WHAT'S INSIDE

83 CREATE YOUR OWN STYLE

A completely new kind of lamp with a strong attitude. Meet Siberia Red Tiger. Red and amber position light. Create your own style and combine them. Perfect where you usually don't mount LED-bars, close to your ordinary tail lights, bringing you a one-of-a-kind skill when reversing your vehicle.

34/35 THE ALL-NEW FRITSLA

The drivers' favorite lamp – Fritsla driving light – now available in an updated version. The position light comes with a dual function, choose between amber and white light.

10/19 RELEASE YOUR DARK SIDE

The world's first all-black vehicle lighting series. Dark tinted lenses, dark high-end materials and components. A sophisticated look, day and night.

REDEFINING THE STANDARDS

22/26

Keep your passion alive and make it visible. Siberia Night Ranger. Bold, breathtaking design. Dual position light. Massive light output. Outstanding protection, all night long.

THE LOOK OF RED

82

Get that unique expression. Siberia Red Panda is a statement work light that provides great power. Comes with the characteristic Siberia position light, choose color between red or amber.

IT'S NOT A LAMP, IT'S A NIGHT GUARD

108/113

You can now fit all your lighting needs into one single lamp. An extremely powerful warning light that also provides an unbeatable high beam. Embrace the simplicity and give yourself a night guard with the highest level of reliability.

WE OFFER
PEACE OF MIND

Except from design, quality and performance we're giving you safety. A unique function warranty – from three to six years. This includes all products from Strands Lighting Division. The warranty covers faults that can be related to the manufacturing process, the material or assembly.

FUNCTION WARRANTY
THREE TO SIX YEARS

FEEL THE PASSION

Lighting innovation. For every driver, every day. Strands develop and manufacture vehicle lighting now and for the future. Our vision is to make you feel our passion. Regardless if you are in contact with our first-class customer service or mounting a new innovative product.

Strands Lighting Division is Europe's fastest growing brand in the industry. Our passion is your passion. We want to give you a driving experience out of the ordinary – no matter what your needs are. We want you to be able to work safely with full capacity regardless of environment or time of day.

Above all, we want to provide you with lighting that do not compromise in any area. Function, performance and design in everything we do. Many years of experience and close cooperation with professionals makes this possible.

We always work with our origin in the development process. The tough Scandinavian road conditions. Those that cause the hardest strain on our vehicles and to our vehicle lighting. We are talking about extreme temperatures, salted roads, sudden temperature changes and other challenges.

UNIQUE FUNCTION WARRANTY
Except from design, quality and performance we're giving you a unique safety. A function warranty – from three to six years. This includes all products from Strands Lighting Division.

Strands want and dare to go first with a constant drive to change the market. Without our passion we are nothing. It is our background and helps us take new steps into the future.

DARK KNIGHT

——

Introducing the next chapter in the innovative history of Strands Lighting Division.
Release your dark side with the world's first all-black vehicle lighting series. Dark Knight
is an exclusive interpretation of your most confident night drive. Drive through the night
and feel free, feel like yourself. The all-black armor is the hallmark of Dark Knight.
Dark tinted lenses, dark high-end materials and components. A sophisticated look,
day and night. All packed with the power of an unstoppable knight.

DARK
KNIGHT
NUUK

We refined the features to make the most of design, power and technology creating the Dark Knight upgrade of Nuuk. Nuuk Black comes with a dark tinted lens and a black house. The all-black look and the high-quality details brings a desired exclusivity. The new light beam takes it to an even higher level, providing more exceptional driving experiences than ever. With no distracting elements, nothing will get in the way for a striking drive.

DRIVING LIGHTS

—

If you once experienced powerful driving lights with optimal visibility, you will never go back to basic. Strands Lighting Division develop and manufacture driving lights that help you relax and enjoy driving during the darkest hours. Design, performance and quality surpasses even the highest expectations. No matter which one of the driving lights you choose, you are guaranteed at least three years function warranty.

