Welcome

Welcome to our outstanding new prospectus!

As you look through the pages of our latest prospectus, I hope that you'll be inspired by the choice of courses and qualifications on offer.

Here at Cornwall College Group, we are proud to deliver truly life-changing education opportunities – from hands-on study programmes to industry-based apprenticeships – enabling you to reach your full potential.

Rated Outstanding by Ofsted, you'll find that each one of our campuses is a welcoming, vibrant space, with industry-standard equipment and facilities.

Your course will be delivered by an experienced member of staff who shares a passion for your chosen subject, helping you to gain the practical skills and knowledge to succeed in employment or further study.

Beyond the classroom, we will be with you every step of the way. Look out for the EMPOWER programme we have developed to ensure you benefit from a vast range of services to help you

feel safe and supported, along with a variety of exciting clubs and enrichment activities to get the most out of your college experience.

Our students love studying with us, and our alumni have gone on to achieve amazing results, from scooping prestigious awards to setting up successful businesses.

We can't wait to help you on your own path, and we are excited to invite you in to one of our open events to discuss your next steps.

We hope to see you soon.

Rob Bosworth

LIFE-CHANGING EDUCATION

Where education meets opportunity and your future comes alive!

We're not your average college – we're here to empower you with real-world skills and the confidence to land your dream job or excel in higher education.

What sets us apart? Our curriculum is shaped by our extensive industry connections, ensuring that you have the relevant skills to meet the demands of employers and stand out in a competitive job market.

With plenty of opportunities for workplace learning, you'll gain invaluable hands-on experience and make connections that can kickstart your career or give you the advantage when entering higher education.

So, join us for an exciting journey towards success. Be part of a community that celebrates your passion, supports your growth and transforms dreams into reality. **Your future starts here!**

Bicton College

Bicton's campus is set in a stunning landscape, including Grade I listed parkland, a historic Georgian manor, lakes and woodland. Bicton is home to top-class equine facilities, a world-class engineering and heavy plant workshop, an animal husbandry school and a 126-hectare commercial farm.

**New Agritech Advanced
Engineering Centre**

**Extensive equine yard with
Elite Riding Academy**

**Partnership with world-class
Bicton Arena**

On-site accommodation

**Animal management centre
with commercial zoo status**

Check out Bicton's Animal Zone, which is home to more than 130 different species of birds, aquatics, exotics and mammals, including an extensive collection of primates.

WHAT'S ON CAMPUS

Professional dog grooming facilities

New groundworks area

Well-equipped military and protective services areas

Learning Centre with dedicated student support

Sports facilities, including pitches, a fitness suite, an orienteering course and putting green

Walled garden, arboretum and water sports lake

Commercial farm

Free parking and electric car charging stations

Only 25 minutes from Exeter

Go beyond your course with varied student enrichment options

Explore your future

TOP CAREERS IN CORNWALL AND DEVON

Whether you're mechanically minded, have a flair for the creative, a real foodie, or are passionate about nature, there are exciting opportunities waiting for you in Devon and Cornwall. Here are some of the top 10 career areas in the region that will allow you to pursue your passions while enjoying the relaxed and friendly lifestyle it has to offer.

Digital and Tech

The digital revolution is transforming Cornwall and Devon. With over 1,500 tech companies, the digital sector offers careers in software development, digital marketing and IT support.

Check out our Business, Management & Digital courses: p40

Green Energy

With a focus on wind, solar and wave power, the renewable energy sector is booming. Careers in green energy engineering and technology are on the rise, contributing to a greener future.

Check out our Engineering & Manufacturing courses: p76

Health and Social Care

Making a difference in people's lives is incredibly rewarding. The healthcare sector is expanding, offering roles for doctors, nurses, healthcare assistants and administrative staff.

Check out our Health & Social Care courses: p90

Construction

A constant stream of infrastructure projects ensures that skills in building, engineering and surveying utilising modern construction methods and the latest technology are in high demand.

Check out our Construction & Building Services courses: p48

Creative Industries

Cornwall and Devon's creative industries are thriving. From film production and photography to media and the arts, there are plenty of opportunities to showcase your talents.

Check out our Creative Arts, Media & Performance courses: p66

Agriculture

With Cornwall and Devon's rich agricultural heritage, you'll find jobs in farming, agricultural engineering and sustainable practices like regenerative agriculture.

