PHILIPPINE STARTUP WEEK

# TOP 100 STARTUPS

SHOWQASE BY QBO

2023

Philippine Startup Week (PHSW) is the country's large-scale collaborative initiative that brings together the local startup community and underscores the various sectors, entities, and Filipino high-potential startups contributing to the growing Philippine startup ecosystem during this week-long event.

Motivated by its mission to feature opportunities to discover the latest advancements in Filipino tech and innovation—PHSW serves as a platform to showcase the hottest, most promising startups in the country through its highly awaited annual program, *Top 100 Startups SHOWQASE by QBO*.

Hailing from different parts of the Philippines, the startups awarded with this esteemed recognition at PHSW come from a variety of backgrounds and fields, including e-commerce, artificial intelligence, SaaS, logistics, agriculture, education, healthcare, finance, sustainability, transportation, and blockchain, among others.

The Philippine Startup Week Top 100 Startups SHOWQASE by QBO is the ultimate reference of Filipino startups disrupting industries, shaping the future of technology, and paving the way towards bringing Filipino innovation to greater heights.

VISIT WEBSITE

**QBO**  
INNOVATION HUB

QBO ('ku-bo'), the programmatic arm of IdeaSpace Foundation, is the Philippines' first public-private initiative geared towards startups, created to transform the Philippine startup ecosystem by serving as a hub or platform that Encourages QLLABORATION—facilitating connections and fostering collaboration among stakeholders and showcasing Filipino ingenuity to a global audience; Develops the QMMUNITY—expanding the entrepreneurial talent pool and provide startups with access to capital, resources, information, and expertise; and Provides INQBATION and AQELERATION initiatives—developing successful startups through customized programs that accelerate growth.

Created in 2016 through a partnership with IdeaSpace, J.P. Morgan, the Department of Science and Technology (DOST), and the Department of Trade and Industry (DTI), QBO has been an active player in developing the Philippines as a startup powerhouse in the region.

Motivated by the vision to develop the Philippines as a center for innovation and unleash the potential of an entrepreneurship-driven economy as a means to nation-building, sustainable development, and inclusive growth, QBO is dedicated to helping aspiring entrepreneurs develop groundbreaking technologies, and transform these into successful commercial ventures, and aim to be the catalyst that helps local startups succeed, creating substantial wealth and job opportunities for Filipinos.

QBO, derived from the Filipino term 'bahay kubo' serves as a shared home for the Filipino startup community and represents the importance of bayanihan or collaboration in fostering a stronger technology startup landscape in the country. Through this, QBO seeks to achieve its vision of "Filipino Startups Changing the World".

## 1Export

**1Export** serves as the comprehensive platform catering to cross-border trade and fulfillment services. Supported by a team of seasoned industry experts, 1Export collaborates with overseas distributors, retailers, and resellers, facilitating the global delivery of premium Filipino goods. Offering a wide spectrum of products including food, agricultural items, beauty products, and more, 1Export proudly showcases a diverse range sourced from various regions across the Philippines.

## @cloudEats

**CloudEats** stands as a trailblazing cloud restaurant enterprise, innovating next-gen digital brands and exclusive cloud kitchen technology. Positioned among the pioneering cloud restaurant firms in the area, CloudEats is dedicated to crafting the most expansive tech-driven online food consortium in Southeast Asia.

## ENTREGO

**Entrego**, a technology-oriented provider of business solutions, specializes in meeting the fulfillment and logistics demands of Philippine enterprises. Its courier and express parcel management services are conducted through Entrego Express Corporation, an affiliate entity of Entrego Fulfillment Solutions Inc. Their vision is centered on enabling trade and commerce, while their mission is dedicated to empowering customers to fulfill their commitments through dependable and efficient logistics solutions.

## EXPEDOCK

**Expedock**, an AI-driven automation service, supports key players in the global supply chain. Their mission is to create a robust data infrastructure, aiming to revolutionize efficiency and profitability for all industry participants. Weekly, Expedock facilitates the international movement of thousands of freight containers by automating manual processes and consolidating diverse data sources onto a single platform, streamlining operations significantly.

## First Circle

**First Circle** holds the belief that businesses should thrive based on their merit, not just their current resources. They prioritize honesty, transparency, and convenience, offering a mobile or web-exclusive experience supported by dedicated Relationship Managers. Their mission is to empower businesses to reach their full potential by providing swift, fair, and adaptable financial partnerships.

