MISSION

Wautier Carpets is a boutique studio from Australia, specialising in bespoke, luxury carpets and rugs. Headed by industry experts, our mission is to create beautiful custom flooring solutions for residential and commercial interiors. Alongside our bespoke manufacturing focus we also offer a curated selection of premium European brands.

Our commitment to integrity, craftsmanship and design innovation positions Wautier Carpets as a leader in design-led flooring.

PROCESS

01 CONSULT

We will assist in finding the best fibre and construction for your end use considering the demands of the space, your project goals and budget.

02 SPECIFY

We work closely with Architects, Designers and Homeowners to specify and come to a conclusion on the absolute best solution for you from our in house substrates and techniques.

03 DESIGN

After we specify your most suitable product, we begin the collaborative design process with our in house design and management team. You can start browsing online resources for inspiration.

04 SAMPLING

Once you are happy with the design we send it for sampling and provide you with a sample lead time for arrival and approval.

05 PRODUCTION

We put your order into production, advise lead time till delivery on site.

06 DELIVERY

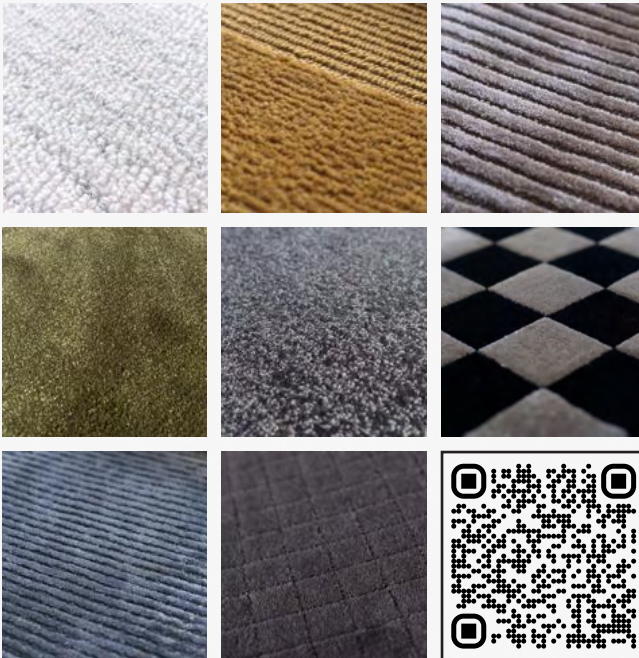

Our nation-wide recommended installers/couriers have it in your space, ready for years of enjoyment.

TAPIS

Tapis is a hand-tufted collection defined by texture, where sculptural loops, tweed-like weaves and lustrous fibres create richly tactile surfaces. Developed for architects and designers, each design begins as a study in pure texture before being fully reimagined through bespoke colour, fibre and scale.

Available in rugs and wall to wall carpet.

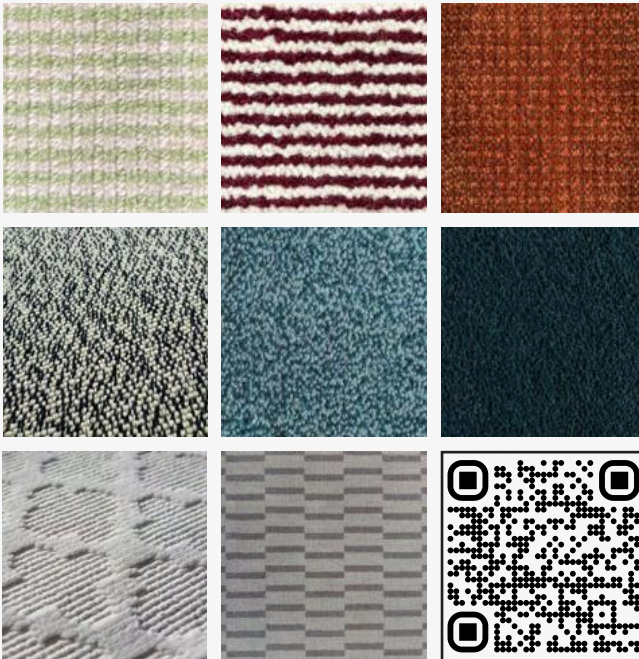

WOVEN

Wautier's woven carpets combine the enduring precision of Axminster and Wilton weaving with a design-led approach developed for architectural interiors. From refined solids (Seidler) and subtle textures (Barbican/Abrash) to expressive patterns, these collections offer durable, highly customisable flooring solutions suited to both luxury residential and commercial environments.