Check out our Agriculture & Countryside Management courses: p26

Marine and Fisheries

The extensive coastline offers opportunities in marine biology, fishing and marine engineering, which are all essential to the local economy and environment.

Check out our Marine Engineering & Boatbuilding courses: p104

Transport and Logistics

To ensure goods move efficiently and sustainably across the region, the growing logistics sector needs skilled heavy goods vehicle (HGV) technicians and mechanics, and logistics managers.

Check out our Automotive and EV Technologies courses: p34

Hair and Beauty

The hair and beauty industry is growing rapidly in Devon and Cornwall, as well as farther afield. This people-focused sector combines creativity with entrepreneurial opportunities.

Check out our Hairdressing, Barbering and Beauty Therapy courses: p82

Hospitality and Tourism

With millions of visitors annually, Cornwall and Devon's hospitality and tourism sectors are bustling. From hotels and restaurants to adventure sports and heritage sites, there's a place for everyone who's passionate about creating memorable experiences.

Check out our Cookery, Hospitality & Tourism courses: p60

Pick your pathway

We have lots of different courses to choose from, but how do you know which is the right one for you?

Don't worry, we can help you narrow down the option that is best suited to you. Here's a quick rundown of the different pathways on offer.

Full-time study programmes

What are they?

- They typically last between one and three years and lead to qualifications such as vocational certificates, diplomas or extended diplomas
- They focus on the practical skills and knowledge linked to a range of subjects, such as art and design, business, health and social care, engineering and many others
- They are offered at different levels depending on your experience
- You'll be assessed through coursework, practical observations, and external exams
- After completion, you can either progress to a higher level study programme, enter the world of work or move on to study at university level

Choose this if...

- You're looking for work skills to enter a particular industry, such as healthcare or construction
- You learn best by getting hands-on
- You want to progress to the workplace, further study or onto university

T T Levels

What are they?

- T Levels last two years and are centred around one subject
- They focus on vocational skills linked to the specific career path you've chosen
- One T Level is the equivalent of three A-levels and has UCAS points, which support applications to higher education
- They combine college study with a significant industry placement working with a real employer

Choose this if...

- You already know what job you want to do
- You want to get practical, knowledge-based learning and on-the-job experience
- You want to progress to the workplace, further study or onto university

T-LEVELS

A Apprenticeships

What are they?

- An apprenticeship lets you gain work-based skills while earning a real salary
- The majority of the time will be spent learning on-the-job with an employer, with additional training at college
- You'll be assessed at both college and in your workplace

Choose this if...

- You already know what job you want to do
- You prefer to learn in the workplace rather than the classroom
- You want a professional qualification to support your work experience
- You want to earn while you learn

Course levels and entry requirements

It is important to choose the correct level of course after your GCSEs. The choices available to you will depend on whether you meet the entry requirements, how you like to study and what you would like to do after your time with us.

Please use the table opposite as a general guide to our entry requirements. Some courses may require further specific qualification grades due to the nature of their content. Acceptance on a course will also depend on a successful interview.

Please note:

- Some specialist courses may have extra entry requirements; please see website for details
- If you are considering taking on an apprenticeship, we'll ask you to complete an initial assessment in English and Maths, along with a Skills Scan. This will help us to determine your current skills and knowledge, and choose the right level of apprenticeship for you
- If you do not achieve your expected grades, please don't panic. Contact us, and we will help you find an alternative course, normally in the same subject area of interest

Entry level

Study Options: Entry Level qualifications

Typical Entry Requirements: No formal qualifications are required

Progression: Next Entry Level or Level 1 course

Level 1

Study Options: Level 1 qualifications, including certificates and diplomas

Typical Entry Requirements: Two or more GCSEs at grade 2 or above, or successful completion of Entry Level qualification

Progression: Level 2 course, an apprenticeship or employment

Level 2

Study Options: Level 2 qualifications, including diplomas and apprenticeships

Typical Entry Requirements: Three or more GCSEs at grade 3 or above, or successful completion of a relevant Level 1 qualification.

