Welcome

lovely to meet you

We're two friends with a shared passion for photography and over 20 years of experience between us. As such we feel that photography is more of a calling than a career and we would consider it an honour to be a part of your big day. We are Bedfordshire based, with our studio located in Bedford, but we are happy to take our show on the road - travelling across the UK and worldwide.

We come as a pair! We'll be by your side from those first sips of bubbly and butterflies of excitement during your morning preparations all the way through to stepping out onto the dance-floor for your first dance as a married couple. All the while snapping those precious memories and the little details in between. As there's always two of us we're able to document everything from two different perspectives, weaving around your guests during the "I do's" and side stepping dodgy dance moves in order to ensure that no aspect of your special day is missed.

Weddings are all about coming together to celebrate love, so it's important to make sure that everyone with you are 'your people' - including us. If we haven't already had the opportunity we would love to meet up for a drink and a chat, you can tell us all about your plans and we can get to know one another a little bit better.

Go with the flow

We love getting those gorgeous candid snaps but also understand the importance of the 'mantelpiece perfection' that is group portraits. With this in mind we take the time to cover as many or as little group shots as you like. They don't necessarily need to be a formal affair, these can be more relaxed with a drink in hand

Our aim is to capture your day in a relaxed and unobtrusive manner; hopefully allowing us to fit in amongst your guests and blend into the background. We believe in capturing your day the way you want it and so we strive to bring out your individuality as a couple and personalities to create images that will make you smile for years to come.

Our photographic style is

*natural
&
creative*

The countdown is over, the day you've been planning for has finally arrived. We want to capture every single tiny detail and each decision you have both made. No moment too small, we tell the story of your day as it unfolds through intimate documentary style photography.

We're talking about your morning preparations, flutes of bubbles, straightening button holes and the happy tears filled with pride.

The whole shebang.

*Perhaps even an extra glass of
dutch courage for the butterflies*

Later in the day, somewhere between the laughter and the dancefloor;
we'll steal you both away as the sun begins to dip below the horizon -
making the most of the beautiful golden light

Engagement and pre-wedding photoshoots are a lovely way to celebrate the occasion and capture all your excitement - it's also the perfect way for us to get to know one another before your big day.

For those who are a little camera shy it doubles as a great opportunity to 'practice' being in front of the camera, and hopefully ease any nerves you may have felt about being 'papped'.

We hold these photoshoots all year round, each season has it's own beauty and charm.

We often have couples who want to juxtapose their photoshoot and their weddings in contrasting seasons, which allows the images to differ in experience and appearance - especially if you choose to have the photoshoot at your venue.

We wouldn't worry too much about the weather or the elements, probably best to pack a fancy brolly just in case - but if it's just diabolical we can always reschedule.

After all, kissing in the rain is textbook romance!
