THE PRINTED PEN GUIDE 2023

# The Printed Pen Guide

---

The 2023 catalogue boasts a wide range of promotional writing products from budget friendly ball pens to executive level pen sets and everything in between.

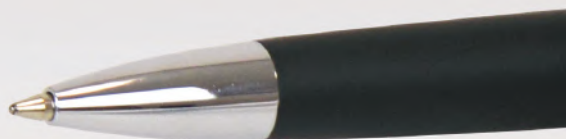

New additions can be found across all categories this year, including several new eco-friendly models in our biggest ever Green Section! The eagerly awaited Eternal Bamboo Pencil to name just one, is crafted from a sustainable material and can be used time and time again thanks to the specially produced 99% graphite nib that reduces microscopically when in use. A variety of environmentally friendly materials including biodegradable, recycled and sustainably sourced options made from card, wheat, bamboo and wood can also be found.

The Prestige Pen and Pen Sets categories have gained a range of beautiful new designs this year to reflect the growing desire for premium corporate gifts. Take note of the branding icons throughout the catalogue as many of these products can be personalised with an individual name engraving – the perfect finishing touch for a truly memorable merchandise gift. As branding specialists we can offer several techniques to support your corporate branding from spot colour printing, digital printing and laser engraving.

# Selecting the Perfect Pen...

As a promotional tool, writing instruments are one of the most affordable and effective. There's scarcely an event in the world that a promotional pen wouldn't be a perfect fit for. The practical quality of pens means they are retained by the recipient and keep working long after your campaign has finished.

There's a world of choice when it comes to promotional pens. So where do you start? Below are some factors you might want to consider.

## 1. Recipient

Ensure that the pen you choose matches your target audience - an executive will not always appreciate the same pen as a student.

## 3. Pen Style

There are many pen styles available; ball pens, rollerballs, pencils, click action and twist. Bear in mind where the pens are being given away - a click action pen may not always be the best choice for a conference!

## 4. Pen Colour

Think about how your corporate or brand colours will work with the colour of the pen.

A dark blue logo on a black pen will be difficult to see, however on a white pen it would work perfectly.

## 2. Budget

Consider how much you have to spend and what quantity you require. You might also think about whether the promotion will be repeated later in the year as we provide discounts for larger quantities. Prices include a one colour print (unless otherwise stated). Giftbox prices are plain, set up and carriage costs are extra.

## 5. Pen Size

Some pens are bulbous in shape and others have rubber grips. This needs to be taken into account if the pen is to be slotted into a folder or a pen loop.

If you are in doubt whether a pen will fit you can request a sample free of charge.

## 6. Print Sizing

---

Consider what you want to put on your pen as a strap line or contact details will take up more space than a logo. If you want to include a lot of information consider a pen with a large print area, normally the largest print area is on the barrel.

Do remember that your logo will need to be reduced in size to fit the print area. Therefore if you have a detailed logo it may affect the print clarity.

## 7. Print Colour

---

The more print colours you opt for the higher the price. If colour is a priority then it may be advisable to opt for a coloured body with a neutral print such as white or silver rather than conveying the colour via the print.

We can also colour match using either Pantone® referencing or matching to a letterhead or compliment slip. All this is available at no additional cost.

## 8. Artwork

---

If you have a finished artwork document (pdf or eps) we can work to it. If not, we can provide you with artwork services. These services do cost, so please ask for a quotation.

Before proceeding to the production stage you will always receive a visual showing how your finished pen will look.

## 9. Delivery

---

Consider when you require your pens to be delivered as production times vary depending on the pen.

Many models are available on express services and some can be turned around in 48 hours, however this may incur additional costs.

## 10. Packaging

---

Presenting your pen in a gift box can add value to the promotion. There are several gift box options with different finishes, shapes, materials and sizes available.

Do bear in mind that boxes take up more room and this might need to be considered when thinking about storage.

Pen barrels can be made of many materials, but by using the tensile strength of recycled card you are using a material that will perform well as a barrel and will naturally compost over a relatively short period. Recycled card can also be recycled again, though eventually the recycled material will need to be downcycled into material used in clothing for example.

# Choosing the Perfect Pen Box...

Most of our gift boxes are supplied with white protective sleeves and whereas we do not offer to print these we can replace them with digitally printed versions which offer a full colour process print all around the sleeve – and from only 100 pieces.

Add the finishing touch to your gift box with eye-catching personalisation.

Some of the branding techniques on offer include printing, foil blocking, de-bossing and bespoke plaques.

For added wow factor choose a gift box with a bespoke foam inlay; the foam can be cut to size for a perfect fit on the item enclosed.
