

The background of the entire page is a repeating pattern of stylized green fan palm leaves. Each leaf is a solid green color with a central vein and several radiating segments. They are scattered across the white background, some partially cut off by the edges.

BRANCA

LA VITA GIARDINO

Casa Branca is a vision for the home by acclaimed designer Alessandra Branca.

Featuring an inspiring array of textiles and wallpapers—in addition to coordinating furniture, tabletop, art, and accessories—each collection is born of Alessandra's eye for "the mix."

La Vita Giardino

In Rome, your home extends beyond your walls—with breakfast on your terrace and meals shared outdoors at local restaurants and cafes. Alessandra designs outdoor living with her Italian upbringing in mind, pulling cherished elements of the home into outdoor spaces and embracing the patterns of the outdoors within the home.

Casa Branca's performance textiles are designed to feel as luxurious and comfortable as interior textiles, allowing you to craft spaces between environments without compromise. They surprise the hand while putting the mind at ease with weather, stain, and fade-resistance for the patio, garden, or that favorite chair by the window.

We build on our core performance offering with three new patterns and additional colors for our existing line, expanding the palette of possibilities for outdoor and performance design.

Live your life outdoors—or bring that spirit of living inside—with performance fabrics from our new launch, “La Vita Giardino.”

"My absolute favorite, the pattern I can't live without, is a stripe. I love how clean a stripe looks. There's a crispness to the geometry, and you can get such interesting color combinations. The colors touch but don't mix."
