Creating great experiences

In our personal and professional lives, we have high expectations of technology – speed, accuracy, personalisation and security.

Technology needs to enhance the experience of both the user and the customer.

Rethinking traditions

People are increasingly working across multiple sites or in multiple workspaces.

With more mobile choice than ever, laptops are not always suitable for workers on the move such as those in the emergency services, construction sites, where desk space is in short supply.

What's the alternative?

Ensuring a seamless experience for workers is paramount. A tablet, or even a phone, can be a single, powerful work tool:

- Seamless connection from field to office.
- Simplify workflows and increase productivity.
- Easily integrate into existing workspaces.

Protect your people

Make it easier for staff to carry and use devices.

- Double hand straps reduce strain and meets on-the-ground safety standards.
- Comfortable to wear and ensures device is protected from drops and damage.
- Enable staff to work securely with physical privacy and security solutions.

Double hand straps reduce strain

Hold the tablet comfortably in one hand, controlling movement with the thumb and reduce strain on the arm

Comfortable to wear

By removing the need for a shoulder strap the holster helps avoid strain on the neck and shoulders

Adjustable Belt

Holster waist belt is adjustable to ensure a comfortable fit for all employees

Protect your tech

Shock-absorbing cases with reinforced edge protection, meeting advanced military grade standards.

- Adjustable hand strap for safe drop free handheld use PLUS integrated kickstand for hands free viewing.
- Designed for docking with the Targus Tablet Cradle Workstation.

Security & Accessories

A close-up photograph of a person's hands typing on a dark grey laptop keyboard. The keyboard is on a dark wood-grain desk. A black mouse is visible in the foreground, slightly out of focus. The background is a soft, out-of-focus orange and white. A purple triangle is in the top right corner.

Security

- Locking slot on base of cradle works in conjunction with standard Targus cable locks.
- Secure hinge prevents cradle removal .
- Integral tablet lock secures hardware.
- Choose to upgrade to locking base for fixed desk location and clean desk environment, and to eliminate need for Targus cable lock.

Accessories

- Help to create harmonious workspaces.
- Tech-accessories with infused antimicrobial protection, delivering a new standard in clean.
- Support tech on-the-go with accessories that deliver comfort and productivity.

Powering a new way of life

3 in 5 people (61%) carry a charger for their laptop, phone, or tablet every day

Targus PowerElite™ Chargers are safer, cooler and more efficient compared to conventional chargers. By using Gallium Nitride (GaN) and the latest USB-C protocol, Targus is able to enable smart, reliable power delivery universally across all your devices and in 140 countries.

Smart

Targus PowerElite™ Chargers provide super fast charging with up to 100W power for single device. Most modern smart devices have clever power management to control recharge speeds, which also aids battery longevity of the devices. Targus PowerElite™ Chargers leverage PPS (Programmable Power Supply) which dynamically meets power requirements of your device real-time, helping to maintain your device battery health.

Universal

Targus PowerElite™ Chargers integrates both USB-C and USB-A charging ports, which means you can charge practically anything from smart watches or headphones to smart devices to laptops. In addition, travel friendly adapters are included so the charger is able to work in over 140 countries.

Reliable

Safety is synonymous with Targus power products for decades. Carefully designed circuitry ensures complete compliance with the strictest of certifications across the globe, keeping you and your devices safe. Utilising latest USB-C PD (Power Delivery) and PPS (Programmable Power Supply) charging protocol, our PowerElite™ Chargers can synchronise with your devices to alter power delivered real time, protecting against over-voltage, over-current and over heating.

Empowering Security Anywhere

Privacy filters and security locks

Prevention is the best policy

Workforces are becoming hybrid, with workers at home, at the office and on the move. Employee expectations and behaviors are changing, and businesses must prepare themselves to protect their security and privacy.

Stay compliant

With the introduction of General Data Protection Regulation (GDPR) in the EU, workers must act responsibly when dealing with data protection and privacy. Whether you are responsible for data protection and privacy, Targus locks and privacy screens are very effective against visual hacking and device theft.

DID YOU KNOW?

A laptop computer has a **1-in-10 chance of being stolen*** and **98%** of stolen laptops are never recovered**.

Whether you are working, gaming or web-surfing on your laptop, don't forget locks are the simplest form of theft prevention.

95%

of respondents from a recent survey say **working privately is important to them*****.
