Design tools for crafting your game room

Our Design Pros are ready to help with questions big and small. Let us help you customize your billiard table, match complimentary accessories or game tables and make your new game room your own. Want to discuss your potential game room design or table measurement requirements? Drop by or call one of our stores with your room measurements and we will help. Focused on catering to your interior design project needs, no matter how big or small, our team of highly-skilled, highly-creative associates are with you every step of the way.

Choosing your cloth

Choosing the right pool cloth for your table is very important, not only for the style of your table but also the overall play of the game. The cloth dictates how the ball interacts with the bed. It affects roll speeds, accuracy, drag, shot power and various other aspects of the game, so it's critical to use a high-quality cloth that really suits your game. With our large selection from the best brands, we hope to make that choice easier.

Simonis Cloth

Simonis offered the first worsted cloth for billiards. Meaning that there are no short fibers that can shed from the cloth to form "pills" that have to be removed from the playfield. With Simonis, ball spin is consistent and the roll stays straight on every shot.

Hainsworth Cloth

Hainsworth® napped snooker cloth is a finely engineered product, created from the finest Merino wool and designed for optimum playing performance. Hainsworth® SMART™ is the cloth that club owners favours.

Championship Invitational Cloth

As a 21oz, 75% wool, 25% nylon blend, this cloth offers superior resistance to ball burn and less pilling, making it one of our highest quality cloths. This fabric offers the added feature of DuPont Teflon, spill/stain prevention.

Finishes

Finishing is the final step of the manufacturing process that gives wood surfaces desirable characteristics, including enhanced appearance and increased resistance to moisture and other environmental agents. We carry over 26 finishes for our tables with a choice of 5 different types of wood species (price, finish and wood species vary for each table type).

Available wood types:

Laminate

White Birch

Oak

Red Pine/Rustic

Walnut

What to look for when buying a Pool Table

Canadian-made Herrington Billiard and Canada Billiard tables provide unsurpassed value and exquisite styling. These 1" slate tables offer solid wood rails and a wide variety of styles from classic to contemporary. We carry sizes to fit your room with choices of 3' x 6', 3 1/2' x 7', 4' x 8', 4 1/2' x 9', 5' x 10' and 6' x 12' sizes. Match any décor with a choice of 26 cloth colours and a vast variety of stain choices.

1. Solid Frame

The frame supports over 600 lbs of slate so it must be heavy duty. We use a minimum of 1-5/8" thick base frame and assemble it with inserts and bolts (not wood screws) for lasting strength.

2. Secured Slate

Slate is secured to the base frame with solid wood blocks. Canada Billiard and Herrington tables feature framed slate; a wooden tacking block that runs around the underside perimeter of the slate so cloth is stapled to the play surface not just glued.

3. 1 Inch Slate

Three-piece, premium slate from the best quarries. Precision machined to within 10/1000 of an inch.

4. Solid Hardwood Rails

Solid hardwood rails and aprons are bolted to the slate so they will always provide a lively bounce for every shot. The unique rail anchoring system uses steel plates embedded precisely in the solid hardwood to keep the rails secure and true.

5. Master Speed Cushions

Cushions utilize professional "Master Speed" natural gum rubber for true rebound and maximum accuracy.

6. Exclusive Levelling System

Herrington and Canada Billiard tables incorporate heavy steel levellers inserted into each leg with tapped bushings to allow levelling on almost any surface. This provides a clean look and a more stable table.

7. Superior Finish

Finishes vary from High Pressure Laminates to designer stains applied with numerous coats of hand rubbed stains and lacquers ensuring a peerless quality, durable and gorgeous furniture finish.

the

Canada Billiard story

**CANADA
BILLIARD**
A SHOWROOM INC.

Canada Billiard has a 50 year tradition of manufacturing superior billiard products. Their reputation has been built on crafting fine billiard furniture that is second to none.

Each solid wood table is pre-assembled by master craftsmen in their state-of-the-art manufacturing facility in Laval, Quebec to assure a perfect fit. Pieces are matched and numbered just like in the good old days. These tables aren't held together with staples and wood screws. Machine bolts and dowels are used for precise and solid assembly.

All tables utilize a unique built-in leveling system that eliminates shimming the legs. Rails are fastened using nut plates, threaded rods and lock washers to ensure that the rails are fastened securely to the slate. This ultimate link between rail and slate minimizes vibration and guarantees quiet, lively bounce back and playability. Professional "Masterspeed" rubber cushions provide true rebound and maximum accuracy. All tables conform to B.C.A. (Billiard Congress of America) specifications and come with a Lifetime Warranty.
