

# MUSEUM OF THE MOON

18TH NOVEMBER - 30TH NOVEMBER 2023

ROTHERHAM MINSTER

Measuring seven metres in diameter, Luke Jerram's Museum of the Moon is a stunning installation featuring detailed NASA imagery of the lunar surface, suspended in Rotherham Minster.

Accompanied by moonlight and a surround sound composition, created by award-winning composer Dan Jones, this is an experience not to be missed!

Throughout the awe-inspiring large-scale installation, there are free visiting sessions, workshops and activities for audiences to enjoy, taking place within Rotherham Minster and the Imperial Buildings.
