Dog Control and Tethering

Many of us consider our dogs a part of the family and are respectful of our neighbors when it comes to our furry friend's behavior. Some folks, however, need a friendly reminder about the laws on dog control. Here are a few excerpts from the Township's Code of Ordinances that you may find helpful (*Chapter 105, Articles I and II, §105-1 through 11*).

Dog Control

- It shall be unlawful for the owner of any dog or dogs to allow or permit such dog or dogs to run at large in the Township. Definition of Running At Large – Being upon any public highway, street, alley, park or any other public land or upon property of another person other than the owner and not being accompanied by or under the control of the owner or any other person having custody of said dog.
- A Township-appointed Animal Control Officer, along with police officers shall have concurrent responsibility for the enforcement of the Township's dog ordinance and the Pennsylvania State Dog Law.
- Violations and Penalties – Violators may be sentenced to pay a fine of not more than \$1,000 plus costs and in default of payment of said fine and costs, to a term of imprisonment not to exceed 90 days.

Tethering of Dogs

It shall be a violation for any person to tether a dog outside if any of the following conditions apply:

- The tether is not attached to the dog by a non-choke-type collar of the proper size for the dog and not attached to a stationary object by swivel anchors, latches or similar devices in a manner which prevents the tether from becoming entangled around any object so as to limit the dog's freedom within the tethered area, or to prevent the dog or any of its appendages from becoming entangled by the tether.
- The dog does not have easy access to clean drinking water and adequate shade and/or shelter within the tethered area.
- The dog is tethered outdoors and unattended during any period in which a severe weather warning has been issued for York County by the National Weather Service. The dog is tethered outdoors and unattended for a continuous period of time greater than half an hour if the temperature during such period remains entirely either below 32 degrees Fahrenheit or above 90 degrees Fahrenheit. "Outside," shall mean any unattended dog that is outside and subject to the weather and elements which expressly includes, but not be limited to, a dog in a securely fenced-in yard, a dog in a kennel, or a dog tethered or tied-out. The dog shall be considered "outside" regardless of access to an outdoor doghouse or similar structure.
- The dog is left tethered outside between the hours of 11:00 p.m. and 6:00 a.m.
- The dog shows signs of physical distress such as shivering, shaking, excessive panting or immobility.
- A dog is tethered that is under the age of six months.
- Enforcement; authorized agent – An agent of any society or association for the prevention of cruelty to animals (SPCA), is designated as the enforcement officer to administer and enforce the provisions of the dog tethering ordinance.
- Any dog removed from premises of the owner or occupant shall be held at the York County SPCA. The dog owner may regain possession of any confiscated dog upon an adequate showing to the SPCA that the tethering violation has been brought into compliance.
- Violations and Penalties – Persons who violate any provisions of this ordinance may be sentenced to pay a fine not to exceed \$500, together with all enforcement and shelter costs in the event a dog must be confiscated, and all court costs as permitted by law. Enforcement and prosecution of any violation of this article may be conducted by the Township as provided by law, or by an SPCA agent and its counsel as provided in the Pennsylvania Animal Cruelty Law.

You will find more detailed information on dog control and tethering by viewing the Township Municipal Code of Ordinances at www.springettsbury.com. You can also view information regarding the Pennsylvania State Dog Law at www.licenseyourdogpa.com

“Flushable” Wipes Are **NOT** Flushable

The Pennsylvania Department of Environmental Protection (DEP) is encouraging all Pennsylvanians to only flush toilet paper and human waste, not disinfecting wipes or other non-flushable items that should be disposed of in the trash.

Flushing things that aren't meant to be flushed can damage your own sewer pipes as well as the sewer treatment facilities that we all depend on. Even so-called 'flushable' wipes shouldn't be put in the toilet.

Tissues, paper towels, and single-use wipes, including cleansing and diaper wipes, cannot be safely flushed, even if they are labeled as “flushable” or “biodegradable. Other non-flushable items include things like diapers, feminine hygiene products, disposable toilet brushes, disposable gloves, cotton swabs, dental floss, and kitty litter.

Flushing or dumping the wrong things down the drain can cause blockages in your own home or business as well as problems in the local sewer system. These products do not break down like toilet paper and can clog systems very

quickly. Many sewer blockages occur between your house or business and the sewer main, where the property owner is responsible for correcting and paying for the repair.

Blockages can also lead to sewage overflows that can have adverse effects on the environment, especially if the overflow enters local rivers, lakes, and streams.

Flushing only toilet paper and human waste helps ensure that the toilets, plumbing, sewer systems, and septic systems will continue working properly to safely manage wastewater in Pennsylvania.

