**2026 Catalog**

## ***Illuminating the Road Ahead: The StreetGlow Story***

Every revolution starts with a spark. In 1991, what began as a pure passion for automotive customization ignited an industry-defining enterprise. Built from the ground up on the relentless hustle and grit of a first-generation Sicilian-American, StreetGlow wasn't just launched to sell lighting—it was created to fundamentally change the way we experience cars.

Setting the Global Standard: We didn't just participate in the aftermarket lighting industry; we created the gold standard. When audiences worldwide watched vehicles tear through the streets in the first two installments of *The Fast and The Furious*, the vibrant neon pulsing beneath those cars was unmistakably StreetGlow. That mainstream explosion introduced the world to the art of underglow, but for us, it was never just a passing trend. It was the public validation of an automotive obsession that has continued to evolve and thrive for over 35 years.

A Legacy of Excellence: Our commitment to relentless innovation, premium quality, and bold design hasn't just won over millions of car enthusiasts—it has earned top-tier industry recognition. Driven by a vision to constantly push the boundaries of what's possible, StreetGlow proudly secured its place as an Inc. 500 company for four consecutive years (2000–2003). That same drive culminated in earning the prestigious SBA Small Business Person of the Year award for New Jersey in 2004. From our early hustle to our headquarters in Rockleigh, NJ, the foundation of our success has always been rooted in unmatched quality and ambition.

The Next Generation of Lighting Today, as you flip through this catalog, you are looking at the culmination of nearly four decades of expertise. We remain dedicated to the exact same principles that built our legacy: cutting-edge technology, rugged durability, and the undeniable style that defines a StreetGlow-equipped vehicle.

The aftermarket lighting revolution is still accelerating. Thank you for riding with us.

Welcome to the next chapter of StreetGlow.