Available in rugs and wall to wall carpet.

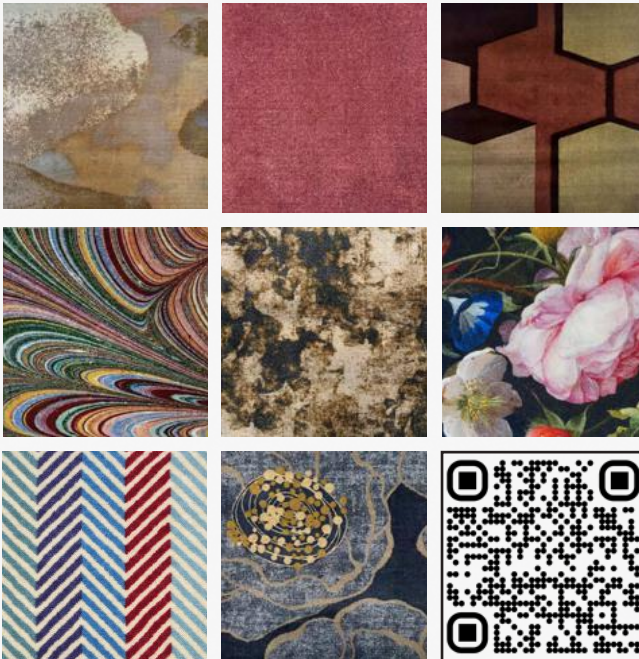

IKON

Ikon precision printing allows colour to be applied directly to carpet fibres, enabling intricate patterns, vibrant colour and exceptional durability. Ideal for detailed designs, branding and large-scale concepts, it offers architects and designers the freedom to create virtually anything — from bold graphics to highly refined textures — across a range of resolutions and scales.

Available in rugs and wall to wall carpet.