Progression: Level 3 course, an apprenticeship or employment

Level 3

Study Options: Level 3 qualifications, including diplomas, apprenticeships and T Levels. Our programmes are delivered as two one-year courses: Year 1 – Diploma, and Year 2 – Extended Diploma

Typical Entry Requirements: Four or more GCSEs at Grade 4 or above including English and/or Maths, or successful completion of a relevant Level 2 qualification and a grade 4 or above in English and/or Maths

Progression: University study, an apprenticeship or employment

WHAT LEVEL
IS RIGHT
FOR ME?

Looking to go further?
Find out more about progressing
to higher education on page 130.

English and Maths: Keys to success

English and Maths are vital subjects, playing a crucial role in your academic and professional journeys.

A good standard of English and Maths enhances employability, fosters effective communication, promotes critical thinking and contributes to entry requirements for higher education and professional qualifications.

If you did not reach Level 2 (GCSE grade 4 or above) in either English or Maths while you were at school, you will be expected to do one or both alongside the college course you are studying until you have reached the required level.

WHY ARE **ENGLISH AND MATHS** SO IMPORTANT?

Enhancing employability

Highly valued by employers, these skills will give you a competitive edge in the job market.

Essential for communication

We focus on developing strong language skills, enabling students to articulate their thoughts clearly and engage in critical thinking.

Enabling digital literacy

English is integrated with digital literacy skills, equipping students to navigate the digital landscape confidently.

Analytical thinking

Maths develops analytical and problem-solving skills, crucial for various disciplines and real-world applications.

Meeting entry requirements

If you're thinking of going to university, you'll need your English and Maths to progress.

I WANT A CAREER IN... Agriculture

There has never been a better time to study agriculture, especially at our countryside campuses.

The industry offers fantastic opportunities for skilled workers, technicians, managers and future leaders. By gaining a comprehensive understanding of sustainable farming techniques at our nationally recognised Future Farm facility, you'll be well equipped with a modern, sustainable approach to farming for your career.

Concorde Recruitment**

Gabriel won our Apprentice of the Year
Shining Star Award in 2025.

"What I like the most about my job is the
daily challenges, meeting new people every
day and getting them jobs."

I WANT A CAREER IN... **Esports**

Esports is one of the biggest and fastest growing industries in the world, so why not turn your gaming skills into a competitive career.

This evolving sector offers a range of opportunities, including professional gaming, content creation, event management, marketing and more.

So much more than just playing games, Esports offers a pathway for talented gamers to become professional players. It involves understanding game mechanics, strategy, teamwork, communication and mental resilience. Our specialised courses will provide valuable training in these areas, helping you to become one of the Esports athletes of tomorrow.

GABE
RICHARDS

**Utilities Engineer Technician Level 3
with South West Water**

"As part of the apprenticeship, I've developed problem-solving skills, learned how to use a variety of different tools, and improved my teamwork, leadership, and communication skills."

I WANT TO WORK IN... **Engineering**

The Plymouth Engineering Skills Centre was opened in 2014 as a solution to our growing number of learners in and around Plymouth.

It now acts as a training hub for apprentices from multiple local and international manufacturing companies, as well as providing daytime and evening courses for school pupils, adults and businesses.

The centre is fully fitted out for manufacturing, electrical and maintenance training as well as TIG, MIG and arc welding, CAD/CAM and PAT testing.

Courses we offer

Apprenticeships

Engineering Technician (Design & Development Technician)
Engineering Technician (Fitter)
Engineering Technician (Machinist)
Engineering Technician (Mechatronics)
Engineering Technician (Technical Support)
Engineering Technician (Toolmaker)
Engineering Manufacturing Technician

JAMES
McKINNIS

Skills for Progression Pathway

"This course has given me the life skills and confidence I need for the future. I now have a part-time job and live independently which I wouldn't have been able to do at the start of the course."

I WANT TO BE... **Work Ready**

Gain vital skills to prepare you for employment with our employment pathway.

Stage 1 is focused on teamwork, personal finance and community interaction. Each week, you'll enjoy two days in the classroom and one day in an internal work placement, like a coffee shop, reception or gym.

During Stage 2, you can further prepare for employment with one day a week working towards maths, English and employability qualifications and two days on an external work placement in your area of interest.

Education, Health and Care Plan (EHCP) learners receive support for enhanced on-the-job learning and increased confidence in a professional environment.