DUAL POSITION LIGHT

Amber or white? Choose the color that states your style and personality. The Siberia position light provides an outstanding light effect, perfectly positioned in a circle with a breaking line in the middle.

LEGENDARY LIGHT OUTPUT

Siberia gives you efficiency at completely new levels on all roads and in all conditions. The power of the LED diodes extends the field of view in an optimized light beam.

TWO MODELS

Choose between Siberia Night Ranger, standard and spot (clear lens) and Siberia Bush Ranger (yellow lens). Models available in 7" and 9".

COMBO OR SPOT BEAM

Night Ranger comes in two beam patterns. The standard-version with combo beam extends the view in a perfect balance of length and width. The spot beam focuses on intense length. Mounting examples: 2 pcs Siberia NR Spot provides 1 lux at 1300 meters. 2 pcs Siberia NR Combo + 1 Spot in between – performs 1 lux at 1100 meters.

SIBERIA
*NIGHT RANGER AND
BUSH RANGER*

See and feel the sensations of Siberia driving lights.

THE PRO'S
FIRST CHOICE

As the name suggests, Ambassador is very powerful – built with unique components, which you don't find anywhere else. Designed in Sweden and developed in Europe. The massive light output surpasses the highest of expectations, pushing out 1 lux at 1007 meters – making your driving experience more relaxed and passionate than ever.

DUAL POSITON LIGHT

Part No. 270922

AMBASSADOR 9'' DRIVING LIGHT *LED*

The professional drivers first choice. Ambassadors light beam exceeds everything you seen and literally turns night into day on a long distance, pushing out 1 lux at 1007 meters. Designed in Sweden and manufactured in Europe. All the components are unique, specifically designed for Ambassador. Comes with exciting features – dual position light and a Nitto Denko breathing function that keep moisture away. The lens is made of unbreakable polycarbonate that has been sent for treatment in Germany to be extremely durable against stone shoots and scratches.

AUTOMATIC HEATING LENS

MAXIMUM VISIBILITY IN ANY WEATHER

Reimagine how a snow plow lamp works and looks. Alaska is all about the combination – design and high technology features. Comes with a heating lens that provides maximum visibility in any weather. The feature is automatic, starts at 5°C and keeps snow and ice away from the lens – without any manual handling by the driver.

Part No. 270708

ALASKA SNOW PLOW DRIVING LIGHT *LED*

ALL IN ONE

Comes with the following functions: low beam, high beam, position light and indicator. Fully E-approved with reference number 17,5.

HEATING LENS

The thermostat control is automatic, starts at 5°C and keeps snow and ice away from the lens – without any handling by the driver.

MODERN DESIGN

Slim design and elegant shape. The appealing position light adds another dimension to the overall impression.

UNIVERSAL

Choose between mounting on the left or the right side of the vehicle. Several mounting options. The bracket can either be mounted on the back or the bottom of the lamp.

A SNOW MELTING AND ANTI-ICE SYSTEM

The heating lens counteracts and prevents snow and ice from standing in your way from maximum visibility. For example, if the lamp is used when it is -25°C, and has 5 mm ice on the lens, the lens temperature will be -1°C after five minutes, 15°C after ten minutes and reaches the highest temperature of 68°C after one hour.

This driving light comes with the following functions: low beam, high beam, position light, indicator and is fully E-approved with reference number 17,5. It is a complete lamp that replace headlights and indicators blocked by the plow assembly.

The indicator module can be moved between the right and left side, which makes the lamp universal.

1 LUX AT 430 METERS
DUAL POSITION LIGHT

Part No. 270699

DELTA DRIVING LIGHT *LED*

Delta promises both quality and powerful light performance. 8416 lumens and 1 lux at 430 meters. It is E-approved according to ECE R112 with reference number 25. It comes with a dual LED position light, choose between amber or white color. The position light is placed in a line, in the center of the lamp.

