Give Your Home a **REFRESH** on a Friendly Budget

Life is full of doing big things and small things, but everything has its time and place.

Like now, here we are finishing up the year with many shifts. Things in the market are pivoting, whether it is the rising interest rates, changing housing market, or the slight slowing in new construction.

Over the last decade, we have seen our fair share of changes and trends in every area of life the home is no different.

As we are seeing, there may be a better time to start a massive renovation or refinance your home, but that does not mean setting aside all home improvements.

As crazy as it may seem, now is the perfect time to give your home a much-needed refresh!!

Check out these simple recommendations for updating your current space without breaking the bank!

First up is the heart of the home, your KITCHEN. Your kitchen has the most potential. Upgrading your kitchen can be costly, but here are SIX easy, cost-effective ways to pull that kitchen from dull to downright dazzling.

Instead of replacing all of your wood cabinets from possibly the 80s and 90s, you can update them by using a fresh coat of paint. This will change the whole look and feel of your space.

Switching out your pull handles is a quick, impactful approach for updating your kitchen. Whether you put on a fresh coat of paint, new pull handles are a simple way to update your area.

LED lighting! This is the best way to highlight your kitchen and give it a new vibe. Under your cabinets, lights can be installed in a snap and will give your kitchen a champagne look on a beer budget.

3

Swap out that faucet. Just do it. We know it works fine, but it's a disservice to your kitchen as a whole.

4

This next one is one of the most overlooked pieces to get updated. We want you to think about switching out your sink. Once again, it serves its purpose but do something with that stainless steel dual sink you have going on. Think about a deeper, more spacious one, and this will have you enjoy doing the dishes.

5

Accessorize!! Add a new rug, and it can take your kitchen a long way.

KITCHEN *{design}* INSPIRATIONS

Shaker cabinets offer classic design that remain strong over time.

Being that this style offers clean lines, choosing hardware that adds character is key.

Now when it comes to choosing a kitchen sink, it seems that the tempting choice is the farmhouse sink. Since the farmhouse sink has a wide base, it does not blend with the surrounding cabinets, which can add contrast to your kitchen's design. Its wide rim is a highly desired anti-splash aspect to the functionality of your kitchen.

When choosing a kitchen island, determining the end use will help you choose an island that offers a counter top that is flush with the base to save space. An island with a lip on the side or all around to expand your kitchen's entertainment space.

like you are living at the Store or Living Spaces? Home is a living space, not a storage space.

We have finally arrived at another January in a New Year, a fresh new and hopefully improved January. We have had a lot of baggage and a ton of things just packed away from the past few years, if you know what I mean. It's time to let it all go!

This year should be the year of decluttering and releasing all things that do not serve you.

If you feel frustrated and overwhelmed by the amount of clutter in your home, you're not alone. Honestly, ask a few of your friends, and I bet you will find that most of them struggle with maintaining a tidy peaceful living environment too.

I will help guide you through the processes of letting go of all those things that fill your home and leave you feeling STUCK.

I want you to enjoy your home; the time to take action is now, and here is how.

- Declutter a little bit each day. Your house didn't become cluttered and storage locker-ish overnight, and it won't become uncluttered overnight either. Pick one drawer, closet or cabinet to go thru and get rid of anything that does not serve you, anything expired, worn, or that just needs to go.
- Focus on one area at a time. Where do you spend most of your time when you're home? Where would you like to spend most of your time? Tackle those areas first so you can reap the benefits of calm, clutter-free spaces.
- Decluttering lists not working for you? Create your own decluttering list and focus on the stuff you really need to get rid of.
- Stop shopping for fun. Stop the inflow of stuff. Don't undo your decluttering efforts by bringing more and more things into the house.
- Declutter and organize paper. After you've made enough progress to feel like your home is calmer (not perfect, just noticeably less cluttered), it's time to start implementing systems for tending to bills, papers, emails, to-dos. Any and all responsibilities that are always in the back of your mind. Once you have a sound system set up for managing paper, you will be amazed at how calm and in control, you feel.

Decluttering and organizing your home is not easy, but it's the key to having a comfortable living space – not a storage space.

REIMAGINED SPACES

Come with JustHome.us while we show you reimagined outdoor home spaces that went from underrated to perfectly purposeful. Since March, most of us have had time to reevaluate our life and how important it is to utilize all aspects of our homes to the fullest potential. These before and after backyards will give you the motivation you need to propel you into designing your perfectly purposeful space for you too.

JustHome.US likes to see aspirations become to fruition. This outdoor pergola has definitely seen better days and received the most significant makeover. It went from Sunday bbq with the family to invite the neighborhood. This patio has the perfect place to mingle.