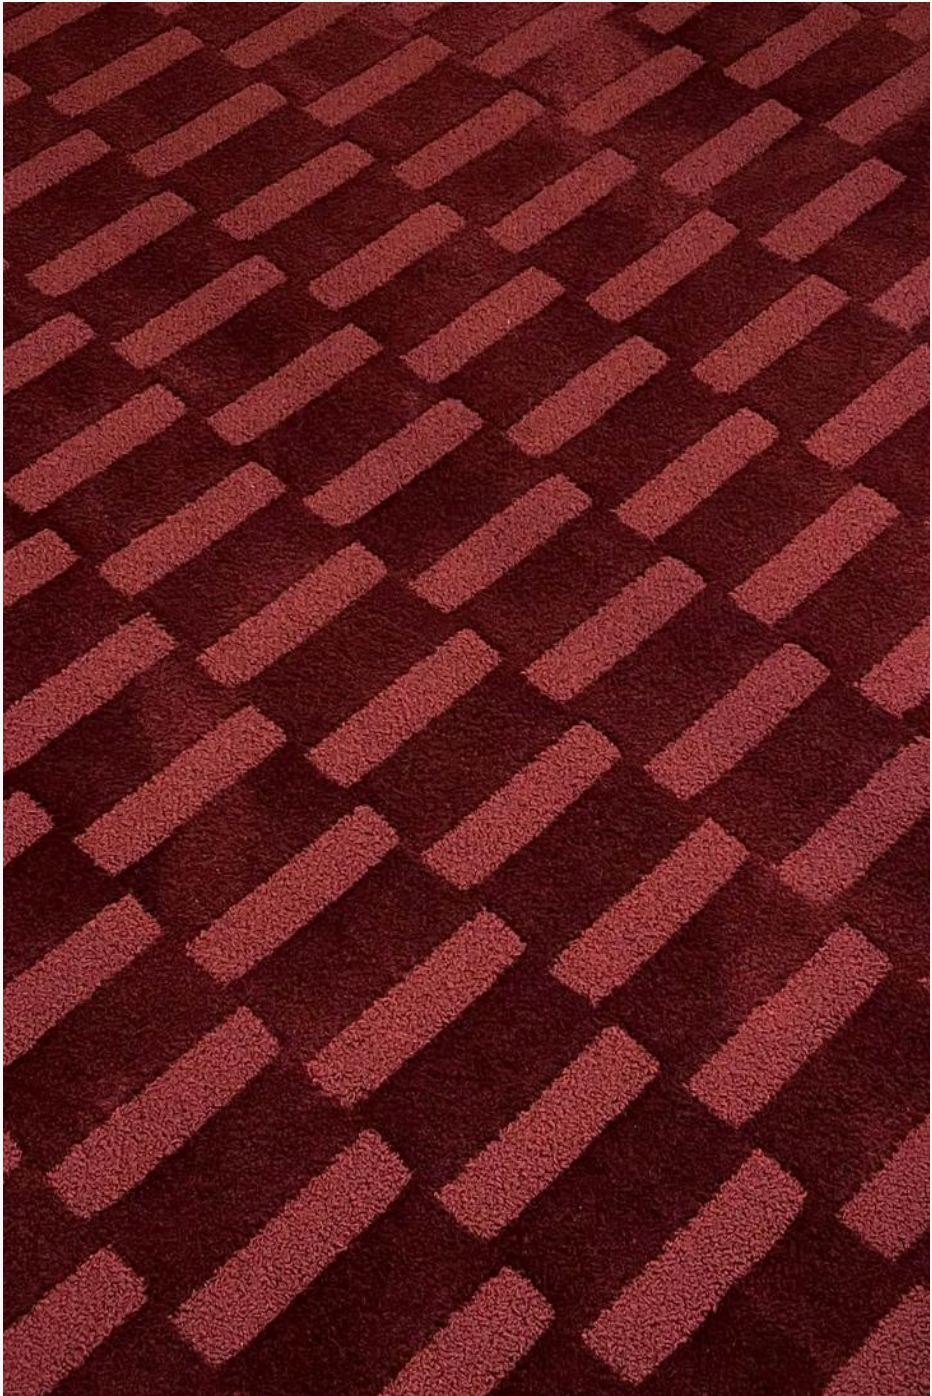

STUDIO

The 3 styles of Studio are made from combed and worsted NZ wool. Soft to the touch and naturally strong as only the longest and healthiest wool fibres pass through the combing process. Each thread is prepared with care. It resists wear, ages gracefully, and reflects light with a subtle sheen. Available in High Pile 1703, Low Pile 1701 and Loop Pile 1702.

Available in rugs and wall to wall carpet.

EVOKE

A quiet interplay of light and touch, shifting between depth and reflection. The Evoke Collection brings together a number of refined constructions, each offering its own expression of sheen—from softly muted to polished luminosity—across over 200 considered colourways. Balancing resilience with sensorial elegance, the collection’s shimmering surfaces are equally suited to expansive wall-to-wall applications or bespoke rugs within refined, high-performance interiors.

Available in rugs and wall to wall carpet.

PATINA

Patina is a hand-knotted collection crafted by Nepalese artisans using time-honoured Tibetan knot techniques. Woven from exceptional fibres including pure silk, Himalayan wool, nettle, and alpaca, each rug is made slowly and intentionally. Designed to develop richness and character over time, Patina pieces are enduring works of craftsmanship destined to become heirlooms.

Available in rugs and wall to wall carpet.

PATINA

TIBETAN HAND KNOTTED RUGS

EUROPEAN CURATED

Our curation brings together some of Europe's most respected carpet houses—Van Besouw and Jabo of the Netherlands, Jacaranda's London-designed natural fibres, Best Wool's traceable certified wools, and Paulig 1750's heritage Moroccan-crafted rugs. Selected for design integrity and craftsmanship, these collections offer refined stock solutions for interiors of enduring quality.

Available in rugs and wall to wall carpet.

RESIDENTIAL PROJECTS

Wautier Carpets collaborates closely with architects, designers and homeowners to deliver refined residential flooring solutions, combining thoughtful design guidance with exceptional craftsmanship to create interiors that feel both enduring and deeply considered.