Voltage	*12-48V DC*	Material housing	*Aluminium*
Consumption	*66W*	Material lens	*Polycarbonate*

LED BARS

———

A row of light with lots of possibilities. Ideal to not only enhance your safety but also the appearance of your vehicle. Mount it on the roof, under or above the registration plate or behind the grill. The modern and discreet design is outstanding for the overall impression. Especially when the lights are on. Choose between curved or straight shape. The linear alignment spreads the light over a wide area, providing effective visibility over significant distances.

SEAMLESS FIT

The rounded design fits perfectly on vehicles with a curved front. Siberia enhances the impression of your vehicle, like it has always been a part of the original look.

WORLD-CLASS POWER

The optimized light beam open to provide very effective illumination. Extreme width, without losing length – ensuring you arrive at your destination in safety and comfort.

DISCOVER
THE NEW CURVED

FOUR SIZES – TWO MODELS

Comes in 22", 32", 42" and 50".
Available in single row and double row.
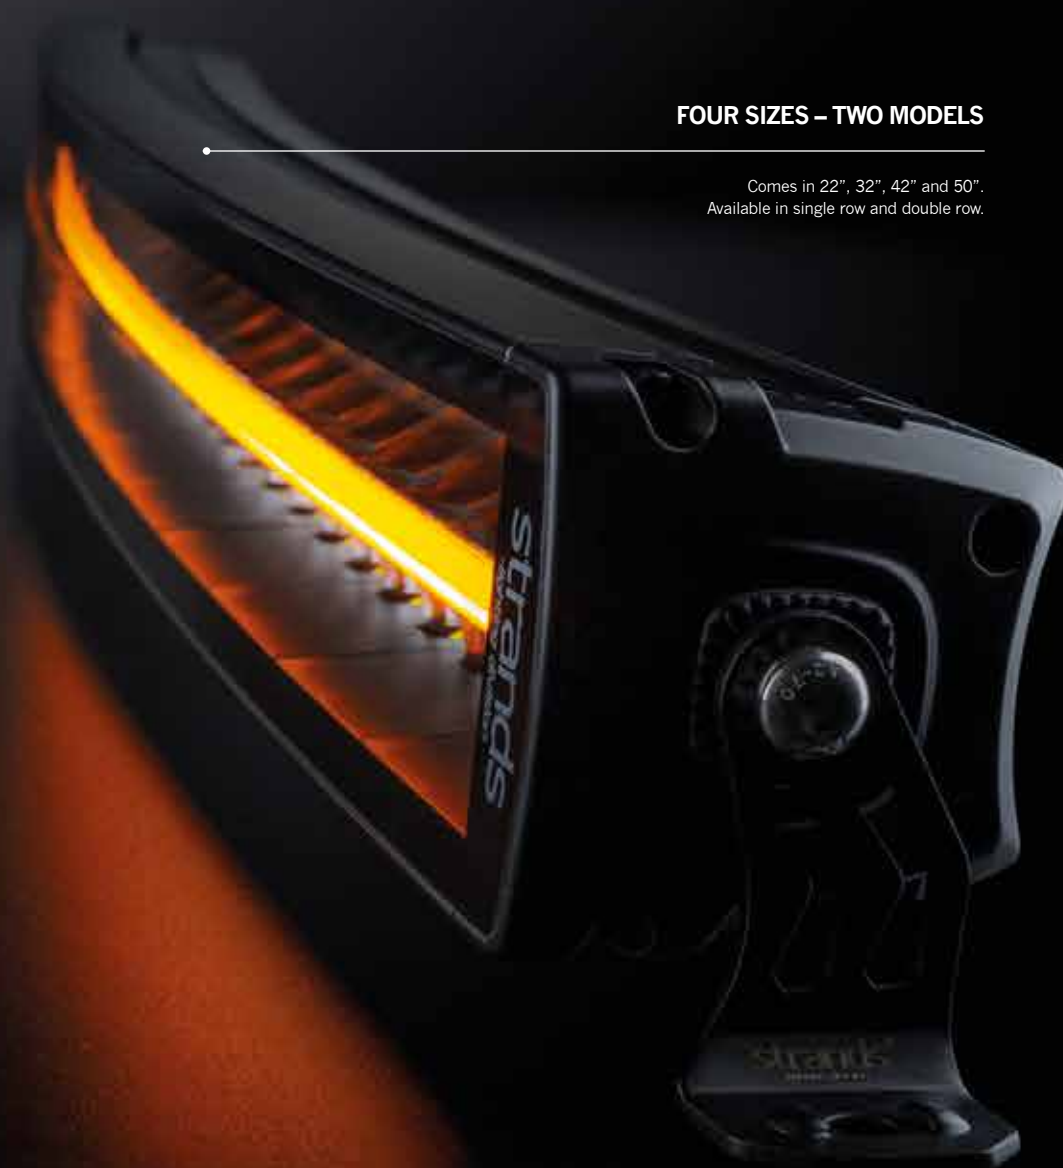

