Supplies for Home or Onsite Workplaces

Research shows work-from-home policies will become permanent for many and others will continue working remotely for at least the long-term.

✓ Replenish key office supplies like letterhead and envelopes for day-to-day communications.

✓ Update business cards, stamps and address labels with current contact information and correct mailing address.

✓ Help employees stay organized with Post-it® Notes, for daily reminders and to-do lists.

✓ Equip employees with branded pocket folders to keep important materials organized, filed and easily accessed.

✓ Promote efficiency with custom whiteboards, wall calendars and communication boards that help teams track projects and tasks.
Employers are doing what they can to make office spaces safer for their employees, keeping them well-informed, and helping them maintain safe distances and practice diligent hygiene protocols.

Staying organized is essential for the remote workforce. Providing the right tools to remote employees helps keep them on task and on target. Consider updates to contact information if extended at-home work is foreseeable.

## Why Use Labels in Your Marketing & Branding?

As buyers become more discerning of the products and services they buy, labels visually connect consumers with products and services. Labels are on-site marketing tools that make your product stand out, keep your brand front and center, and convey vital information such as ingredients, instructions and warnings.

Bumper stickers offer free gloss lamination to provide protection against moisture, scratching and outside elements.
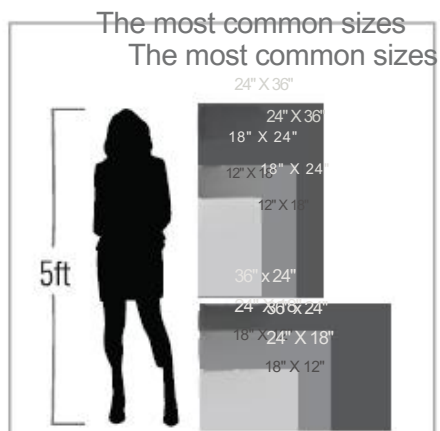

Branding at Your Fingertips
Create an emotional connection to your brand with cost-effective water bottle labels for your goods and services.
