AND THAT'S DA GOAT DAP!

hi!!! i really do think greeting rituals can be praxis! i also feel a special connection to goatherds past and present, and take great pleasure in living inside of such an ancient practice. maybe DA GOAT DAP can become the international greeting of herders and pastoralists around the globe! here, fill in where you have done the goat dap\*

\*feel free to adapt the goat dap as needed based on personal comfort, local customs, making it more dope etc etc etc

my dream is to one day do DA GOAT DAP in mongolia! wish me luck!!!

ty kelly for bein my farm friend  
& susan for taking these foolish  
pics!

this zine was made by me,  
mukethe, hereby inventor of DA  
GOAT DAP. i aim to live a life  
of goats, grass, and gayety. and  
making silly things!!!!