The revolutionary Siberia LED bar family is growing. Let yourself be enchanted by the all-new Siberia Curved. An arched shape, appealing from all angles – even during the bright hours of the day. Pioneering design, exclusive materials and incredible light capacity. Siberia Curved offers an optimized light beam that provides maximum width, without losing length. Make your own mark and choose between amber and white position light.

SHINE LIKE A DIAMOND

Nuuk Diamond is a sophisticated LED bar, providing the perfect clean and exclusive impression. Just as the name describes, this is the diamond among the market's selection of LED bars. The result of experience and knowledge gathered in an innovative and exclusive LED-bar with high-performance class.

The lens provides an appealing diamond shine – a powerful line of light with an appearance the market never seen before. The lens also protects the LED bar from snow, ice and water. Ideal for the roughest conditions.

Nuuk Diamond gives you a powerful and outstanding light pattern – light where you need it, with the perfect length for increased security. Ideal for you who are looking for a safer driving and a stunning vehicle.

Comes in two sizes – 14" and 20". Nuuk Diamond 14" is perfect for cars with smaller fronts, or for mounting of two LED bars on each side of the license plate. The 20" size can easily be mounted above or below the license plate.

OUTSTANDING LIGHT PATTERN

The diodes and reflectors are developed to fit perfectly together. This provides a powerful and outstanding light pattern – light where you need it, with the perfect length for increased security.

INFINITY DESIGN

The infinity design provides a borderless look, where the lens stretches all the way to the edges. No dirt gets stuck and the light can reach its full potential.

MOUNTING POSSIBILITIES

Comes with new specially designed brackets for standing, hanging and side mounting.

UNIQUE LENS

The angled lens brings an appealing diamond shine, a powerful line of light – with an appearance the market has never seen before. It also protects the LED bar from snow, ice and water.

ARCUM LED BAR 20''
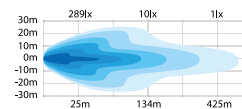

Part No. 809141
ARCUM LED BAR 30''
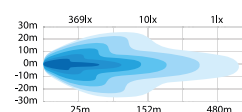

Part No. 809142
ARCUM LED BAR 40''
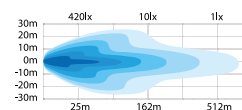

ARCUM LED BAR *LED*

Tired eyes in traffic is history. Arcum LED bar is designed to provide the optimal light experience. High performance driving lights does not necessarily guarantee a safer journey. Light with a strong near-light or long spot beam can cause eye strain, which can lead to an unpleasant driving experience. Arcum is developed with this in mind. It is the result of many years of experience, a lot of tests and a close collaboration with professional drivers.

CURVED SHAPE

The arched, curved shape fits well together with today's aerodynamic vehicles.

THE DRIVER IN FOCUS

The optimized light beam is a comfortable and safe combination of length and width, which provides a clear picture of the road in front of you and its surroundings.

