet
- More holders by requiring to hold a min \$ARC to have access to all features.
- Ability to brand our name across more people

Tokenomics

Tokenomics are very much needed for a project to succeed. When we were thinking about setting up a tokenomics for our new project, we have taken lots of things in consideration including the mistakes we have made on our original token.

We need to support our liquidity and of course, our marketing needs. So, we decided to have the very minimal on two categories. In addition to that, we have separated transfer tax from sell and made it lower since lots of our holders were concerned about that.

We will have two different tokenomics :
Initial First Month and Regular after First Month

The story of Archie is true, the story of a cute, friendly, and fiercely loyal kitty. Founded in 2022, with a vision to generate wealth for a decentralized community in a safe and secure environment, leveraging Defi protocols and to impact the globe for good, thereby cherishing the memory of our beloved Archie.

The Archie Foundation reiterates our commitment to the welfare and upliftment of the weaker community to reflect our love and respect for each other.

The Vision

The vision of Archie Foundation was always to help the neediest . We have set aside 5% of our original Erc-20 Archie token and since the project was not doing that great, we have decided to hold it off. That being said, when we migrate to our new ARC Chain Archie, we will be bringing that money value to the Archie Foundation wallet along with an extra 5% from the new ARCHIE token on ARC Chain will also be added. We are focusing more on the kitties with new token.

We will be sponsoring kitties who are affected by sickness (especially leukemia) and homeless ones to find a cozy home for them. We will reach out to several animal shelters and rescue teams and comb the operation. Then again, we will not sell our token to hurt our chart to do that. Instead, we will use 33% of the NFT (we care kitty NFT) sales to do that.

Besides kitties, you will find detailed information about our foundations vision in the following pages.

Setting an inspiring **Role model** through our **Impactful Framework**

Following up on the vision and mission of Archie, the Foundation along with a strong worldwide community will be the hands and feet to impact the world for good through SMART goals that will be reviewed quarterly with our investors. At Archie, we are driven by the potential of our business to touch the lives and shape the future. To achieve this goal, we did set aside 5% of tokens (500,000,000,000,000,000) from the total supply into the Foundation in our original Erc-20 Archie Token. We will migrate those token value to our new ARC Chain ARCHIE Token and add another 5% of the new ARCHIE Token to the wallet. We will not sell these tokens to hurt our chart in stead will use the money from the We Care Kitty NFT project as stated before.

Foundation and **CSR** Objectives

The Archie Foundation - our Corporate Social Responsibility (CSR) arm - established with a purpose majorly to:

- ▶ We Care Kitty Project (Rescue and shelter)
- ▶ Help and uplift the uniquely abled children
- ▶ Educate Girls, Empower women
- ▶ Sponsor under-privileged villages

FOUNDATION

Animal **Rescue** and **Shelter**

The Archie Foundation is named after our beloved cat Archie who left us untimely. We believe, it is our responsibility to support kitty welfare in whatever possible manner. We want to partner with NGOs and provide assistance to kitties in distress and emergency funding for life- saving veterinary care of low-income families. Too many families lose beloved pets and members of their families because of unexpected medical emergencies. The Archie Foundation addresses this need by providing emergency funding to low-income families. We would like to extend a helping hand and support through Service Providers of cat treatments, cat rescue and rehabilitation service.

WE CARE KITTY TM

PROJECT

Stay with **Children** who are **Uniquely Gifted**

Our primary focus is to meet the needs of children with special needs in third-world countries and the inner cities of western nations, including the USA, where we hope to function as a non-governmental organization (NGO) or partner with other NGOs. We want to invest in the lives of children in impoverished regions to help with hunger, malnutrition, access to drinking water, sanitation, education, and last but not least, to stand in the gap to provide access to equipment for special needs.

We would also like to adopt deserving schools, as part of the mission to improve the academic standards of the differently abled children. This includes ensuring improvements in infrastructure, buying necessary classroom furniture, blackboards, desks and benches, toys – and consistent distribution of other school supplies.

Educating Girls | **Empowering Women**

Archie Foundation will give special emphasis to girls and women whether it's helping educate to eradicate the stigma against girls, to educate girls, empower them to stand up for themselves and their kin. We will help fund women-owned businesses and help educate girls to provide equal opportunity and level the playing field. Funds will also be used to assist NGOs that are working against sex trafficking and violence against women.

Financial aid provided to disadvantaged children on a case-to-case basis is complemented by a sustained effort to improve the infrastructure and learning environment.

Looking forward: Forging a Sustainable CSR model

The CSR initiatives of Archie Foundation are drawn up by the enhanced CSR goals and include promotion of sustainable practices in schools. The "AchieNeko" Scholarships will be awarded to include assistance to girl children who show exceptional ability in maths and science subjects. This pioneering CSR initiative comes in the light of recent UN reports that say that women account for only 33% of world's researchers and are a minority in digital information technology, computing, physics, mathematics and engineering. From the funding of initiatives aligned with Archie Foundation, our objective has grown to embrace the larger goal of furthering the United Nations Sustainable Development Goals (UN SDG) through our CSR programmes.

Sponsoring Villages

Another area of focus for the Archie Foundation will be to sponsor and uplift small villages in third-world countries. We will partner with NGOs to educate villages, build up small-scale industries in these villages to create jobs to help keep the population from migrating to the congested bigger cities. The foundation will look into partnerships with government and non-governmental agencies in order to meet the energy and internet connectivity needs in these villages, which we think will open up opportunities in a self-sustaining manner.
