

# NURSERY WORKS

Nursery Works is an LA based  
company that continuously redefines  
the boundaries of nursery design.

DESIGN

# CREATED FOR THE ULTRA CHIC

Nursery Works is a purveyor of cutting edge juvenile products. Created for the ultra chic, Nursery Works aims to bring high design to the nursery.

LIMITED EDITION

# EXCLUSIVE DESIGNS FOR THE NURSERY

Our premium cribs are each exclusively handcrafted and laser-etched with a unique limited edition number.

## MATERIALS

# NON-TOXIC & HIGH QUALITY

We take pride in presenting new materials to the children's industry that raise the bar in design, quality, and functionality for parents and babies around the world.

With each product, Nursery Works strives to explore new materials and processes, including non-toxic, recyclable acrylic, CNC-milled maple, 24K gold-plated aluminum, custom marble/granite and powder-coated stainless steel.

A close-up photograph of a chair's seat and leg. The seat is upholstered in a light-colored, textured fabric, possibly linen or cotton. The leg is made of dark-stained wood, showing a smooth finish and a slight curve. The background is plain white.

CRAFTSMANSHIP

# CRAFTED BY HIGHLY SKILLED ARTISANS

Our designers work, whenever possible, in close collaboration with highly skilled craftspeople to build each piece.

Our products are made in low production runs that allow us to employ methods and materials that would be unavailable in typical mass production. Many of our solid wood cribs are bench-made in small local shops.

CRIBS

# GRADIENT

## Crib

The oval form of the Gradient crib is created by machining a fluid surface out of solid maple hardwood. A 3D skin generates the slats which form an asymmetrical organic surface that explores continuous movement with no visual end. Without compromising the nature of the form, the crib converts into a bassinet.

Moon White

Natural Maple

*100% Solid Maple Hardwood.*

*Converts to bassinet.*

*2 adjustable mattress levels.*

# VETRO

## Crib

A signature Nursery Works original and the first 100 percent recyclable, non-toxic acrylic crib on the market, the Vetro combines utility, purity and understated beauty. It is exclusively handcrafted and laser-etched with a unique limited edition number. Clear sides provide an unimpeded view of infant and nursery.

Shadow

Clear Acrylic

*100% recyclable, non-toxic acrylic.*

*3 adjustable mattress levels.*

*Limited edition and specially numbered.*

*Hand-made with care.*

# LUMA

## Crib

The crib marries our signature acrylic aesthetic with an au courant rose gold touch. With four clear sides perforated by defined slats, the Luma creates an airy space for baby to play, relax and sleep, and allows you to have a clear view of baby from anywhere in the nursery.

Acrylic with Rose Gold

*Made from non-toxic acrylic & electro-plated steel.  
Limited edition & specially numbered.*

*4 adjustable mattress levels & hidden hardware.  
Converts to a toddler bed (rails sold separately).*

# AURA BASSINET

## Crib

The Aura Bassinet is a modern interpretation of woven rattan furniture. Made of electro-plated, mold-formed, tubular steel, its rails curve and overlap to create Aura's graceful, enveloping shape. The Aura's removable wheels with locking casters help keep your baby close during their first few months — no matter where in your home you are.

Rose Gold

*Made of electro-plated steel with plywood.*

*Removal wheels with locking casters.*

*Optional rubber feet included.*

*Pairs with custom oval bassinet sheets.*

# NOVELLA

## Crib & 6-Drawer Double Dresser

Novella features a solid ash frame and solid brass plated legs, which means the crib and dresser can hold up to years of playing, climbing, napping and jumping. The timeless modern design will continue to look great as your kid's style evolves.

Stained Ash with Ivory

### CRIB

*Converts to a reading nook.*

*Converts to a daybed and toddler bed.*

*Solid ash wood frame and slats.*

*Solid aluminum feet with brass electroplating.*