ZOE
HALEY

Supported Internship

Zoe started college five years ago on the Independence Pathway and progressed to a work placement at the Keg and Kettle Restaurant, Trago Mills. At the end of her placement, Zoe was offered a paid job.

Level up with work experience

Whatever you choose to study, you'll be combining your time learning in college with gaining practical experience in real-life industry environments. Work experience gives you a vital opportunity to not only gain valuable skills and knowledge, but also to build your network and prepare yourself for a promising future.

WHY DO WORK EXPERIENCE?

Learn by doing:

Apply what you've learned in real life!

Boost your job chances:

Gain skills employers want.

Make valuable connections:

Meet people who can help your career.

Gain confidence:

Get hands-on experience and feel capable.

Get ready for work:

Connect what you learn with real jobs.

Discover work life:

Learn what it's really like in different industries.

HOW MUCH WORK EXPERIENCE WILL I DO?

Full-time study programme:

All of our courses have a work experience element, providing work competencies and specialist knowledge to help you gain insight into possible future careers. Some programmes also offer 350 hours of industry placement.

Apprenticeship:

You'll spend 80% of your time working in a real job with a real salary. The remaining 20% of your time will be spent in college, learning skills and knowledge related to your work.

T Level:

You'll spend 80% of your time at college in the classroom, with the remaining 20% working in a valuable industry placement.

LIFE-CHANGING OPPORTUNITIES

Combining work experience with your qualification can take you further!

Getting first-hand exposure to real-world workplace challenges, dynamics and expectations, you'll develop a practical and professional attitude that can't be fully replicated in a classroom setting.

Skilled

You'll gain all the relevant industry skills and knowledge to hit the ground running in your chosen career.

Professional

You'll be career ready, with all the additional soft skills you'll need to be a valuable member of any team in the workplace.

Connected

You'll establish meaningful relationships that can prove beneficial in your future career.

Supporting you at college

Supportive staff

We pride ourselves on how we support our students and we are known for going above and beyond when it comes to helping you achieve. Engagement and Progression Officers (EPOs) are available to support you with any concerns that you have or if you need any support. They:

- Offer advice and guidance and help to find solutions to overcome any barriers
- Help you to progress with your studies and achieve your learning and career goals
- Are available in the social space for you to talk to
- Arrange activities for students to take part in

Personal development

College is not just about your core course skills. We boast a wide range of activities that will help you develop personal skills and enhance your employability. They will help you to become a successful student, prepare for your future life and be an active part of society. There will also be lots of enrichment opportunities that you can take advantage of, from trips and visits to guest speakers. You can have your say on the activities we offer as well.

Health and wellbeing

Health and wellbeing is an essential part of your study programme. The activities you undertake will depend on which campus you are studying at, but there are plenty of opportunities to work on your health and mental wellbeing.

Learning Centres and study support

Our Learning Centres have a range of staff to support you when using the resources, computers and software. You can also access workshops and request support sessions to develop your study and academic skills whether you are on an introductory course or studying for a higher level qualification.

Careers

Our outstanding education and support will give you the advantage in your chosen career. Alongside our EPOs, our team of Careers Officers are available all year round to provide impartial support and advice when help is needed with career choices, progression to university and other training, education or employment opportunities.

Computer access and online classrooms

When you enrol with us you will be issued with a computer account and email address. These will give you access to a range of software and resources, including:

- The College's Wi-Fi
- Your course details and progress information
- Software and resources to support your study
- Online classrooms with Moodle and Teams
- Online study resources and eBooks

Special Educational Needs and Disability (SEND) provision

Our vision is to develop independent, confident and resilient learners who are well-prepared to engage with the wider community. Please see our website for our SEND Provision Statement which, includes further information and details should you wish to talk to someone in person: cornwall.ac.uk/supporting-your-learning/#send-provision

Safeguarding

We provide a safe and supportive learning and working environment for all our students, staff and visitors. Cornwall College Group has a dedicated team of staff to safeguard all students, staff and visitors. We also deliver tutorials to prevent extremism and radicalisation.

Equality, Diversity and Inclusion

We are committed to equal opportunities for all and recognise that valuing and embracing diversity is key to providing high-quality teaching and learning. We take pride in serving our local communities in Cornwall and Devon and are fully committed to promoting equality of opportunity, access, dignity and fairness.

