

Product Catalogue

A photograph of a modern office lobby. The space is bright and clean, with a polished floor that reflects the surroundings. In the center, there are two glass elevators. To the left and right, there are potted plants and a small seating area. The ceiling is high with several colorful, umbrella-shaped pendant lights in shades of yellow, green, and orange. Large windows on the right side offer a view of the outdoors.

ABOUT US

Silicone & Technical Products (Pty) Ltd was started by Ivan and Beverley de Klerk in 1984 – Cape Town based entrepreneurs with a vision for perfection. In the ensuing 37 years the company has become a second-generation company with their son, Matthew, joining the business in 2014. Like other successful family owned manufacturing and hardware wholesale trading businesses in South Africa, the de Klerk's attribute their success to the passion and dedication of the family as well as the employees who share in the business ethos effectively transforming it into a corporate sized company where voices are heard and success is shared and celebrated with all.

Since inception in 1984, S&TP acted as representatives for Dow Corning Silicones, GE Silicones, GE Bayer Silicones, and Momentive Performance Materials. In 2009 the decision to become an independent supplier of silicone and silicone related products to the South African market allowed them to leverage expertise, products and prices from primary and secondary overseas suppliers and because of this and their manufacturing expertise in the food approved silicone product space they are seen as a first in their class independent supplier, re-packer of sealants and adhesives as well as a producer of silicone and non-silicone related chemical products in Africa.

Four branded operating divisions comprising of SILTECH sealants and adhesives, BIOSIL silicone and non-silicone based chemicals, FCD foam control dispersants and Y-CLEAN cleaning chemicals offer exceptional solution related products to all who wish to use them.

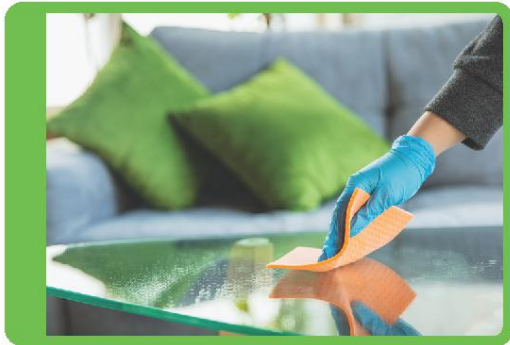

Quality Management Systems audited by the SABS encompass: ISO9001:2015 Customer Service, FSSC22000 for food safety. All the food grade products are HACCP, Kosher, Halaal approved and have FDA compliances. SABS SANS 1828 certification approved on Aqueous Degreasers, Concentrated All Purpose Cleaners and our Powdered Oxygenating Detergent Agents, which are specifically intended for use in the food industry. Y-Clean disinfectants are NRCS approved.

Silicone & Technical Products (Pty) Ltd operates out of Cape Town as head office as well as Johannesburg and Durban. The team comprises of around 80 staff members and is an equal opportunity company with codes of Conduct and Ethics as drivers.

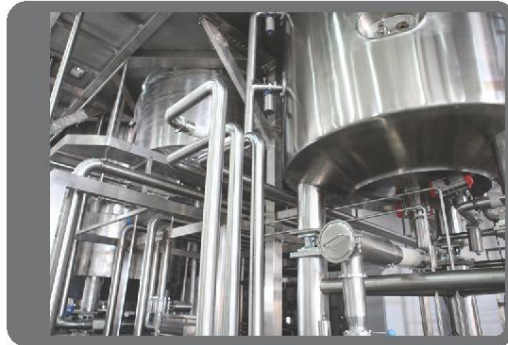

The focused policies of providing excellent customer service, quality products as well as industry experience and expertise will dominate their landscape as they strive for innovation to be market leaders in the core areas in which they operate but continuing to build and invest in the team, the products and the processes that hold them together as a unit.

FOAMING SANITIZER

A high foaming, acid based, no-rinse sanitizer liquid. Designed for use on food contact surfaces, this acid and anionic detergent blend provides a synergetic killing system with a broad spectrum bactericidal and fungicidal action. The high foaming nature of the solution provides an effective sanitizing foam, making it ideal for hand application as well as soaking. Ideal for use in breweries, dairies and other food manufacturing environments, where daily use will leave equipment sanitized and in an acid state, which will eliminate water spotting. May also be used as a milk stone and scale remover.

POWDERED OXYGENATING DETERGENT

A non-caustic alkaline powder detergent with oxygenating components for added cleaning power. Designed to perform even at lower temperatures and remove stubborn soils including carbohydrates, fats and proteins. Can be used in breweries and in most other food production environments to effectively remove food debris. Also very effective at removing labels and cleaning bottles.

NEED IT SEALED? OUR PRODUCTS GET THE JOB DONE!

Our range of purposefully designed silicone, acrylic and PU joint sealants, crack fillers, superglues, polyurethane foams, cornice glues, as well as cold glues and silicone lubricants get the job done.

Designed to be perfect for cement-based building materials, brick, ceramic, marble, glass, wood, galvanised steel, aluminium and most plastic surfaces, our industrial or DIY silicone and polyurethane sealant products come in a variety of shore hardness and colours.

CORNICE ADHESIVE

IT'S SO MUCH EASIER

WITH **SILTECH**

Sealants and Adhesives

- 1 Apply **SILTECH 800** to cornice
- 2 Place cornice against the *prepared surface
- 3 Allow setting and final curing

*It is recommended to have a clean surface free from oil, grease, moisture, loose dust etc. before applying the **SILTECH 800** cornice adhesive.

APPLICATIONS

The strong yet durable adhesive bond formed by **SILTECH 800** cornice adhesive acrylic polymer is resistant to UV radiation, moisture, extreme temperature fluctuations (between -30°C & 80°C), tensile and compressive stresses.

The product provides:

- High initial tack and final bond strength
- Soft glue line with good flexibility
- Excellent properties designed as paste to be applied with scraper
