OF CRAFTSMANSHIP
AND DEDICATION

Serving the retail industry

It's in our blood.

We make simple and beautiful products to fit your vision and your unique brand. We have been delivering quality products and expertise for nearly 100 years.

ATHLEISURE

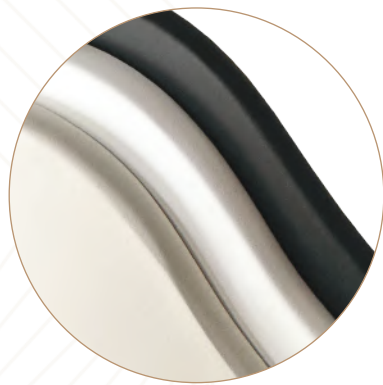

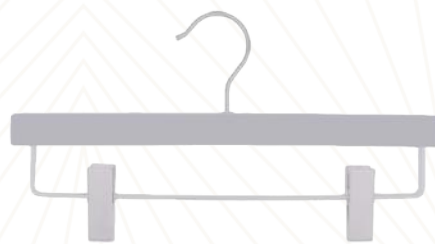

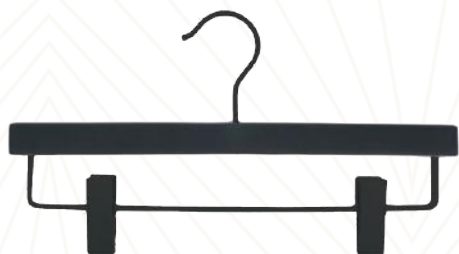

UNISEX
MIXED MATERIALS

clean

performance based

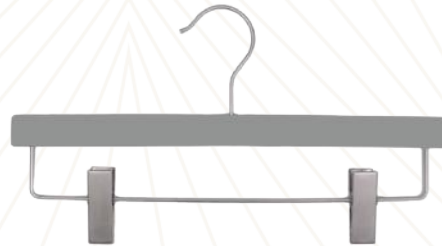

the rubberized wood hanger

Designed for the performance wear industry. Weighty, wood bodies are enveloped in a smooth, no-slip, no-snag, rubber coating.

A beautiful complement to athletic wear, the coating is buttery to the touch, adding a luxurious, tactile element to the shopping experience.

Pair fitness mannequins in matte white or grey with garments. Body forms in action, stretching, or yoga poses, are an effective way to bring dimensionality to clothing.

Present your vision, your reputation, your unique point of view with color, texture and purposeful design.

Hangers physically connect your customer to garments.

Let's tell your story together.

natural & white wood hangers

Wood hangers in natural and white create a clean aesthetic. The subtle quality reads as minimal and effortless. They are a neutral canvas, that can remain as is or branded.

intimate hangers

Smaller than traditional top hangers, wood lingerie styles with no-snag clips are ideal for hanging sports bras and stretchy yoga apparel, which can be overwhelmed by full-sized hangers.

glossy wood hangers

Modern and polished, these wood hangers in glossy black or white finishes with bright chrome hardware are solid, high-quality and ideal for a contemporary space.

signature wood hangers

The Signature is a departure from a traditional hanger shape, and an excellent choice for women's wear. The design has a slightly smaller width, a curvier, more feminine profile and sculpted notches.

Both the Signature and the Retro are formed from solid wood and finished in low-gloss black or white with subtle, brushed-chrome hardware details.

retro wood hangers

A minimalist style with a retro feel. This line has grippers in lieu of notches for a clean 16" wide hanging expanse, devoid of any frills or bulkiness.

BLACK & WHITE

black, white & clear acrylics

Acrylic is a weighty, high-end, contemporary material, that shines with reflected light.

Our acrylics are offered in a monochromatic palette with sharp details, such as angular notched arms and clean, cut-end hooks, available in black, chrome and gold. Contemporary displayers for glamorous spaces.

coordinating accessories

High-end, unique accessories can be difficult to source. NAHANCO developed a collection of metal accessories, finished in black and white to pair with our modern hanger lines.

Matte and glossy heads can also be paired to build a cohesive space.

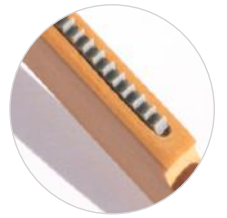

BOHO

the nahanco line

A well thought out, extensive collection, the Nahanco Line includes various sizes of top, suit and pant hangers that can be paired with chunky jacket styles for hanging all types of garments and accessories, for all seasons.

BOHO

Visible elements, whether subtle or bold, distinguish a brand. Your brand's story, personality and identity can be reinforced by imprinting your hangers.

We are your branding partner.

stain washes

Stain washes - greywash and whitewash - are applied to grainy woods, resulting in hangers that look high-end and customized. They stand apart from typical retail hanger options.

greywash

whitewash

A light whitewash finish is an excellent counter-balance to the dark of the greywash, offering unique options for a tonal switch from season to season.

