

QuickTap

FAST. EFFICIENT. SMART.

QUICKTAP KEY DATA

GENERAL INFORMATION

Quick Tap® V5 is probably the fastest beer dispensing system in the world of its kind, a unique high quality system that is designed for high volume venues.

It reduces overheads, improves customer waiting times, increases product sales and delivers consistent results whilst creating extra revenue.

ABOUT QUICKTAP

QuickTap is designed to dispense large volumes of draft beer at a consistent rate for extended time periods. The efficiency of the QuickTap systems is best demonstrated at large events where speed and consistency play the major role.

QuickTap has been developed over the past 18 years. The first QuickTap system Version 1.0 went into the market in 2009. Since then, the system has been upgraded several times, all based on our in-market partners' suggestions and our internal experiences which came from operating the systems in larger events. Today, we are manufacturing QuickTap Systems Version 5.0.

In 2019, QuickTap decided to expand the operations to wider international markets, and today QuickTap is operating in United Kingdom, United States, Belgium, France, Germany, Austria, Croatia, Switzerland and Slovenia, with preparation of new launch projects in many other countries around the world.

We are dedicated to providing a sound beer dispensing solution either through our standard product portfolio or special custom tailor-made product versions.

BENEFITS OF USING QUICKTAP

> 30%
MORE SALES

TOTAL CONTROL

You wanted to know everything about your staff's performance and your sales numbers. Now you can.

A special beer stopper prevents air to enter the system while changing barrels and allows for a smooth operation and barrel switch in 10 seconds.

QuickTap V5.0 Mobile Double Tower System

Type: QUICKTAP MOBILE

Sub-type: Double Tower Version: 5.0

Footprint: 2m x 0,8m

Electricity

- Voltage: 230 V
- Frequency: 50 Hz Amp: 16A
- Power: 3600W

Coolant: R404A / 2 x 1,2 kg (2.65 lbs)

Operating pressure

- Minimal: 2,6 bar (37.71 psi)
- Maximal: 4 bar (58psi)

QuickTap V5.0 Mobile Double Single System

Type: QUICKTAP MOBILE

Sub-type: Single Tower Version: 5.0

Footprint: 1,2m x 0,8m

Electricity

- Voltage: 230 V
- Frequency: 50 Hz Amp: 16A
- Power: 3600W

Coolant: R404A / 2 x 1,2 kg (2.65 lbs)

Operating pressure

- Minimal: 2,6 bar (37.71 psi)
- Maximal: 4 bar (58psi)

PRODUCTS - COUNTER TOP UNITS

QuickTap V5.0 Counter Top Single

- 1x QuickTap Tower
- 1x Control Unit
- 1x Beer Stopper*
- 1x Snake*

QuickTap V5.0 Counter Top Double

- 2x QuickTap Tower
- 1x Control Unit
- 2x Beer Stopper*
- 1x Snake*

QuickTap V5.0 Counter Top Quadruple

- 4x QuickTap Tower
- 1x Control Unit
- 4x Beer Stopper*
- 1x Snake*

*depending on the installation type and location setting.

EXPERIENCES

CASE STUDY

Rock Festival – 6 days – 25.000 attendees

SAVINGS

Our client saved 80% on operating costs, 60% on CO2 consumption and 7% on barrel yield. With an event this size the savings can be measured in tens of thousands of euros.

EXTRA REVENUE

We managed to achieve a 40% increase of sales due to speed of dispensing and quality of delivered beer. This means no waiting lines and a more frequent returns of customers. Extra sales and savings translated into 60% bigger profit at the end. Everybody in catering business would be happy to have results like that!