Financial support

Financial support is available via a college bursary to help you access your college education. This is means-tested and primarily focused on supporting you with the costs of a bus pass, childcare and meals while at college. To find the most up-to-date information, please visit cornwall.ac.uk/financial-support or email studentfinance@cornwall.ac.uk

Accommodation

If you do not live within reasonable travelling distance of the College you may wish to consider seeking accommodation nearby. For students at Bicton College and Duchy College Stoke Climsland there are full-board residential places available. Residential bursaries are available for eligible students. Please do not hesitate to get in contact to find out more.

Students' Union (CCSU)

We are incredibly proud of our Students' Union (CCSU), which exists to represent your voice at every level in the College and to make sure you have a fantastic time with us. The CCSU can arrange activities for students and give feedback on how to improve the student experience on campus. Every course will also have a course rep to provide feedback on your programme.

The benefits of college for your child

College opens up a world of opportunities, providing students with valuable experiences that help to shape their lives and careers. Here's what your child can get by studying with us:

University progression

A-levels are not the only route to degree-level study; here are some alternatives to consider.

Many of our diplomas have UCAS points connected to them, which can be used to secure your child's place in higher education. If your child would rather stay close to home, the degrees offered through our own university centres in Cornwall are an affordable and refreshingly different university experience.

We also offer a range of higher apprenticeships, to take vocational learning in your chosen career to a new level.

A route into the world of work

We are attuned to the needs of the job market and strive to equip our students with practical skills and industry knowledge. Your child can benefit from our career-oriented courses, unrivalled access to a huge range of industry partners and work placements that provide valuable hands-on experience. Employers highly value college graduates due to their specialised training and adaptability, which offer them a distinct advantage when entering the workforce.

English and Maths

Strong English and Maths skills are vital in today's competitive and technology-driven world. All 16-18-year-old students will refine their abilities in these core subjects alongside their course. By mastering these foundational skills, your child will enhance their communication, problem solving and critical thinking abilities, which are invaluable assets in any field.

Student enrichment

College life extends far beyond the classroom. Our campuses offer a vibrant and diverse community that fosters personal growth and lifelong friendships. Students can participate in extracurricular activities, clubs and societies according to their interests, which broadens their horizons and builds their confidence.

Ongoing support

If your child is facing an issue, whether it's in their academic or personal life, our dedicated support team is here to help. Through our academic support services, and career advice and guidance, as well as our counselling service, we'll be constantly looking out for both your child's success and their wellbeing.

A safe environment

Ensuring a safe and secure place for your child to study is a top priority. We place huge importance on the safety of our students and maintain campus security measures to provide peace of mind for your child both in and outside the classroom.

YOUR ROLE

Parents and guardians play a crucial role in their child's college experience and the support you offer can make a huge difference. Here are some of the ways you can help:

Provide guidance

Help shape your child's academic journey, personal growth and preparation for the future with words of encouragement and advice. A strong foundation of support from you can empower them to thrive during their college years.

Help maintain attendance

Not attending or missing deadlines for work can greatly affect your child's level of achievement at college. Help keep their enthusiasm up and make sure to call in if they are feeling unwell.

Promote a healthy work-life balance

Encouraging self-care, time management and extracurricular involvement can help your child develop a holistic approach to their education.

Keep in touch

Working with us at the College is pivotal to getting the best for your child, so let's keep the conversation between us open.

Transport

Cornwall College Group offers an extensive transport network so that you can easily travel to and from college. We work in partnership with local councils and local bus companies to provide reliable, efficient travel.

FIND
OUT
MORE

Applying for college transport

If you are aged 16-18 and need help with transport to college, it is really important that you apply for your bus pass during the months of June and July. This will guarantee that you'll have your pass in time for the start of term in September.

Depending on where you live, your bus pass could be provided by Cornwall Council, Devon Council or through the College's own transport network.

Need help with the cost?

We have college bursaries available that can support eligible learners with the cost of travel. If you have any questions about travel bursaries please email studentfinance@cornwall.ac.uk

Applying for your bus pass is easy. Scan the QR code for more information or visit: cornwall.ac.uk/transport

Sustainability

We hope that when you arrive at college, you'll see how we are dedicating ourselves to securing the future of our planet.

