Non esiste alcun tipo di accordo, licenza o legame tra Lampa e i marchi illustrati su questo nel catalogo. I nomi dei camion e delle case costruttrici hanno il solo scopo di descrivere l'accessorio, la sua fondamentale per la corretta informazione del consumatore. Tutti i marchi, i nomi e i modelli di camion sono di proprietà dei rispettivi titolari.

There is no agreement, license or business link between Lampa and the truck brands shown on this catalogue. Photographed compositions and illustrations are intended to properly inform the user about the item. All trademarks, names and truck models are the property of the respective companies.

Le luci e gli accessori applicati ai prodotti nella sessione ACCIAIO INOX, sono presenti al solo scopo raffigurativo e devono essere ordinati separatamente. Per tutte le informazioni necessarie potete consultare il sito www.lampa.it

The lights and accessories applied to the products in the STAINLESS STEEL session are present for illustrative purposes only and must be ordered separately. For all the necessary information please refer to our website www.lampa.it

The LAMPA logo is located at the top center of the page, featuring the word "LAMPA" in a stylized, bold, sans-serif font. The letters are white with a slight shadow, set against a solid orange circular background. The logo is positioned above the main image of the truck, which is partially obscured by a large, stylized, light gray geometric shape that resembles a large 'V' or a stylized truck grille. The truck itself is a modern, silver-colored DAF XF model, shown from a front-three-quarter perspective. It has a large, prominent grille with horizontal slats, and its headlights are illuminated. The truck is parked in front of a building with large windows. The overall composition is clean and professional, emphasizing the truck's design and the LAMPA brand.

Incasso per luci
Flush mount light

Logo Pilot Truck Tuning Project

Sinonimo di garanzia e qualità del prodotto. Eseguito a laser su tutti i tubi nella parte posteriore lato guida.

Synonymous with excellence and product quality. Performed by laser on all tubes at the rear of the driver's side.

Terminali - Terminals

Arrotondati o tagliati, sempre rifiniti e lucidati ponendo la massima attenzione estetica al prodotto.

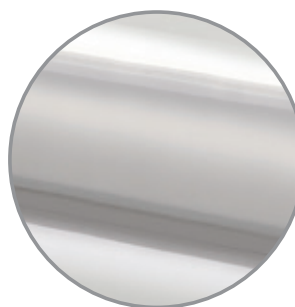

Rounded or cut, always finished and polished paying the utmost aesthetic attention to the product.

Incassi luci - Recessed lights

Eseguiti manualmente rispettando le misure standard delle più comuni luci da incasso reperibili in commercio. Già predisposti con i fori per le viti di fissaggio.

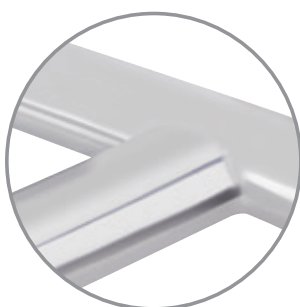

Performed manually respecting the standard measures of the most common recessed lights available on the market. Already prepared with the holes for the fixing screws.

Materiale - Material

Diametro tubi da 60 mm e spessore da 1,6 mm con lucidatura a specchio. Acciaio inox AISI 304 utilizzato per l'intera gamma, accessori inclusi.

60 mm diameter tube and 1,6 mm thickness with mirror polish. AISI 304 stainless steel used for the entire range, accessories included.

Finiture/Saldature - Finishes/Welds

È da questi particolari da cui si evince la cura nei dettagli e l'alto grado di finitura. Le saldature risultano invisibili anche nell'unione di più tubi.

They state our attention to details and the high level of finish. The welds are invisible even when joining several pipes.

Kit montaggio - Mounting kit

Ogni tubo viene fornito con il proprio kit di viti, staffe, rivetti per carrozzeria o boccole per consentire una perfetta adattabilità del prodotto al proprio mezzo.

Each tube is supplied with its own kit of screws, brackets, rivets or bushings to allow perfect adaptability of the product to your vehicle.

Art.

Accuratamente progettati su misura per adattarsi perfettamente al cruscotto e creare una ampia superficie di appoggio piana e stabile.

Realizzati in legno laminato e sagomati tramite taglio laser per garantire la massima adattabilità e precisione nell'appoggio sul cruscotto.

Bordature in morbido PVC per evitare graffi e marcature ai punti d'appoggio e per aumentare la stabilità quando posizionati.

Rivestimento superiore in moquette con funzione antiscivolo.

Montaggio tramite nastro a strappo adesivo (in dotazione) senza necessità di apportare modifiche o praticare fori al cruscotto.

Accurately designed to be tailor made and to perfectly fit the dashboard truck in order to enable a wide and stable surface.

Made of laminated wood and laser moulded in order to ensure the best stability and the precise adaptability of the table on the dashboard.

Edges made of soft and anti-scratch PVC that prevent the support base of the table to get damaged and enhance the stability of it when the table is mounted.

Superior anti-slip carpet coating base.

Hook-and-loop base mount (included) that will not require any modification to be made on nor screwing the dashboard.

Lasciano entrare aria dall'esterno ed evitano che pioggia e pulviscolo entrino nell'abitacolo.

Contribuiscono inoltre alla fuoriuscita del calore e del fumo di sigaretta garantendo il ricambio dell'aria.

Riducono la turbolenza ed il rumore dell'aria durante la guida con finestrini abbassati. Prodotti con materiale antiurto e antischeggia di ultima generazione utilizzabili anche come deflettori parasole.

Rain and debris guards that allow fresh air to enter and leave the vehicle.

Side window deflectors also help reduce wind noise and allow interior heat to escape.

They reduce turbulence and air noise when driving with the windows lowered.

Made of the latest generation anti-theft and anti-splinter material, which can also be used as sunshades.