Having fully operational wastewater services is critical to protecting Pennsylvanians from public health risks. Pennsylvania's wastewater employees are local heroes on the frontline of protecting human health and the environment every single day.

Bike Safety Tips

There are so many great reasons to ride your bike: It offers fun, freedom and exercise, and it's good for the environment. We want kids and families to ride their bikes as much as possible. Here are a few tips so that you'll be safe while you do so.

The Hard Facts

Properly-fitted helmets can reduce the risk of head injuries by at least 45 percent – yet less than half of children 14 and under wear a bike helmet.

Top Tips

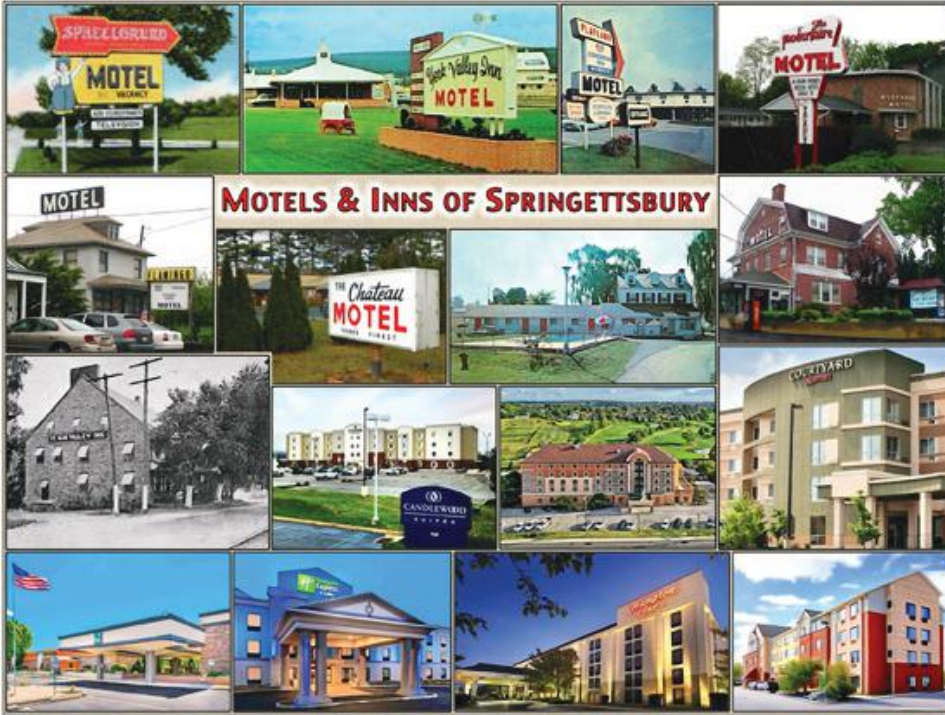

1. Wear a properly fitted helmet. It is the best way to prevent head injuries and death.
2. Ride on the sidewalk when you can. If not, ride in the same direction as traffic as far on the right-hand side as possible.
3. Use hand signals and follow the rules of the road. Be predictable by making sure you ride in a straight line and don't swerve between cars.
4. Wear bright colors and use lights, especially when riding at night and in the morning. Reflectors on your clothes and bike will help you be seen.
5. Ride with your children. Stick together until you are comfortable that your kids are ready to ride on their own.

A properly-fitted helmet is the most effective way to prevent a head injury resulting from a bicycle crash.

History Night features Motels & Inns of Springettsbury

Township residents and the local community are invited to join Stephen Smith of the Historic Preservation Committee at the Springettsbury History Night event on Wednesday April 9, 2025. "Motels & Inns of Springettsbury" will explore the interesting history of sixteen past and present businesses built for travelers, however also frequented by locals for their restaurants and other amenities. The event will take place in the Community Room within the Springettsbury Township Municipal Complex at 1501 Mount Zion Road, York, PA 17402, at 7:00 p.m., with doors opening at 6:30 p.m.

Most of the Motels & Inns were built in the York Valley along the main road into York. The oldest was the Ye Olde Valley Inn, in business back to the time when Colonial delegates traveled the road when Continental Congress sat in York in 1777

and 1778. Another was the York Valley Inn Motel, at Yorklyn, which was often frequented by locals for the restaurant, or for swimming lessons at their pools. A few notable Springettsbury campgrounds and rooming houses will also be explored.

History Nights are held during April, July and October. They feature a presentation on an aspect of Township history including photographs and stories of life in Springettsbury Township. The Historic Preservation Committee invites community members to share their stories.