Everyone has a part to play in achieving the long term sustainability of what we do, and we are determined to be leaders in this vital work.

We have:

- Created a Sustainability Committee formed of students, staff, leaders and governors, which has the power to make real changes to the way we go about our work
- Established new courses that lead to important and rewarding careers in the sustainability sector
- Begun weaving a sustainability focus into all our courses
- Launched Future Farm, which is leading research into cutting-edge sustainable farming techniques
- Audited our energy, waste, travel and many other operations within the Group, resulting in positive decisions such as switching our energy provider to one that only uses renewable energy

- Added sustainability into one of our five core values so that it is woven into our every day practices
- Lobbied world leaders with highly regarded #heyG7 campaign

But this is just the beginning and we have much to do. We have a clear plan of how we want to achieve carbon net zero and then go further.

There are lots of exciting projects that are happening across our campuses, alongside new ways of working that will be introduced in the coming months.

It's vital to us that our students are involved in all these plans.

Luckily, we have a highly vocal and active student body, that has been championing the sustainability cause for some time, and we would love for you to be part of this exciting and important work.

We're looking forward to welcoming when you join one of our colleges as well as the Group's sustainability revolution.

Degrees on your doorstep

We offer courses in the following areas:

Agriculture

Animal Management

Arts & Media

Computing

Construction

Counselling

Engineering

Equine

Horticulture

**Marine Engineering
& Boatbuilding**

Marine & Natural Environment

Golf, Sports & Fitness

Science Gateway

Teaching & Education

**Wildlife Conservation
& Zoology**

**Ready to go further? You don't have to venture far
to continue your journey into higher education.**

Cornwall College Group offers a unique university-level experience that places the development of real, relevant skills that are valued by employers at the heart of our offer. This is all made possible through close working relationships with our industry partners.

So, if university-level study is your goal, we can provide a seamless transition to higher level study in an environment you're already familiar with.

YOUR OPTIONS

Access to higher education

A pathway to prepare anyone without traditional qualifications to get into higher education by developing the skills and knowledge needed.

FIND OUT MORE
ABOUT ACCESS TO HE

Foundation degrees

Practical qualifications that mix academic study with work experience, giving you a hands-on route to either employment or further study. You can even top up to a full degree after finishing if you choose to.

Higher National Certificate/ Diploma (HNC/HND)

Recognised qualifications that focus on specific industries, equipping you with practical skills for better job prospects.

Top-up degrees

Designed for students with relevant qualifications or experience, these programmes enable you to top up your existing qualification to a full bachelor's degree.

Higher apprenticeships

Combining on-the-job training with academic study, higher apprenticeships offer a way to earn while you learn and gain valuable work experience.

TOP REASONS TO STUDY HIGHER EDUCATION WITH US

Spend less

In comparison to larger HE institutions, many of our course options will cost you less without compromising on the quality of your experience.

Industry relevant

We deliver practical, hands-on programmes to develop real-world and industry-relevant skills.

Small class sizes

Our university-level programmes are taught in small classes, giving you more access to lecturers and one-to-one support.

Flexibility

Our range of one-year top-up options allows you to progress to a full degree from a range of HNC or foundation degree programmes.

Support

We're proud to offer a level of personal wraparound support that you won't find elsewhere.

How to apply

So you've decided which course is for you:

**NOW IT'S
TIME TO
APPLY**

1

Apply

Complete an application form

You can apply through the relevant course page on our website using an online form. If you'd prefer a paper copy of the application form, call us and we can send one out to you.

2

Interview

We can't wait to meet you

You'll receive an invitation to meet with the course lecturer at an interview. This is likely to be at one of our scheduled interview events on a weekday evening. It's a perfect opportunity to talk about the course you're interested in and find out how it can help you achieve the goals you have for the future.

3

Accept your offer

You made it! Your college place is waiting

Exciting! Reserve your place as soon as possible. Please note, the offer you get may be conditional on you gaining certain GCSE grades. If you end up not getting the results you expected, there's no need to panic. Just get in touch and we'll help you to look into any other options available to you.

4

Start course

Welcome to your local, outstanding college

We'll see you in September for your induction week!

GET IN TOUCH

If you have any other queries, please contact our main enquiries line on **0330 123 2523** or email **enquiries@cornwall.ac.uk**