THREE LENGTHS

Comes in 20", 30" and 40". All lengths are E-approved according to ECE R112, with reference numbers between 45 and 50.

POSITION LIGHT

Arcum comes with a characteristic position light, where the lights are placed vertically one after the other. The 20"-size now comes with a dual position light, choose between amber and white light.

MOUNTING OPTIONS

The brackets are placed both on the back and the sides, which makes it possible to mount in several ways.

strands

SMALL SIZE, WIDE PERFORMANCE

Side shooter should not be underestimated for its small size. It has 3540 theoretical lumens and gives you 1 lux at 221 meters. It is E-approved according to ECE R112 with reference number 12,5. The name comes from three diodes on each short side, that directs the light to the sides. This gives a 140° light spread.

Part No. 809109

140° BEAM ANGLE

Part No. 809122

SIDE SHOOTER XL LED BAR 5''

Side Shooter XL is a very powerful piece in a small size. 6920 lumens and 1 lux at 341 meters. Side shooter has got its name because of four diodes on each short side, that directs the light to the sides. This gives a 140° light spread. The LED's provides increased visibility for ditch lighting and off road coverage.

Voltage	9-32V DC	Material housing	Aluminium

Part No. 809191
More information on page 83

NEW

OPTIMIZED LIGHT

The light beam combines width and length – an optimized solution made to fit the compact construction. Unbeatable for quickly discovering animals coming from the roadside.

COMPACT SIZE

Discreet and neat, perfect for use where larger lighting does not fit. A really powerful lamp that performs 4800 theoretical lumens and 1 lux at 166 meters. Mount it alone, in pairs or combine several.

RED AND AMBER

Express your style. The dual position light allows you to choose between red and amber position light.

Part No. 809206

SIBERIA RED PANDA WORK LIGHT *LED*

Voltage: *9-35V DC*, Consumption: *37W*, Theoretical lumen: *4800*, Actual lumen: *2949*, IP-class: *IP67/IP69K*, Beam pattern: *Combo*, Position light: *Red and amber*, Connection: *DT-4*, Cable length: *500mm*, Material housing: *Aluminium*, Material lens: *Polycarbonate*, Length: *72mm*, Depth: *72mm*, Height: *72mm*, Height including bracket: *81,5mm*, Operating temperature: *-20°C - +45°C*, E-approved: *No*, EMC-certificate: *ECE R10*

NEW

PERSONALIZE WITH COLOR

Red and amber – a new kind of dual position light. Choose which color you prefer. The amber light can be connected to the vehicle's indicator and the red light to the position light. Your imagination sets the limits.

UNIQUE EXPRESSION

Combine several lamps for different functions and looks. Ideal to place where you usually don't put LED-bars, above your ordinary tail lights.

COMBO BEAM

Reverse your vehicle safely. The combo light beam is developed to provide an optimal light experience, directed from the back at your vehicle. The spread not only go wide, but also delivers plenty of length.

WRAPPED IN BEAUTY, BUILT IN POWER

Become a professional of the future with Unity. Comes with a perfectly smooth look and a revolutionary strong light output. Extreme affordability made for demanding tasks. It improves your powers and allows you to direct heavy machines with precision even during the darkest hours. The extensive engineering gives you an optimized light spread where you need it the most. The most powerful lamp in the series delivers enormous 13 000 actual lumens.

TEMPERATURE CONTROL

Powerful lighting produces more heat, which means the lamp can break. The built-in temperature control prevents that. When necessary the function protects the lamp and decreases the power until the lamp is cooled.
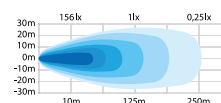

INFINITY DESIGN

The lens stretches into the corners, which not only provide a great look – it resists dirt and allows the light output to reach full potential.

EXTREME POWER

The Unity series contains four models, from 31W to 149W. The most powerful lamp delivers enormous 13 000 actual lumens. The extensive engineering gives you an optimized light spread where you need it the most.

