YONI EGGS

The Yoni Egg: Best kept secret of China's Royal Palace. Yoni egg, jade egg, or love egg – are names for a beautiful semiprecious stone carved into an egg shape and polished to be worn inside the vagina. It is estimated that women have been working with stone eggs for over 5,000 years. Empresses and concubines of the Royal Palace of China used eggs carved out of jade to access sexual power, awaken sensuality and maintain amazing health into their old age. Up until recently, this ancient, secret practice was only available to members of the royal family, and to select Taoist practitioners. These Yoni Eggs are undrilled. Crystal:
