

Our Vision

Join Us and Make It **Your Vision**

Introduction to Sewa UK

Sewa UK is committed to working in areas which suffer from humanitarian disasters and tragedies.

The activities Sewa UK carry out are

- Public Health
- Shelter and Accommodation
- Sustainable communities
- Education and Training
- Humanitarian emergency aid - immediate relief and long term rehabilitation following disasters

We are proud to have the support of people of all backgrounds for our campaigns, appeals and volunteering projects.

Sewa UK is focusing on projects that support people with disabilities (PWDs) since 2011. See page 6 for more information

Our Past Achievements

In the UK

- Macmillan Cancer - Support to employ a Chemotherapy Pharmacist at Northwick Park Hospital.

Food Distribution In Africa

Our Work In Africa

Medical Camp

Wheel Chairs For Africa

Our Current Projects

Gulmohar Special School

Gulmohar Special School is a residential school which provides education to mentally challenged children and those with visual disabilities.

At present, the school operates from a small rented derelict building.

Sewa UK's new residential school
will provide the **very best facilities** for these children

- Landscaped garden & trees
- Solar stand alone street lights
- Rain water harvesting
- Solar systems for hot water
- Playground of 1800 sq.m.

Northern Cleft Foundation (NCF)

The Northern Cleft Foundation provides cleft lip and palate surgery for children and adults in India who would otherwise be unable to access specialised treatment.

Each year a team of medical and nursing volunteers travel to India with the Northern Cleft Foundation to provide high quality cleft surgery for those who struggle to access treatment

Sewa UK and Dr Hedgewar Hospital of Aurangabad are joining hands with NCF to provide a brighter future to those with cleft and pallet deformities.

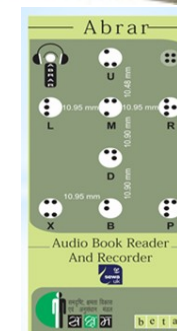

ABRAR (Audio Reader And Recorder)

Visually impaired people in India face many problems during their studies. Currently they use equipment such as cassette player, CD player etc but these devices have their limitations e.g. no random access.

Keeping this in mind SAKSHAM, our partners in India, have developed the 'ABRAR' a pocket sized special device for visually challenged persons. ABRAR provides random access to any book or chapter, has voice prompts and the ability to record audio books in any language. Access to tracks is made easy by eight brail embossed buttons or through the voice prompt menu.

Sewa UK has committed to provide 500 ABRAR units.