REVOLUTIONARY UPGRADE

Unity is an extreme upgrade from previous lamps in the same category. Built tough in a beautiful costume – with the purpose of surviving and illuminate the harshest environments.

140° LIGHT SPREAD

A slimmed E-approved reversing light (ECE R23) with patented design and full cover LEXAN lens. The fish eye technique gives the light a spread of 140°. Optimal for a reversing light. The lamp is delivered with DT-connector and is EMC-approved according to ECE R10 and CISPR25 class 5.

THE RIGHT
KIND OF VIEW

Siberia Right View is a slim all-rounder with maximum performance. Unlike traditional lamps, it gives you more than just a wide light spread. The reflectors provide the perfect combination of length and width, the right kind of view, which increases the opportunities and numbers of suitable applications and situations. Well suited for any vehicle where you have limited space. At the handlebars of a quad, on the stairs of a truck or as a reverse light – you decide. Every component is carefully chosen and tested to handle the tough Nordic climate.

LIGHT UP YOUR SCENE

The perfect solution when you need to illuminate a specific area. This versatile lamp is engineered for both interior and exterior use. Delivers a clear white light, a perfectly controlled light scene. Suitable on the sides of a motorhome, at the back of a truck, on emergency vehicles, tractors, trailers or any kind of vehicle.

Mounting the lamp higher generates a larger illuminated area, while mounting it lower creates a smaller scene. The 52 diodes are engineered to deliver a LED beam pattern within 180° horizontal spread and 125° vertical spread. Can withstand harsh environments and vibrations.

E-APPROVED REVERSING LIGHT

ADR-APPROVED

ADR
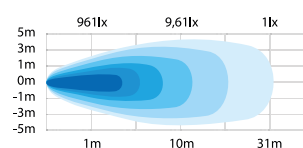

UNIQUE SERIES

This series has a patented slim design. The housing is smaller which means they are less exposed to wear and tear. They come with a DT-connector which makes the installation easy. Both lamps in this series are E-approved as reversing lights according to regulation ECE R23. The lamps are fully radio interference free

(EMC-approved). They are also ECE R10 approved and approved for IP67 and IP69K. Our usual 48W is replaced by 908517 which gives more lumens and uses less power. Instead of 48W it now consumes only 25W. Our new production technique reduces power consumption to nearly 50%.

ROCK SOLID – FOR HEAVY DUTY AND OEM VEHICLES

Strands professional lamp series is for you who require the best, both when it comes to quality and light output. It is strongly recommended for both OEM and bodybuilders. Developed and tested during two years time, with a result that exceeds all possible demands of quality. All Rock Solid work lights comes with a six years function warranty.

ADR – TRANSPORT OF DANGEROUS GOODS

The work lights are ADR-approved for mounting on vehicles intended for transportation of dangerous goods by road, rail and domestic shipping. Requirements for approval: Damage to the light source must not lead to ignition.

THE UNIQUE
ALL-IN-ONE LAMP

Yeti is a combined work light and a warning light, in the shape of a LED bar. The warning light function is placed on each side. When the function is off, the space is used to provide a broad beam angle, which gives an outstanding light experience.

The robust design and flexible mounting options with sliding brackets, makes it a perfect solution for heavy duty, construction

and agriculture vehicles. Due to the work of construction machinery, where the vehicles often are standing still, Yeti comes with an automatic heating function. Unique and groundbreaking for this kind of lamp. The function automatically starts at 3°C and turns off when the desired temperature is reached.

GRMS 15.6 G

HEATING LENS

WITHSTANDS EXTREME WEATHER

Izebreaker is a robust and vibration-resistant LED work light with a fantastic light output. Developed to withstand extreme environments and cold winters. Ideal for mining, construction, forestry, snow removal and more.

The bracket is specially designed to handle vibrations out of the ordinary. GRMS-tested (vibration tested) in laboratory.

