## MCRD Parris Island

COMMANDING GENERAL MARINE CORPS RECRUIT DEPOT PARRIS ISLAND/  
EASTERN RECRUITING REGION

### SAFETY POLICY STATEMENT

The safety and well-being of our Recruits, Marines, Sailors, and Civilians assigned to Marine Corps Recruit Depot/Eastern Recruiting Region Parris Island is a requirement for mission accomplishment. Ensuring all personnel are afforded the opportunity to train and work in a safe and healthy environment is one of my top priorities. Any loss of life or injury due to a preventable mishap will result in a negative impact on mission readiness. To prevent this, our culture must embrace an approach to maintain and improve safe practices during training and recreational activities.

Recruiting and training new Marines harbors a challenging and dynamic environment which has the potential to expose personnel to risks on a regular basis. These risks, however, can be assessed and mitigated via comprehensive risk management (RM). All personnel share the responsibility of constantly evaluating risks associated with recruiting, training, and supporting our mission of making Marines.

In order to create and maintain a culture of safety, all personnel must understand and ensure the following:

- a. Safety is everyone's personal responsibility. Each individual must utilize RM principles to identify and mitigate risks both on and off duty.
- b. When hazards are identified, they are mitigated appropriately, and not simply ignored.
- c. Alcohol related incidents will not be tolerated. If you are going to drink, drink responsibly and always have a plan for your safe return home.

Our most important assets are the individual Recruits, Marines, Sailors and Civilians. We simply cannot afford to have personnel injured or equipment damaged due to preventable mishaps. A culture of safety relies on engaged leadership at all levels. I challenge all of you to incorporate sound decision making and RM principles while on and off duty.

BRIGADIER GENERAL, U. S. MARINE CORPS

## MCAS Beaufort

### MARINE CORPS AIR STATION BEAUFORT

### SAFETY POLICY

The MCAS Beaufort safety program is critical to the mission of this Air Station. It is essential in the prevention of injuries, property or aircraft damage, and lost work hours. The most valuable asset we have are the Marines, Sailors, civilians and family members that make up Team Beaufort. We currently have an outstanding and effective safety program and culture, and it is up to each of us to keep it that way. We are all responsible to continue this legacy of excellence in order to provide the members of Team Beaufort with a safe and healthy work environment, free from hazards and compliant with all policies and regulations.

Every member of Team Beaufort has a responsibility to point out safety or health hazards that will hinder us from accomplishing our mission. This includes taking any action necessary to mitigate hazards before an accident or mishap occurs. Fostering a culture of risk management and caring about fellow Marines, Sailors, and civilians is critical to our continued success. Everybody is a safety officer and anybody can stop the chain of events leading to a safety incident.

***If you see something, say something!***

Vigilance and standardization are the keys! You have done an outstanding job contributing to our success and professional excellence. Continue to focus on our excellent safety practices and resist complacency in your approach towards safety.

Endstate: Our endstate is clear:

- Zero preventable aircraft mishaps.
- Zero preventable ground mishaps.
- Zero preventable personal motor vehicle injuries or fatalities.
- Zero preventable off-duty recreational injuries or fatalities.

Mark D. Bortnem  
Colonel, United States Marine Corps  
Commanding Officer