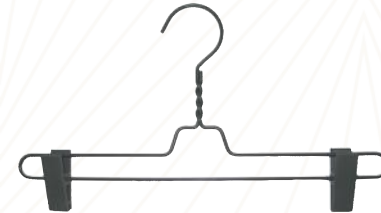

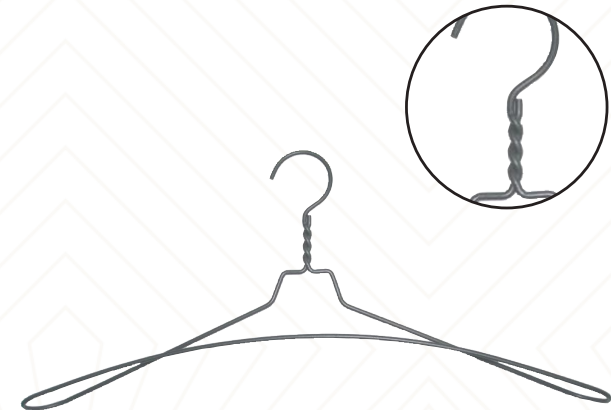

BOHO

wooden mannequins & accessories

A departure from basic department store versions, wooden mannequins and millinery heads add a unique statement to an eclectic space.

Warm wood tones pair well with wooden and metal hangers.

twisted gunmetal

Twisted gunmetal wire is formed into sculptural hangers with wide-open cut hooks and longer necks. Strappy dresses and tanks seem to float on this style.

A matching pant hanger with elevated European clips completes the set.

Raw wood hangers with gunmetal hardware are perfectly undone.

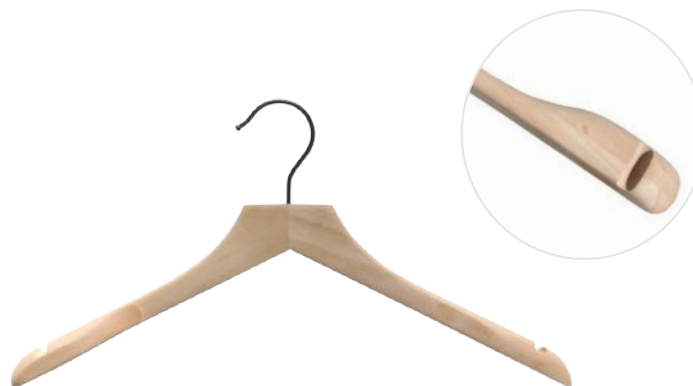

The natural texture of the wood feels exceptional in your hands.

raw

the northshire line

The Northshire hanger line functions well for all types of apparel. Although labeled a jacket hanger because of its $\frac{3}{8}$ " shoulder flair, it features notches, making it a much more universal design.

BOHO

Solid wood hangers are finished in low-gloss beech or natural with brushed-chrome hardware details. Perfect for a boho vibe.

The **signature** is designed with a curvier, more feminine profile and sculpted notches.

The **retro** is a minimalist hanger featuring grippers in lieu of notches for a clean 16" wide hanging expanse.

beech

Beechwood, chosen for its strength and density. The woodgrain offers a visual texture that is both natural and luxurious.

espresso

Espresso is a dark, moody finish paired with raw-look gunmetal hardware.

BOHO

gloss & gold

A white glossy finish pairs with a gold hook for modern, urban or beachy boho and vintage spaces.

White complements natural elements, while the gloss and gold combination punches up the look for high end environments.

Easy, undulating curves reflect the free spirit of boho displays

slimline bamboo

Slimline Bamboo was developed specifically with a slender profile for a lighter footprint. It lacks the bulkiness of a more traditional wood hanger.

With its natural golden color and mottled textures, the slim bamboo hanger is often the choice for beachwear, eco-conscious garment lines and boho styles.

traditional bamboo

A traditional classic garment hanger shape made with an eco-conscious material. The traditional bamboo could be the perfect hanger.

executive hangers

The dapper and masculine wood Executive hangers were designed specifically for menswear. They are perfect for men's retail, bespoke tailors or an upscale men's closet.

The line features concaved hanger bodies that provide shape to garments, properly supporting sport coats, jackets and outerwear. Ball end hooks help prevent any snagging of woolen or textured items.

Executive hangers are available in two styles: **executive flare** and **standard executive**.

flare

standard

Both versions offer two suit options for pairing men's shirts, suit jackets and trousers - drape trousers over a pant bar, or clip them for more security.

Jacket and shirt hangers can be paired with the 14" pant for separates.

Available in four classic colors.

executive flare

The Executive flare hanger is 18" wide and has a hearty 1 7/8" flare for added garment support and structure.

MENSWEAR

standard executive

The standard executive is a 17½" wide hanger with a ball-end hook and a concave body. This is a traditional menswear hanger, available in four finishes.