With a vibration rating of 15.6 G, the lamp can handle vibrations without problems even in the most exposed places. Comes with a heating lens that keeps snow and ice away, without any manual handling by the driver. The function starts at 4°C.

Part No. 809243

WARNING LIGHTS

——

Be seen and be safe. Warning lights play an important role, for both you and your surroundings. Strands cover a wide range of unique top quality models for everyday life. Advanced features in combination with modern design. Everything from extremely slim and powerful warning light bars to highly effective small and compact options.

IT´S NOT A LAMP, IT'S A NIGHT GUARD

Reinventing innovation. Siberia Night Guard is developed for hard work challenges. You can now fit all your lighting needs into one single lamp. An extremely powerful warning light that also provides an unbeatable high beam. Embrace the simplicity and give yourself a night guard with the highest level of reliability. Multifunctional lighting providing safety in all weathers and in the darkest of darkness. At the same time Night Guard expresses passion and style in every detail.

HIGH BEAM

Night Guard covers the need for driving lights. The unbeatable high beam combines length and width in an optimized combination.

COVER ALL NEEDS

Night Guard comes in four sizes. 12", 22", 32" and 38". Perfect for trucks and excavators, small and large transport vehicles. Mount several of the smaller 12" size on your truck or mount the larger 38" on the truck's roof.

WARNING LIGHT

The powerful LED's along the top delivers an highly effective warning light function.

DUAL POSITION LIGHT

Let the characteristic Siberia position light suit your personal style. Choose between amber or white light.

E-APPROVED

All models are E-approved as warning light and driving light.

E-APPROVED

The entire series is fully E-approved according to ECE R65 class 2. Class 2 means that the warning light ramp can be switched from day to night mode.

EXTREMELY SLIM

Unlike traditional alternatives on the market, Monitum will give you less wind noise and reduced fuel consumption. The height is only 33,5 mm.

SEVEN SIZES

The series contains sizes from 474 mm to 1850 mm.

POSITION LIGHT

Comes with 11 different warning light patterns. The Cruise Light feature – the position light – provides an appealing styling effect and increases your visibility on the roads.

POSITION LIGHT
ECE R65 *CLASS 2*

MONITUM WARNING
LIGHT BAR *SLIM LED*

Monitum is a slim warning light bar series with position light available in seven different lengths from 474 mm to 1850 mm. All lengths are fully E-approved according to ECE R65 Class 2. Monitums height is only 33,5 mm. It comes as a complete kit with control panel box, brackets, screws, nuts and washers.

Use the QR-code and check out the product video.

Part No. 850150
MONITUM WIRELESS REMOTE CONTROL

Turn the bar on and off, switch between the light patterns and day/night mode. Powered by battery or USB cable. Compatible with new Montitum models (Wi-Fi symbol on top).

SLIM DESIGN,
BIG IMPRESSION

Monitum is designed for you who are looking for something out of the ordinary. The extremely slim design combined with an attractive position light and high light output make it one of the most sought-after warning light bars on the market. Add the wireless remote control to easily turn it on and off – and to switch between the 11 different light patterns. Compatible with all bars from the Monitum series, which is of the latest model with Wi-Fi symbol on top.

MONITUM WARNING LIGHT BAR SLIM LED

INSPIRATIONS FROM NATURE

Ambra warning lights comes with a groundbreaking apperance. Clean, beautiful and far from standard. The inside is developed with inspiration from the beautiful Scandinavian amber stone.

A unique expression that has fascinated us since ancient times. Two of the models are now ADR-approved for mounting on vehicles intended for transportation of dangerous goods.

AMBER STONE

Clean, beautiful and far from standard.
The lens is created in one piece with
an inside inspirated by the beautiful
Scandinavian amber stone.

APPROVALS

All of the lamps in the Ambra series are
fully E-approved according to ECE R65.
Two of them are also ADR-approved.

DIFFERENT MODELS

Ambra comes in models for all needs
Surface mounting, pole mounting and
with magnet.

