HANDMADE FURNITURE

ATMOSPHERE

SIKA-DESIGN

A PROUD TRADITION OF CRAFTMANSHIP

Atmosphere

Our Atmosphere collection is our way of creating a complete scene around our various furniture collections. With our selection of products, we want to offer you the “hyggelige” atmosphere that makes a house a home. The Danish concept of “hygge” does not translate into one single word, but it encompasses a cozy lifestyle and a sense of well being in the company of others or by yourself in comfortable homely surroundings. We believe that rattan furniture immediately creates this cozy atmosphere, but also interior décor like candles, textiles, beautiful carpets, scents, baskets and lamps certainly add to this feeling.

This collection is inspired by nature and different cultures around the world combined with our Scandinavian heritage of soft and light colours. All our items are handcrafted with passion and skill.

Our history

The story of Sika-Design begins in 1942, when Ankjær Andreasen produced the first batch of handmade baskets, lamps, flower tables and other smaller interior items made of rush and willow. In the 1950's the production was extended to include a series of handmade furniture made from rattan, and the company Sika-Design was firmly established. Our passion for rattan and craftsmanship dates back several decades and makes us Scandinavia's oldest producer of rattan and wicker furniture.

3rd generation

Sika-Design is a danish family company with 3rd generation, Louise Andreasen in charge. Ankjær Andreasen's son, Knud Andreasen, took over the company in 1983, and Ankjær continued his daily inspections until his death in 1997. Louise and her father Knud have since 1996 worked side by side bringing Sika-Design into the new century with great designs, while never letting go of our strong heritage of great craftsmanship. In 2013 Louise Andreasen took over the company and became CEO of Sika-Design. Knud is still working in the company and is an important asset, as he is continually passing on the Sika-Design company culture and heritage to the next generations.

Social responsibility

Sika-Design is certified by ISO14001:2015 and SMETA by DNV-GL. This is your guarantee that we are committed to protect people and the environment. We have always been dedicated to these ideals and we were one of the first furniture companies in Denmark to be certified and started working systematically with them more than 10 years ago.

These handcrafted baskets from Senegal, are part of a weaving tradition that dates back to pre-colonial times. For generations women have passed on this particular weaving technique that transforms a grass-like plant called reeds into charming baskets.

Tangelo rattan lamps are designed by the leading Australian Industrial designer Darcy Clarke. His inspiration comes from the beauty of nature, Australian artefacts and ancient weaving methods.

These exceptional hand-woven rugs are made from soft and thick undyed wool. They are high-quality Beni Ourain rugs and the distinctive geometric pattern originates from the Berber tribe in the mountainous region of the Moyen Atlas.

TABLEWARE

This Portuguese stoneware is handmade and it is made of stoneware clay that is burned at a very high temperature. Each piece is made by hand using old Portuguese traditions and techniques making each piece unique. The high temperature, thick build and mix of clay makes the stoneware very durable.