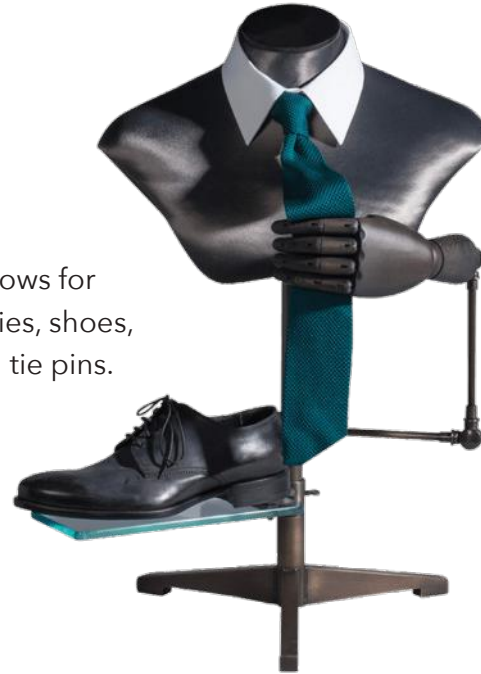

body forms & valet displays

A coat or half body form provides dimensional display for menswear. Adjustable heights allow for optimum visual appeal, versatility for garment length, and perfect sight lines.

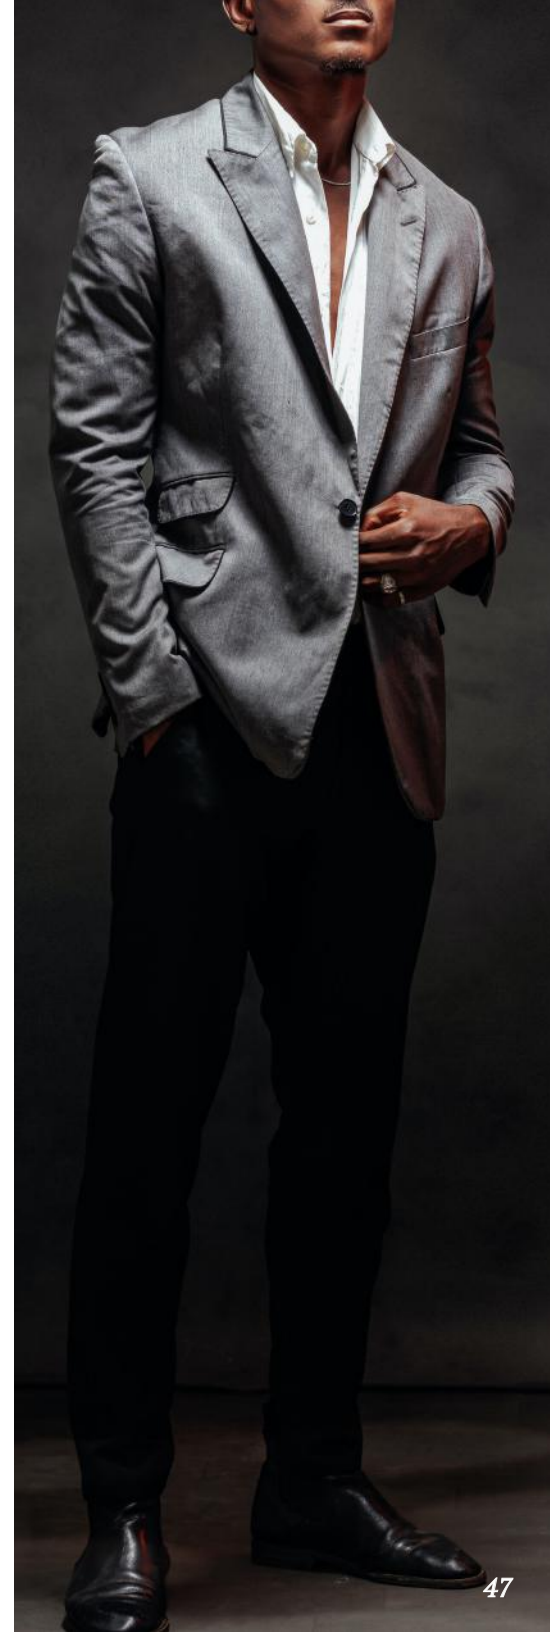

A butler display allows for accessory pairing of ties, shoes, gloves, watches and tie pins.

fabric care

Selling or owning quality garments requires proper garment care. Tools like brushes and combs for clothing are a must.

MENSWEAR

extra wide widths

The 19" flat top and suit hangers are great for men's clothing. Using the right size hangers for shirts with wide shoulders is essential. Couple these styles with a NAHANCO line pant hanger that features either euro clips or a locking trouser bar.

The Slimline is a dream hanger design for limited footprints, urban retail spaces and closets.

imprinting

Large hanger heads make the Slimline series great for branding.

Equinox wood

Equinox wood hangers, like their acrylic cousins, have sharp details, such as angular notched arms and clean cut-end hooks. The clean lines, simple finishes and somewhat minimalist design of these hangers work well in tight spaces.

The Equinox is one of our best hangers for branding, as it offers a large imprint area.