EXTREMELY DURABLE

The compact design of the LED
technology enables the innovative
design. This is top-quality lighting,
an efficient light with extremely long
life. To further enhance your safety,
Ambra comes with a three-year
function warranty.

ADR-APPROVED

———

This is a very slim lighthead warning light. E-approved according to ECE R65. 180° beam angle. The warning light is ADR-approved for mounting on vehicles intended for transportation of dangerous goods by road, rail and domestic shipping. Requirements for approval: Damage to the light source must not lead to ignition.

IZE LED DARK KNIGHT

The revolutionary IZE LED series is now being expanded. Dark Knight is an exclusive interpretation of your most confident night drive. An exclusive, all-black version. Dark tinted lens, dark chrome ring. A sophisticated look, day and night. Comes with all the IZE LED functions – such as dynamic indicator and dynamic start up light. All models fully E-approved. The model with three functions (800606 + 800607) have a D-class certification that enables you to mount them as a unit on the vehicle, two lamps per side.

DYNAMIC INNOVATION

The series contains models with dynamic indicator and dynamic start up light. The dynamic feature means that the diodes come on, one after the other, which gives an eye-catching appearance to your vehicle.

FIVE MODELS – TWO LOOKS

Comes in five different models (1 to 3 functions), all with top modern features for different needs. Choose between two looks – the standard version or the black Dark Knight version.

DARK KNIGHT *NEWS*

E-APPROVED

The series is fully E-approved, ideal for trucks, trailers, pickup trucks, construction equipment and other similar vehicles.

ALL BLACK

Release your dark side with the all-black versions of IZE LED. Dark Knight comes with a dark tinted lens and dark chrome ring.

TAIL LIGHTS

EYE-CATCHING EFFECTS

All tail lights in this series are E-approved and comes with a dynamic indicator. The feature means that the diodes lights up, one after the other, which gives an eye-catching appearance to your vehicle. The tail lights also have an indirect, soft light with neon-like effect.

The tail lights come with five functions – one is for the truck, it is universal and can be mounted on both the right and the left side. Two models are for trailers, one for right mounting and one for left mounting.

TAIL LIGHTS

RED EYE – A RELIABLE CLASSIC

A modern round E-approved tail light series that comes in two models with different functions. One with three functions – tail, brake and indicator. One with fog and reverse. Recessed mounting with a chrome ring covering the mounting screws. Including 2,5 meters of cable. Like all products in our range – the series is covered by our three-year function warranty.

SIDE MARKERS/ POSITION LIGHTS

—

Small but incredibly important. Side markers and position lights from Strands Lighting Division comes in different colors, functions and styles to fit your personal requirements. All of them are made in robust and reliable materials that guarantee your visibility. The modern and appealing design provides an effective visual upgrade to your vehicle.

MORE STYLE OPPORTUNITES

The brightest side markers and position lights available. Viking can be used in a variety of ways for different functions and styles. Perfectly mounted with Strands compatible rubber arms – also fits into other traditional 60 mm rubber arms. Viking is now updated with Dark Knight, the world's first all-black vehicle lighting series. The dark tinted lens brings an exclusive edge, both day and night, here to satisfy the most passionate drivers.

EXCLUSIVELY DARK NEWS

More options, more style – here to satisfy the most passionate drivers. This slim lighting family are now being expanded with Dark Knight, the world's first all-black vehicle lighting series. Dark tinted lenses, dark high-end materials and components. The stylish, modern design and the low profile make the lamp suitable for all types of vehicles. A dark look with an exclusive edge, both day and night.

PLUG AND PLAY

These fully E-approved position lights are available in two different variants. One with white LED and one with amber LED. Both with milk-white glass that gives the lamp a modern neon effect. Suitable for Scania 4, P, 6 & R. The lamp is installed and connected easily with click-in function and AMP-connector. Plug and play.

SUITABLE FOR SCANIA 4, P, G, R

Part No. 800316