**HelixPay** provides top-notch payment and ecommerce technology tailored for creators, communities, and events in the Philippines. Their clients craft beloved products and experiences, while HelixPay develops technology that simplifies revenue generation and ensures a smooth customer experience.

**Hive Health** offers affordable, high-quality health insurance plans tailored for Filipino small and medium enterprises, aiming to empower employees and their families to maintain healthy lifestyles. As a digital health platform, it provides hassle-free and comprehensive health coverage to employees of these businesses. Originating from Harvard and Stanford, this award-winning startup is driven by the goal of enhancing access to superior healthcare across the Philippines.

**Kraver's Canteen** stands out from the ordinary in every aspect: from their approach to food and team to their operational style. They're pioneering the redefinition of ghost kitchens in the post-COVID era, crafting innovative technologies and kitchen solutions for burgeoning brands throughout the Philippines.

**kumu**, the Philippines' largest social entertainment app crafted by Filipinos, champions the diverse voices of the Filipino community worldwide. Their goal is to foster a vibrant online culture brimming with positivity and opportunities. Taking its name from the iconic Tagalog greeting "Kumusta ka?" (How are you?), kumu embodies the warmth and lively spirit of Filipinos, amplified by groundbreaking innovations in livestreaming and social media. Whether you're near or far, in kumu, you'll find your community – and perhaps even earn some cash!

**Lhoopa**, a tech-powered investment venture, disrupts the Southeast Asian and global real estate scene. The challenge of affordable housing is a worldwide issue, notably in emerging nations where housing backlogs reach millions, consistently rising. Those in lower social and economic brackets face the brunt of this shortage, with demand surpassing the available supply.

**Maria Health**, a tech-driven company, collaborates with healthcare providers to swiftly identify the ideal plan for individuals, their families, and teams—cutting the usual search time in half. As the Philippines' sole and largest health insurance aggregator, they prioritize straightforward and swift healthcare access, driven by the belief that everyone deserves it.

**Mediclick**, the modern online pharmacy, prioritizes accessibility by offering high-quality healthcare solutions tailored to individual needs through a user-friendly platform. They aim to deliver convenience with personalized pharmacist care, same-day delivery, and hassle-free subscriptions, striving to make healthcare easily accessible. Their "meds made easy" feature allows effortless medication ordering from home, ensuring swift same-day deliveries. Their mission revolves around ensuring everyone has access to quality healthcare via their user-friendly platform.

**NextPay** enables MSMEs to streamline money collection, transfers, and management through a unified platform. They offer user-friendly financial services without imposing steep fees or stringent entry requirements. Trusted by over 3,000 Filipino entrepreneurs since 2020, NextPay's mission is to develop tailored financial tools and technology that empower local businesses to grow and expand seamlessly.

**PICKUP Coffee**, a local coffee company, prioritizes accessibility to premium beverages. They believe accessibility entails convenience and actively engage with the local community, fostering collaborations to offer their products beyond making beverages more accessible.

**Senti AI** stands as the forefront Artificial Intelligence company in the Philippines, led by seasoned researchers and half of the country's Google Developer Experts, positioning them as the foremost AI company in the region.

**Sprout Solutions**, the largest locally-grown B2B SaaS company and the most relied-upon HR tech firm in the Philippines, offers a cloud-based platform streamlining intricate HR processes. Their system automates manual tasks, saving time on administrative work, and addresses prevalent HR challenges throughout the employee journey.

**Tier One** stands as the unrivaled leader in gaming and esports entertainment across South East Asia. Positioned firmly within content distribution and gaming realms, their success stems from a robust business model, establishing themselves as the premier destination for both emerging and established gaming talents. Poised as an emerging Asian powerhouse, Tier One boasts backing from established entities globally and operates as a venture-funded company with investors spanning the globe.

**Tonik**, a revolutionary digital bank, aims to transform the financial landscape in Southeast Asia. It proudly holds the distinction of being the Philippines' inaugural neobank to obtain a digital bank license from the Bangko Sentral ng Pilipinas (BSP), ensuring deposits are insured by the Philippine Deposit Insurance Corporation (PDIC).
